

【Summer/Winter, Beagle Scouts/Shovelling Snow】

Left and Right Exterior Walls, Ceiling

【Doghouse】

Partition

The parts in this issue are the Left and Right Exterior Walls and Ceiling for the 【Beagle Scouts/Shovelling Snow】 scene. Also included is the Partition part between the Left and Right Base Plates of the doghouse body.

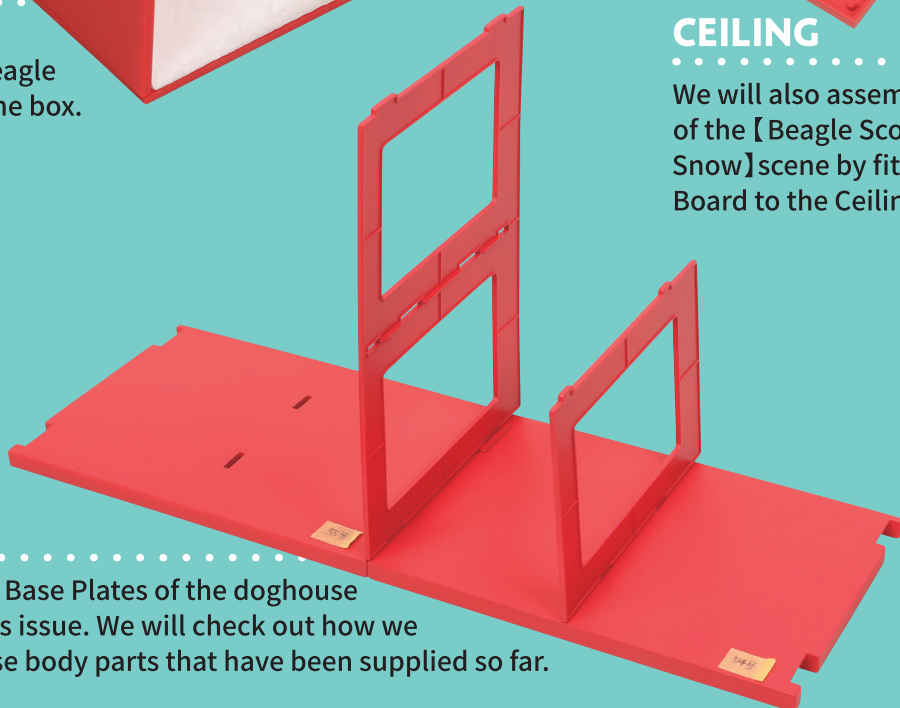

LEFT AND RIGHT EXTERIOR WALLS

We will assemble the Left and Right Exterior Walls to the 【Beagle Scouts/Shovelling Snow】 scene box.

CEILING

We will also assemble the Ceiling of the 【Beagle Scouts/Shovelling Snow】 scene by fitting the Circuit Board to the Ceiling Top Panel.

PARTITION

In between the Left and Right Base Plates of the doghouse is the Partition included in this issue. We will check out how we should assemble the doghouse body parts that have been supplied so far.

ASSEMBLY INSTRUCTIONS

[Summer/Winter, Beagle Scouts/Shovelling Snow]

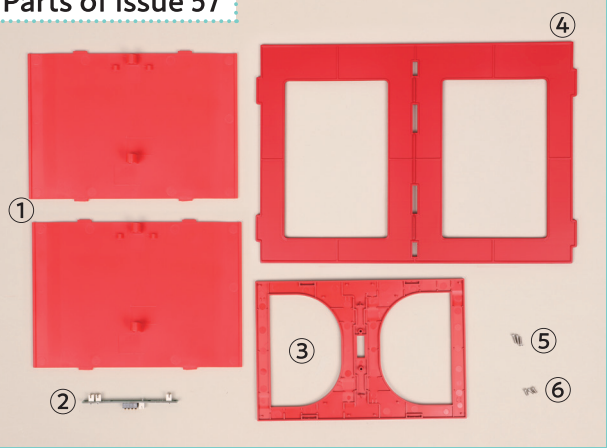

Assembling the Left and Right Exterior Walls

[Doghouse]

Checking the assembly of the Partitions

We will assemble the Left and Right Exterior Walls to the [Beagle Scouts/Shovelling Snow] scene box, fit the Circuit Board to the Ceiling Top Panel, and check out how we should assemble the doghouse parts that have been supplied so far.

Parts of issue 57

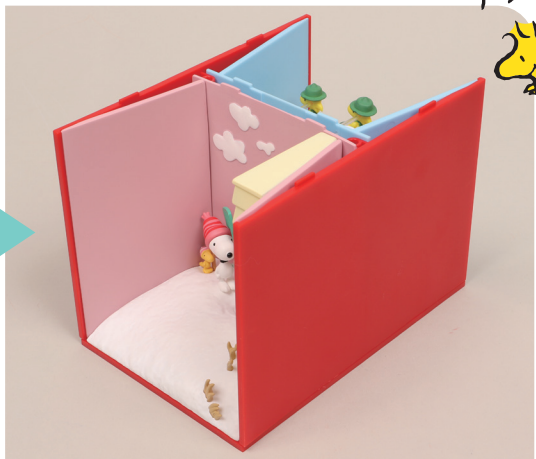

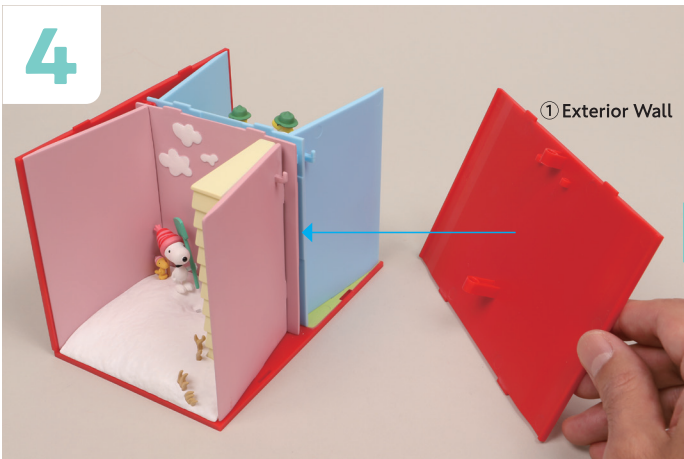

- ① Exterior Wall×2
- ② Circuit Board
- ③ Ceiling Top Panel
- ④ Large Lower Partition
- ⑤ Screw (PM2×6mm)×3 (1 for spare)
- ⑥ Screw (PM2×4mm)×3 (1 for spare)

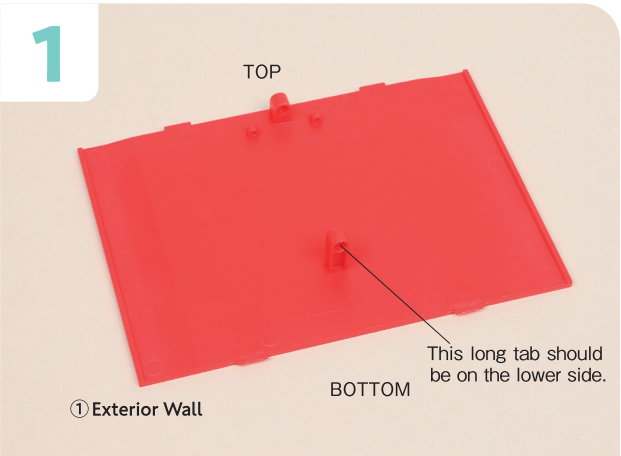

[Summer/Winter, Beagle Scouts/Shovelling Snow]

Assembling the Left and Right Exterior Walls

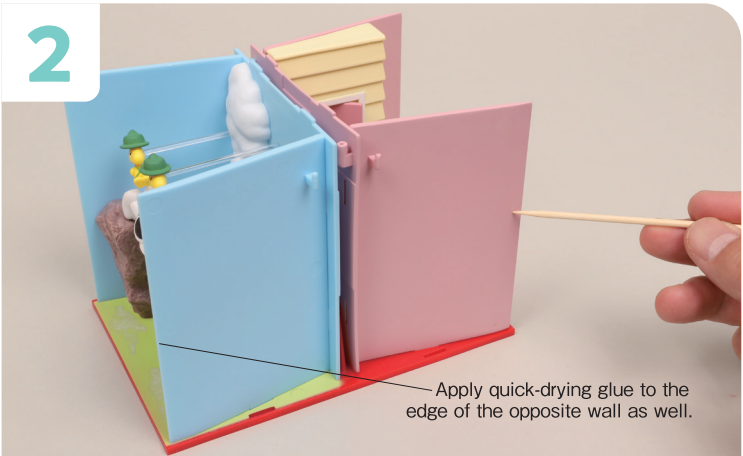

Apply quick-drying glue to the walls' edges on the other side in the same way and assemble another ① Exterior Wall.

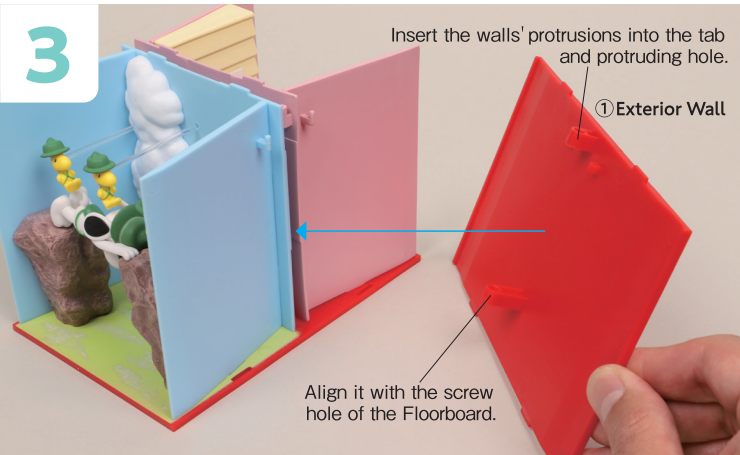

ASSEMBLING THE LEFT AND RIGHT EXTERIOR WALLS

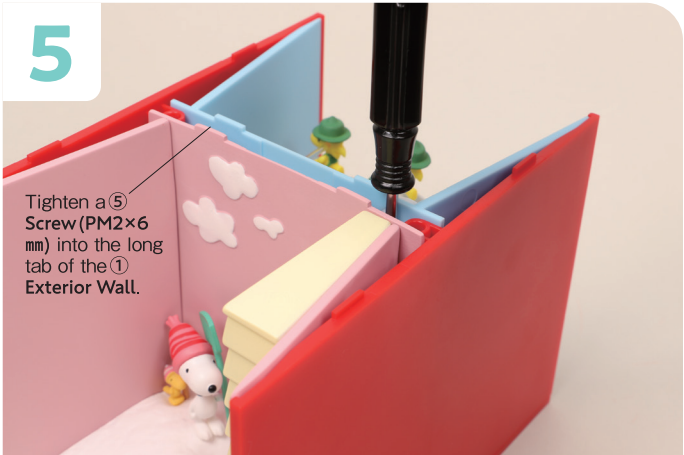

Check the orientation and other details of the ① Exterior Wall.

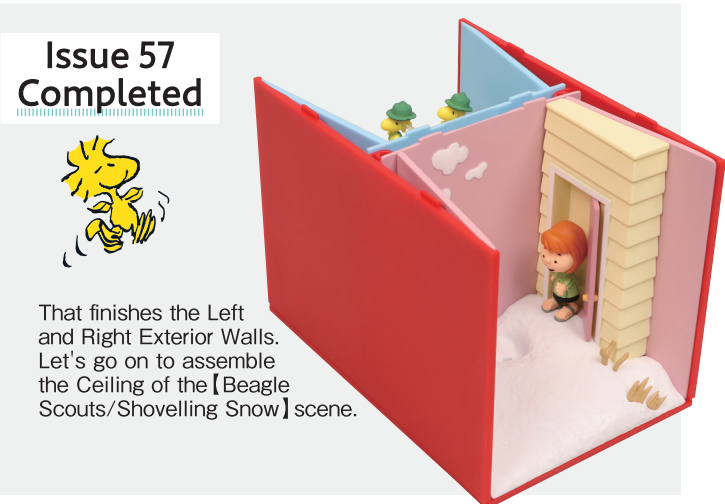

Get ready the [Beagle Scouts/Shovelling Snow] scene box to assemble the Exterior Walls. First, apply quick-drying glue to the walls' edges with the tip of a toothpick or the like.

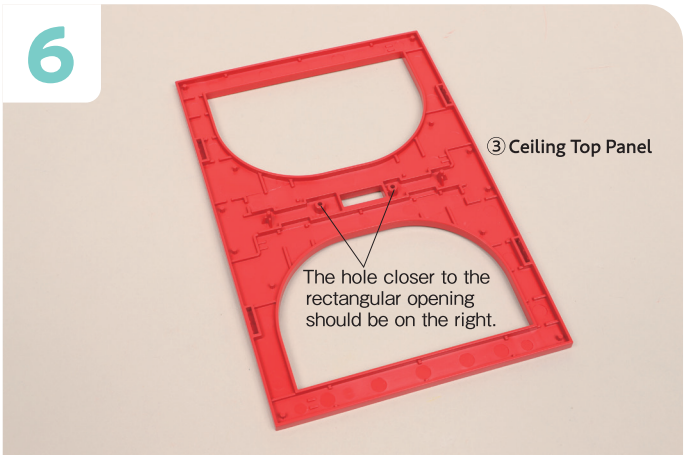

Assemble the ① Exterior Wall before the glue dries.

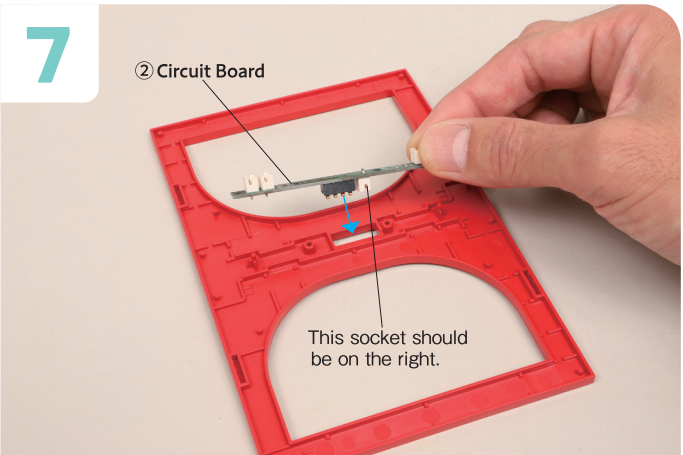

Secure the ① Exterior Walls by tightening the ⑤ Screws (PM2×6mm) into the holes of the walls' long tabs.

ASSEMBLING THE CEILING

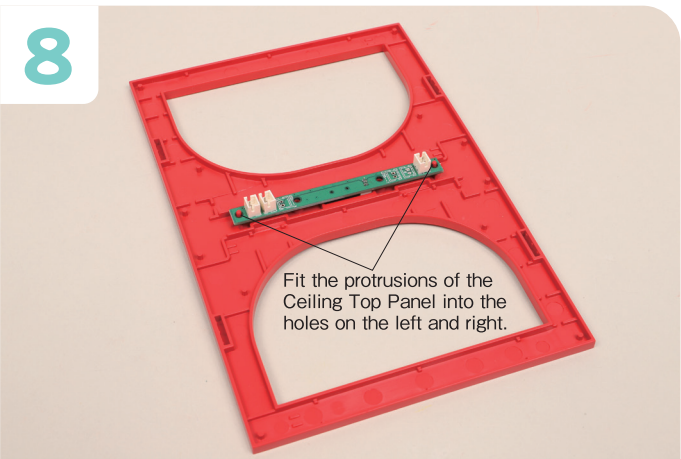

Check the orientation of the ③ Ceiling Top Panel-the holes on either side of the rectangular opening in the middle are positioned differently. The hole closer to the opening should be on the right.

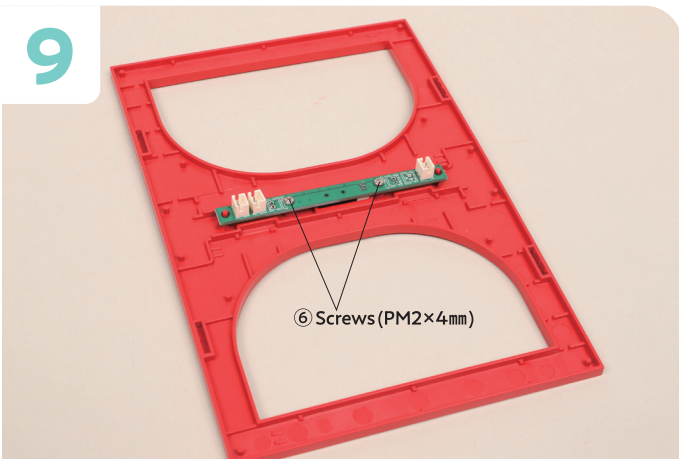

Assemble the ② Circuit Board to the Ceiling Top Panel by fitting its terminal part into the opening in the Ceiling Top Panel.

Assembling the Ceiling

To assemble the Circuit Board, fit the protrusions of the Ceiling Top Panel into the holes on the left and right.

Tighten a ⑥ Screw (PM2×4mm) into each hole on the left and right of the Circuit Board.

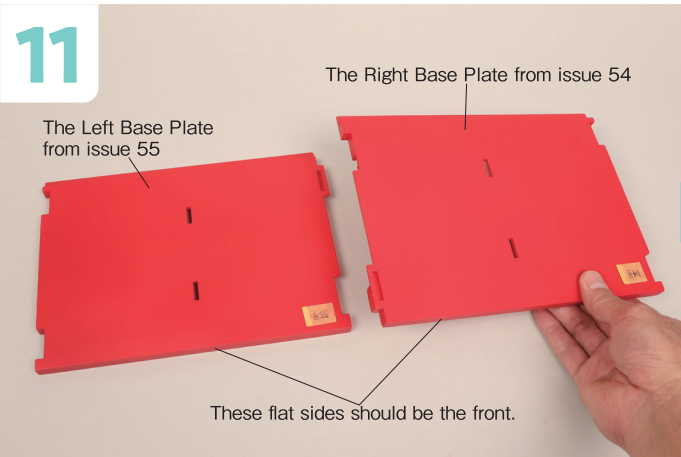

Affix masking tape or the like with the scene name written on it as shown and keep it safe.

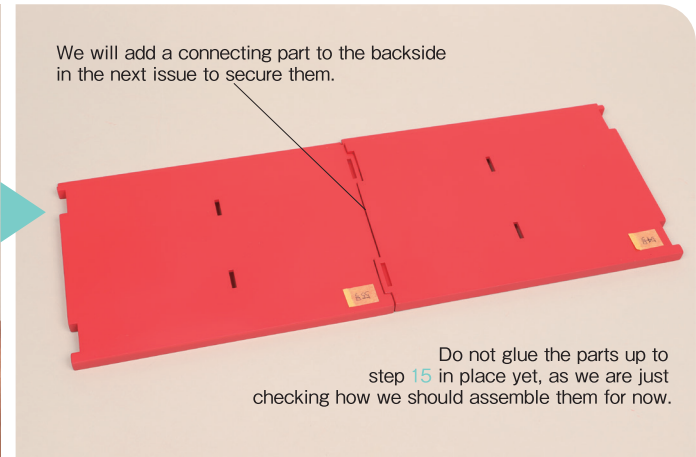

Issue 57 Completed

That finishes the Ceiling Top Panel for the 【Beagle Scouts/ Shovelling Snow】 scene. We will fit LEDs on one side of it in the next issue.

CHECKING THE ASSEMBLY OF THE PARTITIONS

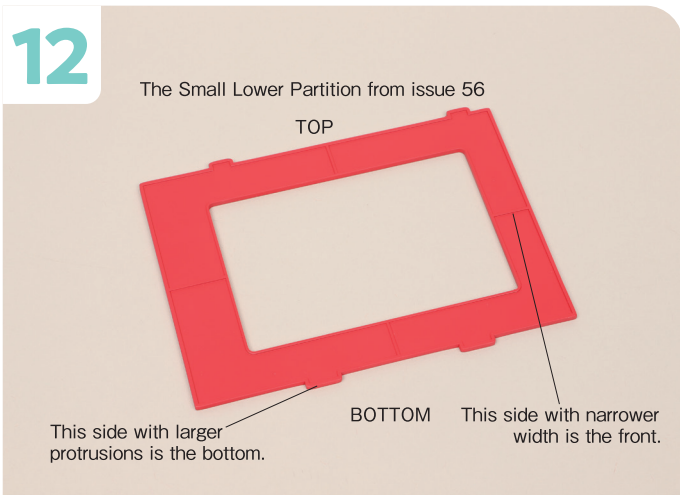

In this issue, we will see how we should assemble the doghouse parts that have been supplied so far. First, fit the Right Base Plate from issue 54 and Left Base Plate from issue 55 together by interlocking their recessed edges, with their flat sides at the front.

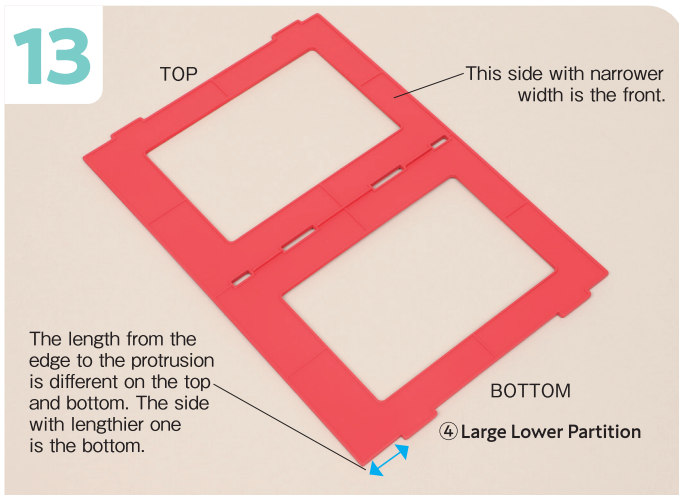

We will add a connecting part to the backside in the next issue to secure them.

Do not glue the parts up to step 15 in place yet, as we are just checking how we should assemble them for now.

Checking the assembly of the Partitions

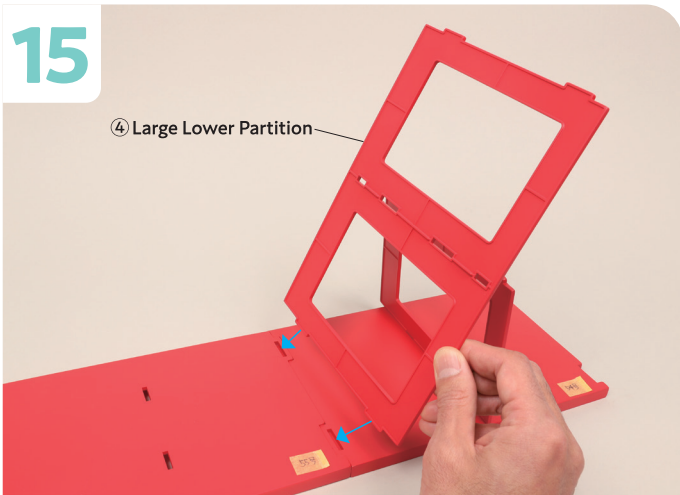

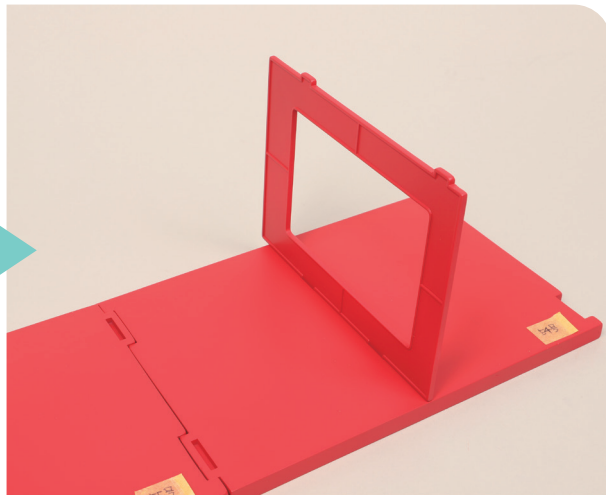

Get ready the Small Lower Partition from issue 56 and check its orientation.

Check the orientation of the ④ Large Lower Partition.

Assemble the Small Lower Partition from issue 56 to the Right Base Plate by inserting its protrusions into the holes in the plate.

Fit the ④ Large Lower Partition between the Left and Right Base Plates in the same manner by inserting its protrusions into the holes in the joints of the plates.

Issue 57 Completed

The doghouse body parts will be fixed firmly in place in a later issue when the other parts are assembled.
