Displaying the Mugs and Cutlery

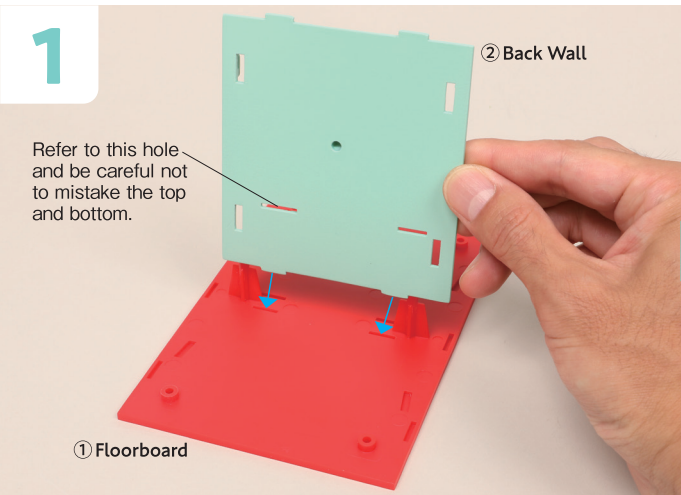

We will start to assemble the 【Kite-flying】 scene by sprinkling some green Powder on the Ground and assembling it with the Floorboard and Back Wall. We will also display the Mugs and Cutlery in the 【Eating Together】 scene.

Parts of issue 39

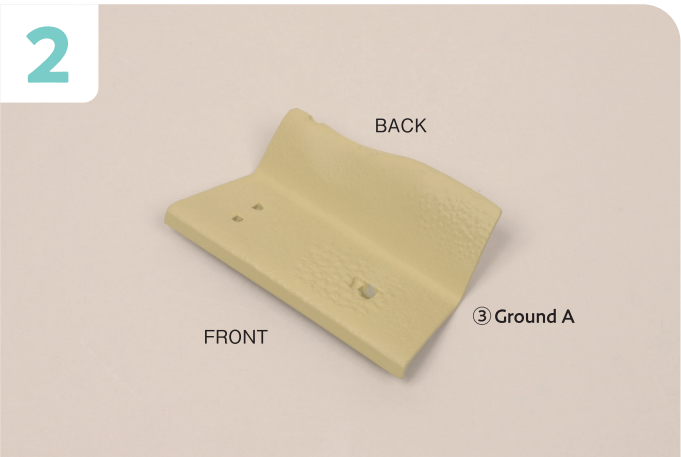

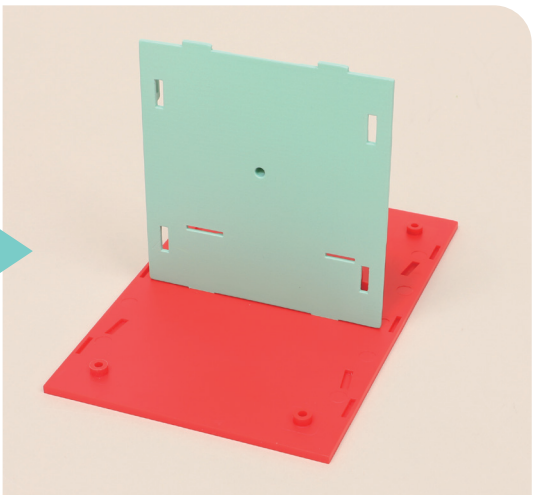

- ① Floorboard ② Back Wall ③ Ground A ④ Powder ⑤ Ground B ⑥ Large Mug ⑦ Small Mug×2 ⑧ Fork ⑨ Spoon×2 【Figurine】 ⑩ Snoopy

ASSEMBLING THE FLOORBOARD, BACK WALL AND GROUND

Apply quick-drying glue to the grooves of the ① Floorboard and assemble it with the ② Back Wall as before.

Check the orientation of ③ Ground A.

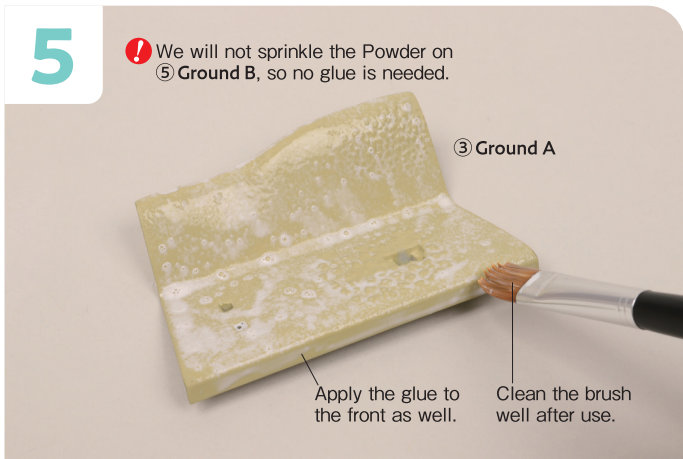

Now sprinkle the green Powder on the Ground. First, pour about 1 tablespoon of the ④ Powder on a palette dish or the like.

Assembling the Floorboard, Back Wall and Ground

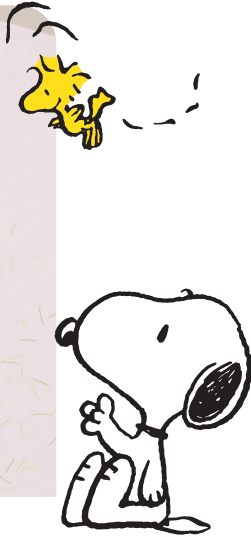

Squeeze out about 1 teaspoon of wood glue on a palette dish or the like, add an equal amount of water and a few drops of neutral detergent, and mix well. Any ordinary neutral detergent will do, or you can use soapy water instead.

Use a brush to apply the glue prepared in step 4 to the entire surface of ③ Ground A, a little more on the front as the Powder tends to come off there.

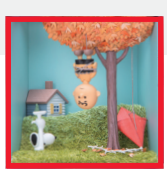

Now sprinkle the Powder prepared in step 3. Take a little Powder at a time and rub to loosen it with your fingertips while sprinkling. Sprinkle it over the entire surface as evenly as possible.

When the glue dries slightly after 30 minutes, gently press the Powder with your fingertips, then leave it for half to one day to allow the glue to dry completely.

After the glue is completely dry, lightly brush off the excess Powder and unclog the holes using tweezers or the like.

Assembling the Floorboard, Back Wall and Ground

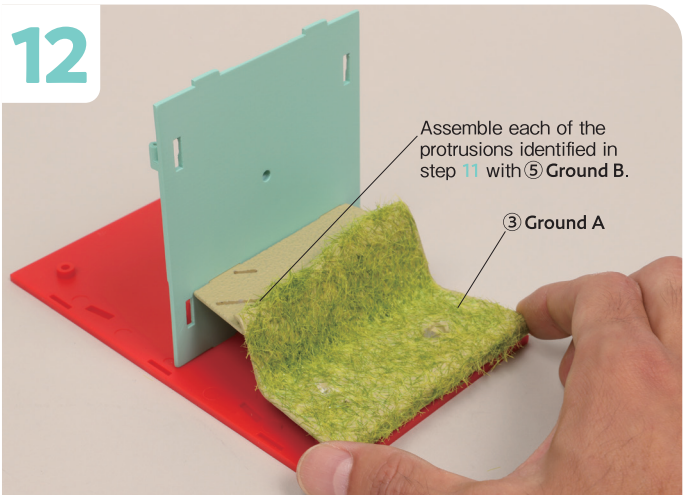

Check the orientation of 5 Ground B.

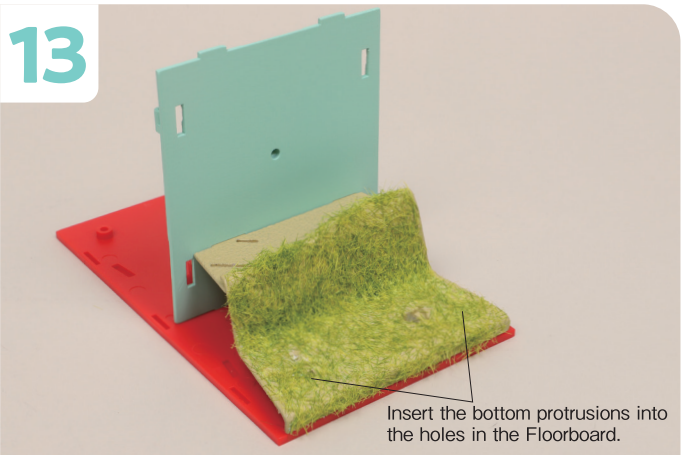

Fit 5 Ground B to the Back Wall of the assembly in step 1 by inserting its protrusions into the holes in the wall.

Identify the protrusions on the inner side of 3 Ground A and apply a little quick-drying glue to the protrusions on the underside.

Now assemble 3 Ground A to the Floorboard. First, assemble each of its protrusions identified in step 11 with 5 Ground B.

Insert the bottom protrusions coated with quick-drying glue in step 11 directly into the holes in the Floorboard. Lifting 3 Ground A slightly will make it easier to assemble.

Issue 39 Completed

The Ground has now been assembled onto the Floorboard. In the next issue, we will assemble a House and other items in the background, and the Left and Right Walls as well.

Adding the figurine

Let's display the 10 Snoopy figurine in the 【Kite-flying】scene. Apply a little quick-drying glue to his protrusions and insert them into the holes in the Ground as shown.

DISPLAYING THE MUGS AND CUTLERY

We can now put the Cutlery in the 6 Large Mug. First, put one 9 Spoon in it.

Put a 8 Fork and the rest of the 9 Spoons in the same way and space them evenly.

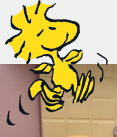

Display the 6 Large Mug on the Stool in the 【Eating Together】scene. You may apply a small piece of double-sided tape inside to secure the Cutlery in place.

Likewise, display two 7 Small Mugs on the Table in a well-balanced way.

Issue 39 Completed

More small items have now been added to the 【Eating Together】scene. We will display the Potted Herbs on the Kitchen Base Cabinet in the next issue to complete the scene.
