- ⑧ Ground ⑨ Grass Sheet ⑩ Flower Sheet A ⑪ Flower Sheet B 【Figurine】 ⑫ Linus

MAKING THE GROUND

1

⑨ Grass Sheet

We will need about 6 pieces each of Grass A and Grass B. The rest are for spares.

Use a cutter to cut and remove two types of Grass from the joints of the ⑨ Grass Sheet.

2

⑩ Flower Sheet A ⑪ Flower Sheet B

Remove the large and small flowers from ⑩ Flower Sheet A and ⑪ Flower Sheet B in the same way.

3

BACK

⑧ Ground

FRONT

Check the orientation of the ⑧ Ground. We need to stick the Grass pieces and flowers to its front and left sides.

4

Let the Grass protrude from the bottom and right side and stick it in a well-balanced manner.

We will start sticking the Grass pieces from the right side on the front. Work with 1 Grass piece first, take care to stick it in a well-balanced manner.

5

Stick two types of Grass in a similarly balanced manner. The trick is to create variations by overlapping the adjacent pieces and making them protrude from the top and bottom of the Ground.

Making the Ground

6

Stick the Grass pieces on the corner and the left side in the same way.

7

Now stick the flowers from the Flower Sheets. Starting from the right side on the front, stick the flowers from ⑪ Flower Sheet B between the Grass pieces in a well-balanced manner.

8

Stick the flowers from ⑩ Flower Sheet A in the same way.

9

Do not stick the left rear side, as we need to save some flowers for other areas.

Stick the flowers from ⑩ Flower Sheet A and ⑪ Flower Sheet B to the remaining area in the same way. Do not stick the left rear side, as we need to save some flowers for other areas.

10

The leaves can be cut to any suitable size.

Refer to page 5 and stick fewer pieces to areas hidden by the figurines.

You can also stick the remaining flowers and Grass pieces to the top surface of the Ground. Confirm the areas that will be hidden by the figurines and stick them mainly to the front in a well-balanced manner.

11

Remove the protruding parts of the Grass.

Use a cutter or the like to trim off any parts of the Grass that protrude from the bottom of the Ground. Carefully cut along the bottom edge of the Ground with a cutter as shown to remove the Grass pieces.
