The parts in this issue are the Short Wall, the Slope behind, the Tree and the Left and Right Walls for the【Summer, Brick Wall】scene. And the figurine is Charlie Brown for the【Brick Wall】scene.

Figurine

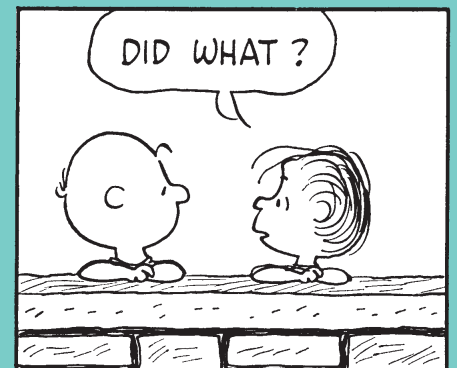

Charlie Brown

Figurine for the
【Brick Wall】scene

SHORT WALL, SLOPE, TREE, LEFT & RIGHT WALLS

We will assemble the Slope, Ground and Short Wall, and set the Tree in the【Brick Wall】scene. Then we will assemble the Left and Right Walls.

One of the classic scenes from PEANUTS is the gang talking together while leaning on a short brick wall. Charlie Brown often has numerous troubles and regrets to share with Linus, who lends his friend a sympathetic ear.

ASSEMBLY INSTRUCTIONS

【Summer, Brick Wall】

Assembling the Short Wall, Slope, Tree, Left and Right Walls

We will assemble the Slope, Ground and Short Wall, and set the Tree in the 【Brick Wall】 scene. We will assemble the Left and Right Walls as well.

① Left Wall ② Right Wall ③ Slope ④ Short Wall ⑤ Tree 【Figurine】 ⑥ Charlie Brown

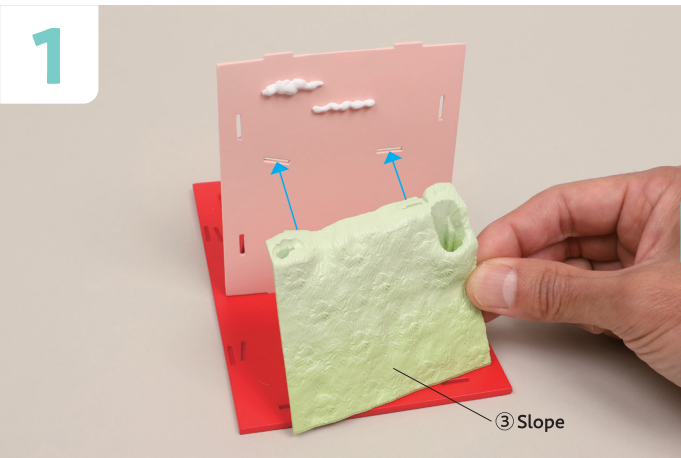

Parts of issue 27

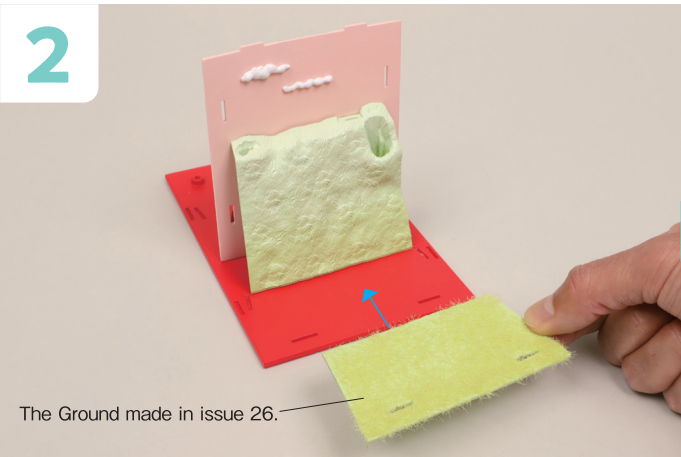

【Summer, Brick Wall】

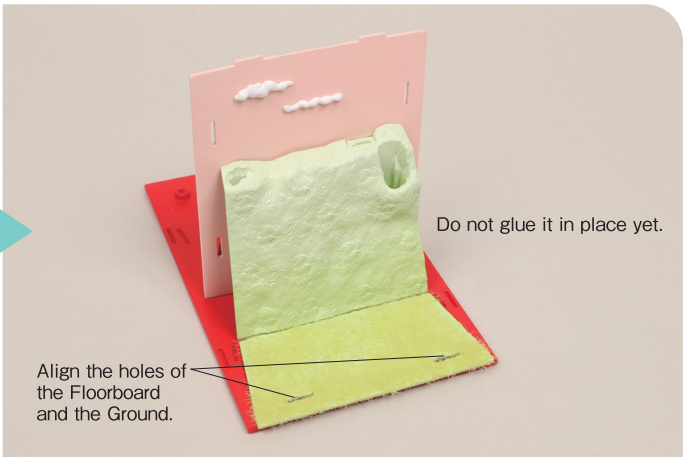

ASSEMBLING THE SHORT WALL, SLOPE, TREE, LEFT & RIGHT WALLS

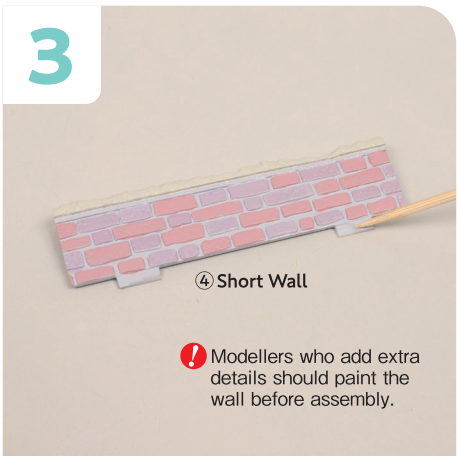

Get ready the 【Brick Wall】 scene assembled in issue 26 and assemble it with the ③ Slope by inserting its two protrusions into the holes in the Back Wall.

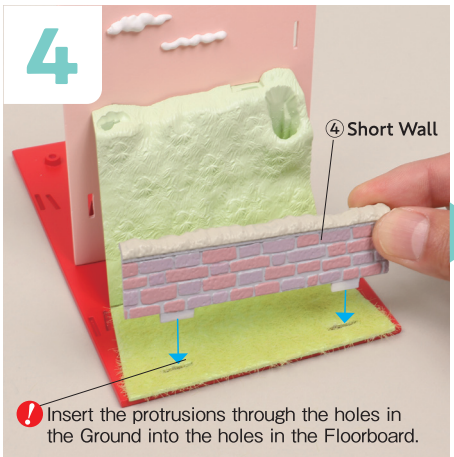

Get ready the Ground made in issue 26, lay it on the Floorboard and align the holes.

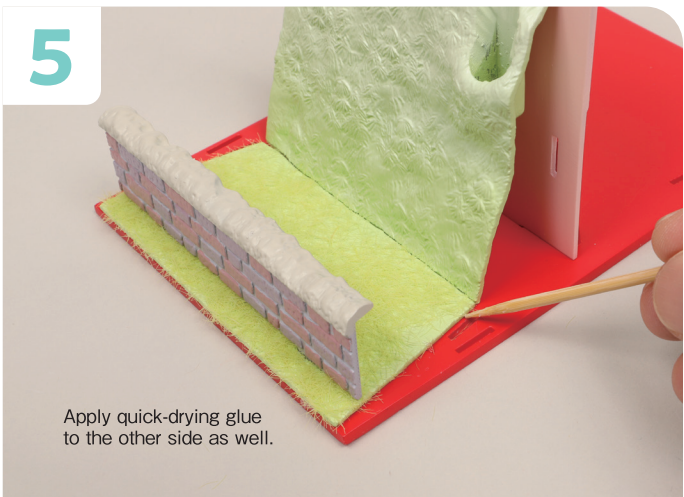

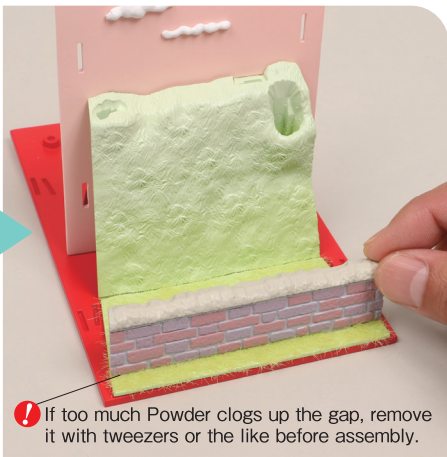

Assembling the Short Wall, Slope, Tree, Left and Right Walls

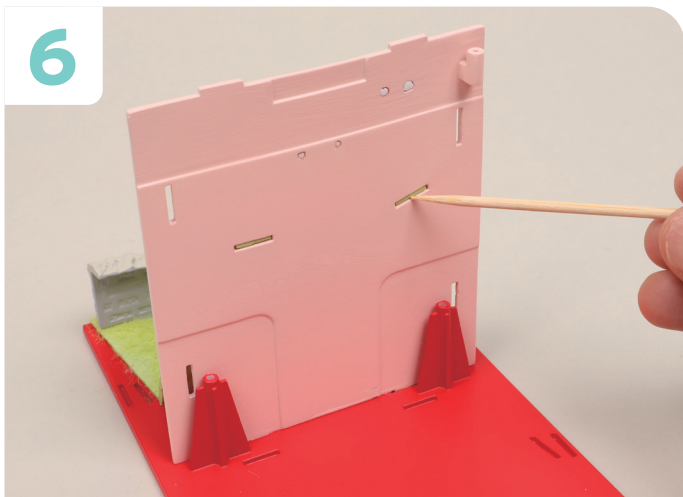

Apply a little quick-drying glue to the protrusions of the ④ Short Wall with the tip of a toothpick or the like.

Before the glue dries, assemble it to the Ground by inserting its protrusions through the holes in the Ground into the holes in the Floorboard.

Use the tip of a toothpick or the like to apply a little quick-drying glue to the Ground's edge where it meets the Floorboard. Let the glue soak into the gap so that the Ground and the Floorboard are glued together.

Also apply quick-drying glue to the holes at the back of the Back Wall where the Slope's protrusions are inserted.

Assemble the ⑤ Tree by inserting its lower end into the hole of the Slope.

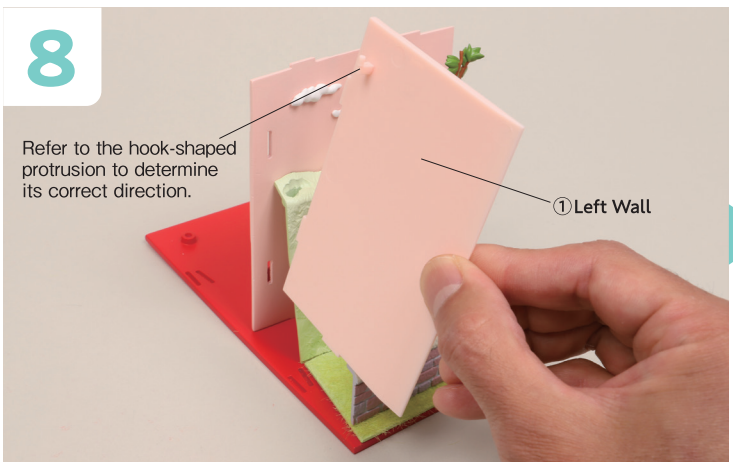

ASSEMBLY INSTRUCTIONS

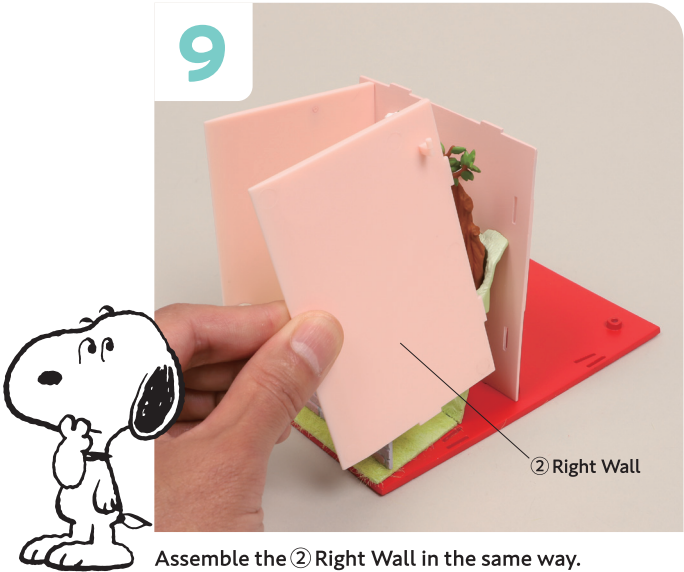

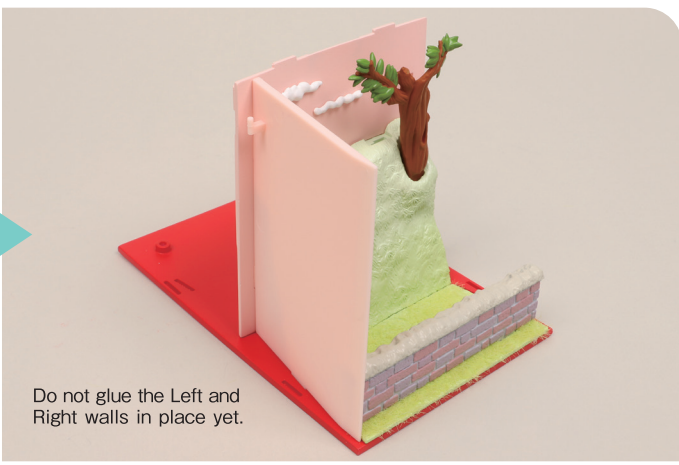

【Summer, Brick Wall】

Assembling the Short Wall, Slope, Tree, Left and Right Walls

Assemble the ① Left Wall to the Floorboard as before.

Assemble the ② Right Wall in the same way.

Issue 27 Completed

The Short Wall and Slope have now been added to the 【Brick Wall】 scene. The rest will be assembled in the next issue.

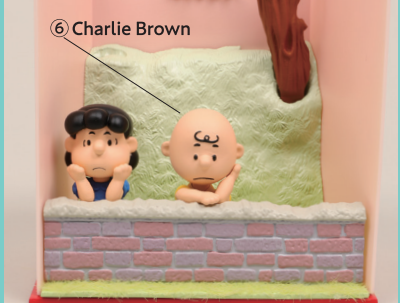

Let's display the figurine to have a look

Place the Lucy figurine from issue 26 behind the Short Wall. Align her elbows with the indentations on the wall to set her in position.

Align her elbows with the indentations on the Short Wall.

Place the ⑥ Charlie Brown figurine next to her in the same way.

For those who wish to add extra details to the Short Wall and Tree

Modellers who wish to can give their scene a personal touch by adding extra details. Here's an example using acrylic paints to enhance some shading.

Before

After

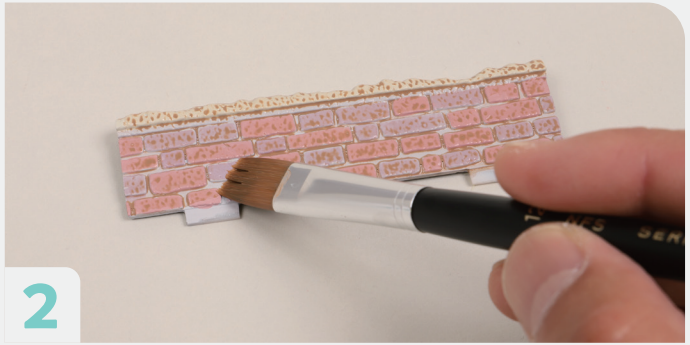

1

Dissolve grayish brown paint in about five times water, add a few drops of neutral detergent and mix well. Neutral detergent can be replaced by soapy water.

2

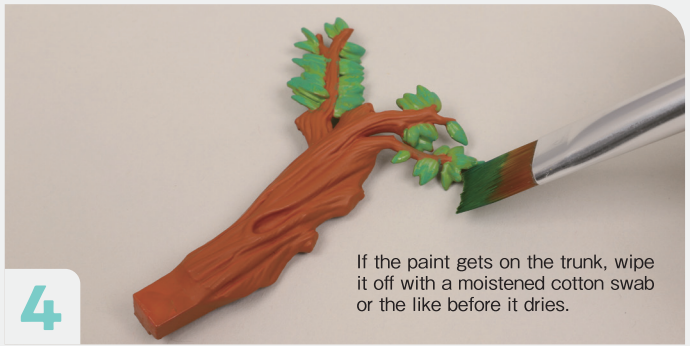

Apply the paint to the entire surface of the Brick Wall with a paintbrush. If there is too much paint on an area, wipe it off with tissue or the like before it dries.

3

Squeeze out spring blue and permanent yellow green paints in a 2:1 ratio, add 2~3 drops of neutral detergent and mix well. We will make the leaves a darker green colour.

4

If the paint gets on the trunk, wipe it off with a moistened cotton swab or the like before it dries.

5

Now paint the trunk dark brown. Squeeze out burnt sienna and lamp black paints in a 2:1 ratio, add 2~3 drops of neutral detergent and mix well.

6

Paint the trunk area as in Step 4.
