【Summer, Brick Wall】

Assembling the Floorboard, Back Wall and Clouds

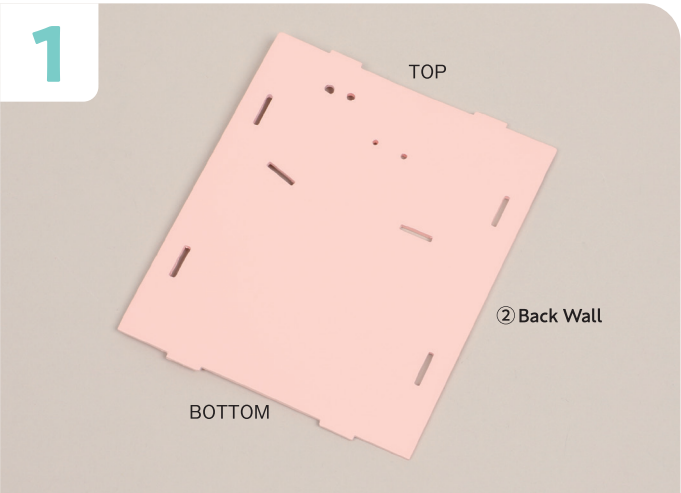

Make sure the ① Floorboard is facing the correct direction by referring to the grooves circled in blue.

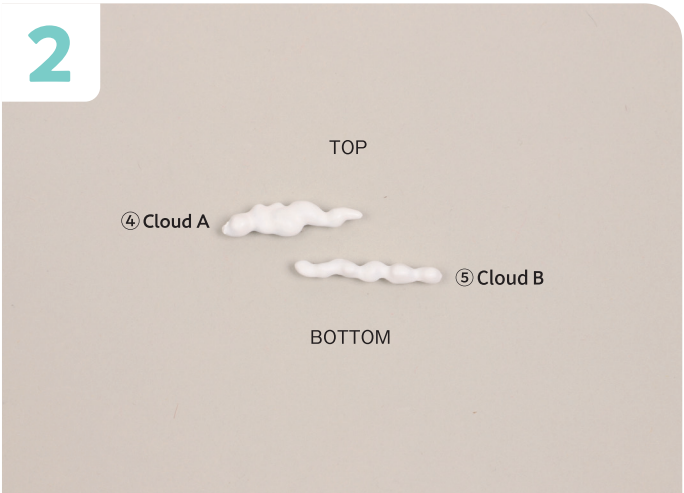

Apply quick-drying glue to the grooves of the ① Floorboard and assemble the ② Back Wall as before.

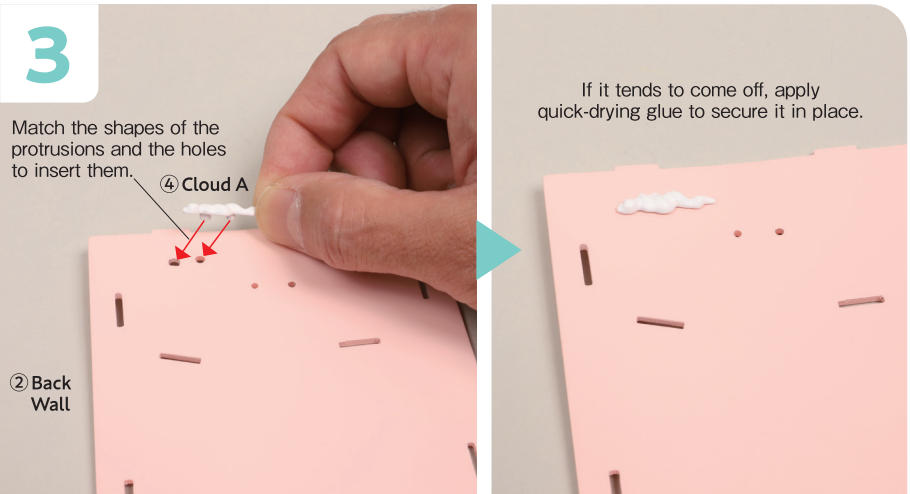

ASSEMBLING THE FLOORBOARD, BACK WALL AND CLOUDS

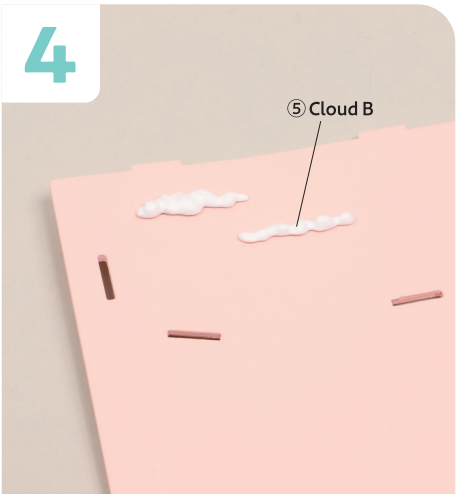

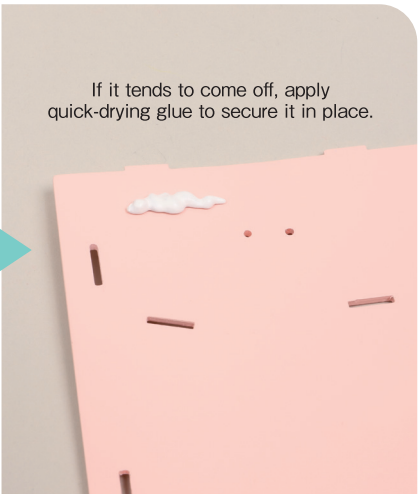

Check the orientation of the ② Back Wall.

④ Cloud A and ⑤ Cloud B look similar, so be careful not to mix them up.

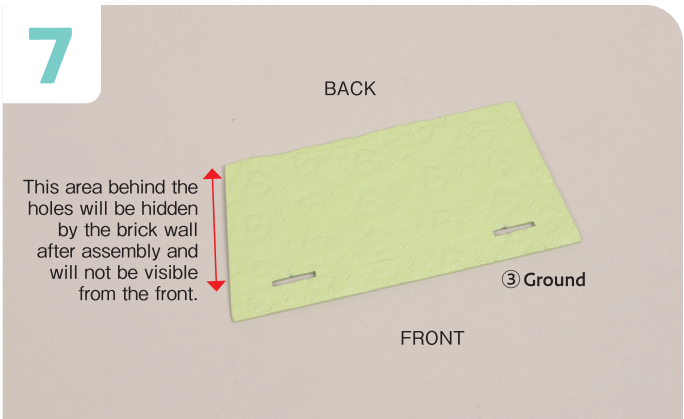

Fit ④ Cloud A into the top left corner of the ② Back Wall. Match the shapes of the protrusions and the holes to insert them.

Fit ⑤ Cloud B into the ② Back Wall in the same way.

MAKING THE GROUND

Make sure the ③ Ground is facing the correct direction.

Now sprinkle green Powder on the Ground. First, get ready the remaining Powder from issue 11 and pour it out on a palette or the like.

Squeeze out about half a teaspoon of glue on a palette or the like, add an equal amount of water and a few drops of neutral detergent and mix well. Any ordinary neutral detergent will do, or you can use soapy water instead.

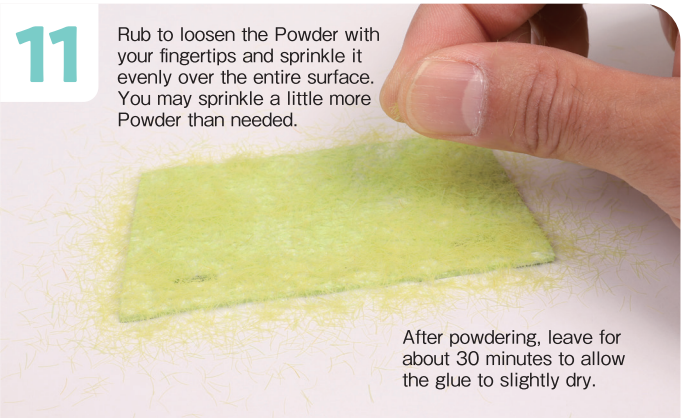

Use a brush to apply the glue from step 9 to the entire surface of the ③ Ground, a little more on the edges or where the Powder tends to come off.

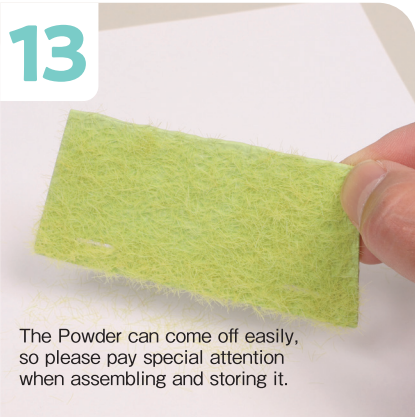

Making the Ground

We can now sprinkle the Powder prepared in step 8. Take a little Powder at a time, rub to loosen it with your fingertips and sprinkle it evenly over the entire surface.

When the glue has dried slightly after 30 minutes, gently press the Powder with your fingertips. Then leave for half to one day to allow the glue to completely dry.

When the glue is completely dry, gently shake off the excess Powder on some unwanted paper.

The two holes in the Ground will be assembled with a short brick wall in the next issue – use tweezers or the like to remove the Powder clog-ging up the holes.

Issue 26 Completed

We will display the ⑧ Lucy figurine after the Ground and brick wall are assembled in the next issue.

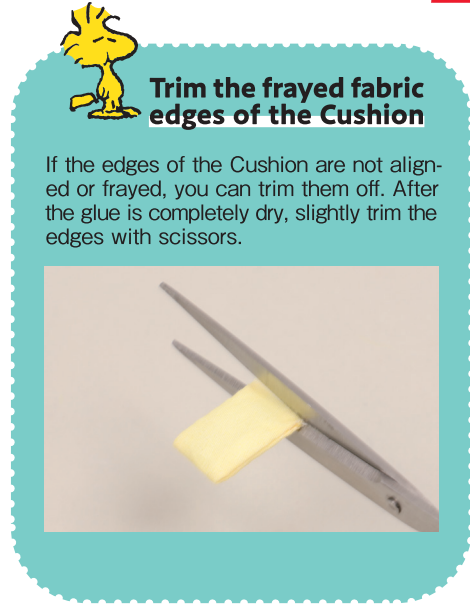

Making the Cushions

On the inside of the cushion opening, apply about 1mm width of glue.

Align the two edges and glue up the opening, then hold it with a paper clip or the like until the glue dries.

Trim the frayed fabric edges of the Cushion

If the edges of the Cushion are not aligned or frayed, you can trim them off. After the glue is completely dry, slightly trim the edges with scissors.

Make the remaining Cushions in the same way. We will need four of them in total.

Take out the Bed from the 【3 Brothers】 scene and place a Cushion behind a figurine.

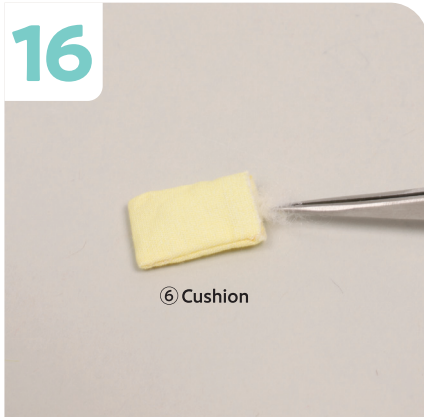

If it comes off easily, you can fix it to the headboard with double-sided tape.

MAKING THE CUSHIONS

The amount of one ⑦ Cotton can make one Cushion. Tear it into pieces of appropriate size and stuff them into the Cushion.

Tear the ⑦ Cotton and stuff it inside the ⑥ Cushion. You can use tweezers to do it.

You can stuff the Cotton in with the tips of the tweezers. Make sure to stuff the corners as well.

Use double-sided tape or quick-drying glue if the figurines tend to come off.

Place the Cushions evenly behind the remaining figurines in the same way.

Issue 26 Completed

Put the Bed in the scene and you are done. Next, secure the Bed and Cabinet with quick-drying glue.
