

[Winter, Santa Claus]

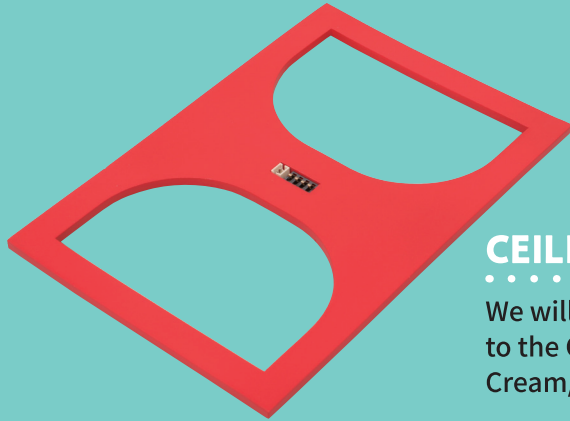

# Back Wall, Left and Right Walls, Christmas Tree

[Summer/Winter, Ice Cream/Santa Claus]

## Ceiling

The parts in this issue are the surrounding walls and Ceiling for the [Santa Claus] scene. Also included is the Christmas Tree to decorate the interior. Let's assemble each part to continue with the assembly of the scene.

In this issue

### CEILING

We will assemble the Circuit Board to the Ceiling Top Panel of the [Ice Cream/Santa Claus] scene.

PEANUTS

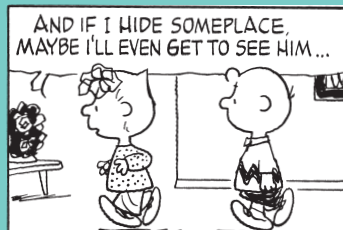

by  
SCHULZ

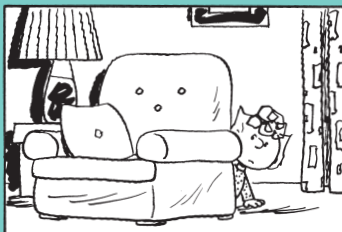

WHAT ARE YOU DOING?

I'M LEAVING A PLATE OF COOKIES UNDER OUR TREE FOR SANTA CLAUS

AND IF I HIDE SOMEPLACE, MAYBE I'LL EVEN GET TO SEE HIM...

IT WORKED! I SAW HIM!! I SAW SANTA CLAUS!

BUT I NEVER REALIZED HE WAS SO SHORT..

### BACK WALL, LEFT AND RIGHT WALLS, CHRISTMAS TREE

We will also assemble the Back Wall and Left and Right Walls to the [Santa Claus] scene, secure the Partition to the Floor, and decorate the interior with the Christmas Tree.

Everyone wants to meet Santa Claus. Sally prepares some cookies then hides in wait for him. And there he appears, just as she hoped. Sally and Charlie Brown peek out together, only to find that Santa is surprisingly short. And if you look closely, he may remind you of a certain beagle.

ASSEMBLY INSTRUCTIONS

Assembling the Back Wall and Left and Right Walls  
Assembling the Christmas Tree

【Summer/Winter, Ice Cream/Santa Claus】

Assembling the Ceiling

We will assemble the Back Wall and Left and Right Walls to the 【Santa Claus】 scene and secure the Partition to the Floor. We will also decorate the interior with the Christmas Tree and assemble the Circuit Board to the Ceiling.

Parts of issue 48

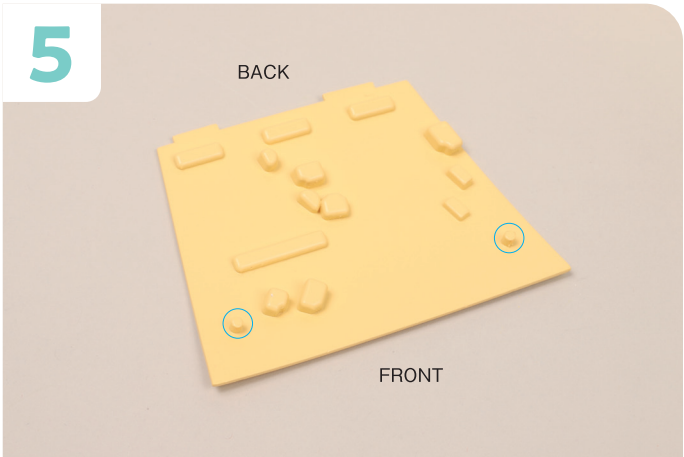

- ① Ceiling Top Panel ② Back Wall ③ Left Wall ④ Right Wall ⑤ Circuit Board  
⑥ Christmas Tree ⑦ Screw (PM2×4mm) ×3 (1 for spare)

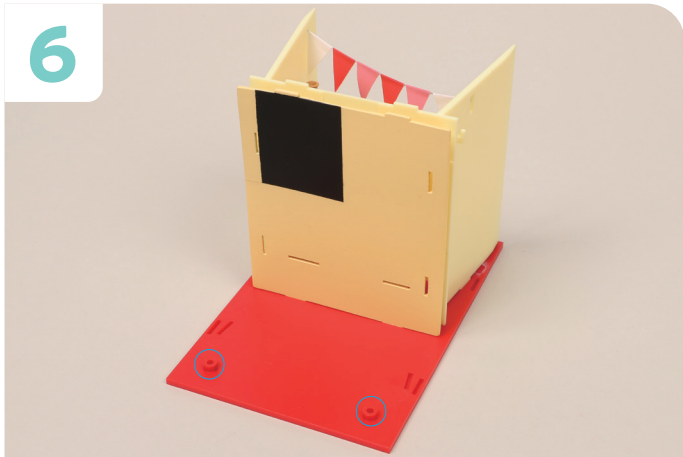

【Winter, Santa Claus】

Assembling the Back Wall and Left and Right Walls

Then assemble the Floor. On its backside, there are protrusions on the left and right at the front.

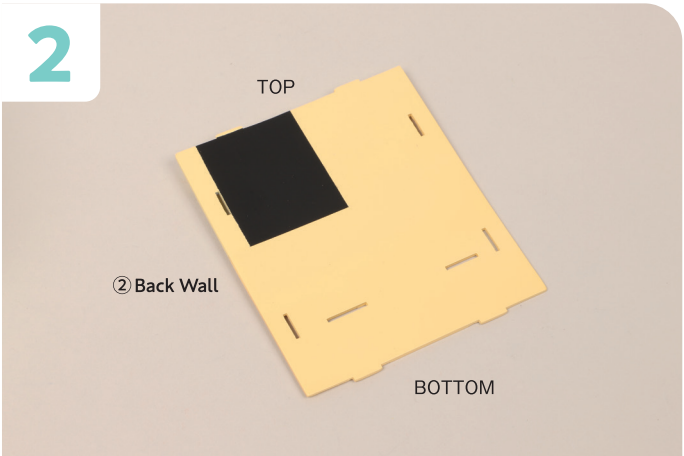

There are holes on the left and right at the front side of the Floorboard. Insert the protrusions of the Floor into these holes to assemble the Floor.

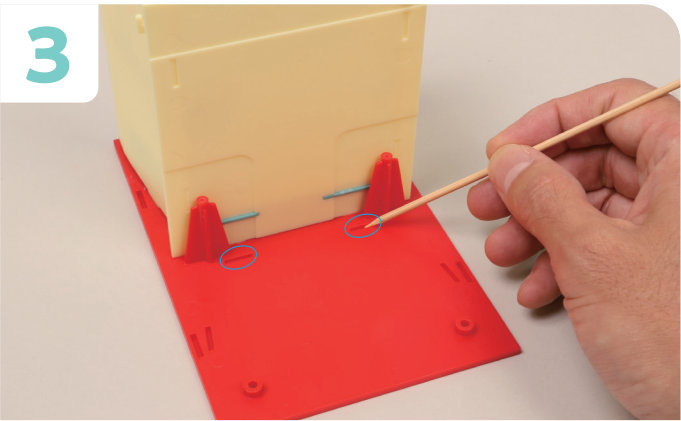

ASSEMBLING THE BACK WALL AND LEFT AND RIGHT WALLS

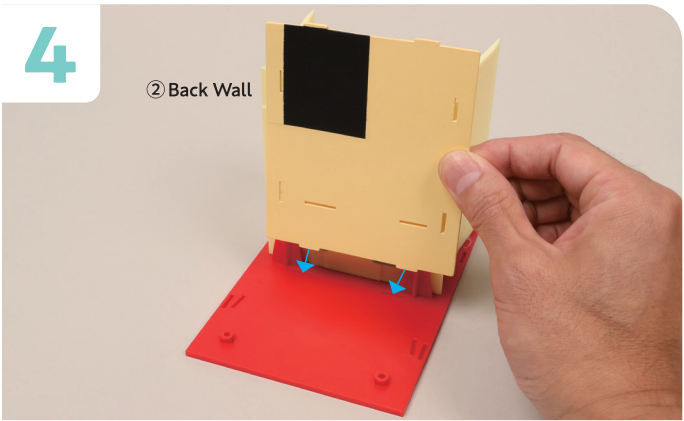

Get ready the 【Santa Claus】 scene assembled in issue 47 and remove the temporarily assembled Floor and Partition.

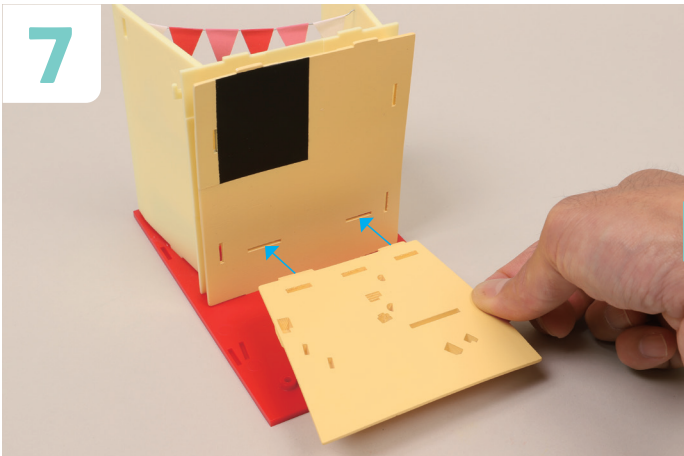

Check the orientation of the ② Back Wall.

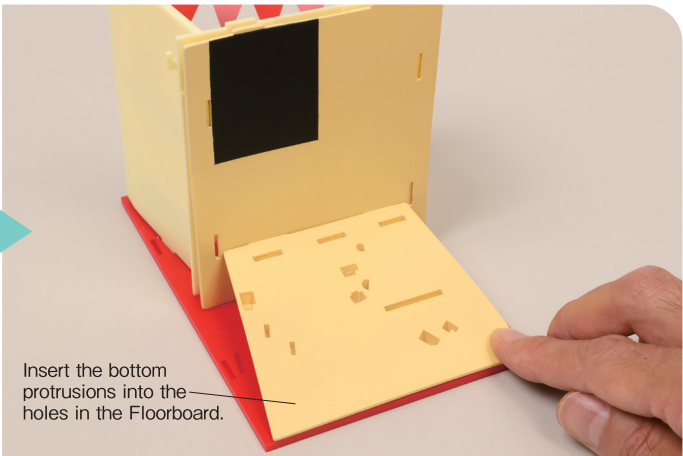

Now assemble the Back Wall to the Floorboard of the 【Santa Claus】 scene. First, apply a little quick-drying glue to the two grooves circled in blue above with the tip of a toothpick or the like.

Before the glue dries, assemble the ② Back Wall by inserting its bottom protrusions into the grooves of the Floorboard.

Assemble the Floor by inserting its rear protrusions into the holes in the Back Wall (left photo), and then its bottom protrusions into the holes in the Floorboard (right photo).

Now assemble the Partition to the Floor. Apply a little quick-drying glue to the three grooves on the rear side of the Floor, then insert the bottom protrusions of the Partition.

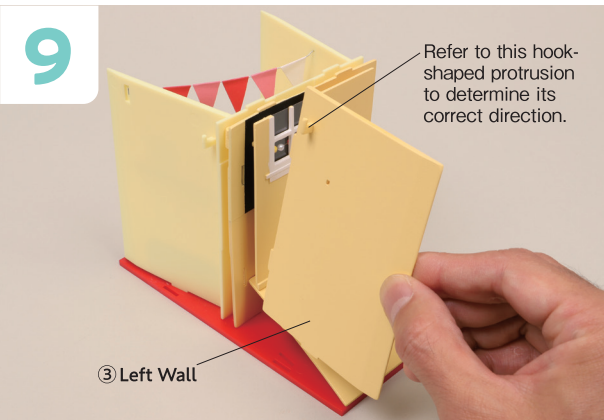

Stand the Partition vertically.

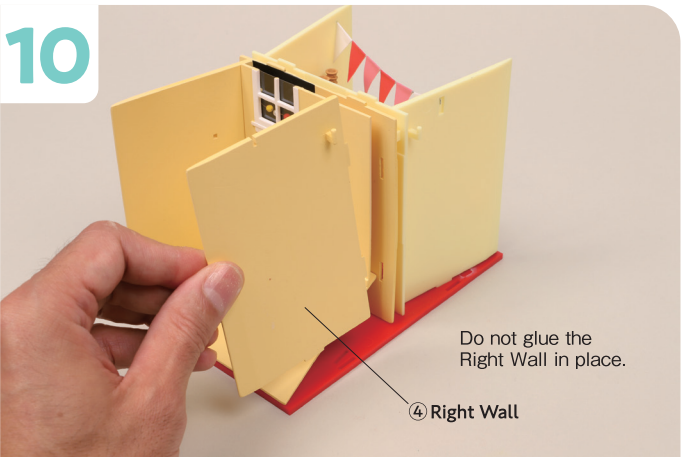

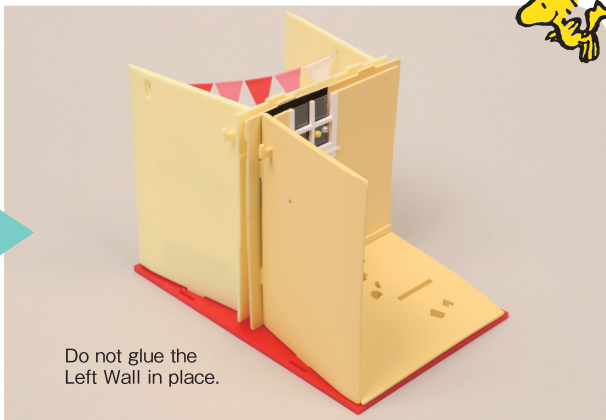

Assembling the Back Wall and Left and Right Walls

Assemble the ③ Left Wall to the left side of the Floorboard.

Assemble the ④ Right Wall to the opposite side in the same manner.

Issue 48 Completed

The surrounding walls of the 【Santa Claus】 scene are now in place. Let's go on to decorate the interior with the Christmas Tree.

ASSEMBLING THE CHRISTMAS TREE

Assemble the ⑥ Christmas Tree to the Floor by inserting its bottom protrusion into the hole in the Floor and its top protrusion into the hole in the Left Wall at the same time.

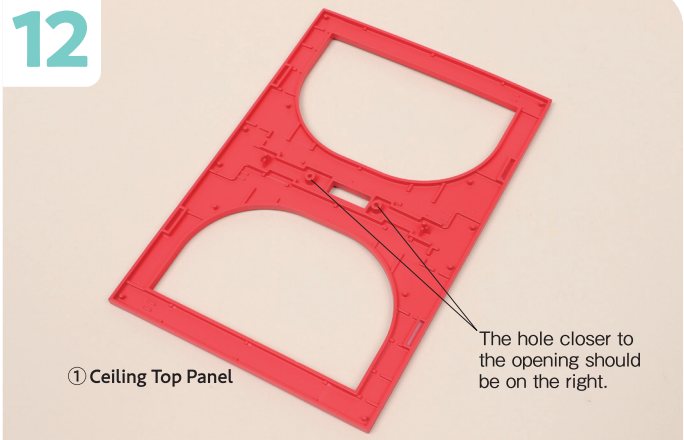

Issue 48 Completed

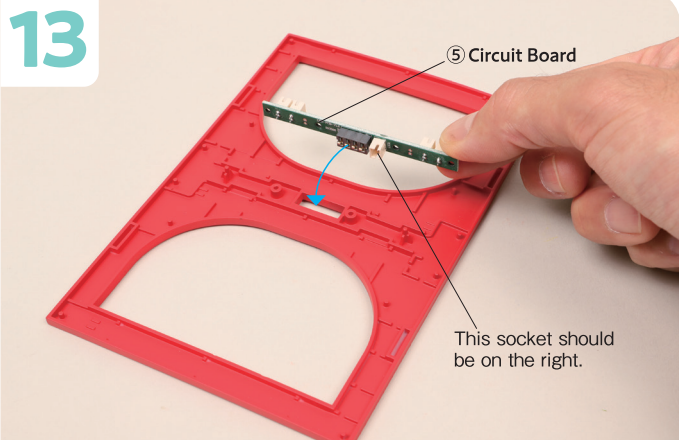

The Christmas Tree has now been added to the 【Santa Claus】 scene to add a touch of festivity.

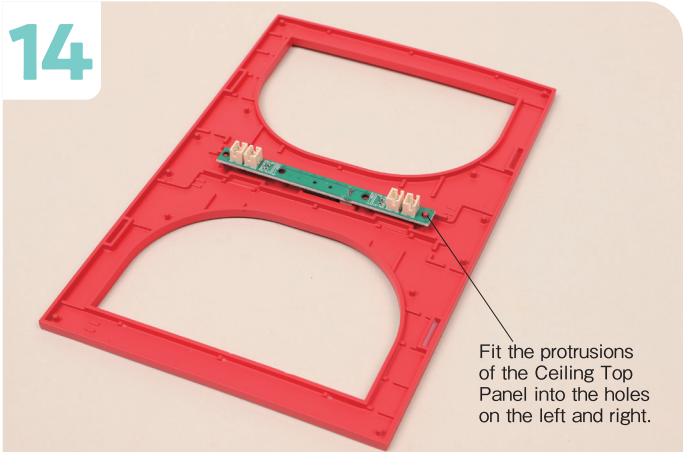

ASSEMBLE THE CEILING

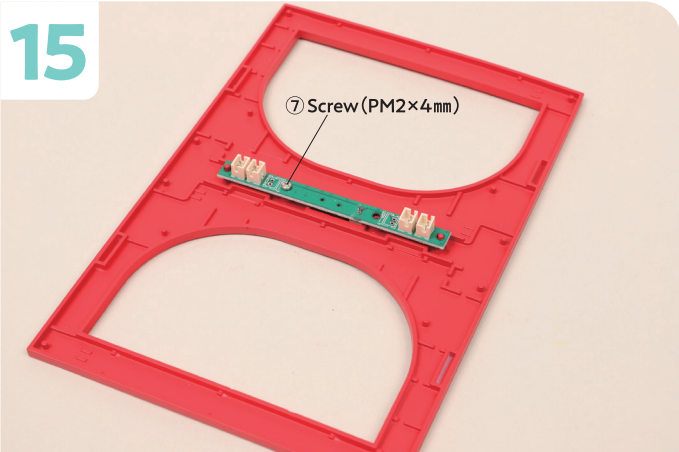

Check the orientation of the ① Ceiling Top Panel-the holes on either side of the rectangular opening in the middle are positioned differently. The hole closer to the opening should be on the right.

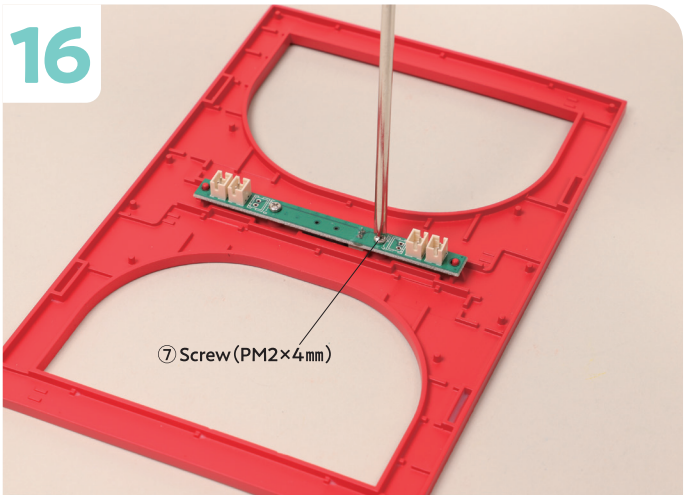

Assemble the ⑤ Circuit Board to the ① Ceiling Top Panel by fitting its terminal part into the opening in the Ceiling Top Panel.

To assemble the Circuit Board, fit the protrusions of the Ceiling Top Panel into its holes on the left and right.

Tighten a ⑦ Screw (PM2×4mm) into the hole in the Circuit Board at the position indicated above.

Tighten and secure another ⑦ Screw (PM2×4mm) into the remaining hole in the Circuit Board in the same manner.

Issue 48 Completed

That finishes the Ceiling Top Panel for the 【Ice Cream/Santa Claus】 scene. We will fit LEDs on one side of it in the next issue.
