GROUND, BACK WALL, LEFT AND RIGHT WALLS

We will assemble the 【Spring, Easter】 scene in this issue by decorating the Ground with Flowers and assembling the Back Wall and Left and Right Walls.

Not only in Europe and America, where there are many Christians, but also in Japan in recent years, stores are lined with food and decorations with pictures of eggs, chicks and rabbits during Easter. Snoopy appears as the "Easter Beagle", dancing and handing out eggs as he walks around.

Making the Ground

Use a toothpick to put a spot of glue on the ④ Ground first, then glue a Small Flower onto the slope at the back. Add more Small Flowers the same way.

Balance the Flower arrangement so that the colors, shapes and spacing are random. After gluing a number of Small Flowers, add some of the Medium and Large Flowers. Place fewer Flowers where they will be hidden by the figurines.

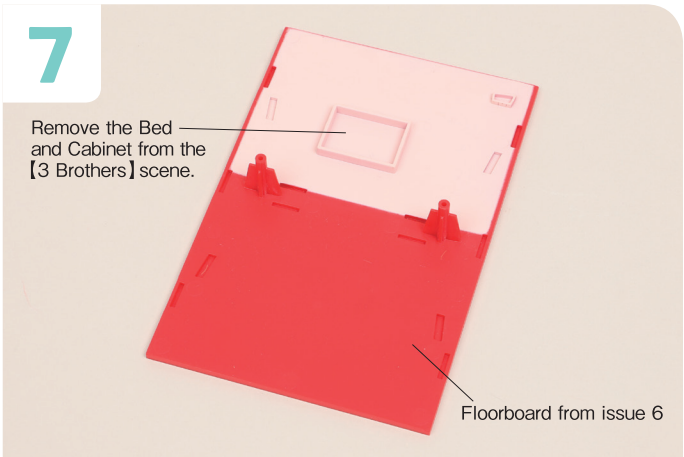

Arrange and attach all the Small Flowers and half of Medium and Large Flowers to the slope at the back.

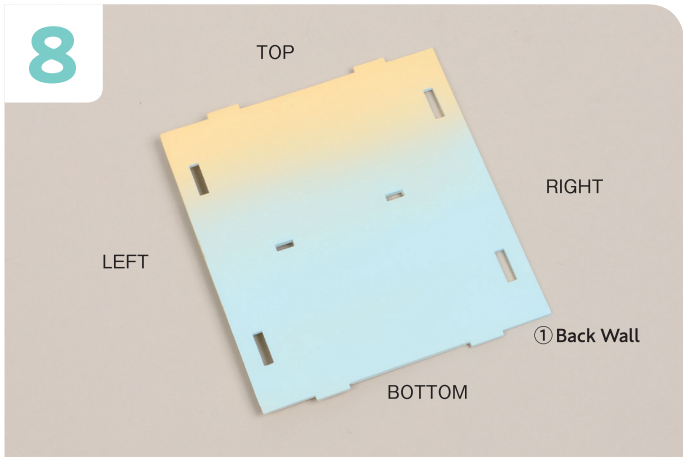

Attach the remaining Medium and Large Flowers at the front in the same way.

ASSEMBLING THE BACK WALL AND LEFT AND RIGHT WALLS

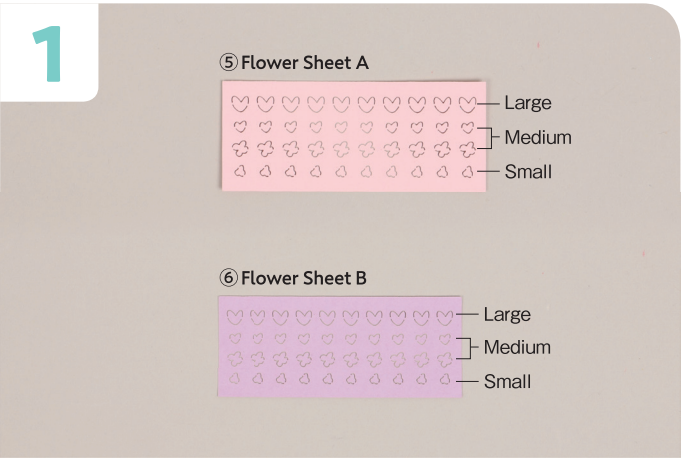

Get ready the Floorboard from issue 6. The red side is for the 【Easter】 scene.

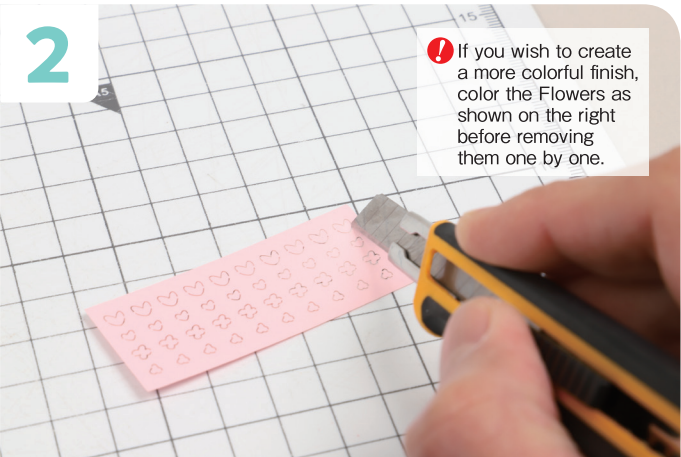

Check the orientation of the ① Back Wall.

MAKING THE GROUND

Identify the pink ⑤ Flower Sheet A and the purple ⑥ Flower Sheet B. Each sheet should have 10 Flowers of different sizes and shapes.

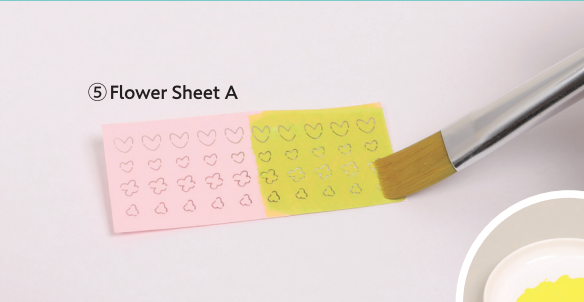

Use a cutter to cut and remove the Flowers from the joints of ⑤ Flower Sheet A and ⑥ Flower Sheet B.

For those who wish to make the Flowers more colorful

The Flower Sheets can be used as they are, but you can also choose to add extra colours. In this example we are painting some Flowers yellow and white.

Add a little white to perm. yellow and dissolve well with an equal amount of water. Then color half the ⑤ Flower Sheet A.

Let's color half the ⑥ Flower Sheet B white. Dissolve a small amount of white paint with an equal amount of water and apply the dissolved paint. Wait till the paint dries, then cut and remove all the Flowers from the joints.
