

【Fall, Kite-flying】

Left and Right Walls, House, Trees

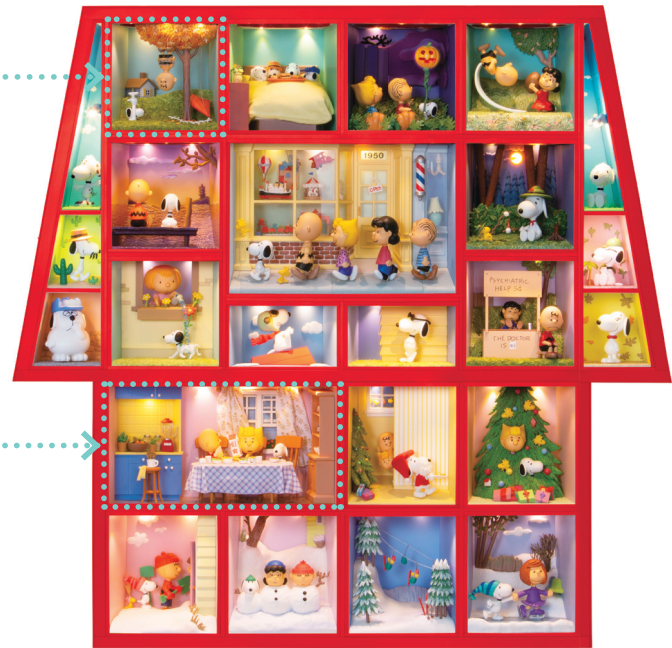

【Break Time, Eating Together】

Potted Herbs

In this issue

In this issue

The parts in this issue are the Kite-Eating Tree, the House and the Left and Right Walls for the 【Kite-flying】 scene. Also included are the parts of the Potted Herbs to be displayed on the Kitchen Base Cabinet in the 【Eating Together】 scene.

LEFT AND RIGHT WALLS, HOUSE, TREES

We will make the Kite-Eating Tree, the main part of the 【Kite-flying】 scene, assemble the Left and Right Walls onto the Floorboard and assemble the House and other parts on the Ground.

POTTED HERBS

We will also make the Potted Herbs to be displayed on the Kitchen Base Cabinet in the 【Eating Together】 scene by arranging the herb-patterned Leaves in the Large and Small Plant Pots in a well-balanced way.

ASSEMBLY INSTRUCTIONS

【Fall, Kite-flying】

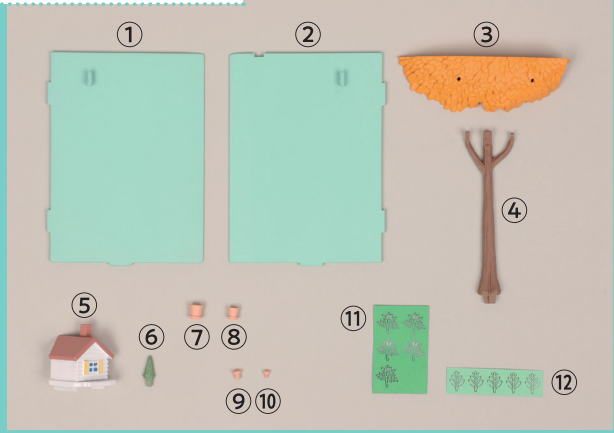

Assembling the Left and Right Walls, House & Trees

【Break Time, Eating Together】

Making the Potted Herbs

We will make the Kite-Eating Tree for the 【Kite-flying】 scene and assemble it, along with the Left and Right Walls, on the Ground and Floorboard. We will also make the Potted Herbs for the 【Eating Together】 scene.

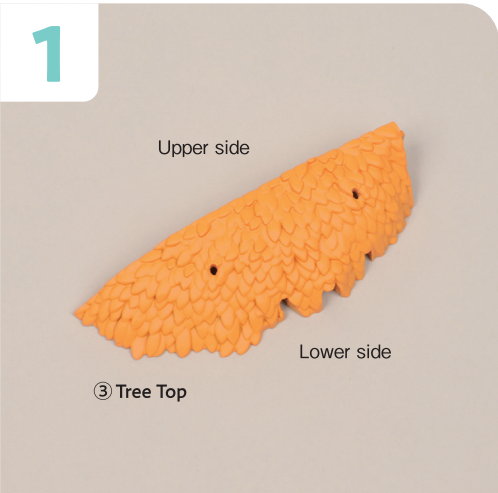

Parts of issue 40

- ① Left Wall ② Right Wall ③ Tree Top ④ Trunk ⑤ House ⑥ Small Tree ⑦ Large Plant Pot ⑧ Small Plant Pot ⑨ Large Potting Soil ⑩ Small Potting Soil ⑪ Large Leaves ⑫ Small Leaves

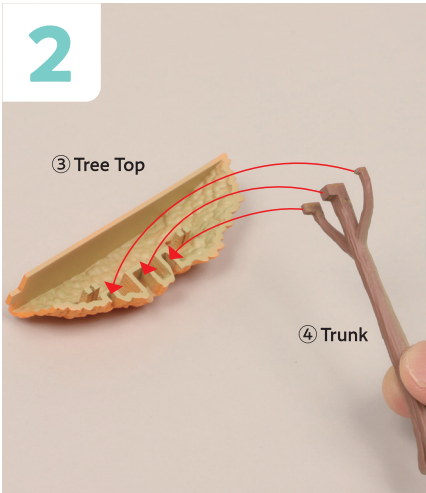

ASSEMBLING THE LEFT AND RIGHT WALLS, HOUSE AND TREES

1

Check the orientation of the ③Tree Top.

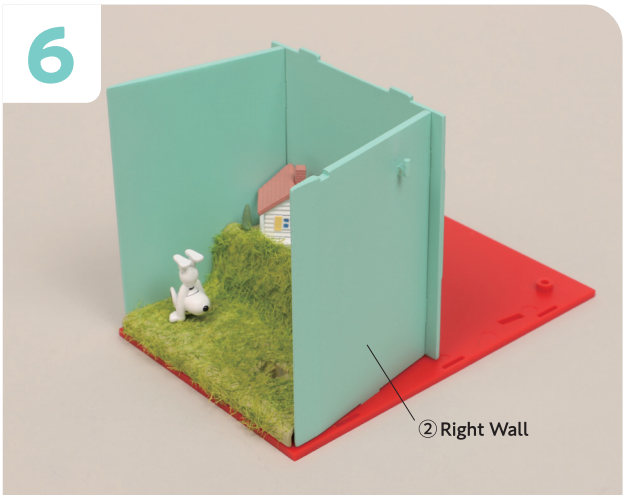

2

Fit the Trunk into the back of the ③Tree Top by inserting its three protrusions into the holes.

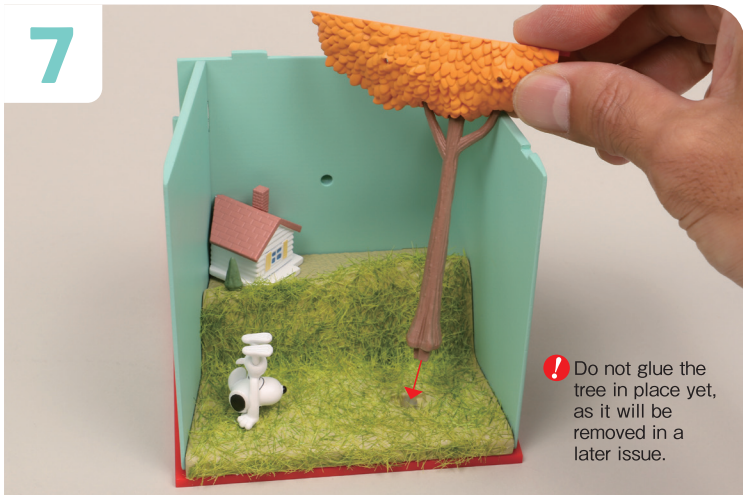

6

Assemble the ②Right Wall on the opposite side in the same way.

7

Check how the tree made in step 2 should be assembled. First, insert the protrusion at the lower end of the Trunk into the hole in the Ground. Do not glue the tree in place yet, as it will be removed in a later issue.

8

At the top of the tree, insert the protrusion on the right into the incision of the Right Wall.

Issue 40 Completed

The whole picture of the 【Kite-flying】 scene has become clearer with the addition of the Left and Right Walls, etc. We will make the Kite and other parts in the next issue.

MAKING THE POTTED HERBS

9

⑩ Small Potting Soil

⑧ Small Plant Pot

⑧ and ⑩ are the smaller ones.

If it tends to come off, apply a little quick-drying glue to secure it in place.

We will first make the Small Plant Pot. First, put the ⑩ Small Potting Soil into the ⑧ Small Plant Pot.

10

⑫ Small Leaves

We will use ⑫ Small Leaves for the Small Plant Pot. Use a cutter to cut and remove five leaves from the joints.

11

These two leaves are to be used directly.

These three leaves are to be cut in the middle and we will use the upper sides.

Two of the leaves are to be used directly, while the other three are to be cut in the middle and shortened as shown.

12

Long, uncut Small Leaves

Fold the root by about 1 mm and glue it on.

Glue two pieces of long, uncut Small Leaves to the plant pot of step 9 with wood glue.

Long, uncut Small Leaves

Glue them face-to-face.

13

Glue three shortened Small Leaves.

Evenly space three Small Leaves shortened in step 11 between the two leaves glued in step 12 and glue them.

14

⑨ Large Potting Soil

⑦ Large Plant Pot

We will make the Large Plant Pot in the same way. First, put the ⑨ Large Potting Soil into the ⑦ Large Plant Pot.

15

⑪ Large Leaves

Cut three of the leaves in the middle and use the upper sides. The remaining two leaves are to be used directly.

Cut and remove five leaves from the joints of the ⑪ Large Leaves and cut three of the leaves in the middle to shorten them.

Making the Potted Herbs

16

Glue the Large Leaves to the plant pot of step 14 as in steps 12-13.

17

If the Fruit Basket tends to come off, apply a little quick-drying glue to secure it in place. Or, if you would like to add extra painted details as below, leave them unglued for now.

We can now display the large and small Potted Herbs on the Kitchen Base Cabinet in the 【Eating Together】 scene. You may apply small pieces of double-sided tape to their bottoms to secure them in place.

Issue 40 Completed

The 【Eating Together】 scene is now complete with the addition of the Potted Herbs.

For those who wish to add extra details to the Fruit Basket

Modellers who wish to can add colours to the Fruit Basket made in issue 37. Let's start with the Bananas' stems.

Before

After

1

Mix brown with about 3 parts water and a few drops of neutral detergent, and apply it to the top and bottom edges of the Bananas to depict their stems and tips.

2

Press the Bananas down with a piece of tissue paper to remove any excess paint and adjust the colour.

Mix yellow-green with about 3 parts water and a few drops of neutral detergent, and apply it to the Bananas. Use a brush to apply the paint from their top and bottom edges to create the shades.

3

Apply the same paint from step 2 to the green fruits to add depth.

4

Mix orange with about 3 parts water and a few drops of neutral detergent, and apply it to the orange fruits in the same way.
