

【Break Time, Relaxing at Home】

In this issue

Sofa, Back Wall and Picture Frame

【Figurines】

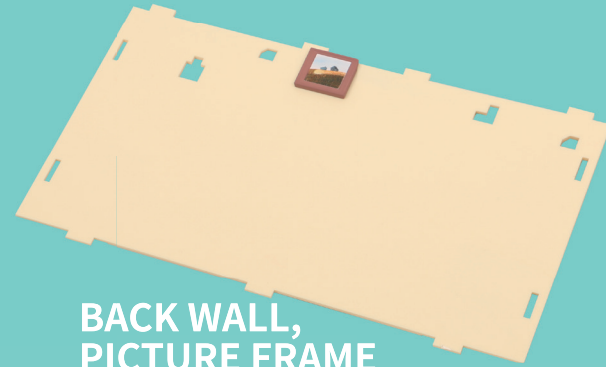

SNOOPY, LINUS

We will start with the 【Break Time】 box assembly. The parts included in this issue are a Sofa, a Back Wall and a Picture Frame. Also included are figurines of Snoopy and Linus. Let's assemble the various parts and build the 【Relaxing at Home】 scene together!

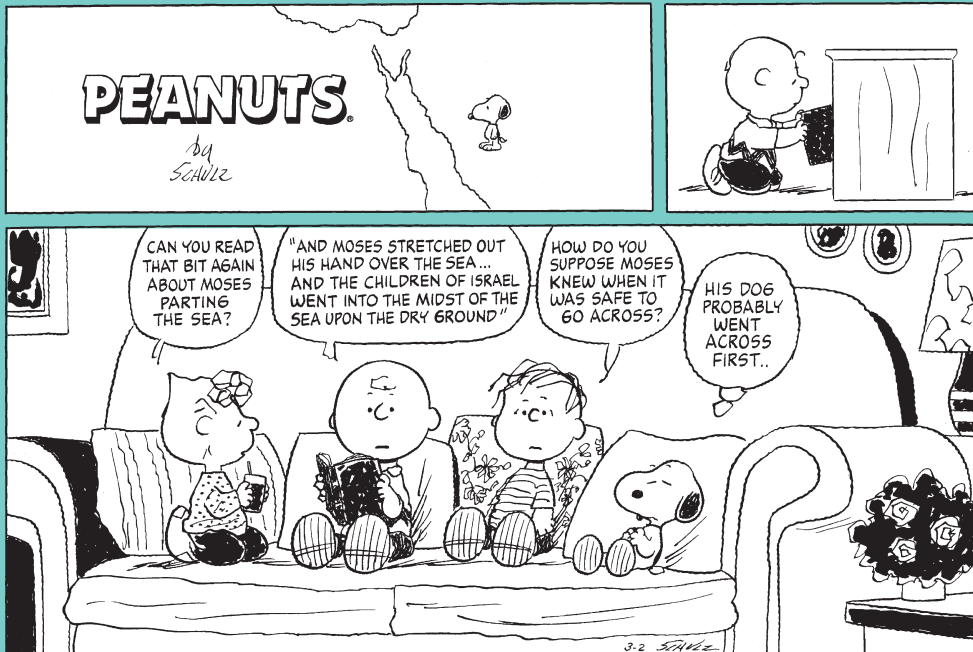

SOFA

Combine the Backrest, Armrests and Seat to form the Sofa. The PEANUTS comic strips are characterized by their simple, natural style so the interior of Charlie Brown's home is not drawn in great detail, but he is often featured relaxing on the Sofa.

BACK WALL, PICTURE FRAME

Also included is the Back Wall of the 【Relaxing at Home】 on which a Picture Frame hangs. The picture in the frame is painted by Andrew Wyeth, an artist respected by Charles Schulz.

PEANUTS Comic Strip: © 1997 PEANUTS Worldwide LLC

Figurines

SNOOPY

LINUS

The scene is based on the original comic strip from March 2nd, 1997. Sally is imploring her brother Charlie Brown to read from the Bible. In the PEANUTS comic strip, Linus often quotes from the Bible, which is well known to PEANUTS fans.

ASSEMBLY INSTRUCTIONS

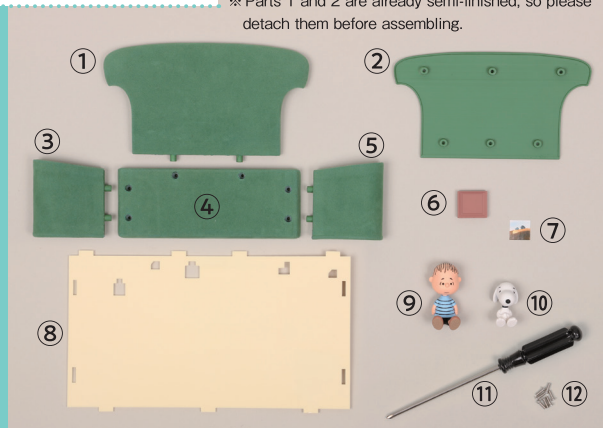

【Break Time, Relaxing at Home】

Assembling the Sofa, Back Wall and Picture Frame

Let's start assembling the 【Break Time】 box. First, we will work on the shape of the Sofa and attach the Picture Frame to the Back Wall.

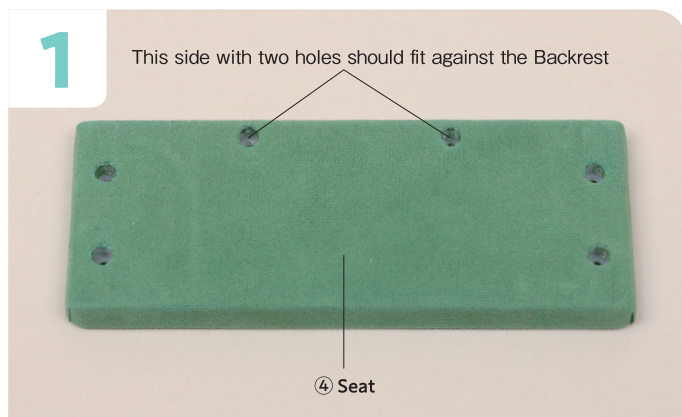

Parts of issue 1

※ Parts 1 and 2 are already semi-finished, so please detach them before assembling.

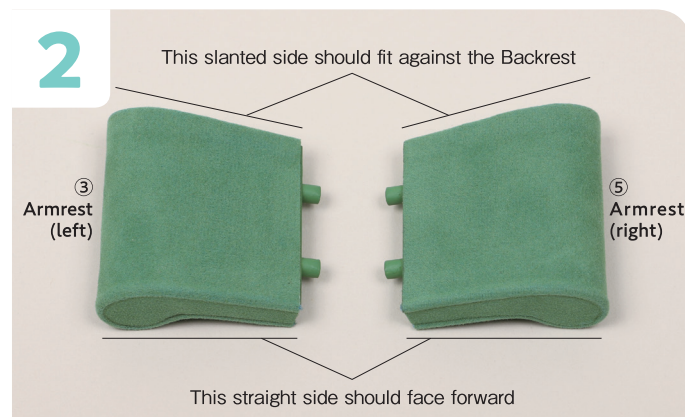

① Backrest ② Backboard ③ Armrest (left) ④ Seat ⑤ Armrest (right) ⑥ Picture Frame ⑦ Framed Picture ⑧ Back Wall
【PARTS】 ⑨ Linus ⑩ Snoopy ⑪ Screwdriver ⑫ Screws (PM 2 × 6mm) × 7 in total (1 for spare)

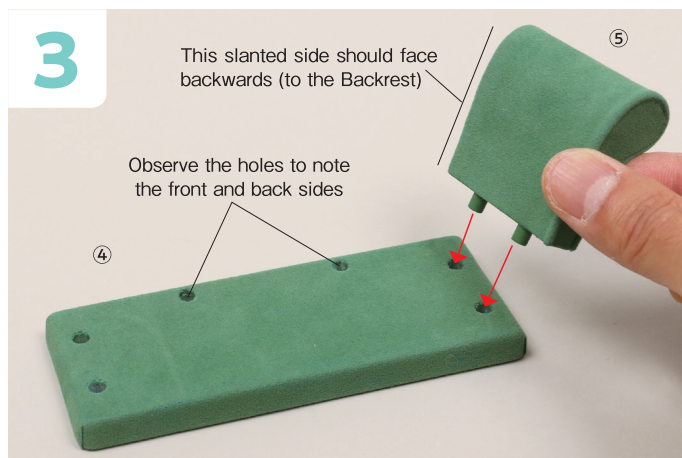

ASSEMBLING THE SOFA

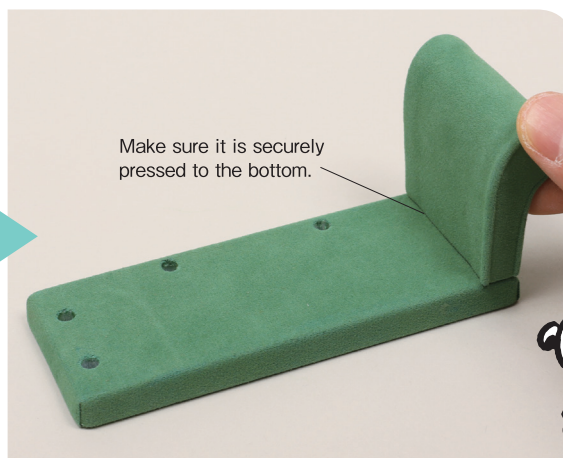

First, identify the front and back of the Seat. The longer side with two holes should fit against the Backrest.

③ Armrest (left) and ⑤ Armrest (right) are symmetrical parts, please be careful not to mix up their front and back.

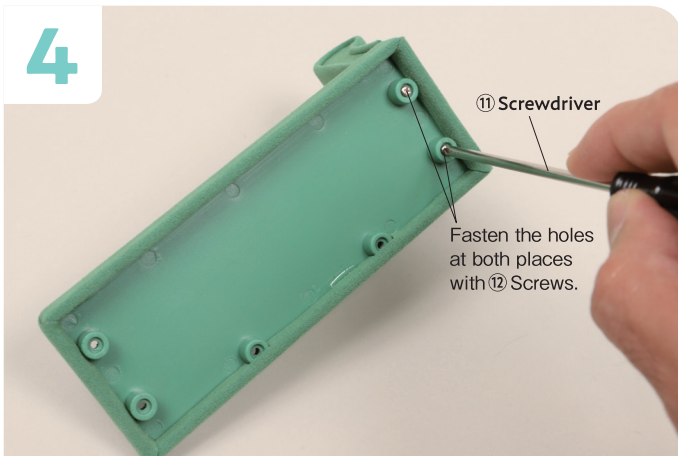

Assemble the ⑤ Armrest (right) to the right side of the Seat by inserting it into the raised holes.

Assembling the Sofa

4

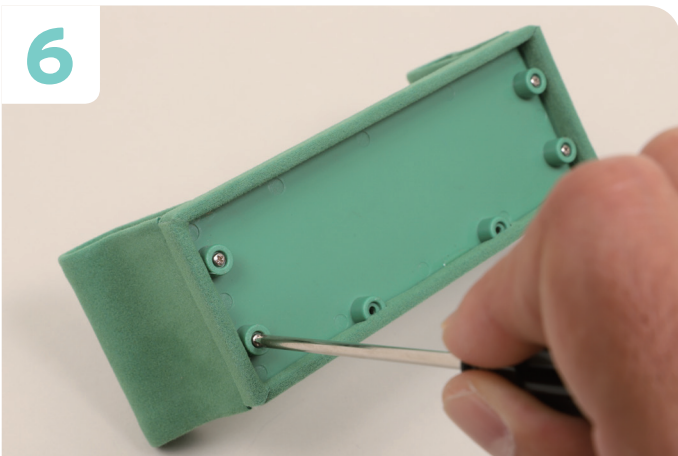

Use the ⑪ Screwdriver to tighten ⑫ Screws into the two holes on the side of the Armrest (right) at the back of the Seat separately.

5

As in step 3, fit the ③ Armrest (left) to the left side of the Seat by inserting it into the raised holes.

6

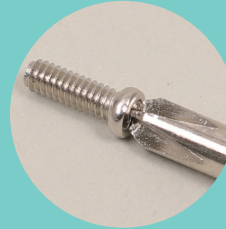

As in step 4, both holes are separately tightened with one screw.

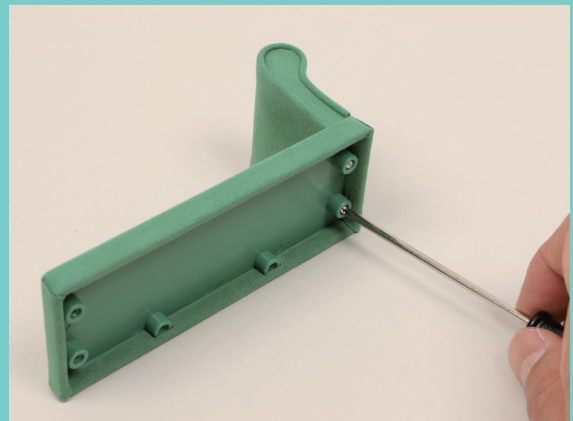

Using the Screwdriver

Its magnetic front end can attract the Screws

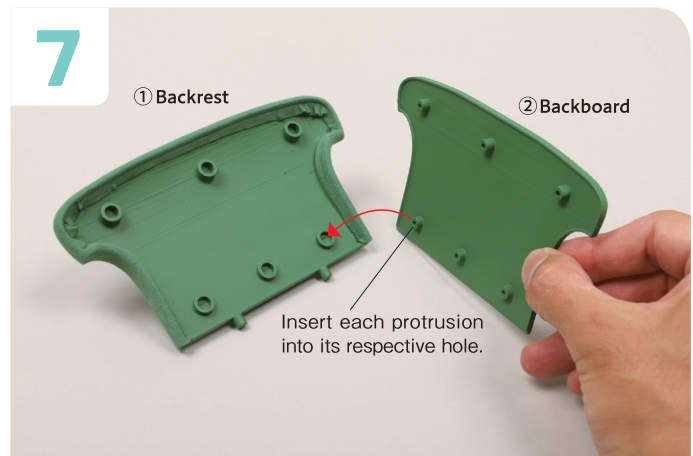

The Screwdriver has a magnetic front end to attract the Screws, so that they will not come off and have to be held in place by hand.

Squarely press and insert the Screw while turning the Screwdriver: The trick lies in tightening.

The trick of tightening the Screws is to position the Screws squarely without tilting when you insert them into the holes. And when you tighten the Screws, 80% of the force has to be used in pressing and the remaining 20% turning; press and tighten them simultaneously. The handle of the Screwdriver should touch the palm of your hand, so you can apply force easily.

7

Fit the ① Backrest and ② Backboard together. The ② Backboard has 6 raised holes that interconnect with the ① Backrest recesses.

ASSEMBLY INSTRUCTIONS

Assembling the Sofa

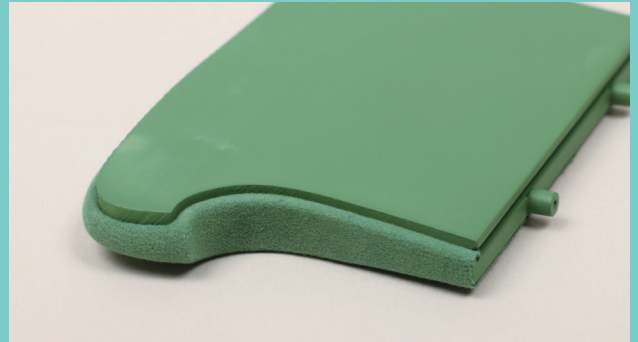

8

The raised parts of the Backboard and the recessed parts of the Backrest should fit close to each other.

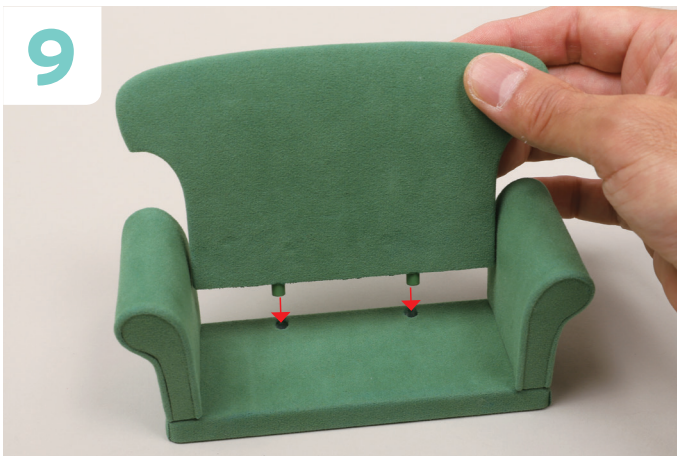

Check if they fit tightly

If the raised parts of the Backboard do not fit close to the recessed parts of the Backrest, a bump will be created as shown above. Use your fingers to tightly press the Backboard, so that it fits close to the Backrest.

9

Fit the Backrest at the back of the Seat by tightly inserting its protrusions in place.

10

Screw the two remaining holes at the bottom of the Seat one by one to carefully tighten the Backrest in place.

Issue 1 Completed!

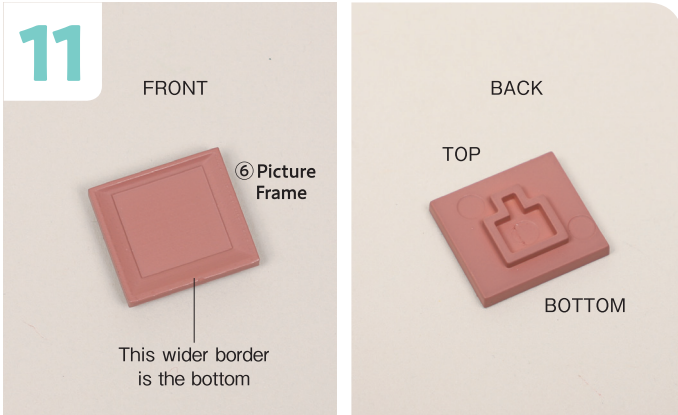

That finishes the assembly of the Sofa. Let's put the Snoopy and Linus figurines on it as decorations. Not Until the Sofa is assembled with the Floor Mat from issue 2 is it really completed.

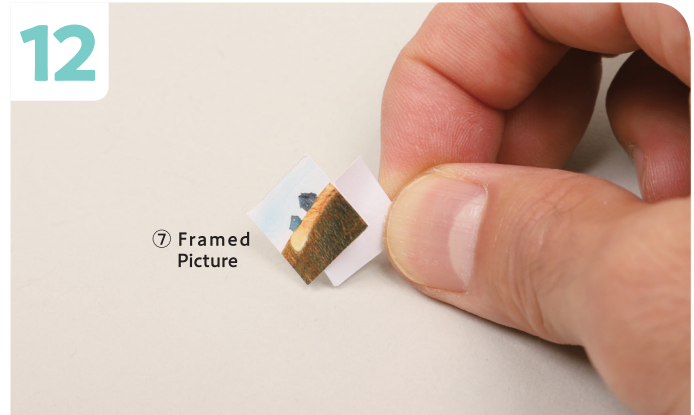

ASSEMBLING THE PICTURE FRAME AND BACK WALL

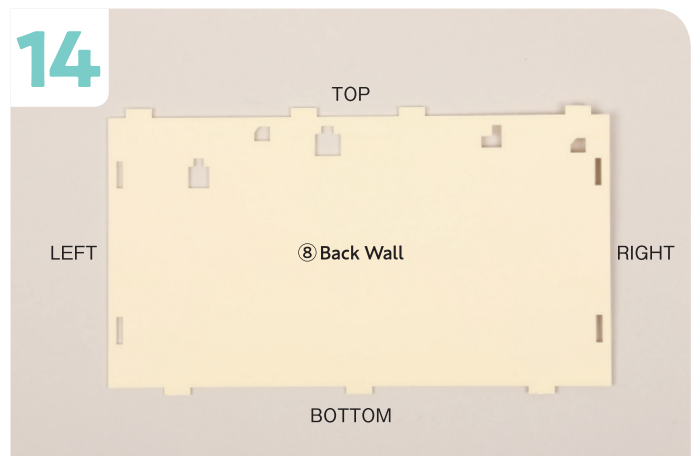

First, identify the front and back of the Picture Frame, and be careful not to mix up the top and bottom sides.

The ⑦ Framed Picture is a sticker, please peel off its label paper at the back first.

Matching the recessed area of the Picture Frame, paste the picture to the front of the frame.

There are both protrusions and recessed holes on the Back Wall, identify the front and back sides by observing the locations of the top and bottom protrusions and the shapes of the holes.

Let's insert the raised area at the back of the Picture Frame into the hole on the Back Wall where a picture should be placed.

Issue 1 Completed!

A Picture Frame has been added to the Back Wall of 【Relaxing at Home】. More Picture Frames will be added into the remaining holes.

Please keep the parts if they fall down due to careless or improper assembly.
