

【Fall, Camping】

Moon, Campfire

【Spring/Fall, Easter/3 Brothers】

LEDs

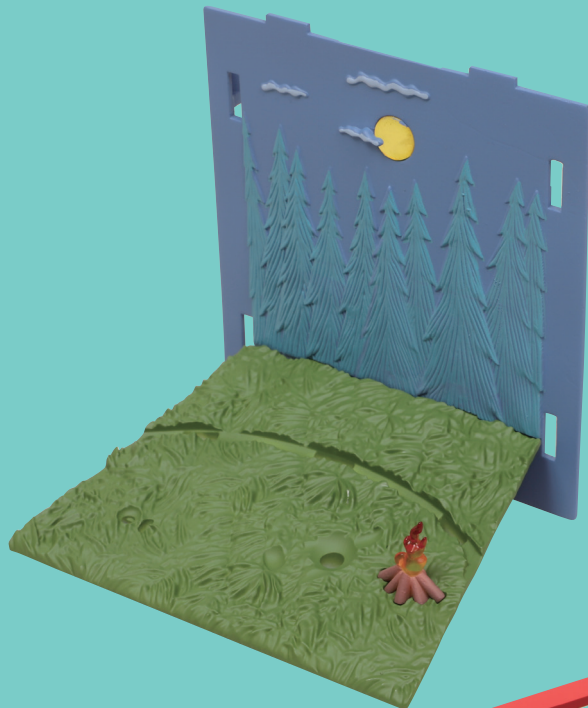

【Figurine】

Woodstock

The parts in this issue are the Back Wall, Ground, Moon and Campfire for the 【Camping】 scene. Also included are the LEDs for the 【Easter/3 Brothers】 scene, and the figurine is Woodstock for the 【Camping】 scene.

In this issue

In this issue

MOON, CAMPFIRE

In this issue, we will start assembling the 【Camping】 scene by first fitting the Moon to the Back Wall and setting the Campfire to the Ground.

Figurine

Woodstock

Figurine for the
【Camping】 scene

LEDs

We will also fit the LEDs into the Ceiling of the 【Easter/3 Brothers】 scene and assemble the Ceiling to complete the scene.

ASSEMBLY INSTRUCTIONS

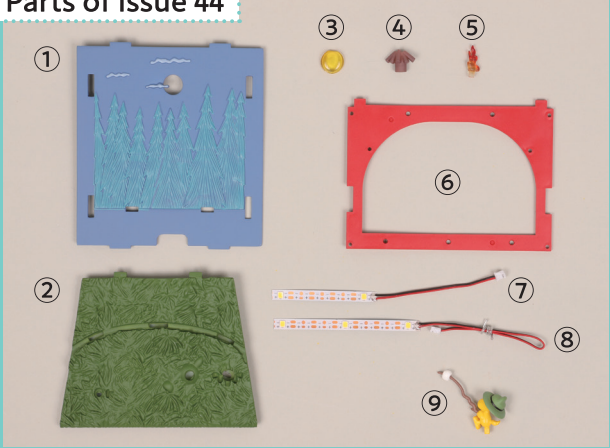

【Fall, Camping】

Setting the Moon and Campfire
【Spring/Fall, Easter/3 Brothers】
Assembling the LEDs

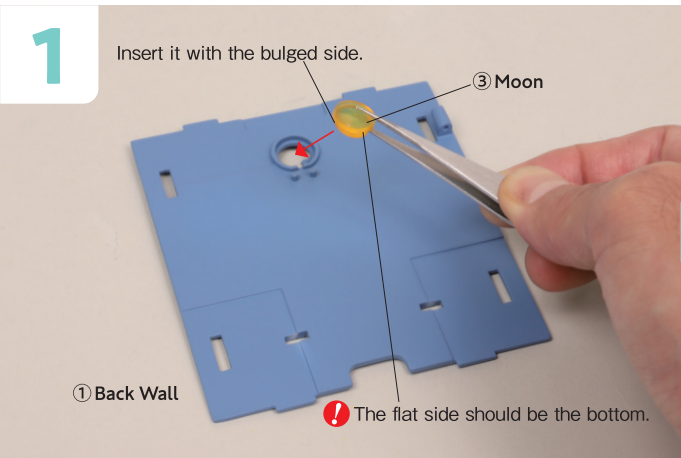

In this issue, we will start assembling the 【Camping】 scene by first fitting the Moon to the Back Wall and setting the Campfire to the Ground. We will also fit the LEDs into the Ceiling to complete the 【Easter/3 Brothers】 scene.

- ① Back Wall ② Ground ③ Moon ④ Campfire ⑤ Flame ⑥ Inner Panel
- ⑦ Short Cable with LEDs ⑧ Long Cable with LEDs 【Figurine】 ⑨ Woodstock

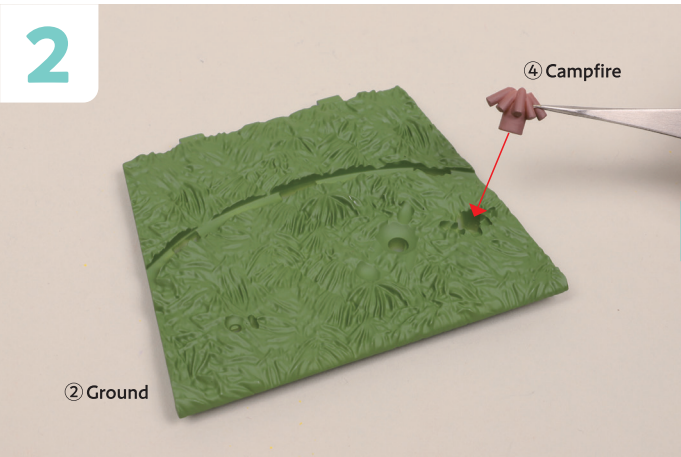

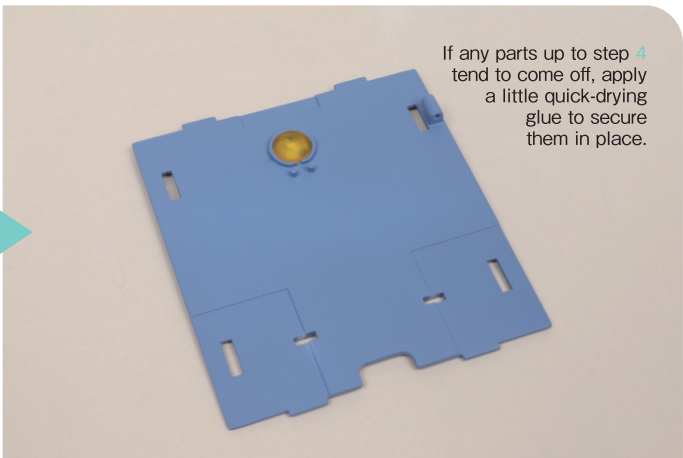

Parts of issue 44

SETTING THE MOON AND CAMPFIRE

Fit the ③ Moon into the hole on the upper back of the ① Back Wall – be careful not to mistake the top and bottom and insert its bulged side into the hole.

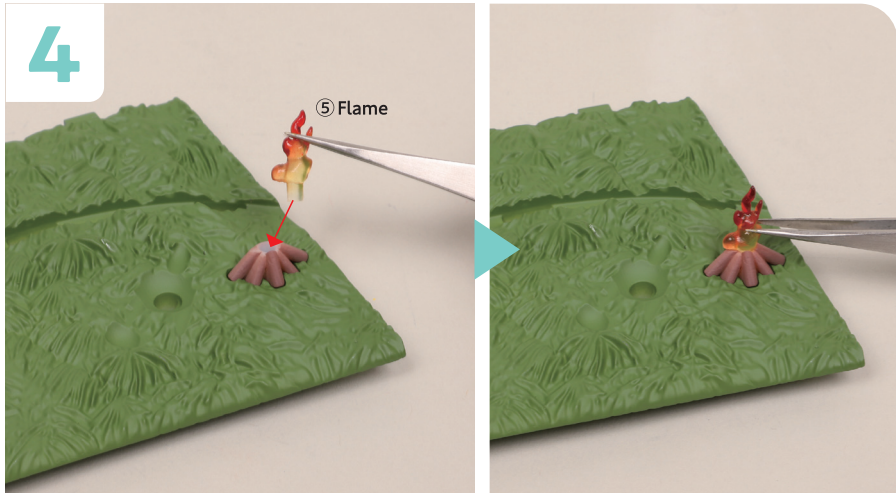

Set the ④ Campfire to the ② Ground by matching the shape of the hole with the dent and inserting it.

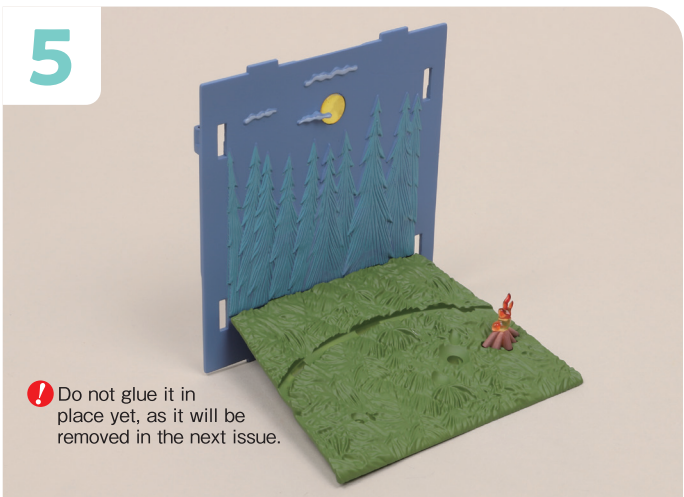

Setting the Moon and Campfire

Check the direction of the ⑤ Flame.

Insert the ⑤ Flame's protrusion into the hole on top of the Campfire.

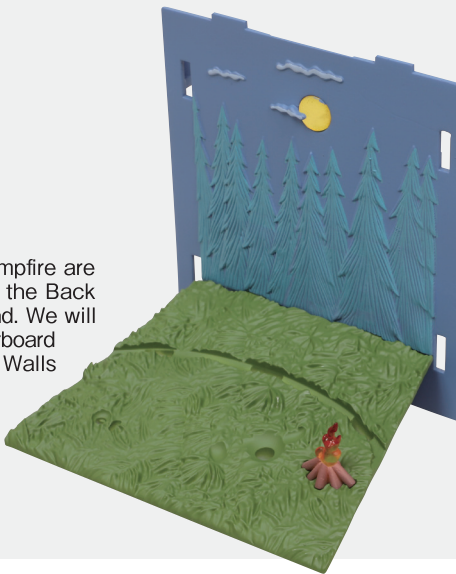

Assemble the Ground by inserting its rear protrusions into the holes in the Back Wall. Do not glue it in place yet, as it will be removed in the next issue.

Issue 44 Completed

The Moon and Campfire are now assembled to the Back Wall and the Ground. We will assemble the Floorboard and Left and Right Walls in the next issue.

Displaying the figurine

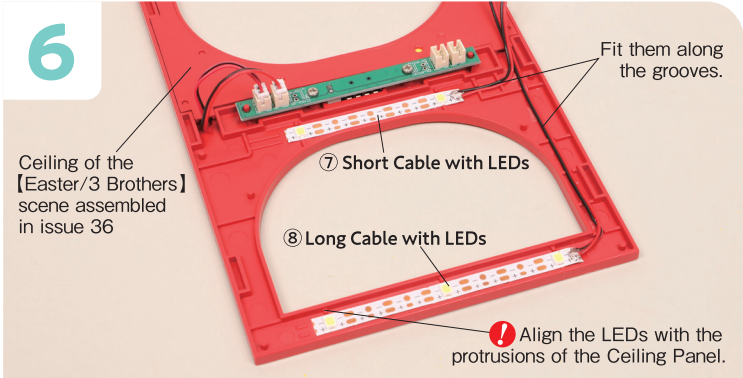

Do not glue it in place yet, as it will be removed in the next issue.

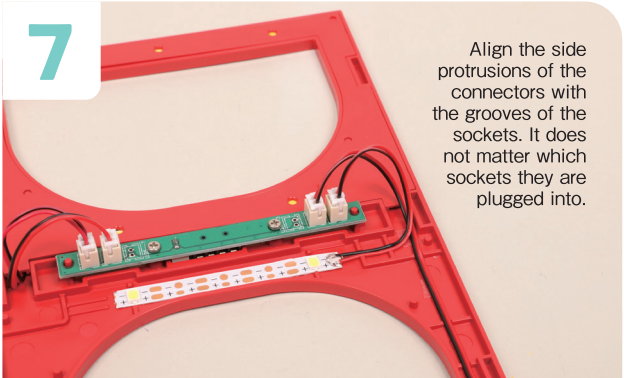

【Fall, Camping】

ASSEMBLING THE LEDS

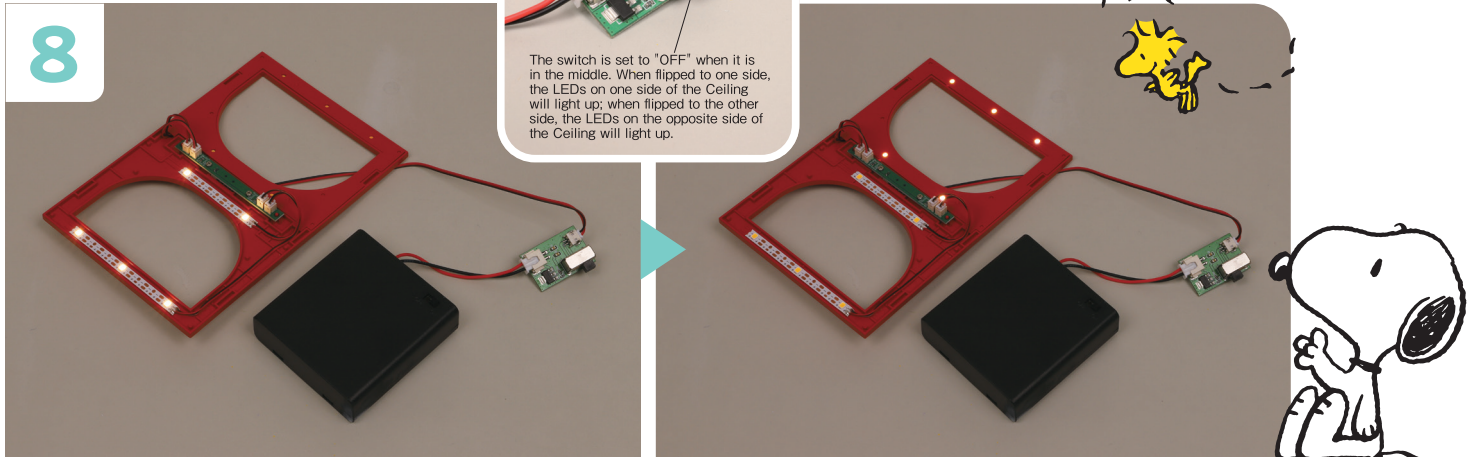

Get ready the Ceiling of the [Easter/3 Brothers] scene assembled in issue 36. Affix the 7 Short Cable with LEDs and 8 Long Cable with LEDs by aligning them with the indentations in the Ceiling Panel and the LEDs with the protrusions of the Ceiling Panel.

Plug the connectors of the two Cables with LEDs into the sockets of the Circuit Board.

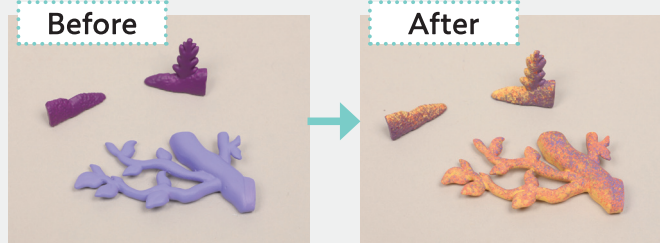

Assembling the LEDS

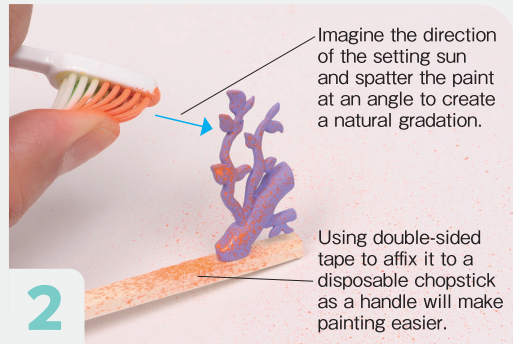

Plug the connector of the Connection Cable into the socket on the other side of the Ceiling Panel, then connect it to the Battery Box and check if the LEDs light up properly. The switch on the Circuit Board for the Battery Box is set to "OFF" when it is in the middle. When it is flipped to one side, the LEDs on one side of the Ceiling will light up; when flipped to the other side, the LEDs on the opposite side of the Ceiling will light up. Toggle the switch to make sure both sides of the LEDs light up properly.

For those who wish to add extra details to the Tree and Background in the [Sunset] scene

Modellers who wish to can add colour to the Background and Tree parts of the [Sunset] scene to make it more scenic. Let's depict the sunset reflections just as you did with the Lake Surface.

1 Mix orange with an equal amount of white and water and a few drops of neutral detergent. Apply the paint with a toothbrush as you did with the Lake Surface.

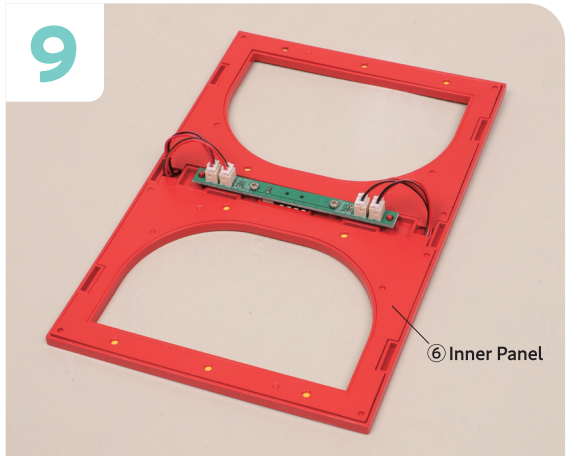

2 Dip the toothbrush in a small amount of paint and flick it with your fingertips to spatter the paint onto the Tree at an angle.

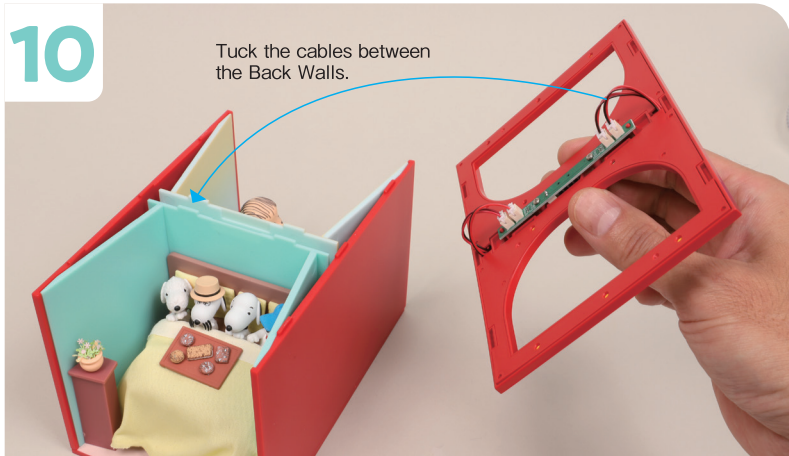

3 After the paint dries, apply another coat of colour. Mix yellow with an equal amount of white and water and a few drops of neutral detergent, and apply the paint as in step 2.

4 Apply the paint to the Background in the same way. Spatter the paint from above at an angle to create a natural gradation.

Disconnect the Battery Box and assemble the 6 Inner Panel to the Ceiling Top Panel.

The Ceiling will be fixed in place when the main body of the doghouse is assembled. For now, we will assemble it unfixed. Tuck the cables from the Ceiling between the Back Walls as you assemble it.

Assemble the Ceiling by fitting the wall protrusions into its grooves. You may wish to fix it in place temporarily with masking tape or the like.

Issue 44 Completed

The [Easter/3 Brothers] scene is now complete. To enjoy the scene with the LEDs on, plug the connector of the Connection Cable into the socket on top of the Ceiling and connect it to the Battery Box. Be careful not to touch the terminals on top of the Ceiling.
