Assembling the Back Wall and Left and Right Walls

This week we will assemble the Left and Right Exterior Walls for the 【Break Time】 scene, the Back Wall and Left and Right Walls with the Floorboard in the 【Woodstock's Nest】 scene and add the Ground made in issue 11.

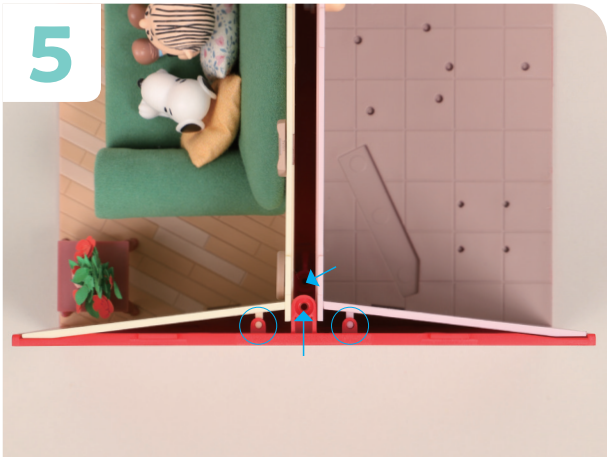

- ① Exterior Wall×2 ② Back Wall ③ Left Wall ④ Right Wall ⑤ Screw (PM2×6 mm)×5 (1 for spare) 【Figurine】 ⑥ Snoopy

Parts of issue 12

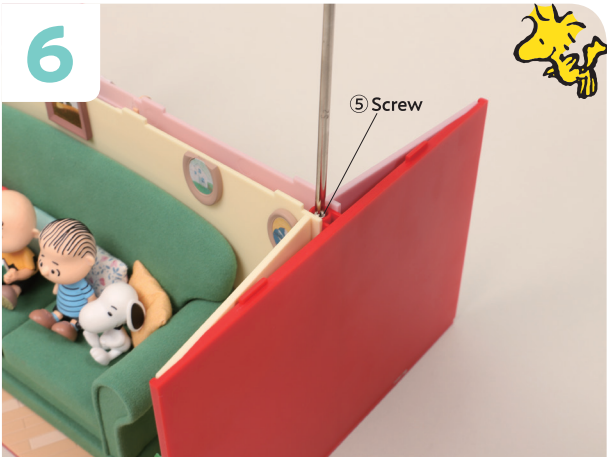

【Break Time, Relaxing at Home/Eating Together】

Assembling the Left and Right Exterior Walls

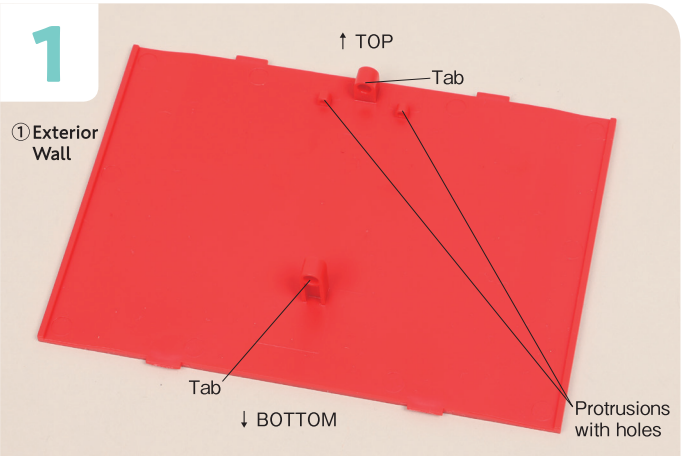

View the scene from above to ensure the ① Exterior Wall is properly assembled with the protrusions (circled in blue), the tabs and the screw hole (indicated by blue arrows) properly aligned.

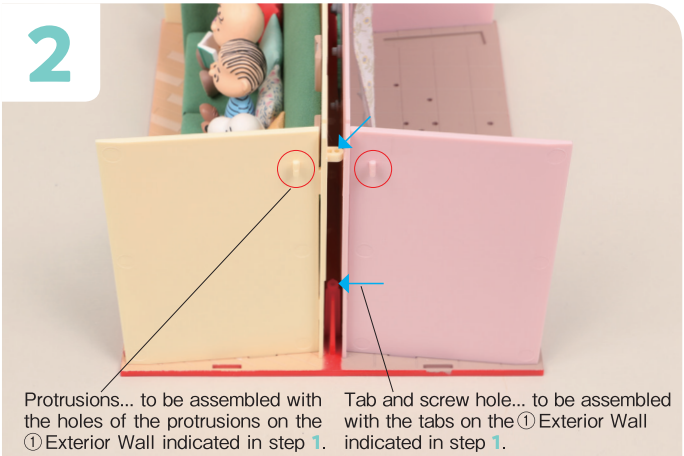

We will now tighten a Screw to secure the Exterior Wall. First, tighten the ⑤ Screw into the tabs.

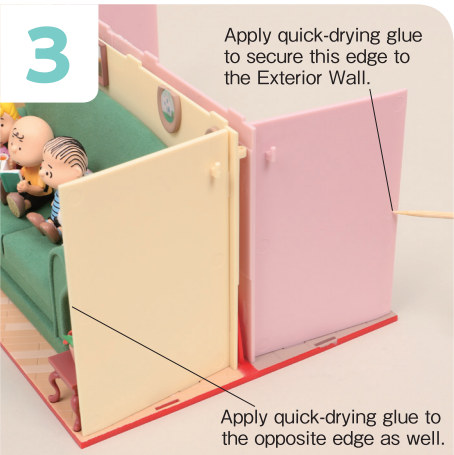

ASSEMBLING THE LEFT AND RIGHT EXTERIOR WALLS

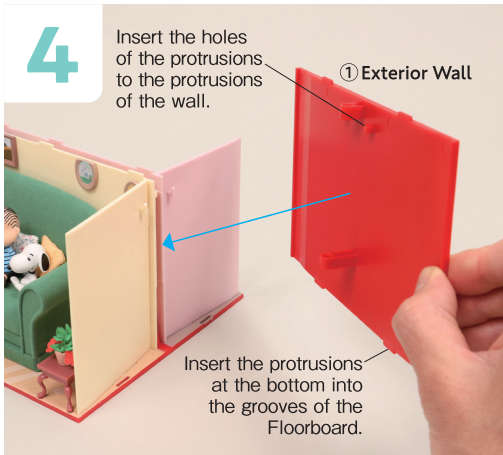

Check the orientation of the ① Exterior Wall with two tabs in the middle of the left and right sides, and two protrusions with holes near the middle at the top.

Get ready the 【Break Time】 scene assembled so far and examine its sides. There are protrusions on the walls (circled in red) and a tab and a screw hole in between the back walls (indicated by blue arrows).

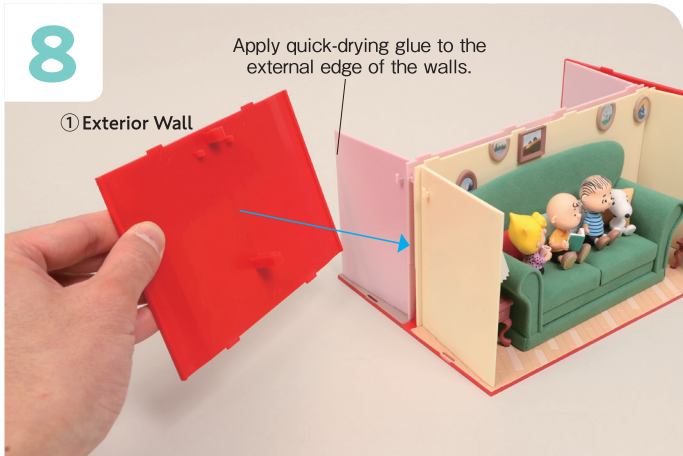

We will now assemble the Exterior Wall. First, apply quick-drying glue to the edge of the walls with the tip of a toothpick or the like.

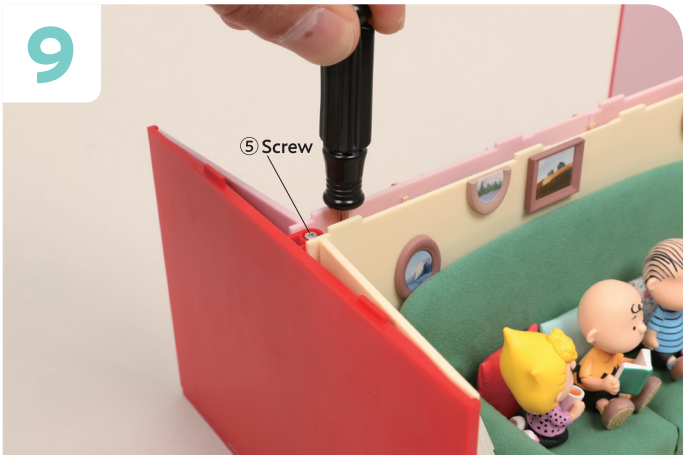

Assemble the ① Exterior Wall by joining the protrusions and the tabs together before the glue dries.

Then tighten a ⑤ Screw into the screw hole in between the walls to secure it.

Assemble the remaining ① Exterior Wall to the other side as in steps 3~4.

Tighten the ⑤ Screws into the tabs and the screw hole one by one as in steps 6~7 to secure it.

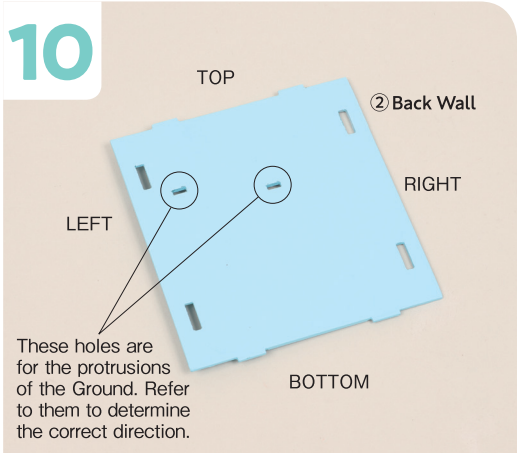

Issue 12 Completed

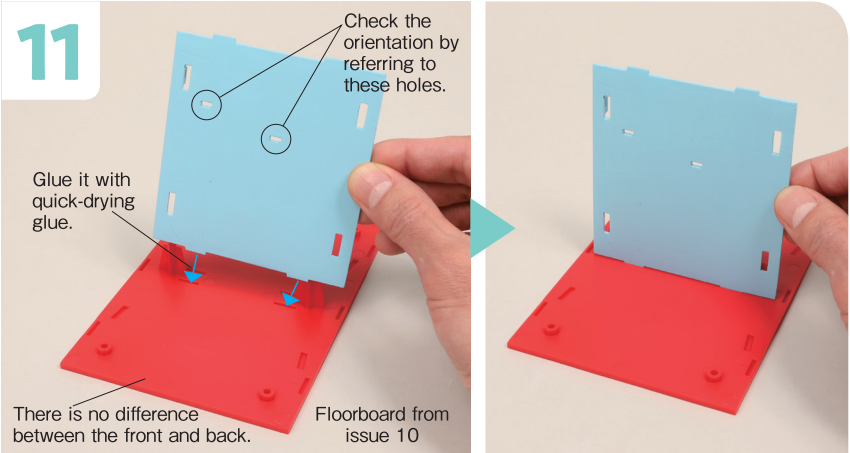

The Left and Right Exterior Walls are now added to the 【Relaxing at Home】 scene. With the structure of the scene almost complete, all that remains is to add the ceiling. Tips for storing the scene will be introduced in a later issue.

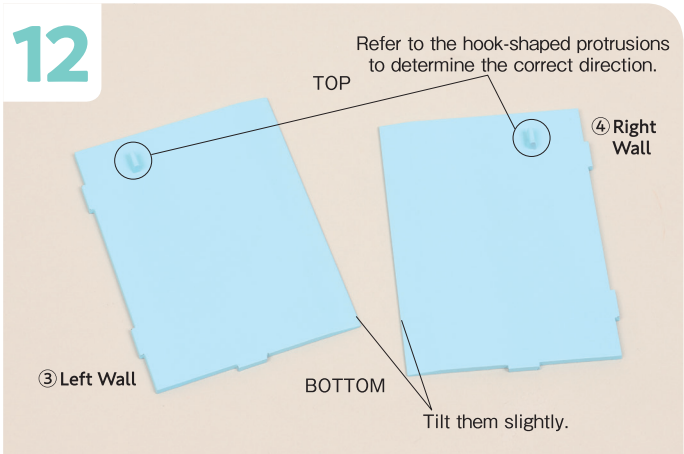

ASSEMBLING THE BACK WALL AND LEFT AND RIGHT WALLS

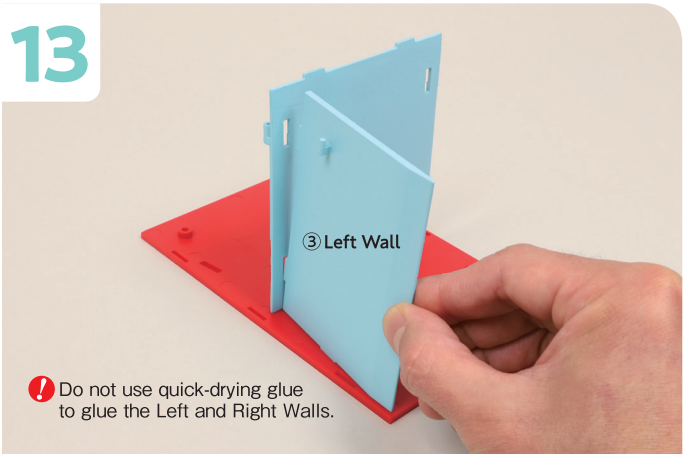

Make sure the ② Back Wall is facing the right way.

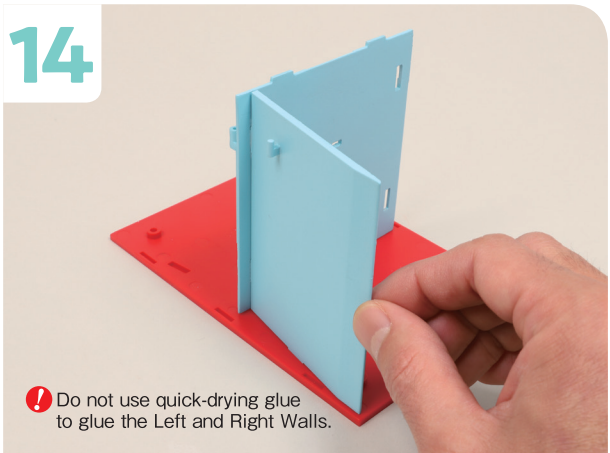

We will now assemble the ② Back Wall with the Floorboard from issue 10. Apply a little quick-drying glue into the grooves of the Floorboard and insert the protrusions of the Back Wall.

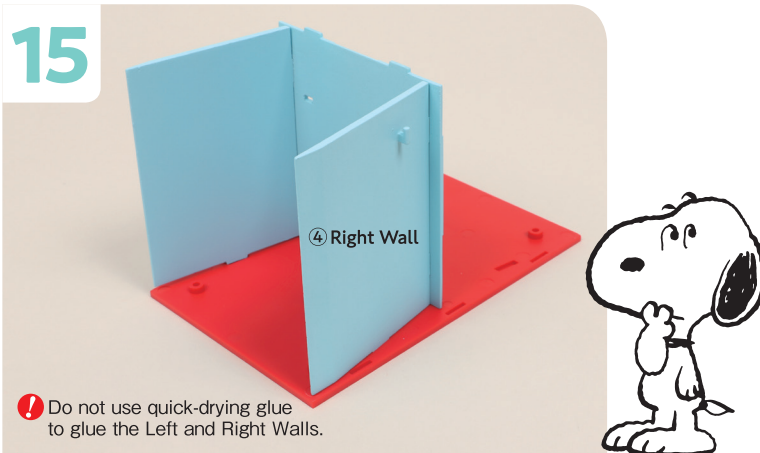

Check the orientations of the ③ Left Wall and ④ Right Wall.

First, insert the protrusion under the ③ Left Wall into the groove of the Floorboard.

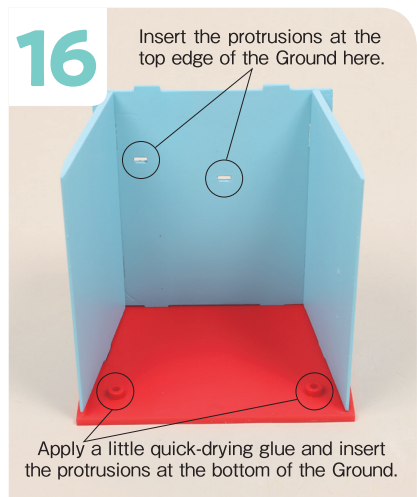

Next, insert the two protrusions at the end of the ③ Left Wall into the holes on the Back Wall.

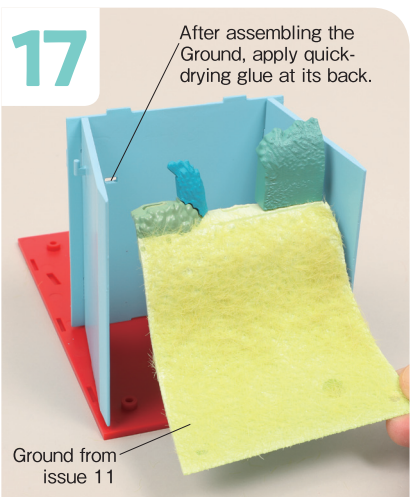

Assemble the ④ Right Wall to the other side as in steps 13~14.

Assembling the Back Wall and Left and Right Walls

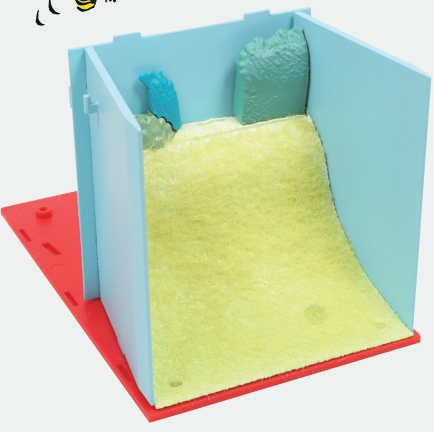

Identify the holes on the Back Wall and the protrusions on the Floorboard. Apply a little quick-drying glue to the protrusions of the Floorboard and assemble it with the Ground made in issue 11.

Assemble the Ground made in issue 11 by inserting the protrusions at the top and bottom of the Ground into the holes and protrusions indicated in step 16.

Issue 12 Completed

The full picture of the 【Woodstock's Nest】 scene is getting clearer now. We will add the background houses and fences later.

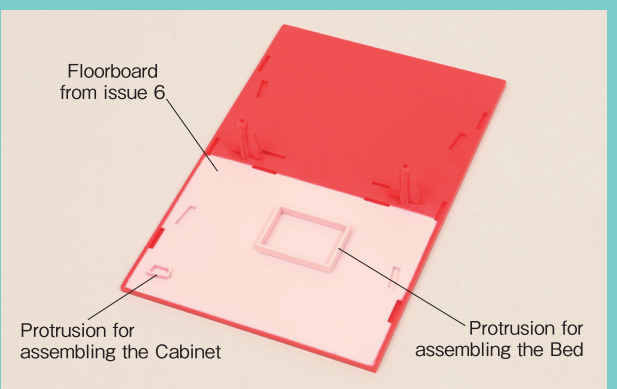

Let's display the figurines and furnish the scene

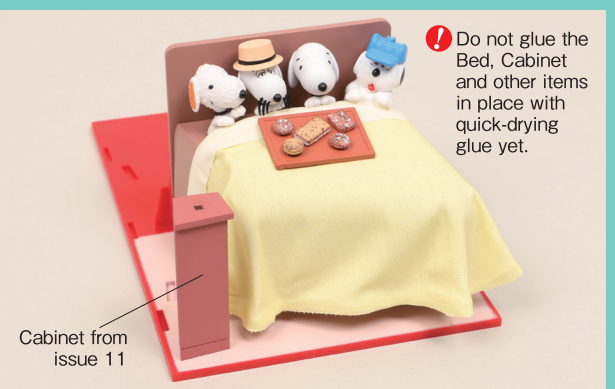

Display the ⑥ Snoopy figurine on the Bed in the 【3 Brothers】 scene by placing it in the second indentation from the right.

Secure the Tray of Cookies from issue 8 to the bed with double-sided tape. Place it balanced centrally as shown.

Get ready the Floorboard from issue 6. Assemble the Bed, Cabinet and other items on the large and small protrusions.

Place the Bed or the Cabinet from issue 11 on the Floorboard to have a look. Do not glue them in place with quick-drying glue yet.
