

【Break Time, Eating Together】

Stool, Kitchen Towel

【Spring/Fall, Easter/3 Brothers】

Ceiling, LEDs

In this issue

In this issue

The parts in this issue are the Stool and the Kitchen Towel to be displayed on it in the 【Eating Together】 scene. Also included are the Ceiling and LED parts for the 【Easter/3 Brothers】 scene.

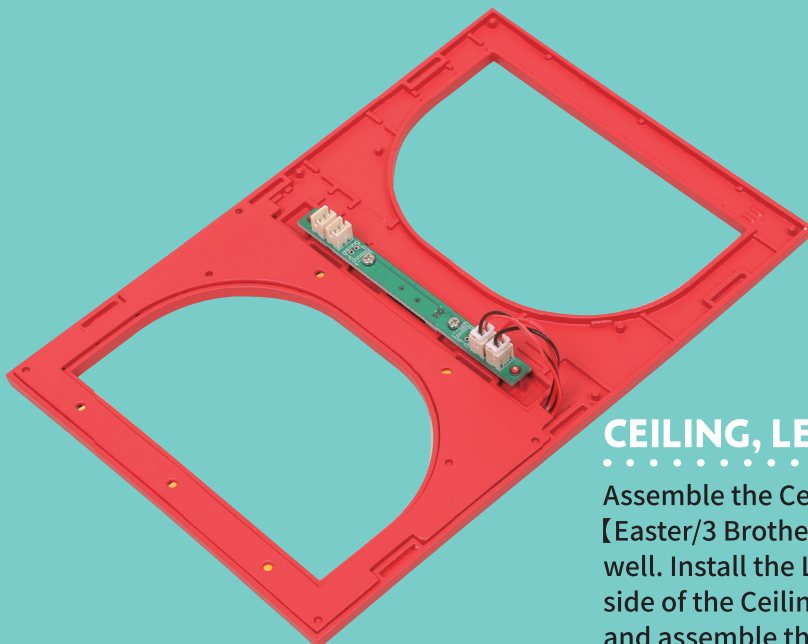

STOOL

We will assemble the Stool in front of the Kitchen Cabinets in the 【Eating Together】 scene by fitting the Stool Legs and other parts to the Seat.

KITCHEN TOWEL

Also make the Kitchen Towel to be displayed on the Stool in the 【Eating Together】 scene by folding the Cloth into a balanced shape.

CEILING, LEDs

Assemble the Ceiling of the 【Easter/3 Brothers】 scene as well. Install the LEDs on one side of the Ceiling Top Panel and assemble the Inner Panel.

Making the Stool and Kitchen Towel

【Spring/Fall, Easter/3 Brothers】

Assembling the Ceiling and LEDs

We will assemble the Stool and display the Kitchen Towel in the 【Eating Together】 scene, and assemble the LEDs into the Ceiling panels of the 【Easter/3 Brothers】 scene.

Parts of issue 36

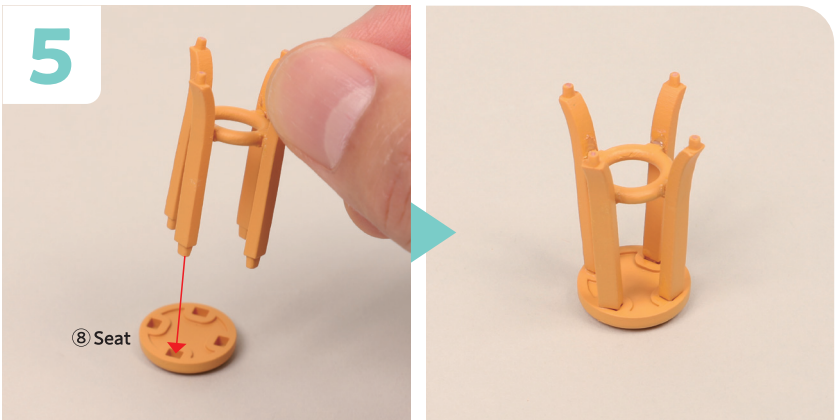

- ① Ceiling Top Panel ② Inner Panel ③ Circuit Board ④ Screw (PM2×4 mm)×3 (1 for spare)
⑤ Short Cable with LEDs ⑥ Long Cable with LEDs ⑦ Stool Leg×4 ⑧ Seat ⑨ Round Frame ⑩ Cloth

【Break Time, Eating Together】

Assembling the Stool

Fit the assembly from step 4 to the 8 Seat by inserting the protrusions at the top ends of the legs into the holes on the back of the Seat.

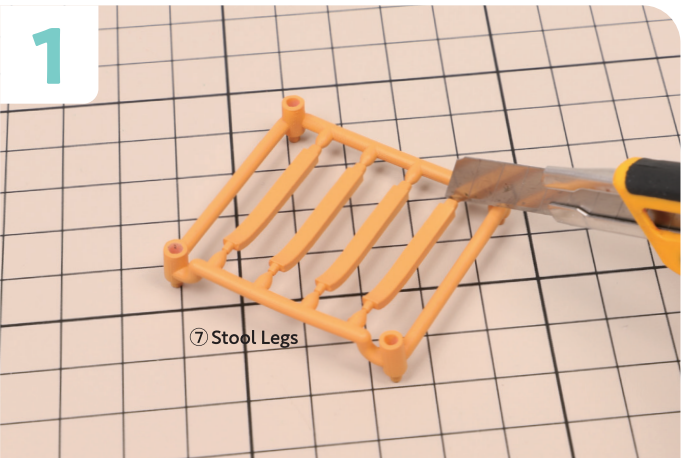

Issue 36 Completed

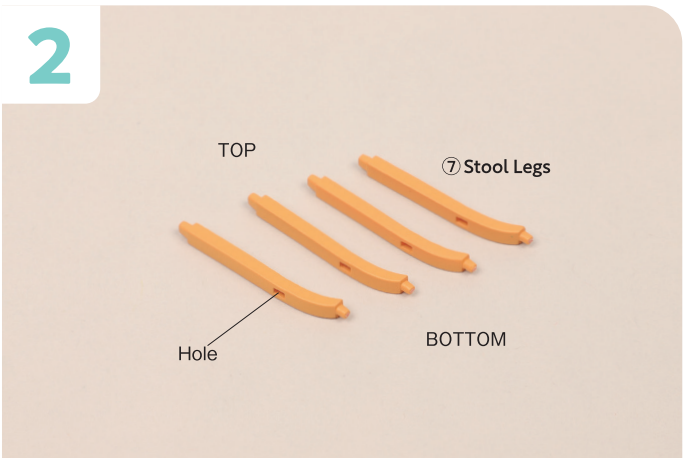

That completes the Stool for the 【Eating Together】 scene. Let's move on to make the Kitchen Towel.

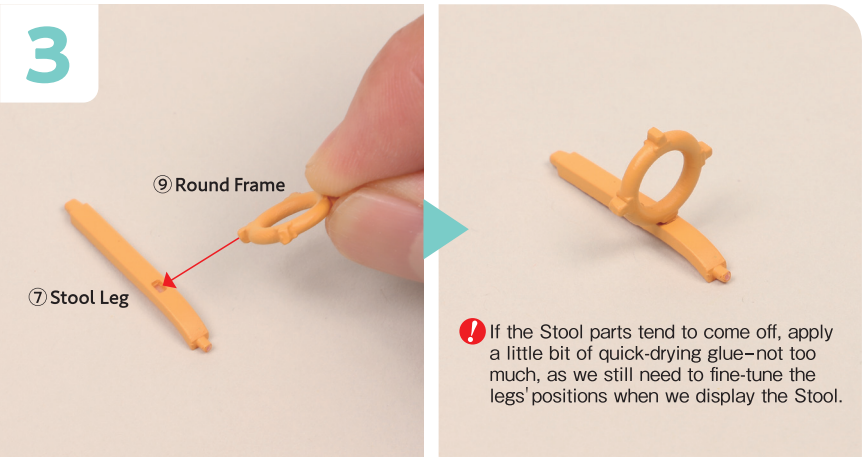

ASSEMBLING THE STOOL

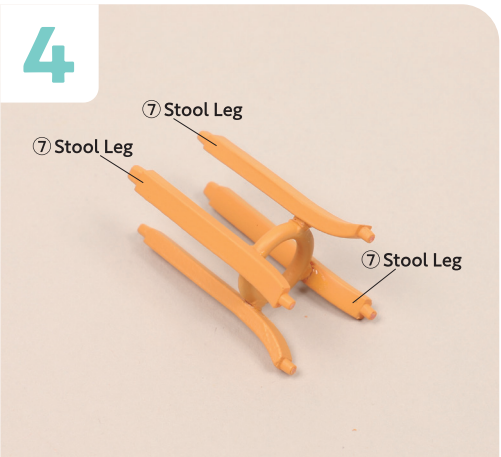

Use a cutter to cut and remove the 7 Stool Legs from the joints.

The end with a hole is the lower end of the 7 Stool Leg. Be careful not to mistake the upper and lower ends.

Fit the 9 Round Frame to the 7 Stool Leg by inserting its protrusion into the hole in the leg. If it tends to come off, apply a little quick-drying glue to secure it in place.

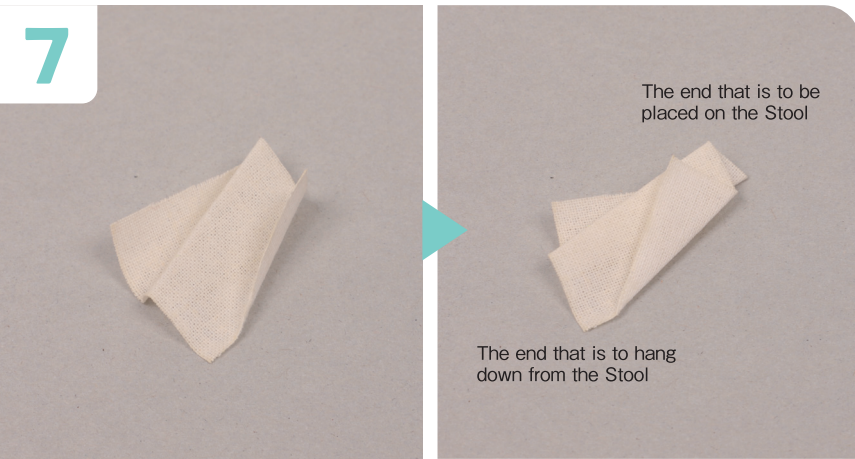

Fit the other three protrusions of the Round Frame to the 7 Stool Legs in the same way.

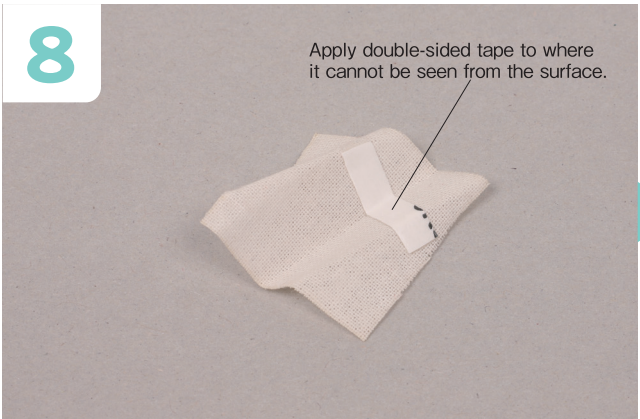

MAKING THE KITCHEN TOWEL

Apply twice as much water-dissolved wood glue to one side of the 10 Cloth as before.

Now fold the Cloth roughly as shown above. Referring to step 10 on page 4, the end to be placed on the Stool is narrower and the other end hanging down from the Stool is wider. Fold it into a balanced shape when you display it.

To prevent the folded Cloth from popping open or up, apply double-sided tape to its back as shown on the left photo, then fold and shape it again.

ASSEMBLY INSTRUCTIONS

【Spring/Fall, Easter/3 Brothers】

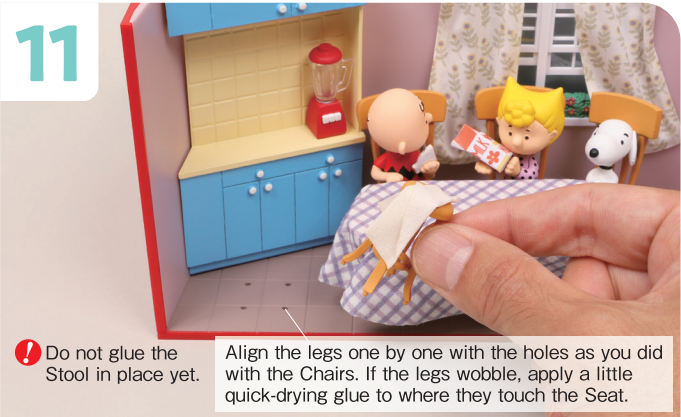

Making the Kitchen Towel

We can now display the Cloth on the Stool. First, apply double-sided tape over the Seat as shown.

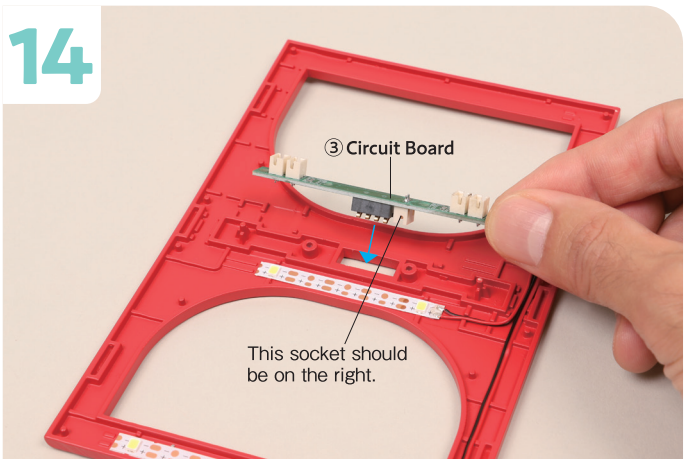

Peel off the double-sided tape backing and apply it to the Cloth from step 8 (see left photo). Let one end hang down and balance the shape to make it look natural (see right photo).

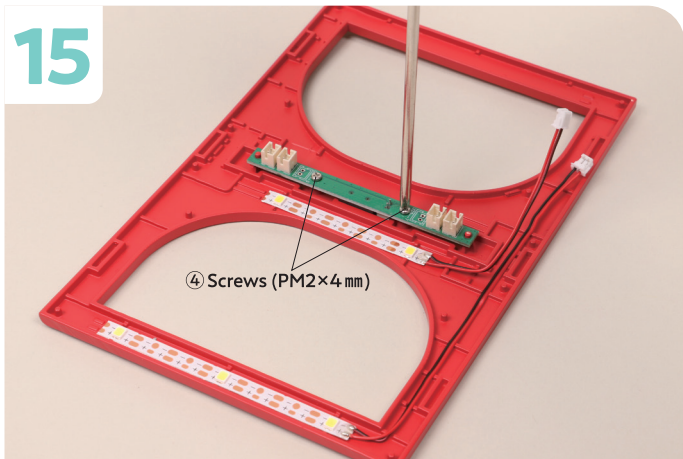

Display the Stool on the left of the【Eating Together】scene by inserting its protrusions at the legs' ends into the holes in the floor. The Kitchen Towel should hang to the left of the front.

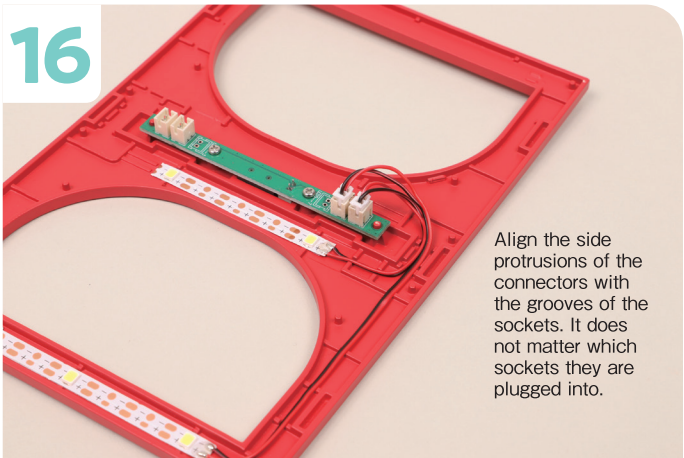

Assembling the Ceiling and LEDs

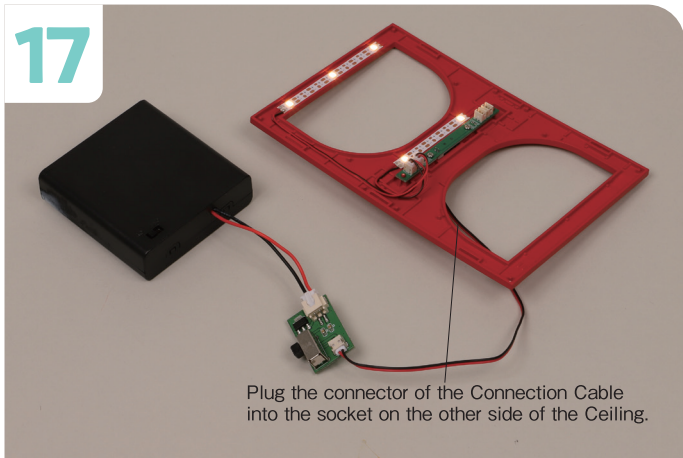

Now assemble the ③ Circuit Board into the Ceiling as before. Fit its terminal part into the hole in the Ceiling and insert the Ceiling's protrusions into its holes on the left and right.

Tighten the ④ Screws (PM2×4 mm) one by one into the two holes in the Circuit Board.

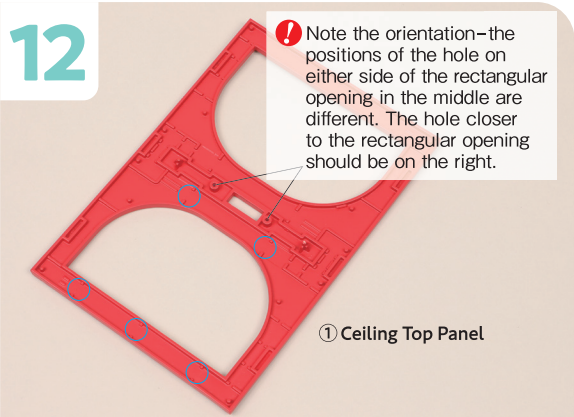

Plug the connectors of the two Cables with LEDs into the sockets on the Circuit Board as before.

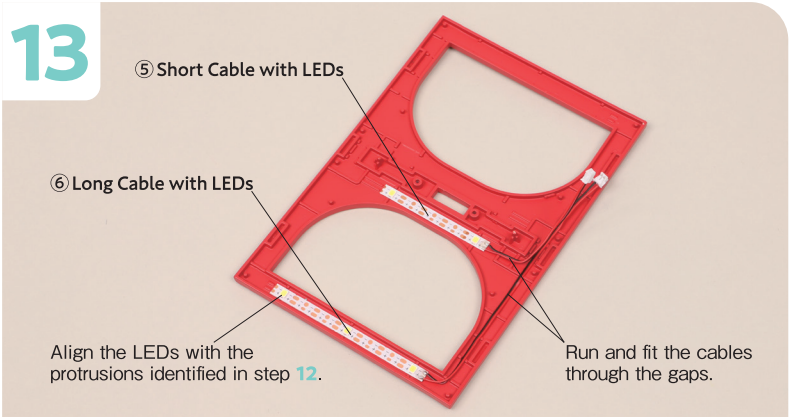

Plug the connector of the Connection Cable into the socket on the other side of the Ceiling, then connect it to the Battery Box and check if the LEDs light up properly.

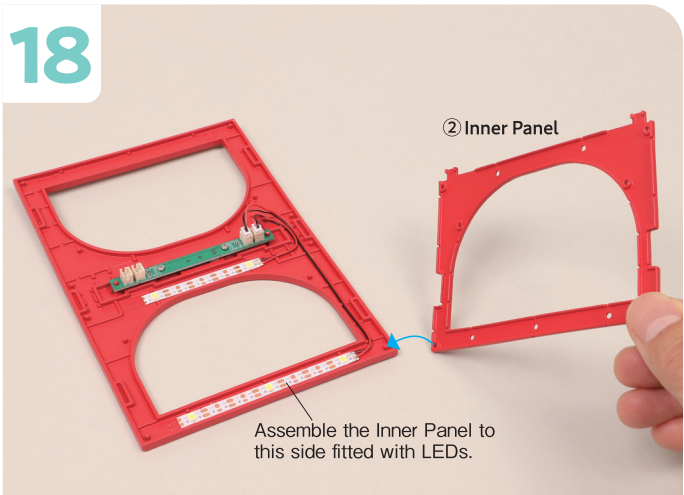

ASSEMBLING THE CEILING AND LEDS

Identify the protrusions circled in blue on the inner side of the ① Ceiling Top Panel. Align the LEDs with these protrusions and affix the Cables with LEDs.

Align the LEDs with the protrusions identified in step 12, then fit and affix the ⑤ Short Cable with LEDs and ⑥ Long Cable with LEDs into the indentations in the Ceiling as before.

Disconnect the Battery Box and fit the ② Inner Panel to the Ceiling. If it tends to come off, apply a little quick-drying glue to secure it in place.
