MAKING THE TREE AND HOUSE

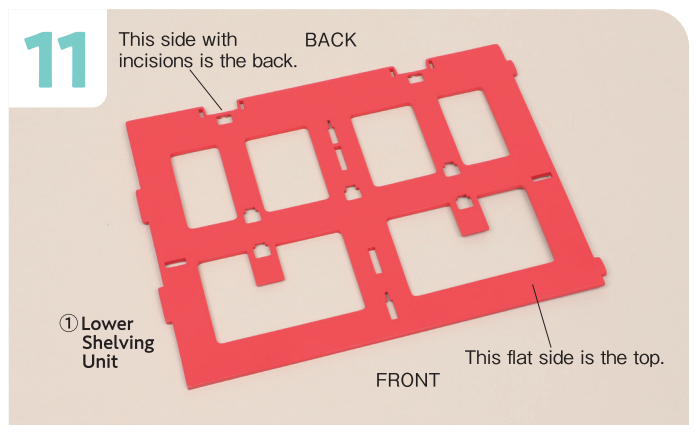

We can now assemble the ④ Tree to the left rear of the Ground. Match its bottom protrusion with the shape of the hole and insert it.

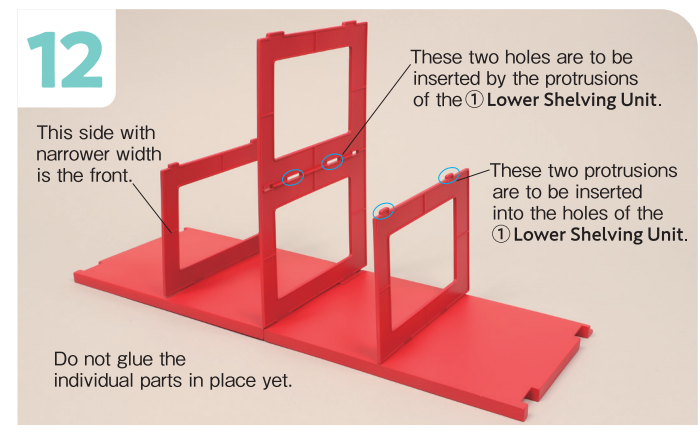

Assemble the ⑤ House to the right rear of the Ground in the same manner. If it comes off easily, apply a little quick-drying glue to secure it in place.

Now check how the Shelving is assembled. First, assemble the large and small Partitions to the Base Plates.

Assemble the ① Lower Shelving Unit above the Partition on the right by fitting its holes and protrusions to the large and small Partitions.
