

【Summer/Winter, Beagle Scouts/Shovelling Snow】

LEDs

【Doghouse】

Base Plate Joint, Partition

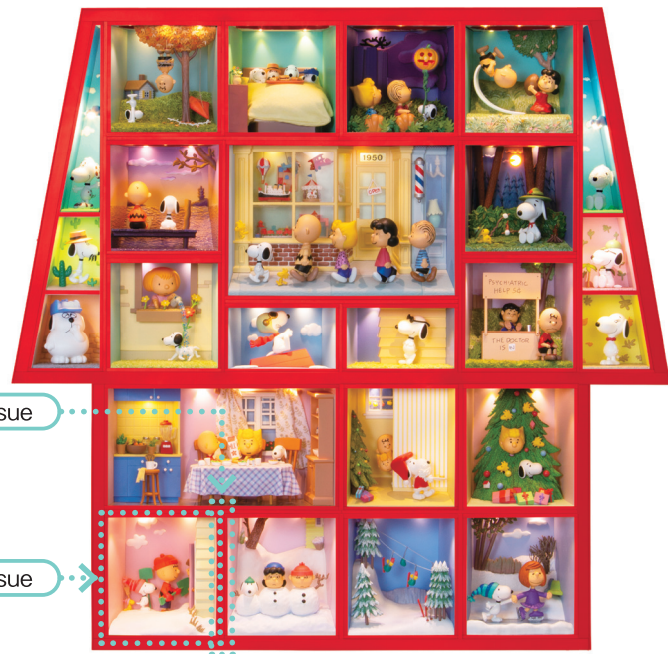

【Figurine】

Charlie Brown 【Shovelling Snow】

This issue includes the LEDs for the 【Beagle Scouts/Shovelling Snow】 scene. Also included are the doghouse's Base Plate Joint and Partition, and the figurine is Charlie Brown for the same scene.

In this issue

In this issue

LEDs

We will fit the LEDs on one side of the Ceiling Top Panel of the 【Beagle Scouts/Shovelling Snow】 scene box and assemble the Inner Panel.

Figurine

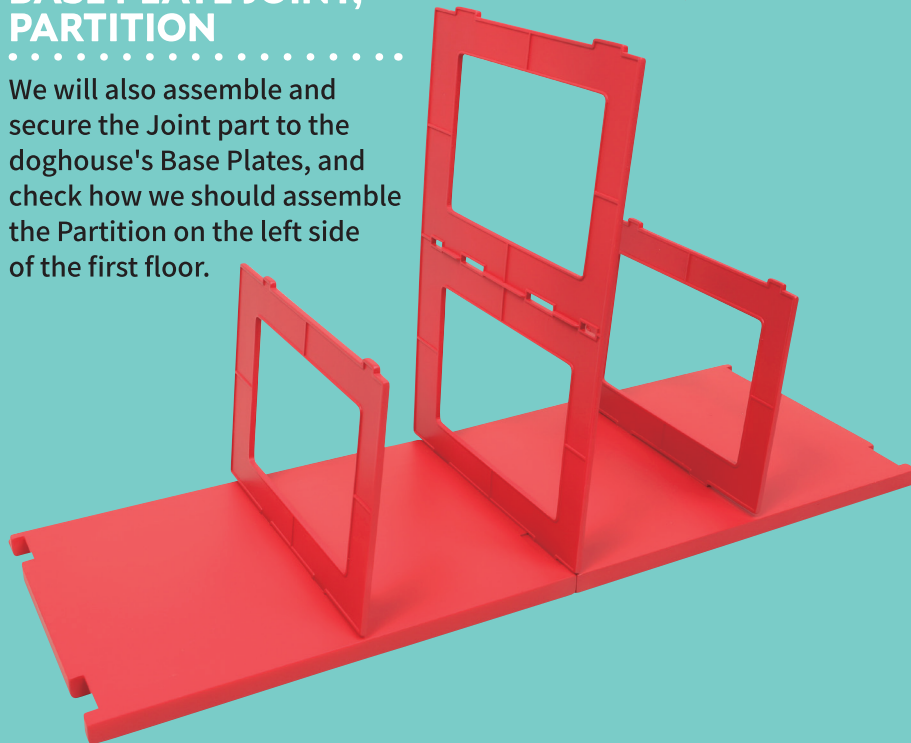

Charlie Brown

Figurine for the 【Shovelling Snow】 scene

BASE PLATE JOINT, PARTITION

We will also assemble and secure the Joint part to the doghouse's Base Plates, and check how we should assemble the Partition on the left side of the first floor.

ASSEMBLY INSTRUCTIONS

【Summer/Winter, Beagle Scouts/Shovelling Snow】

Fitting the LEDs

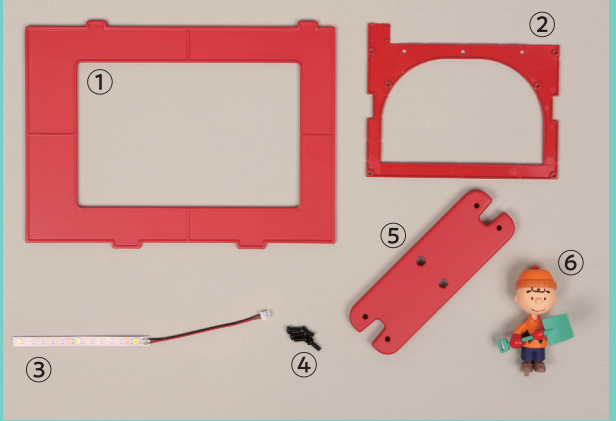

【Doghouse】

Joining the Base Plates

We will fit the LEDs on one side of the Ceiling Top Panel of the 【Beagle Scouts/Shovelling Snow】 scene box and assemble the Inner Panel. We will also assemble the Joint part to the doghouse's Base Plates and check how we should assemble the Partition on the left side of the first floor.

- ① Small Lower Partition ② Inner Panel ③ Cable with LEDs ④ Screw (PB 2.6×6mm)×5 (1 for spare) ⑤ Base Plate Joint 【Figurine】 ⑥ Charlie Brown

Parts of issue 58

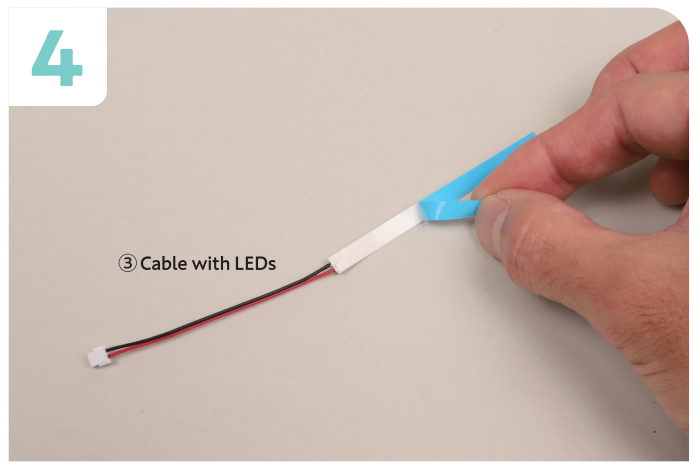

【Summer/Winter, Beagle Scouts/Shovelling Snow】

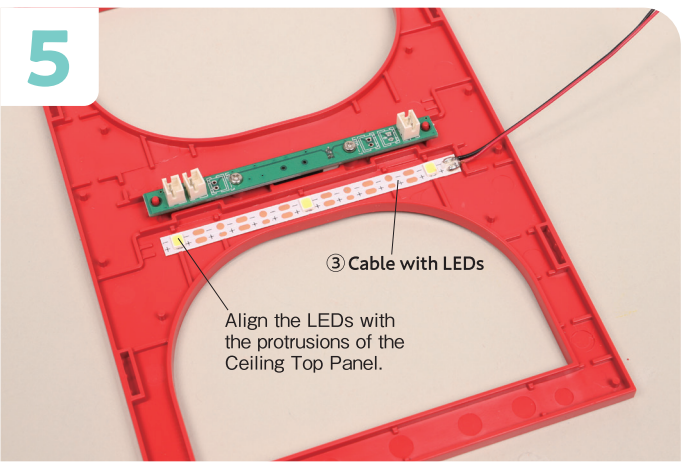

Fitting the LEDs

4

Peel off the film from the sticker side of the ③ Cable with LEDs as shown before we can affix it.

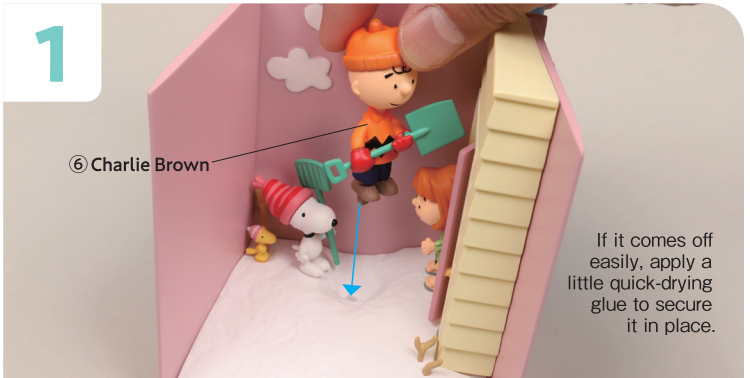

5

Now affix the ③ Cable with LEDs in line with the indentation in the Ceiling Top Panel, with its LEDs aligned with the protrusions identified in step 3.

ADDING THE FIGURINE

1

Add the ⑥ Charlie Brown figurine to the 【Shovelling Snow】 scene assembled in issue 57 by inserting the protrusion under his shoe into the hole in the Ground at the position shown above.

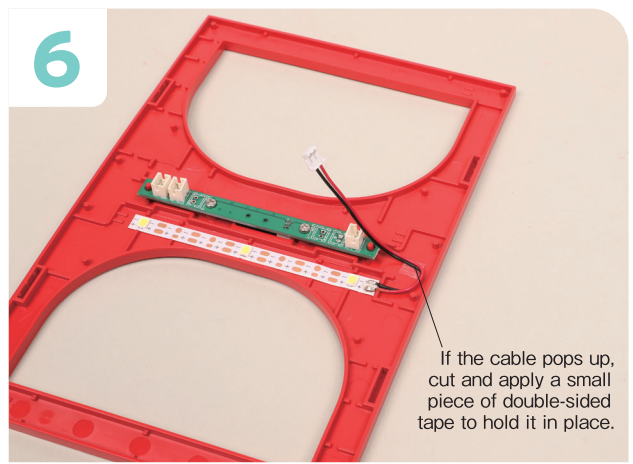

Issue 58 Completed

With all the figurines in place, the 【Shovelling Snow】 scene is now complete.

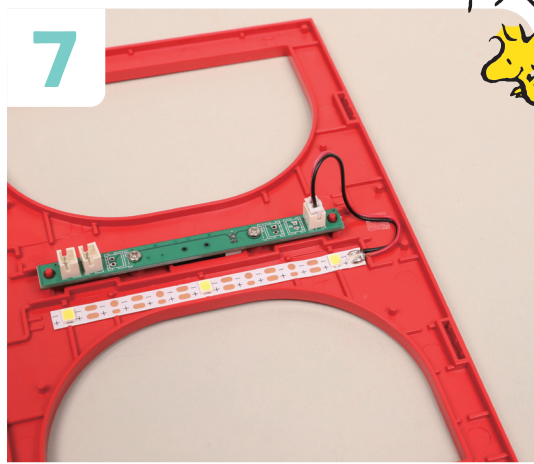

6

Lead the cable along the groove as shown. If the cable pops up, cut and apply a small piece of double-sided tape to hold it in place.

7

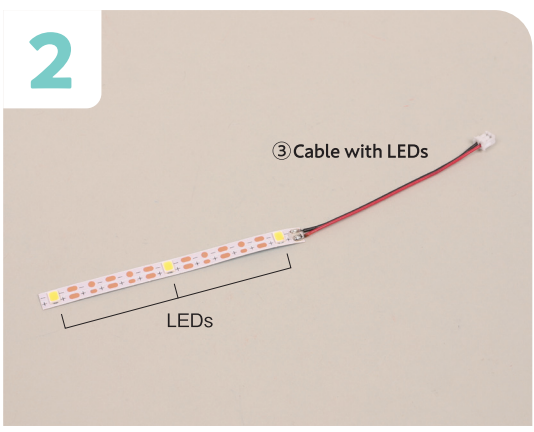

Plug the connector of the Cable with LEDs into the socket on the Circuit Board.

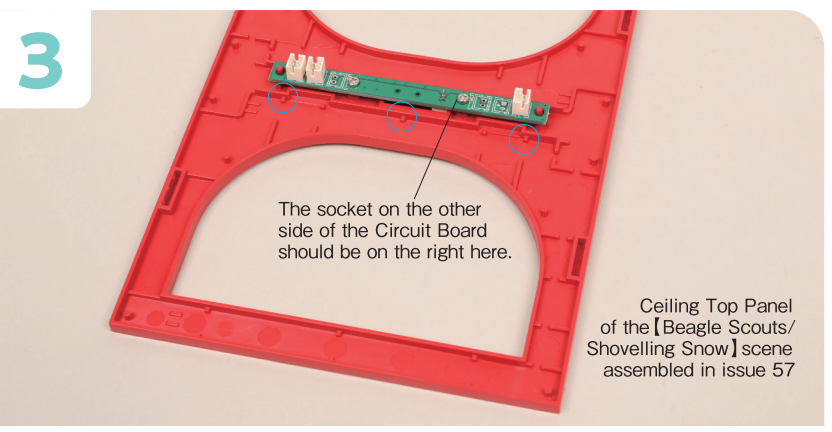

FITTING THE LEDs

2

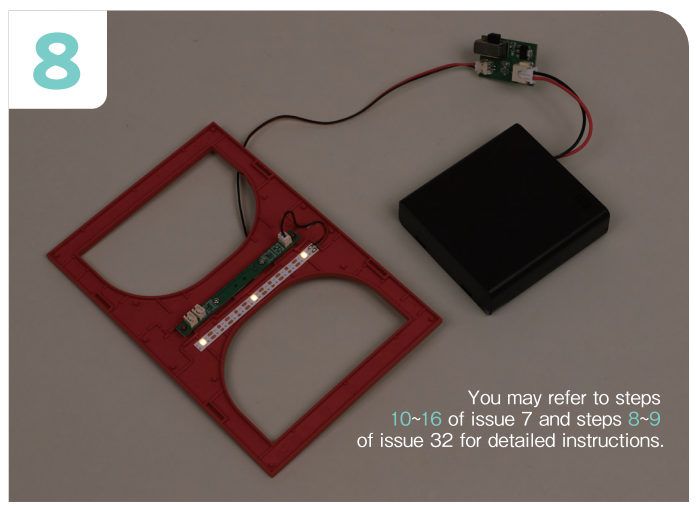

There are LEDs in three places on the ③ Cable with LEDs.

3

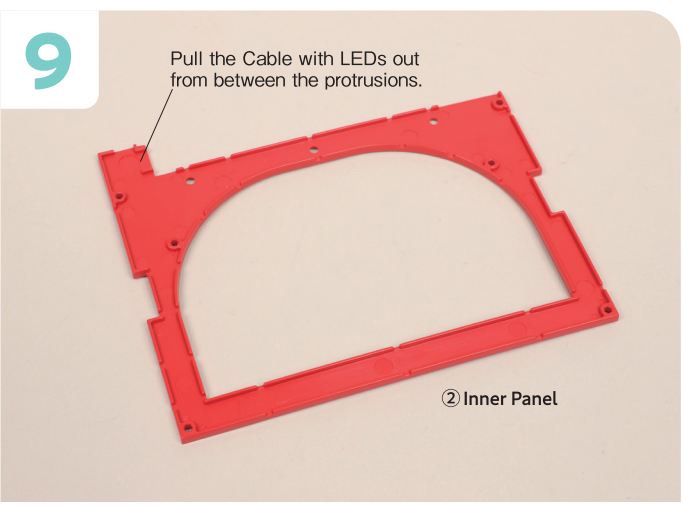

Get ready the Ceiling Top Panel of the 【Beagle Scouts/Shovelling Snow】 scene assembled in issue 57 and identify the protrusions circled in blue. We will align the LEDs with these protrusions and affix the Cable with LEDs.

8

Plug the Connection Cable's connector into the socket on the other side of the Ceiling Top Panel, connect it to the Battery Box and check if the LEDs light up properly.

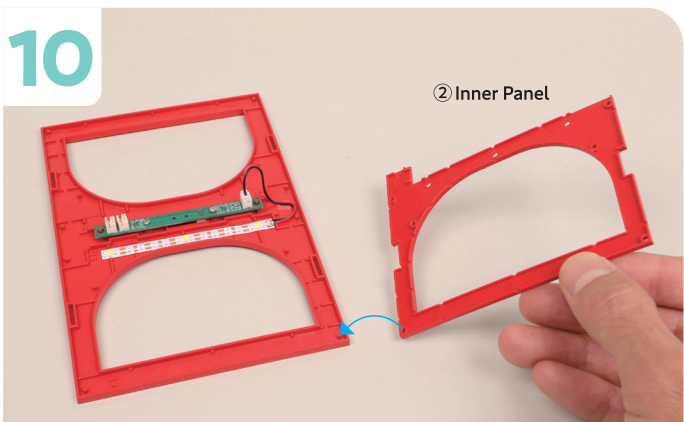

9

Check the ② Inner Panel. Pull the Cable with LEDs out from the area indicated above.

Fitting the LEDs

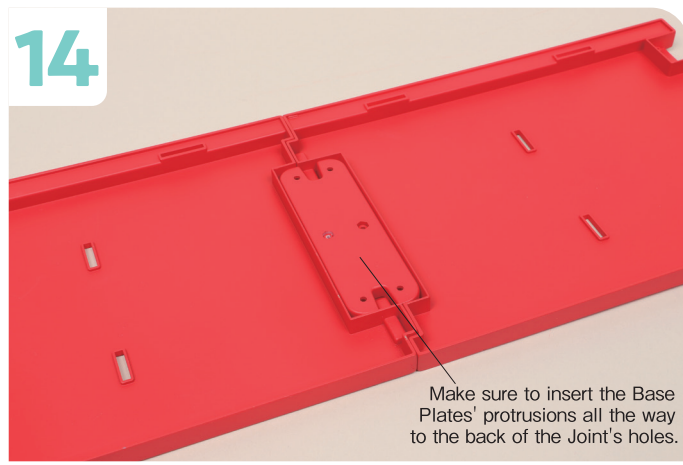

Disconnect the Battery Box and other parts connected to the Ceiling Top Panel and assemble the ② Inner Panel.

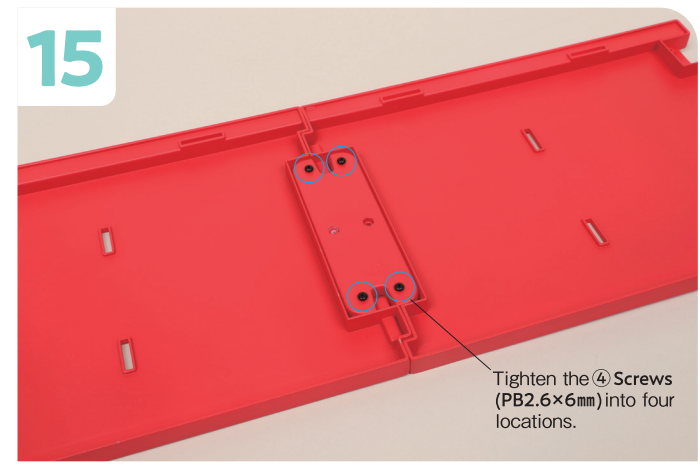

Issue 58 Completed

The LEDs have now been fitted onto the [Shovelling Snow] side of the Ceiling. We will fit more LEDs on the opposite side in a later issue.

Joining the Base Plates

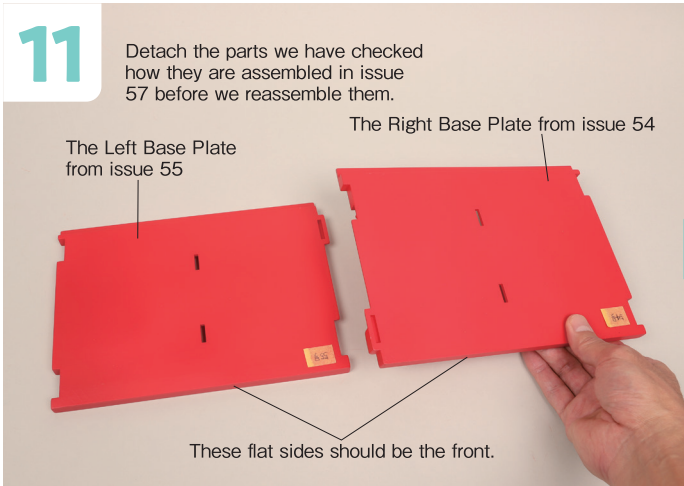

Press down the Base Plate Joint to make sure the Base Plates' protrusions are inserted all the way to the back of the Joint's holes.

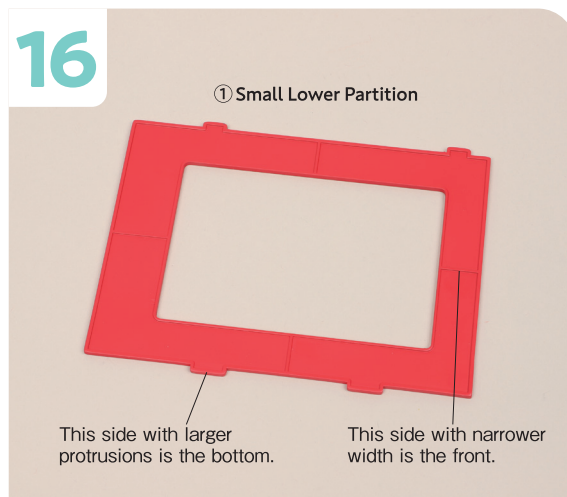

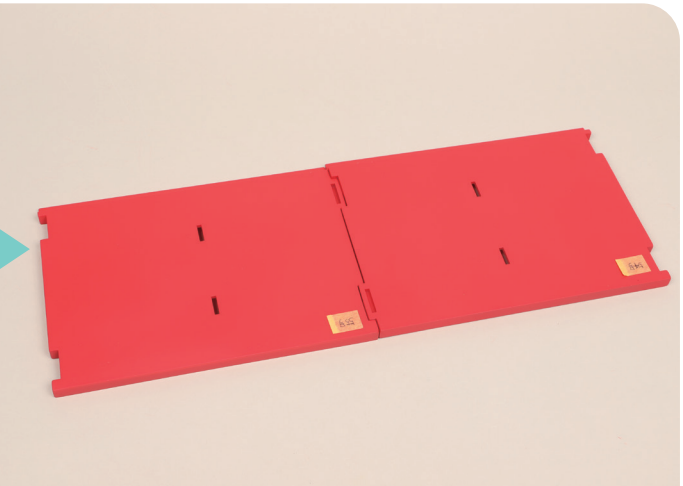

Tighten a ④ Screw(PB2.6×6mm) into four corners of the Base Plate Joint separately to secure it in place.

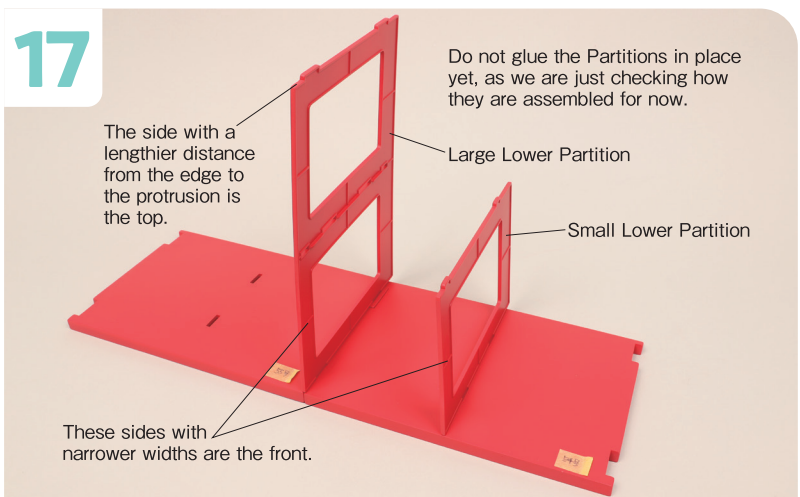

JOINING THE BASE PLATES

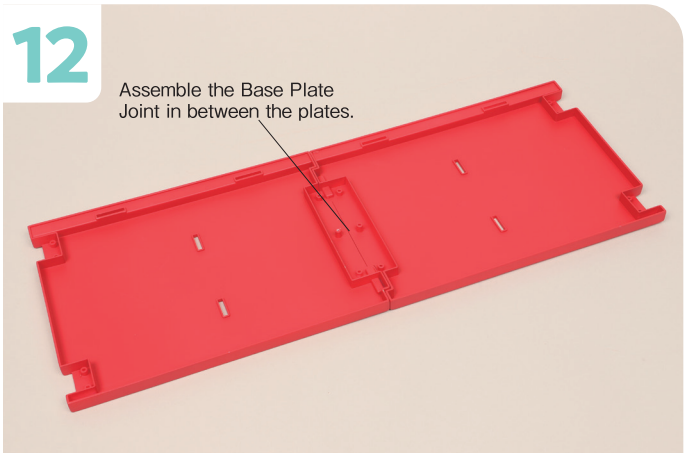

Join the Right Base Plate from issue 54 and Left Base Plate from issue 55 together by interlocking their recessed edges, with their flat sides at the front.

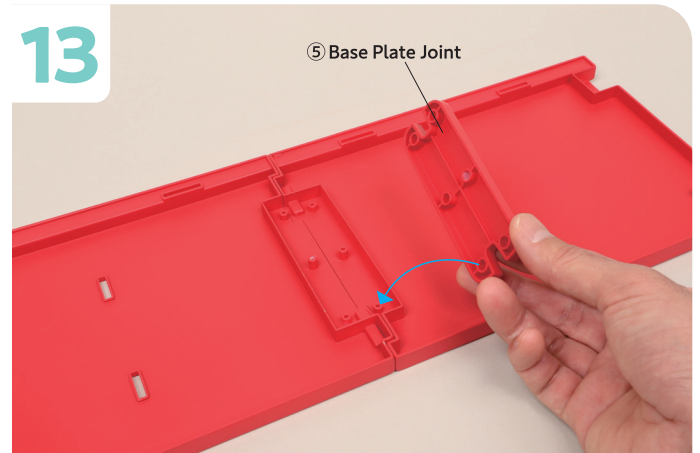

Check the orientation of the ① Small Lower Partition.

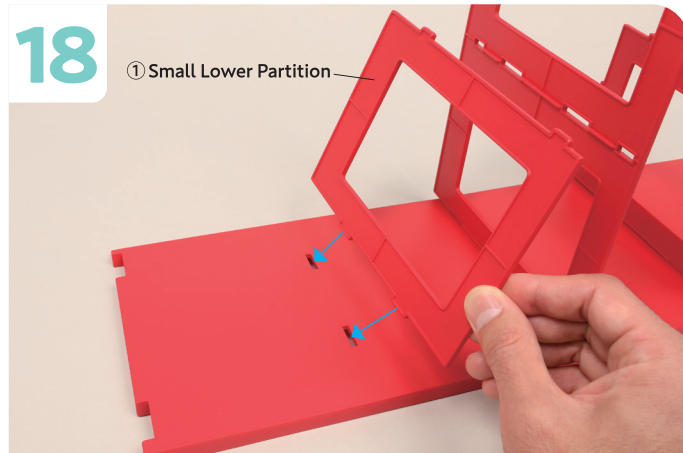

Let's see how the Partitions supplied so far are assembled. The Small Lower Partition from issue 56 is to be assembled to the Right Base Plate, while the Large Lower Partition from issue 57 is to be assembled between the Left and Right Base Plates.

Turn over the Base Plates of step 11, taking care not to dislodge them. Now assemble the Base Plate Joint in the middle to secure the Left and Right Base Plates.

Assemble the ⑤ Base Plate Joint in between the Base Plates as shown by inserting the Base Plates' protrusions into the Joint's holes.

Assemble the ① Small Lower Partition to the Left Base Plate in the same way by inserting its protrusions into the holes in the plate.

Issue 58 Completed

Peel off the previously affixed masking tapes with markings on the Base Plates.

All the Partitions on the doghouse's first floor are now in place. The Shelving between the first and second floors will be supplied in the next issue.
