Assembling the Table Lamp

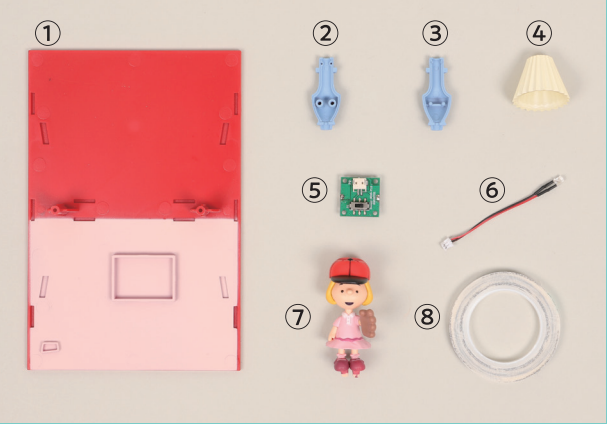

【Spring/Fall, Easter Time/3 Brothers】

Assembling Floorboard

Let's assemble the Table Lamp in the 【Relaxing at Home】 scene by installing the LED and assembling it with the Lampshade. Make sure the Floorboard of the 【Spring/Fall】 scene is set in the right direction.

- ① Floorboard ② Table Lamp • A ③ Table Lamp • B ④ Lampshade
⑤ Circuit Board ⑥ LED Cable 【Figurine】 ⑦ Patty ⑧ Double-sided Tape

Parts of issue 6

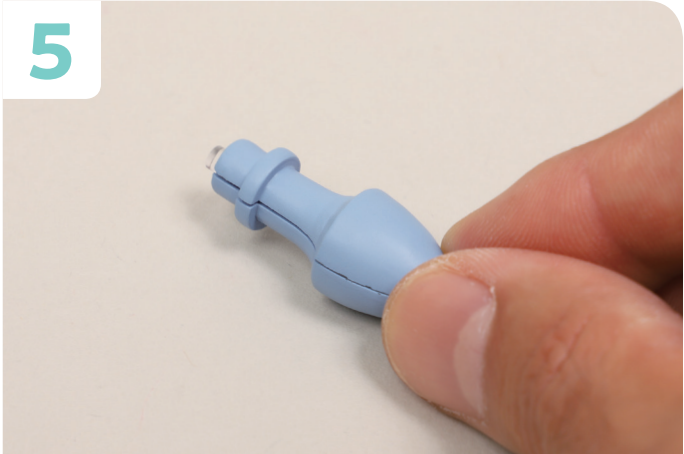

【Break Time, Relaxing at Home】

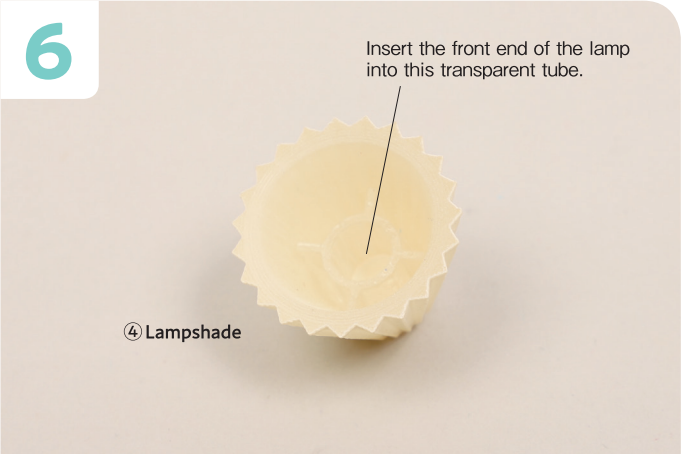

Assembling the Table Lamp

5

Try to minimize the gap between ② Table Lamp • A and ③ Table Lamp • B and fit them firmly together.

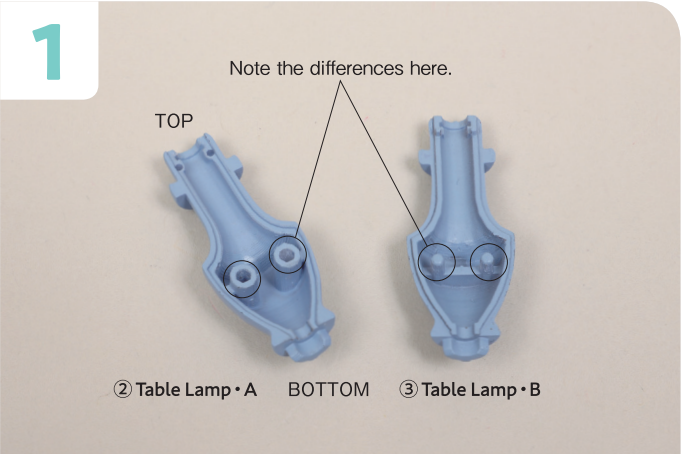

6

Look inside the ④ Lampshade - there is a transparent tube where we will insert the front end of the lamp.

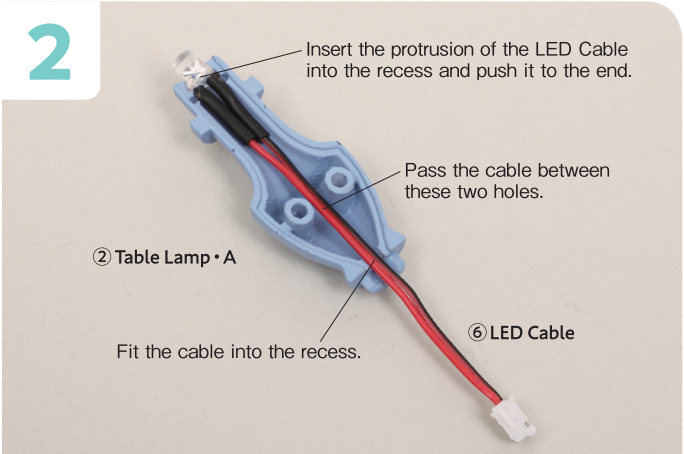

ASSEMBLING THE TABLE LAMP

1

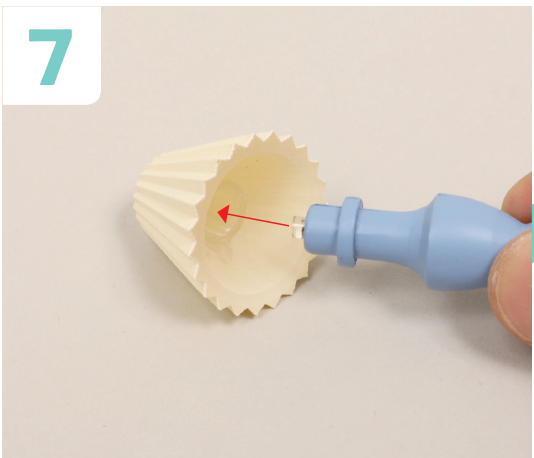

The insides of ② Table Lamp • A and ③ Table Lamp • B are different, there are small holes in ② whereas ③ has protrusions.

2

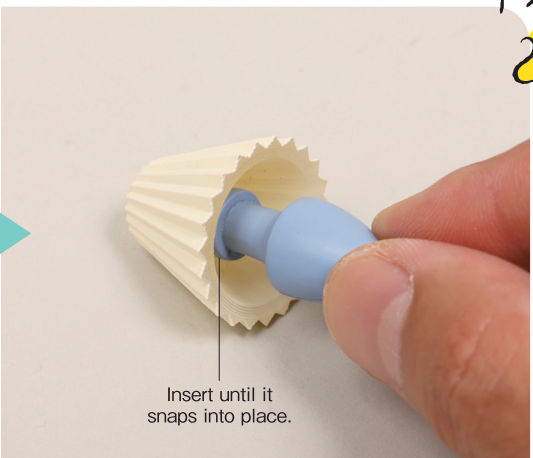

We will first assemble ② Table Lamp • A and ⑥ LED Cable together.

7

Insert the front end of the lamp from step 5 into the ④ Lampshade.

Insert the front end of the lamp into the transparent tube until it reaches the end.

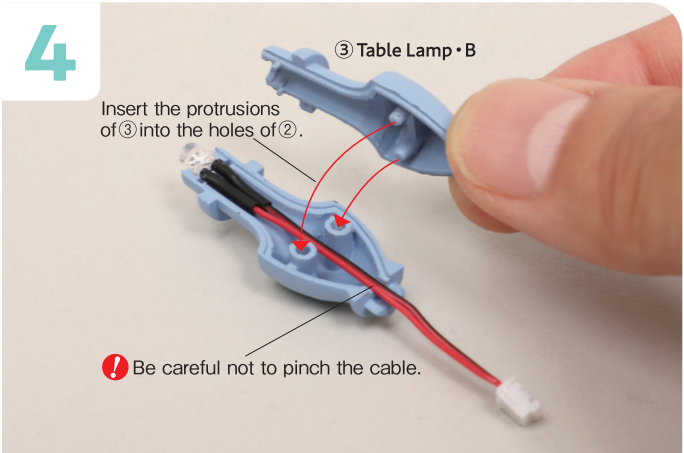

3

Use a small tool like a toothpick to apply a little quick-drying glue into the small holes of ② Table Lamp • A.

4

Assemble ② Table Lamp • A and ③ Table Lamp • B together before the glue dries.

Issue 6 Completed

That finishes the decorative Table Lamp in the 【Relaxing at Home】 scene. We will assemble the Table Lamp with the Side Table in the next issue.

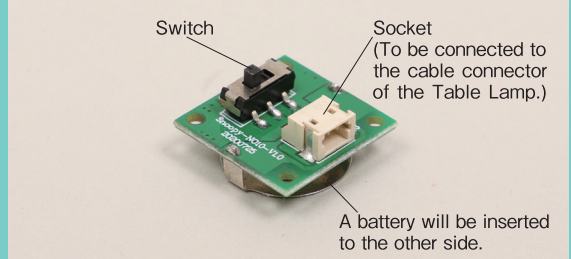

*The cable should come out from the bottom of the actual Table Lamp.

Connecting the Table Lamp's cable to the Circuit Board

There is a switch and a socket on the ⑤ Circuit Board. Please take good care of this part as it will be assembled in the next issue. The Circuit Board will be fitted inside the Side Table and connected to the cable coming out from the bottom of the Table Lamp.

ATTACHING THE FIGURINES

We will now attach the figurines for the 【Baseball Team】 scene with quick-drying glue. First, apply glue into the second hole from the left on the mound where Lucy figurine will be fitted.

Assemble the Lucy figurine by inserting the protrusions under the figurine deep into the holes.

Attach the Linus figurine onto the right edge of the mound in the same way.

Then attach the Schroeder figurine on the far left.

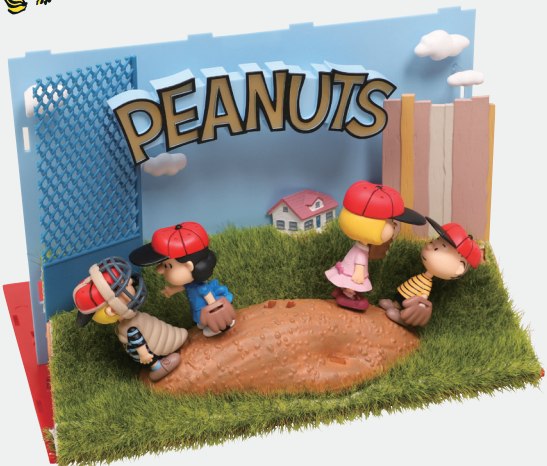

Lastly, attach the Patty figurine from this issue in place. In case you find any figurine slightly sloped and dislodged, you can paste ⑧ Double-sided Tape to the protruding part to secure it.

Issue 6 Completed

The mound in the【Baseball Team】 scene is now crowded with figurines, giving it a vibrant vibe. Please pay extra attention to its future storage and assembly, as any strong jolt could dislodge or tilt the figurines.

Using Double-sided Tape to hold the figurines in place in the 【Relaxing at Home】 scene

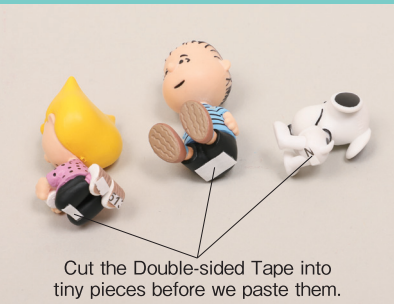

Use Double-sided Tape if you want to hold the figurines or cushions in place in the 【Relaxing at Home】 scene. Simply paste small pieces of cut Double-sided Tape onto the cushions as shown.

Peel off the backings of the Double-sided Tapes and put the cushions evenly on the sofa. Gently press the cushions to get the Double-sided Tapes pasted onto the sofa.

Paste a small piece of cut Double-sided Tape onto the figurine where it will be hidden when the figurine is placed on the sofa, like the Charlie Brown figurine, we can paste it onto his bottom.

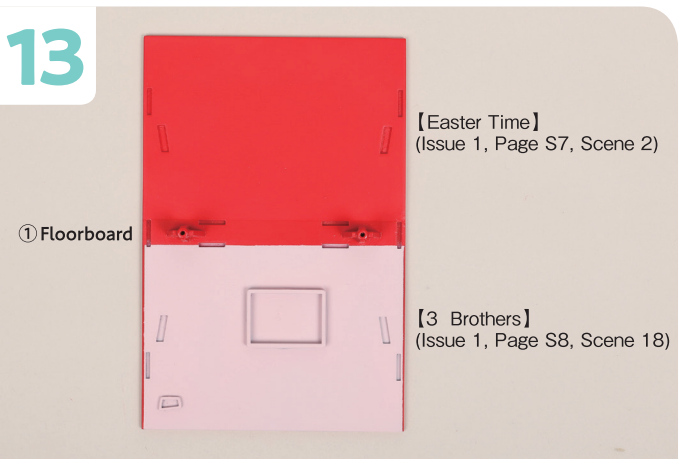

We can paste Double-sided Tapes onto other figurines as well. Like the Sally and Snoopy figurines, we can cut the Double-sided Tape into the smallest pieces possible so they will not stick out when we paste them.

Put the decorative figurines evenly on the sofa. When arranging the figurines or in future assembly, move them carefully to avoid dislodging or toppling them.

CHECKING THE FLOORBOARD

This ① Floorboard is for the 【Spring/Fall】 scene. The side painted in pink is for the 【3 Brothers】 scene, and the other is for the 【Easter Time】 scene.

Issue 6 Completed

Please take good care of this ① Floorboard as it will be used in later issues.
