Figurine

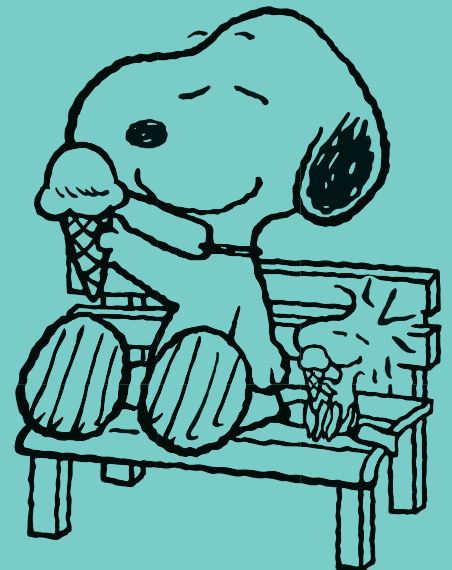

Sally

Figurine for the
【Ice Cream】 scene

SHOWCASE, BACK WALL, FLOOR

We will begin assembling the 【Summer, Ice Cream】 scene in this issue. First, assemble the Back Wall and Floor to the Floorboard, then display the ice cream Showcase to the scene.

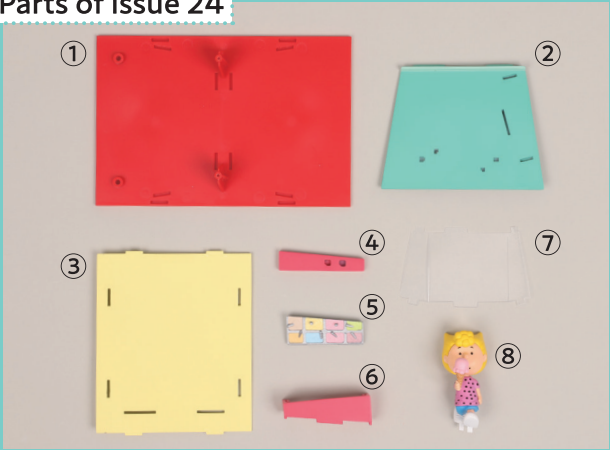

【Summer, Ice Cream】

Assembling the Showcase, Back Wall and Floor

We will begin assembling the 【Summer, Ice Cream】 scene in this issue. Let's start by assembling the Showcase, then assemble the Back Wall and Floor to the Floorboard and display the Showcase.

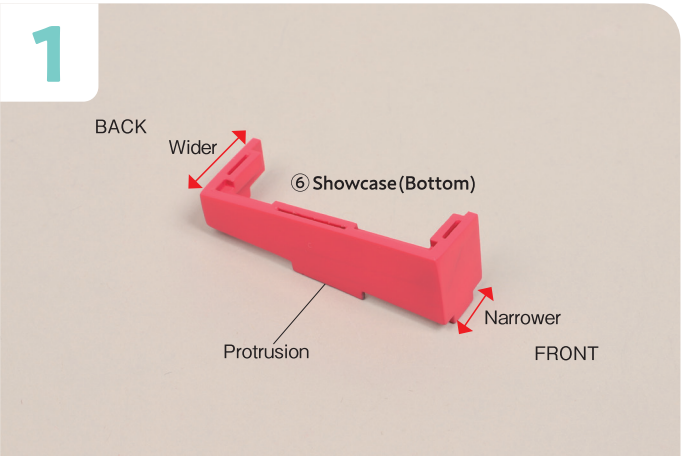

- ① Floorboard
- ② Floor
- ③ Back Wall
- ④ Showcase(Top)
- ⑤ Ice Cream Tray
- ⑥ Showcase(Bottom)
- ⑦ Plastic Pane
- ⑧ Sally

Parts of issue 24

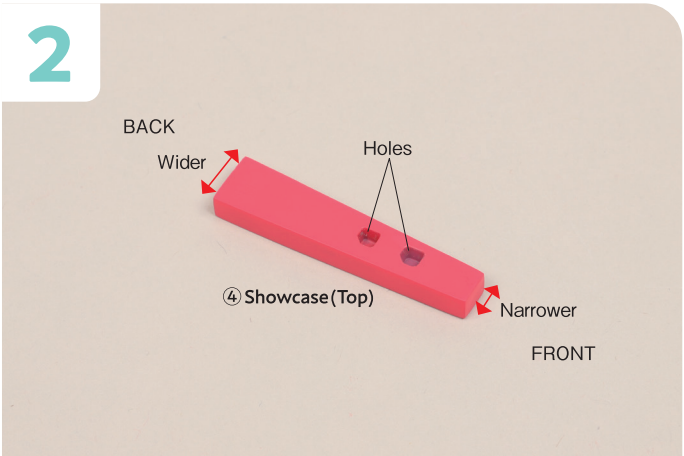

ASSEMBLING THE SHOWCASE

1

Check the orientation of the ⑥ Showcase(Bottom). The side with a protrusion is the bottom, and the narrower side is the front after assembly.

2

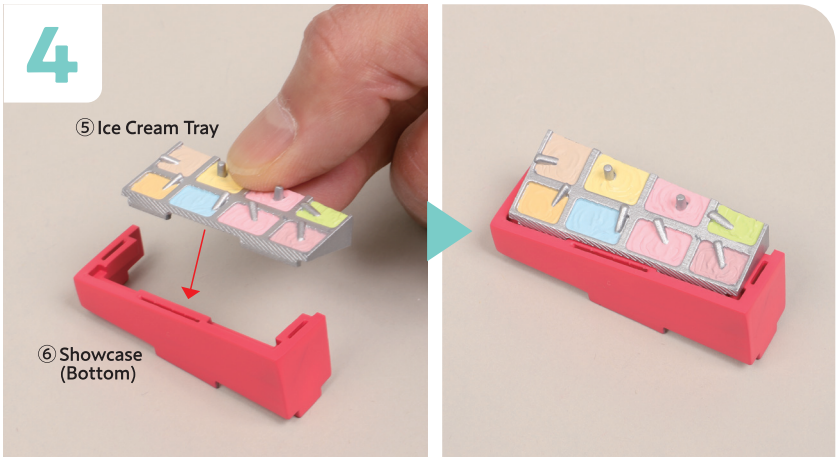

Make sure the ④ Showcase(Top) is facing the correct direction as well.

3

Apply a little quick-drying glue to the back, left and right ends and protrusions of the ⑤ Ice Cream Tray with the tip of a toothpick or the like.

4

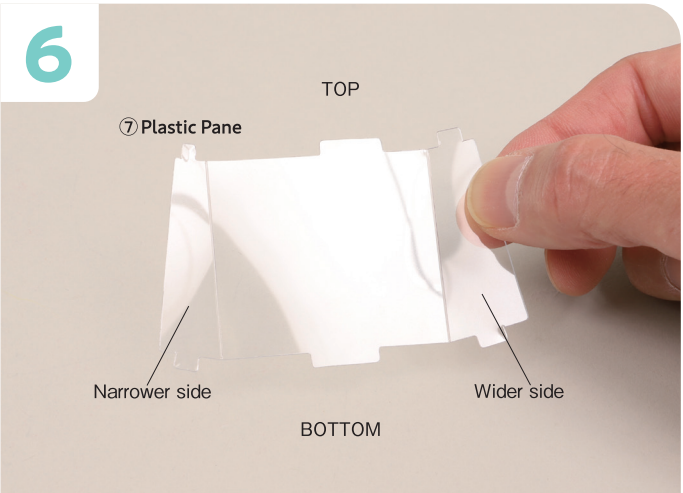

Glue the ⑤ Ice Cream Tray to the ⑥ Showcase(Bottom) before the glue dries.

5

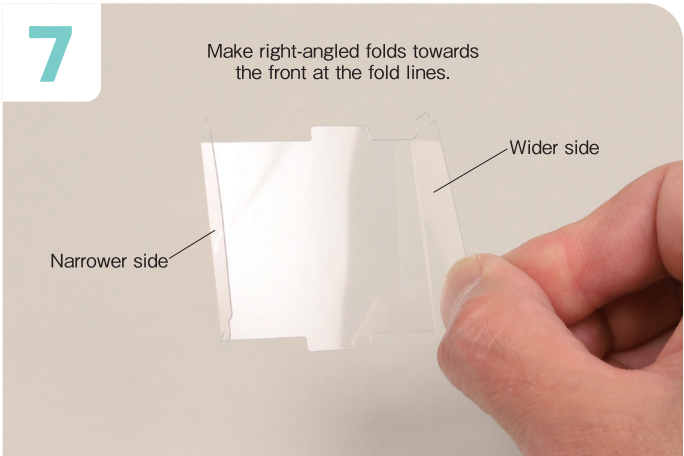

There are films protecting both sides of the ⑦ Plastic Pane. Peel them off before assembly.

6

Check the orientation of the ⑦ Plastic Pane—note the different widths of its left and right sides.

7

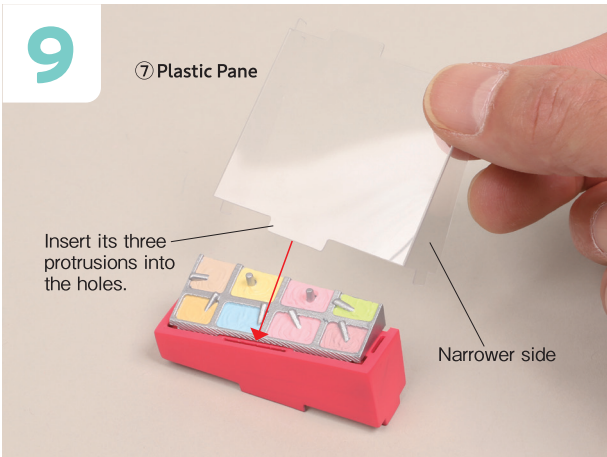

Fold its left and right sides at the fold lines. Be careful not to split them when you fold them at right angles towards the front.

8

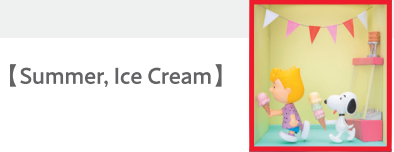

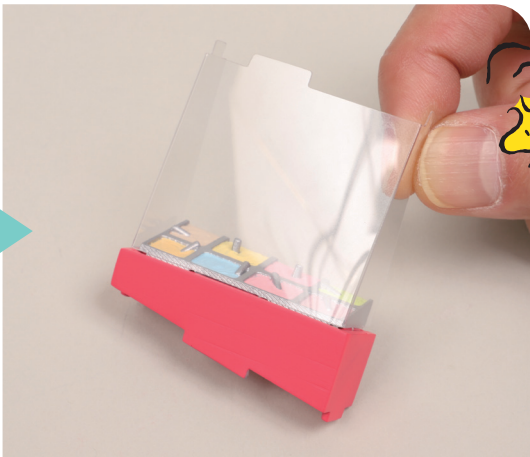

Apply a little quick-drying glue to the holes of the ice cream Showcase (Bottom) with the tip of a toothpick or the like.

9

Before the glue dries, assemble the ⑦ Plastic Pane to the ice cream Showcase(Bottom) by inserting its protrusions at the bottom into the holes of the Showcase(Bottom).

【Summer, Ice Cream】

ASSEMBLY INSTRUCTIONS

Assembling the Showcase

Assemble the ④ Showcase(Top) to the top of the Plastic Pane in the same way.

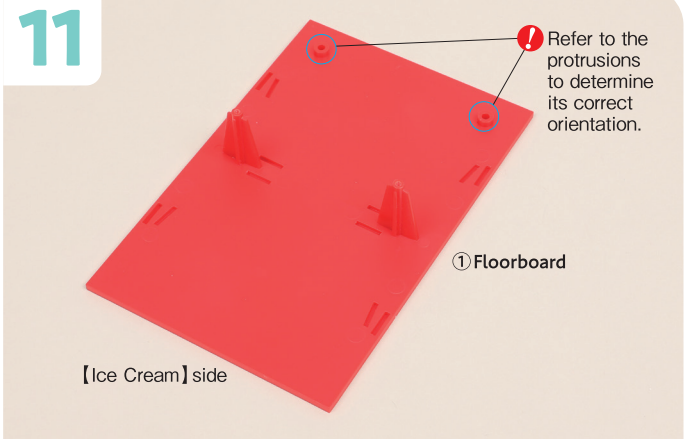

Issue 24 Completed

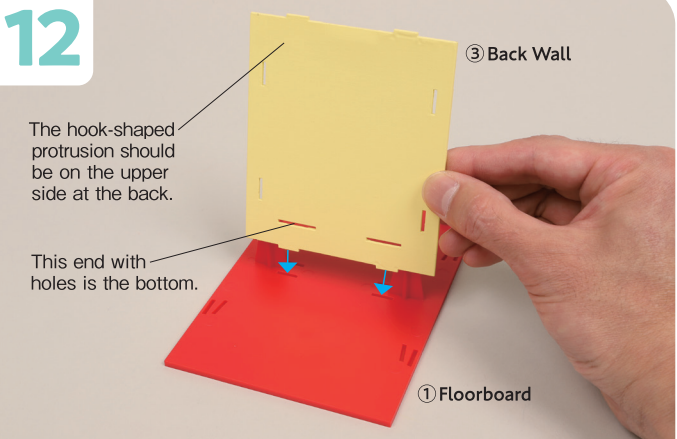

The ice cream Showcase is now complete. Next, we need to assemble the Back Wall and Floor to the Floorboard to display the Showcase.

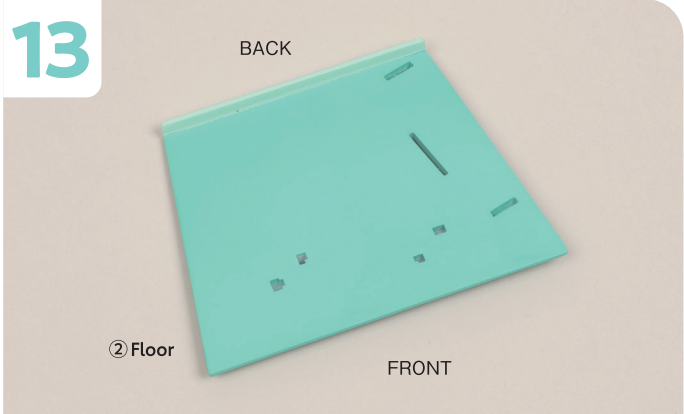

ASSEMBLING THE BACK WALL AND FLOOR

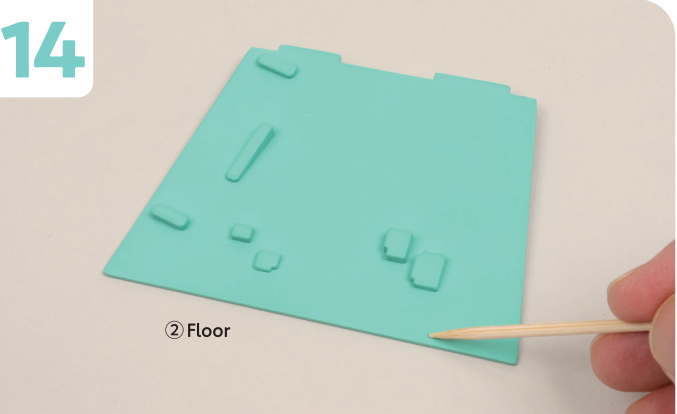

Make sure the ① Floorboard is facing the correct direction by referring to its protrusions circled in blue.

Apply quick-drying glue to the grooves of the ① Floorboard to assemble it with the ③ Back Wall. Make sure the ③ Back Wall is facing the correct direction.

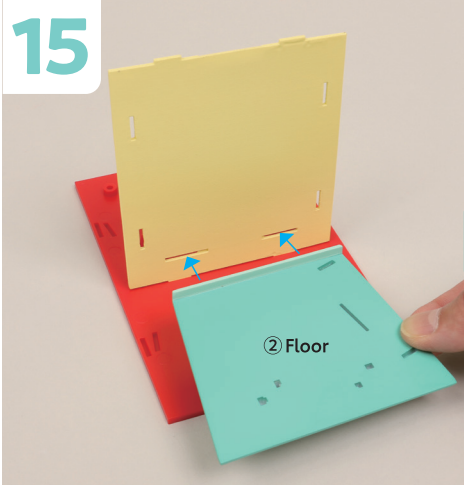

Check the orientation of the ② Floor.

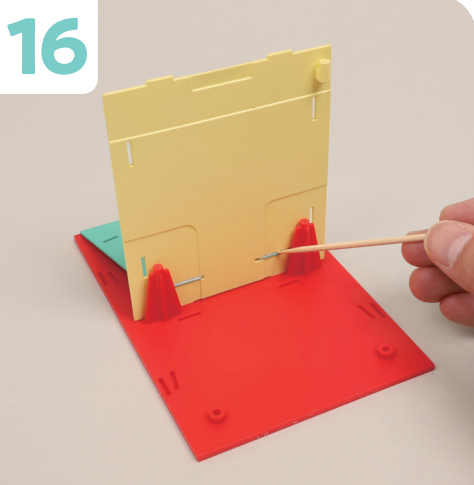

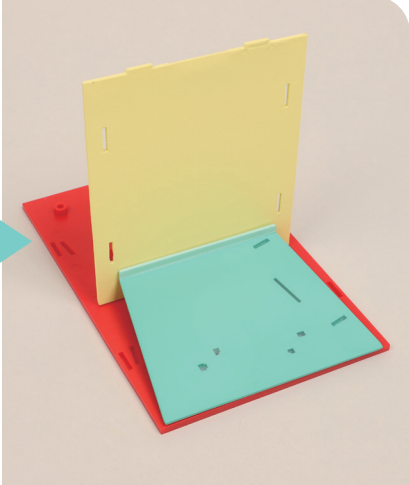

Apply a little quick-drying glue to the front edge at the back of the ② Floor with the tip of a toothpick or the like.

Assembling the Back Wall and Floor

Before the glue dries, assemble the ② Floor by inserting its protrusions at the back into the holes on the Back Wall.

Apply a little quick-drying glue to the holes where the Floor protrusions are inserted at the back of the Back Wall to secure it.

Finally, we can assemble the Showcase to the scene. Insert the protrusions under the ice cream Showcase into the holes on the Floor. If it tends to come off, use quick-drying glue to secure it in place.

Issue 24 Completed

Now that we have assembled the Back Wall, Floor and Showcase for the [Ice Cream] scene, we can proceed to assemble the remaining parts in the next issue.

Adding the figurine

Let's display the ⑧ Sally figurine. Apply quick-drying glue to the bottom of her feet and insert them into the holes on the left side of the Floor.
