

【Fan Favorites, Snoopy's First Appearance】

Floorboard, Stool, Partition, Ground

【Fall, 3 Brothers】

Back Wall

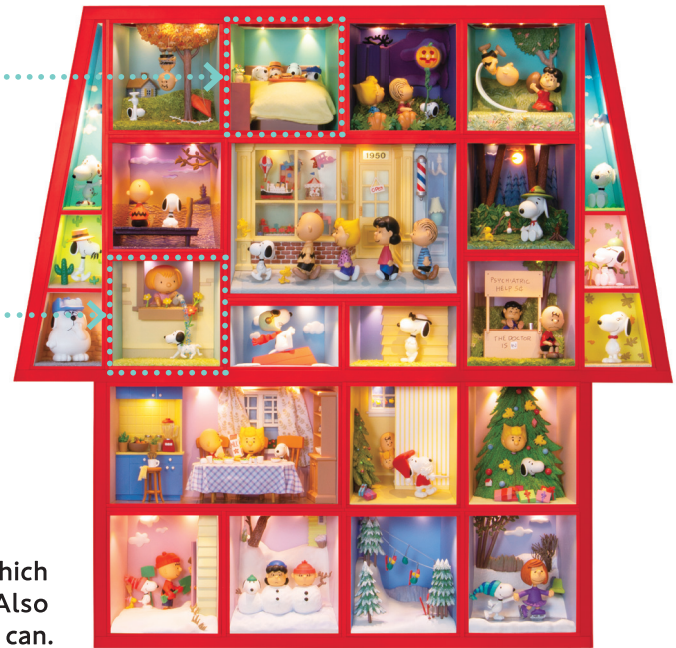

【Figurine】

Patty

The parts in this issue are the Floorboard, the Ground, and the Stool on which the figurine will be placed for the 【Snoopy's First Appearance】 scene. Also included is the figurine of Patty watering the window box with a watering can.

In this issue

In this issue

FLOORBOARD, STOOL, PARTITION, GROUND

Let's start assembling the 【Fan Favorites, Snoopy's First Appearance】 scene by sprinkling green Powder on the Ground and assembling the Partition and the Ground to the Floorboard.

Figurine

Patty

Figurine for the 【Snoopy's First Appearance】 scene

BACK WALL

We will also assemble the Back Wall to the 【3 Brothers】 scene by gluing it to the Floorboard and assembling it with the Left and Right Walls.

ASSEMBLY INSTRUCTIONS

【Fan Favorites, Snoopy's First Appearance】

Assembling the Floorboard, Stool, Partition, Ground

【Fall, 3 Brothers】

Assembling the Back Wall

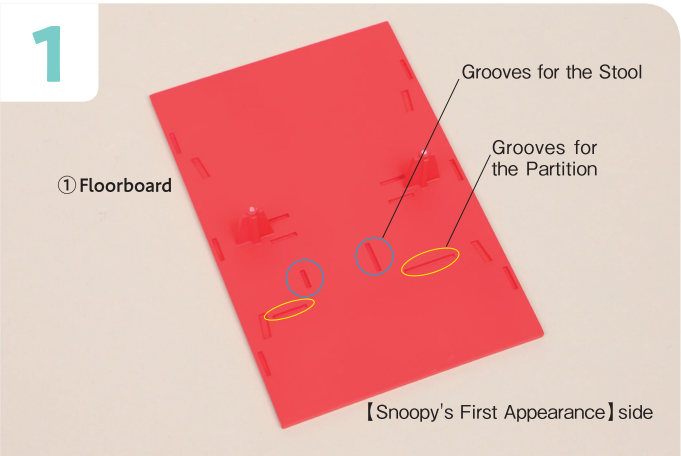

Let's start assembling the 【Snoopy's First Appearance】 scene by sprinkling green Powder on the Ground and assembling the Partition and the Ground to the Floorboard. We will also assemble the Back Wall to the 【3 Brothers】 scene.

Parts of issue 20

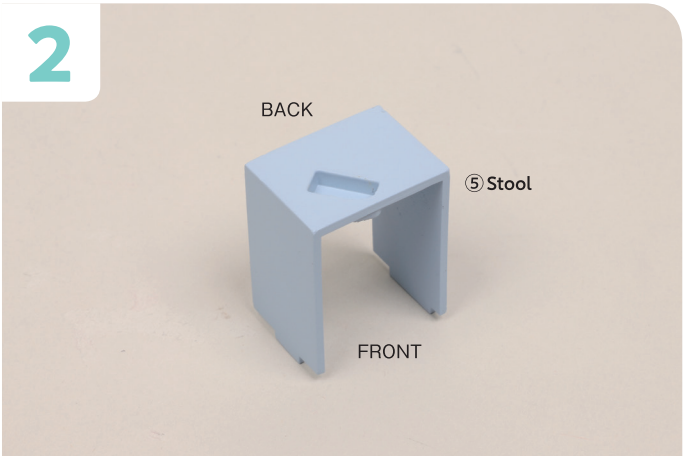

① Floorboard ② Partition ③ Back Wall ④ Ground ⑤ Stool 【Figurine】 ⑥ Patty

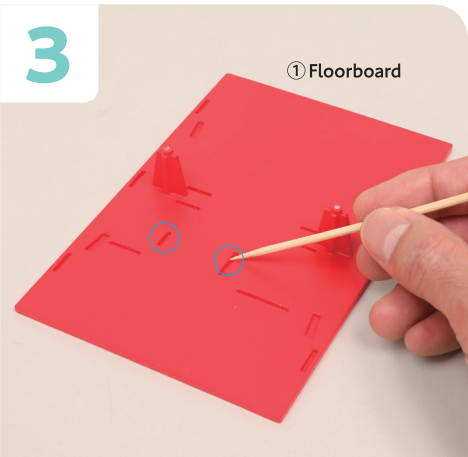

ASSEMBLING THE FLOORBOARD, STOOL, PARTITION, GROUND

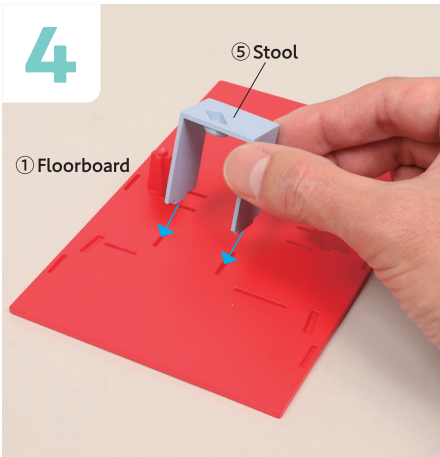

Check the orientation of the ① Floorboard – the side with the grooves for assembling the Stool and Partition is for the 【Snoopy's First Appearance】 scene.

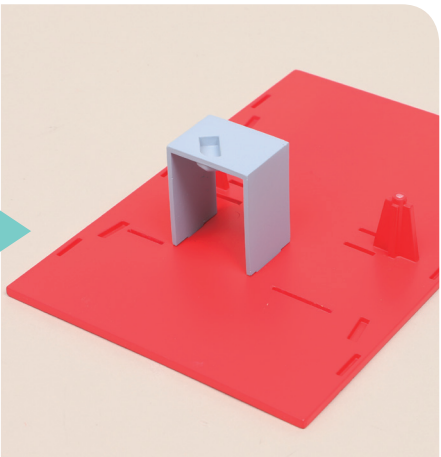

Refer to the indentation on the top surface of the ⑤ Stool to determine the correct orientation.

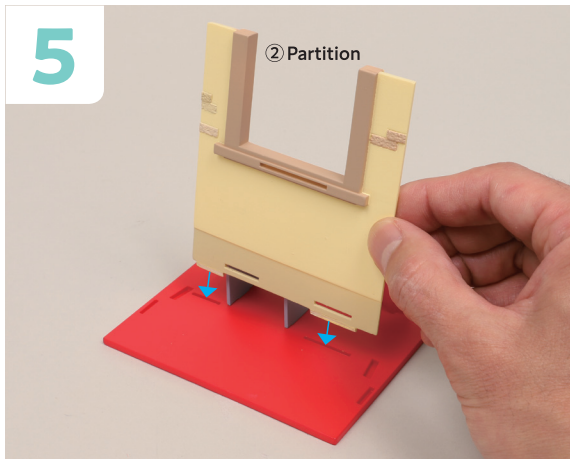

Use a toothpick or the like to apply a little quick-drying glue to the two grooves on the ① Floorboard as shown above.

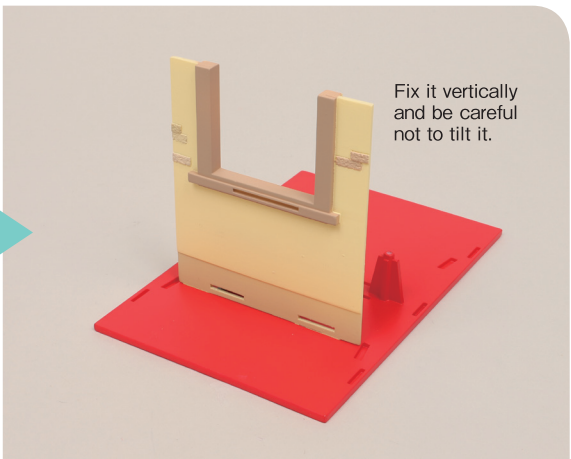

Before the glue dries, assemble the Stool on it by inserting its protrusions into the grooves of the Floorboard.

Assembling the Floorboard, Stool, Partition, Ground

Apply quick-drying glue to the grooves on the Floorboard as in step 3 to assemble the ② Partition.

We will now sprinkle green Powder on the Ground. First, get ready the Powder kept in issue 11 and pour out the amount required for this issue on a palette or the like.

Add about a quarter teaspoon of glue to a palette or the like, add an equal amount of water and mix well.

Next, add 2-3 drops of neutral detergent and mix well. Any ordinary neutral detergent will do, or you can use soapy water instead.

Use a brush to apply the glue from step 8 to the entire surface of the ④ Ground, a little more on the edges where the Powder tends to come off.

We can now sprinkle the Powder from step 6. Rub to loosen it with fingertips and sprinkle it a little at a time and evenly over the entire surface.

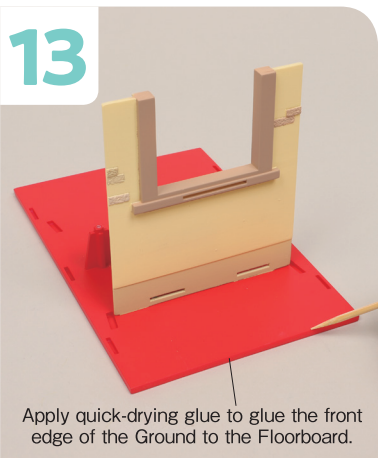

Assembling the Floorboard, Stool, Partition, Ground

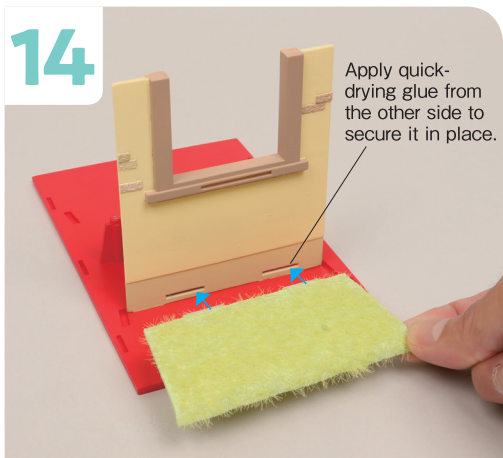

Leave for 30 minutes, when the glue has dried slightly, press the Powder gently with fingertips. Then leave for half a day to a day to allow the glue to completely dry.

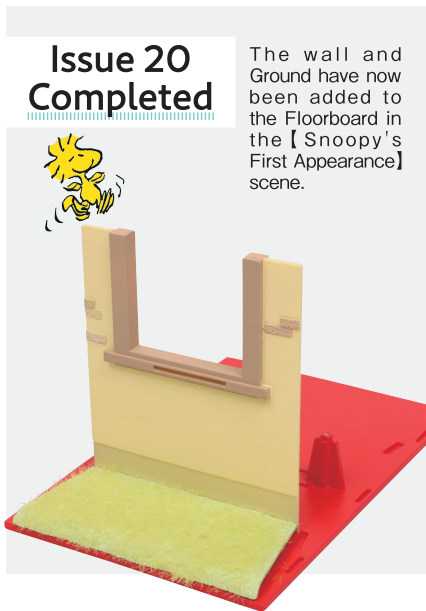

When the glue is completely dry, gently shake off the excess Powder on some unwanted paper. The Powder can come off easily, so please pay special attention when assembling and storing it.

We will now assemble the Ground to the Floorboard. First, apply a little quick-drying glue to the front edge.

We need to assemble the Ground to the Floorboard before the glue dries. Insert the rear protrusions of the Ground deep into the holes on the wall and apply quick-drying glue from the other side to secure it in place.

Issue 20 Completed

The wall and Ground have now been added to the Floorboard in the 【Snoopy's First Appearance】 scene.

Let's display the figurine to have a look

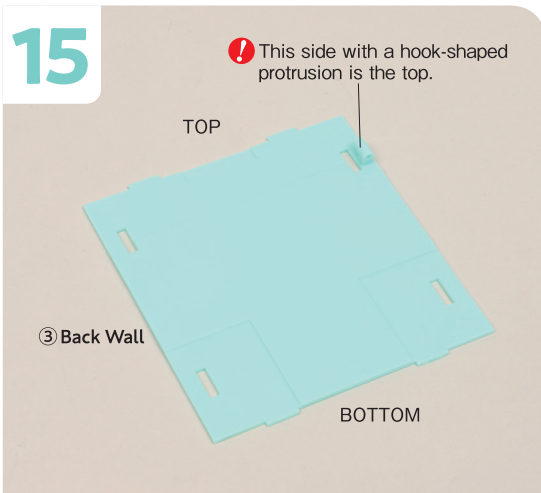

The figurine will be detached in a later issue, so do not glue it in place yet.

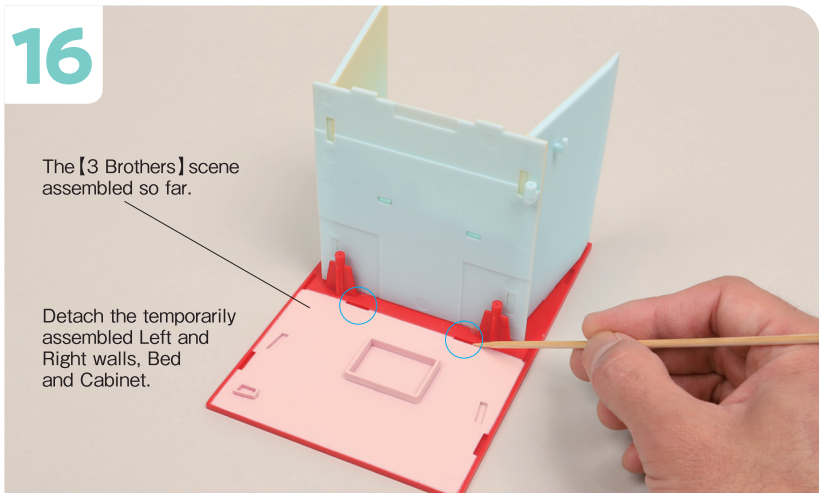

Place the ⑥Patty figurine on the Stool by inserting the protrusion under her foot into the indentation on the Stool, matching their shapes. The figurine will be detached in a later issue, so do not glue it in place yet.

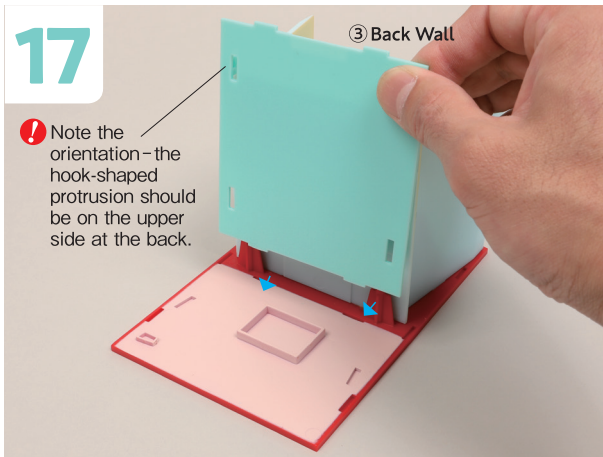

ASSEMBLING THE BACK WALL

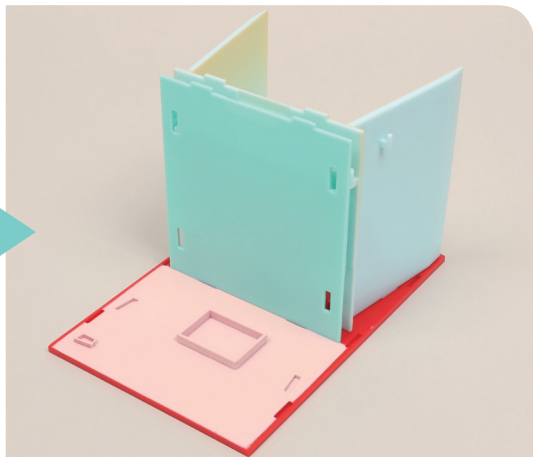

Refer to the hook-shaped protrusion to determine the orientation of the ③ Back Wall.

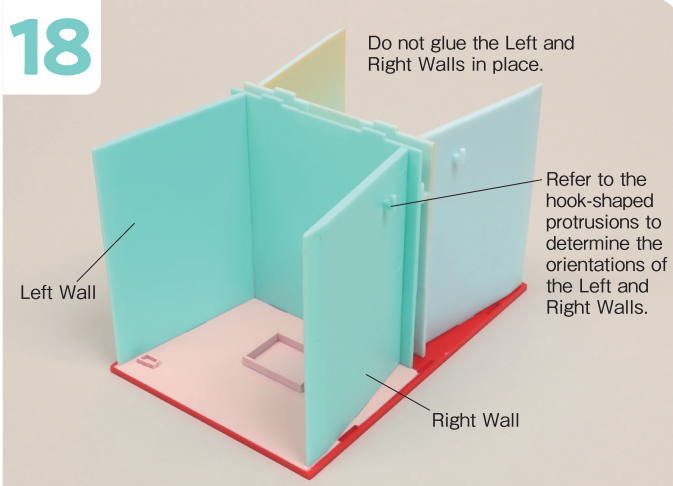

Get ready the【3 Brothers】scene assembled so far. Detach the previously temporarily assembled Left and Right walls, Bed and Cabinet and apply a little quick-drying glue to the two grooves on the Floorboard as shown above.

Note the orientation - the hook-shaped protrusion should be on the upper side at the back.

Insert the protrusions under the ③ Back Wall into the grooves on the Floorboard before the glue is completely dry. Make sure it is facing the correct direction.

We will now assemble the Left and Right Walls.

Issue 20 Completed

Will all the surrounding walls of the 【3 Brothers】 scene in place, we can now temporarily assemble the parts like the Bed and Cabinet and store them safely.
