Floorboard, Back Wall, Clouds

【Fall, Kite-flying】

Leaves

【Figurine】

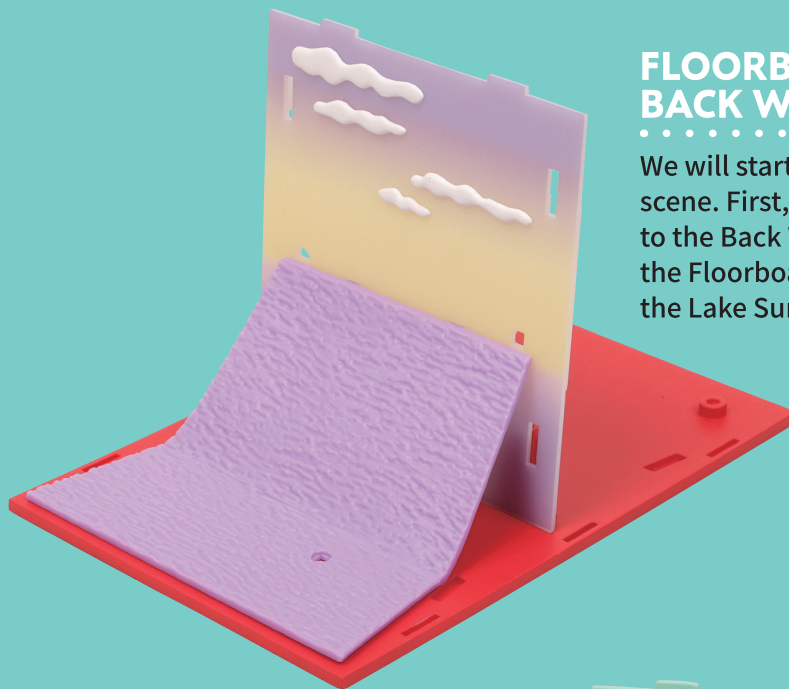

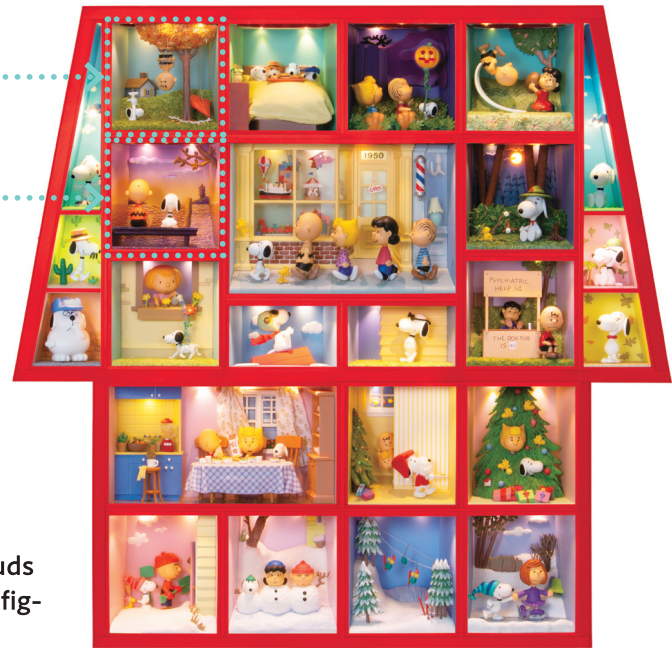

Charlie Brown

【Sunset】

The parts in this issue are the Floorboard, Back Wall and background Clouds for the 【Sunset】 scene. Also included are the Lake Surface parts, and the figurine is Charlie Brown for the same scene.

In this issue

In this issue

FLOORBOARD, BACK WALL, CLOUDS

We will start assembling the 【Sunset】 scene. First, assemble the Clouds to the Back Wall and the wall to the Floorboard. We will assemble the Lake Surface parts as well.

Figurine

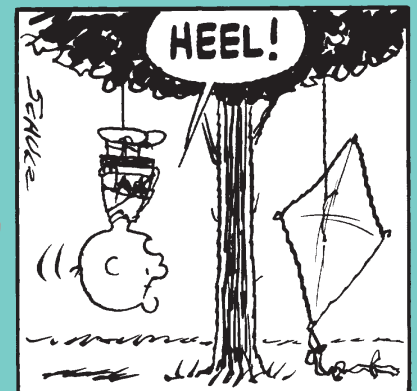

Charlie Brown

Figurine for the 【Sunset】 scene

LEAVES

In this issue, we also make the Leaves for the 【Kite-flying】 scene. Remove the Leaves from the Leaf Sheets and stick them to the tree and the Ground in a well-balanced manner to complete the scene.

ASSEMBLY INSTRUCTIONS

【Fall, Sunset】

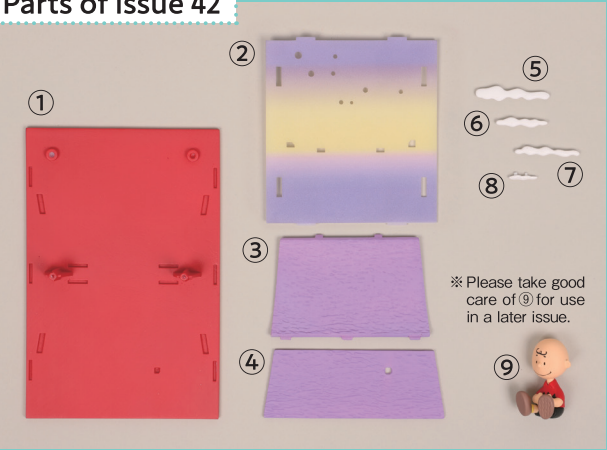

Assembling the Floorboard, Back Wall and Clouds

【Fall, Kite-flying】

Making the Leaves

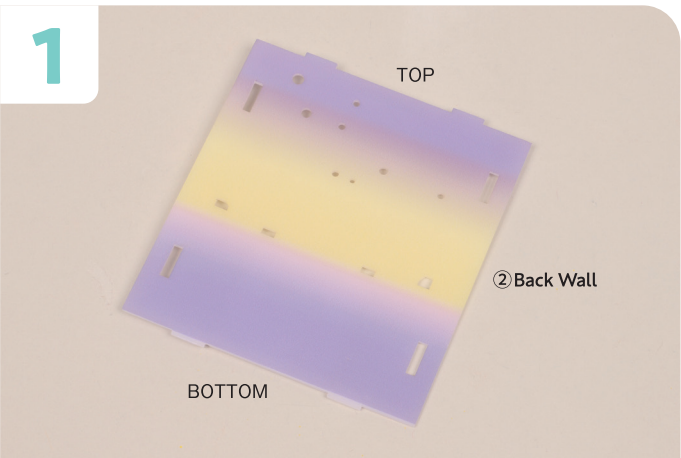

We will start assembling the 【Sunset】 scene by assembling the Clouds to the Back Wall and the wall to the Floorboard first. We will also remove the Leaves from the Leaf Sheets and stick them to the tree and the Ground in a well-balanced manner to complete the 【Kite-flying】 scene.

Parts of issue 42

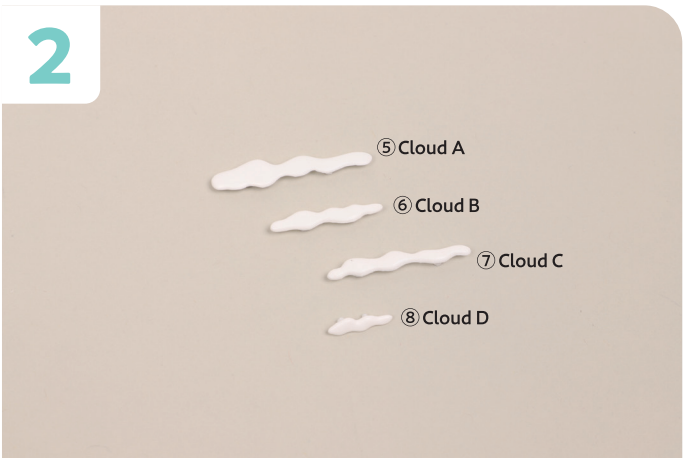

- ① Floorboard ② Back Wall ③ Lake Surface A ④ Lake Surface B ⑤ Cloud A
⑥ Cloud B ⑦ Cloud C ⑧ Cloud D 【Figurine】 ⑨ Charlie Brown

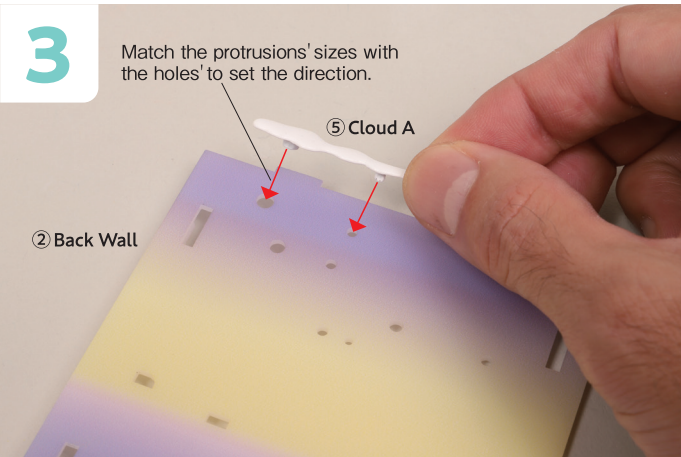

ASSEMBLING THE FLOORBOARD, BACK WALL AND CLOUDS

Check the orientation of the ② Back Wall—refer to the holes' positions and sizes to determine the wall's top and bottom.

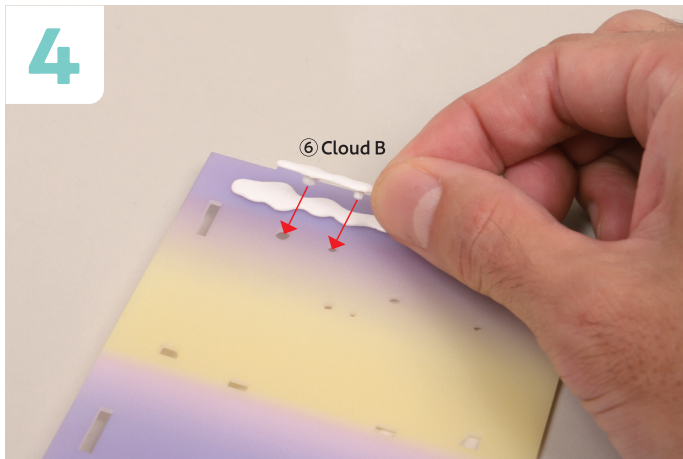

⑤~⑧ Clouds A~D differ in shape and size, be careful not to mix them up.

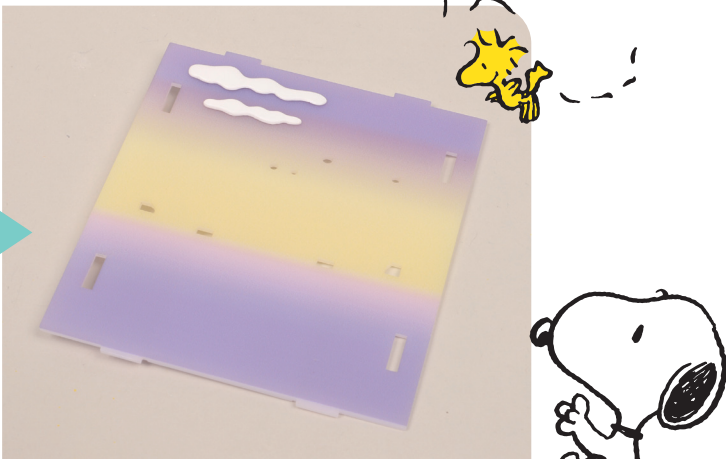

Assemble ⑤ Cloud A to the top left corner of the ② Back Wall by matching the protrusions' sizes with the holes'.

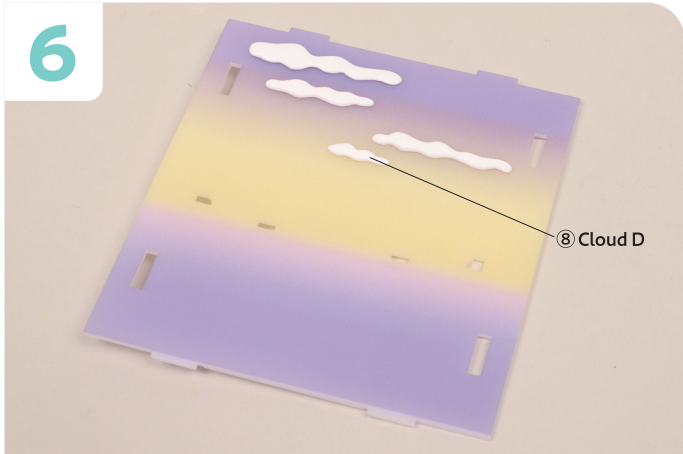

Assembling the Floorboard, Back Wall and Clouds

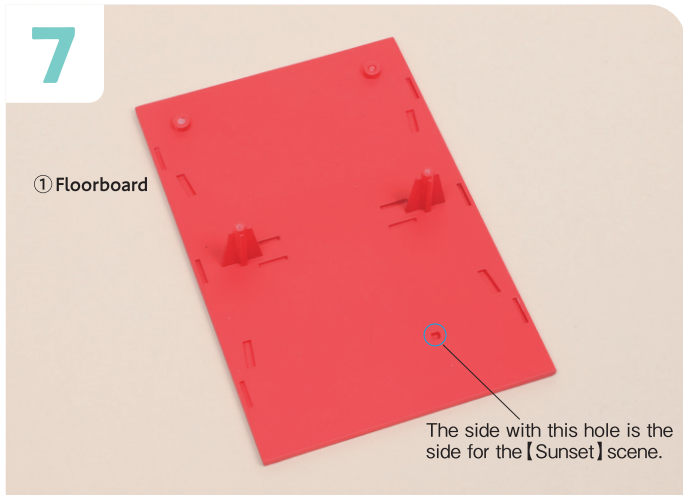

Assemble ⑥ Cloud B below Cloud A.

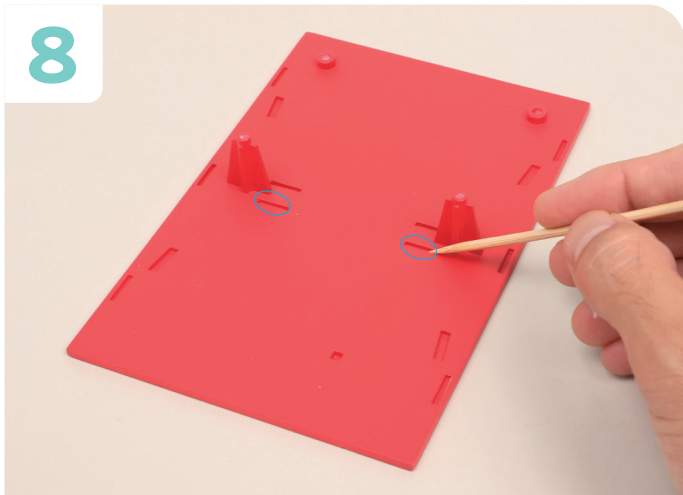

Assemble ⑦ Cloud C to the top right in the same way.

Then assemble ⑧ Cloud D.

Check the orientation of the ① Floorboard—the side with the hole circled in blue above is the side for the 【Sunset】 scene.

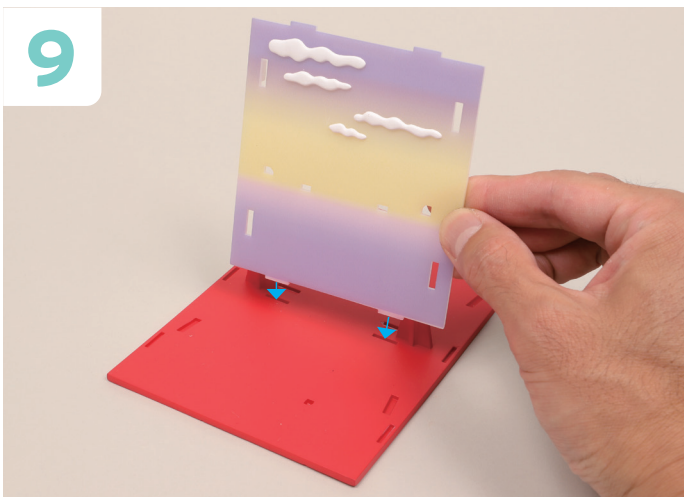

Fit the Back Wall to the side for the 【Sunset】 scene on the Floorboard. First, apply a little quick-drying glue to the two grooves with the tip of a toothpick or the like.

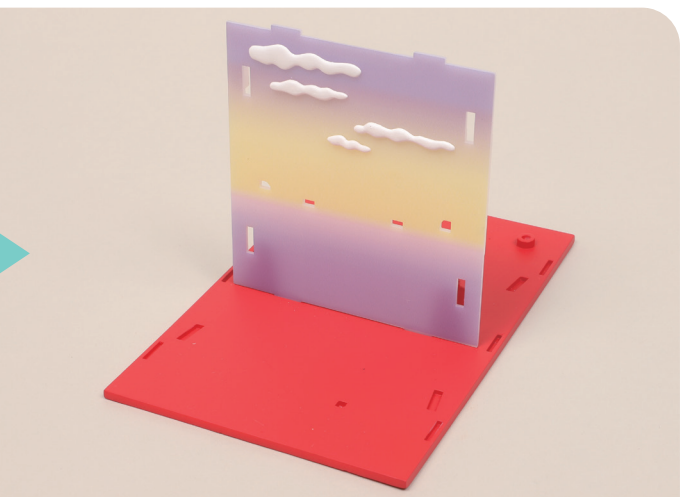

【Fall, Sunset】

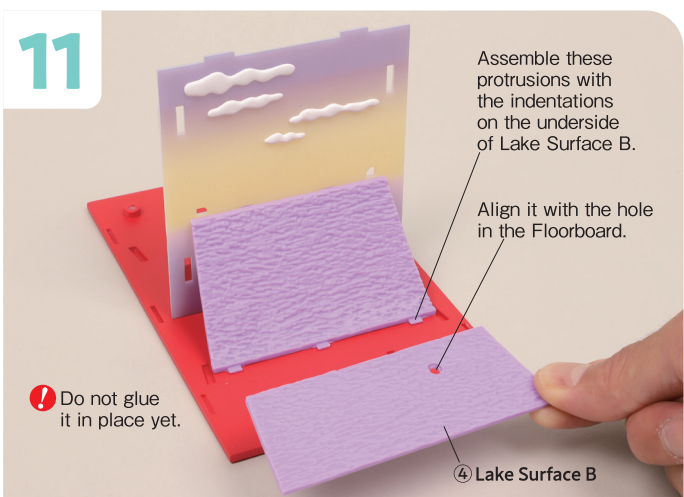

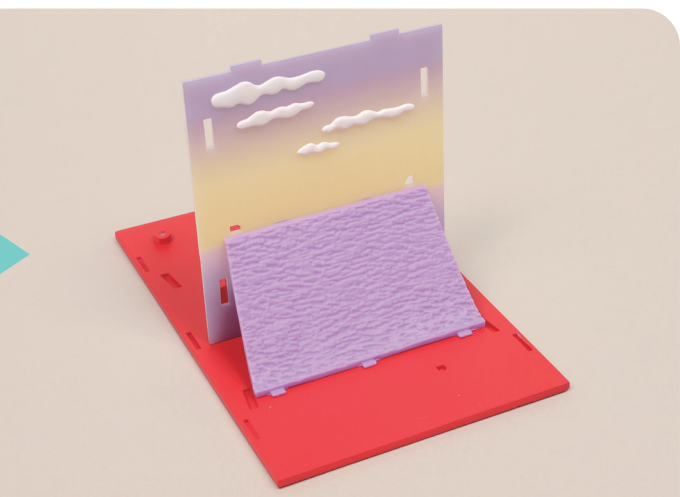

Assembling the Floorboard, Back Wall and Clouds

Insert the protrusions of the Back Wall from step 6 into the grooves of the Floorboard before the glue dries.

Now assemble the Lake Surface. Insert the two protrusions of ③ Lake Surface A into the holes in the Back Wall.

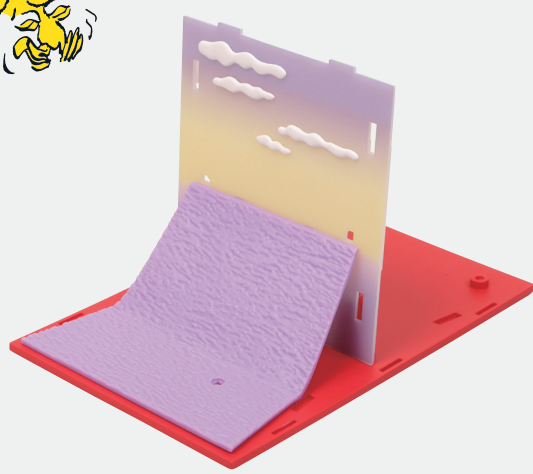

Assemble ④ Lake Surface B to the front side of the Floorboard. We will glue the Lake Surfaces in place after fitting the Left and Right Walls in the next issue.

Issue 42 Completed

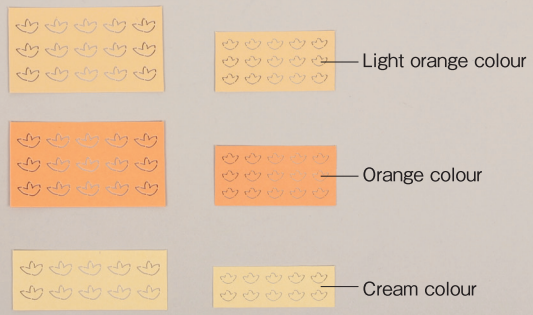

The Back Wall has now been assembled to the Floorboard in the【Sunset】scene. We will display the ⑨ Charlie Brown figurine in the next issue, so please take good care of it.

MAKING THE LEAVES

12

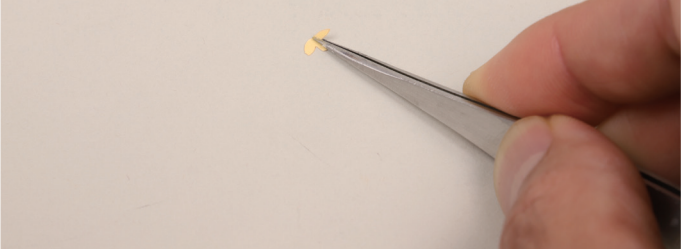

Leaf Sheets A~F from issue 41

Get ready the Leaf Sheets A~F from issue 41. Use a cutter to cut and remove the large and small Leaves of three colours from the joints.

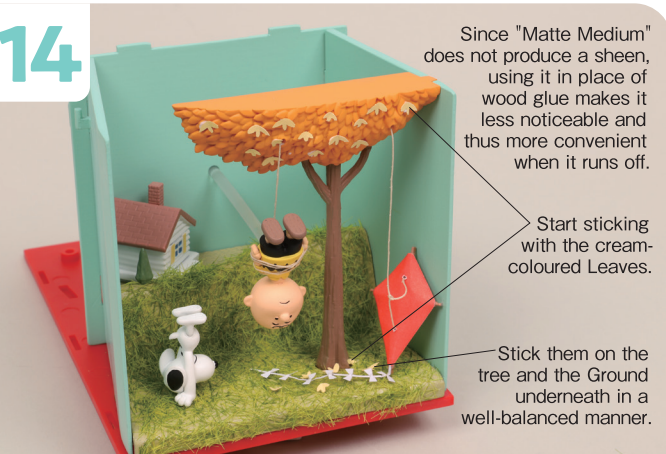

13

Folding the Leaves before sticking them can make them more three-dimensional.

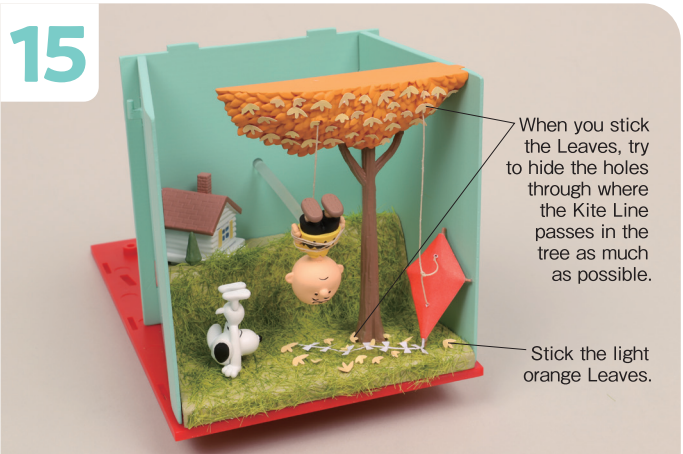

Fold each Leaf slightly in the middle with tweezers as shown before sticking it.

14

Get ready the【Kite-flying】scene and start sticking with the cream-coloured Leaves on the tree and the Ground underneath in a well-balanced manner.

15

Next, stick the light orange Leaves.

16

Lastly, stick the orange Leaves.

Issue 42 Completed

The scene is more colourful with the addition of the Leaves on the tree and Ground. The【Kite-flying】scene is now complete.
