The following tools and materials are required to assemble this issue. Prepare them before starting work.

☐ **Tweezers**
Included in issue 3.

☐ **Universal Adhesive**
For joining metal parts.

Demonstration videos

9-1 Left Wing Underside

9-3 Large Magnet×2

9-2 Small Magnet×3

Explanation of Symbols

Indicates where to attach included screws.

Indicates when to use adhesive. The correct adhesive will be indicated for each instance.

Cautions and Prohibitions.

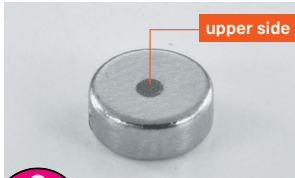

Key points for using tools and techniques.

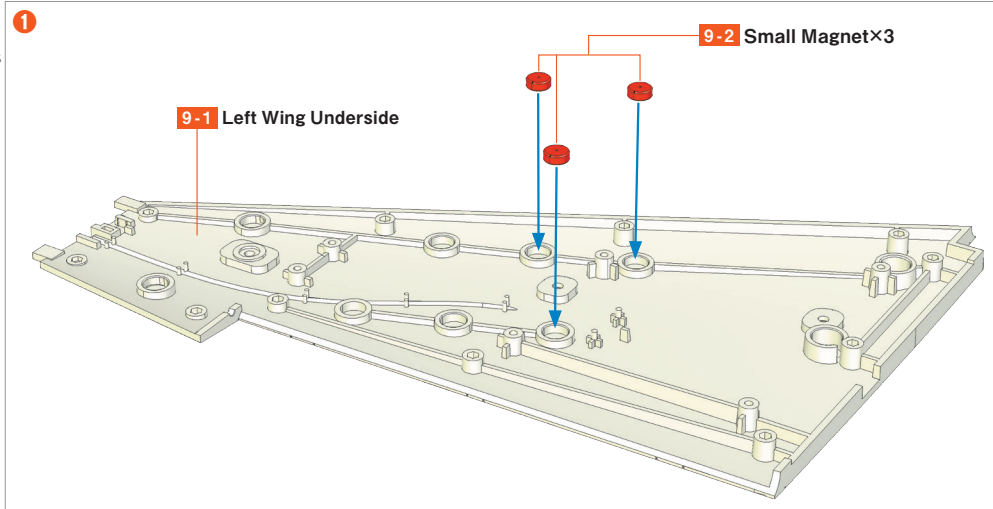

1 Assemble the left wing

Insert the three **9-2 Small Magnets** to the interior of the **9-1 Left Wing Underside** as shown, making sure they are the right way up – the round markings should be visible after insertion

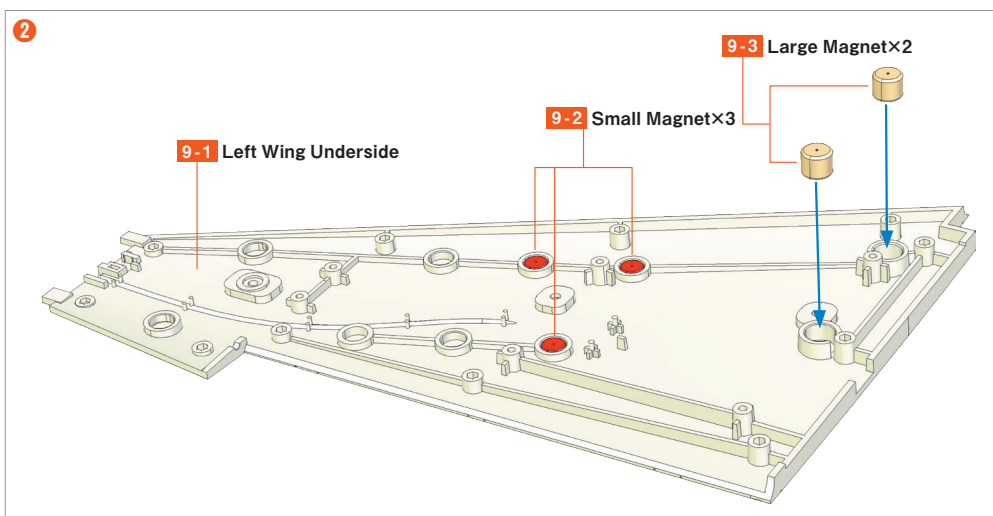

! The magnets are very strong so please handle them with care. You may find it easier to use tweezers. If the fit is loose you can apply a small amount of Universal Adhesive underneath them before insertion.

Insert the two **9-3 Large Magnets** to the interior of the **9-1 Left Wing Underside** as shown, making sure they are the right way up – the round markings should be visible after insertion

! The magnets are very strong so please handle them with care. You may find it easier to use tweezers. If the fit is loose you can apply a small amount of Universal Adhesive underneath them before insertion.

Complete!

The assembly for this section is complete.
