

【Winter, Snowmen】

Left and Right Walls, Trees

【Doghouse】

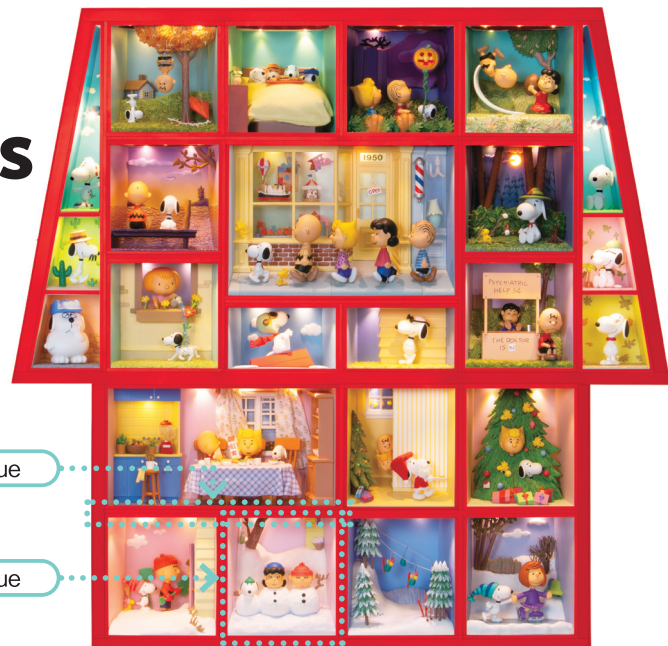

Shelving

【Figurine】

Lucy

【Snowmen】

The parts in this issue are the Left and Right Walls and two kinds of Trees for the 【Snowmen】 scene. Also included is the remaining Shelving separating the doghouse's first and second floors, and the figurine is Lucy for the same scene.

LEFT AND RIGHT WALLS, TREES

We will assemble the Left and Right Walls to the 【Snowmen】 scene, and the Trees on the left side of the Ground and near the House.

Figurine

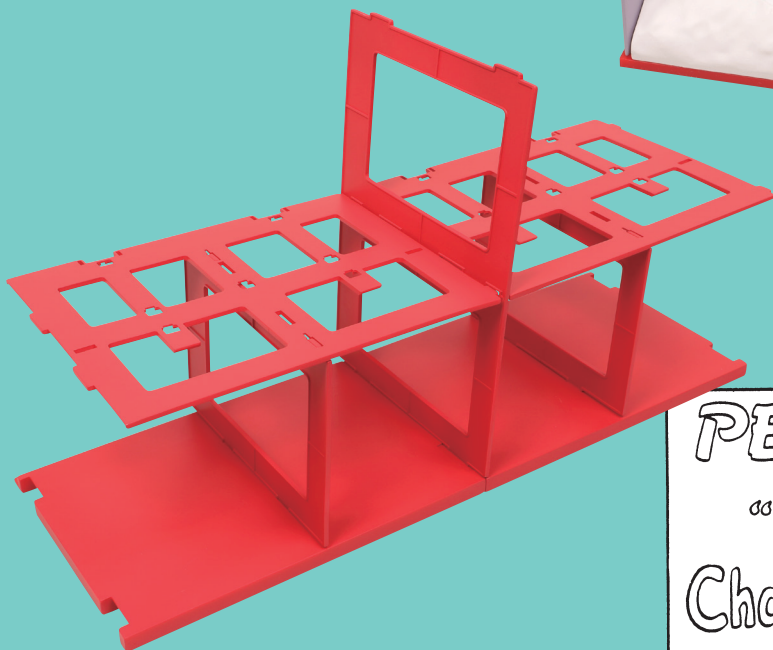

Lucy

Figurine for the 【Snowmen】 scene

SHELVING

We will also check out how to assemble the remaining Shelving separating the first and second floors on the lower side of the doghouse.

ASSEMBLY INSTRUCTIONS

【Winter, Snowmen】

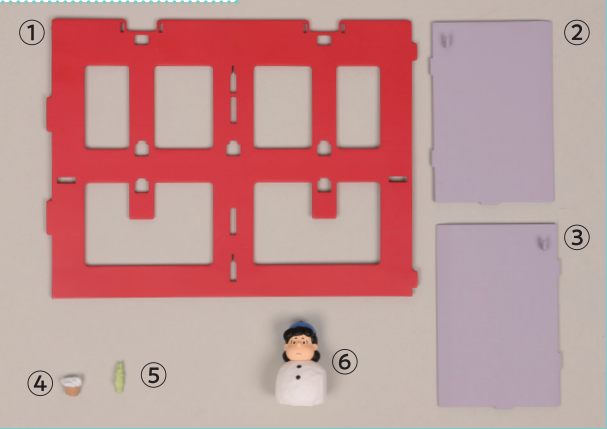

Assembling the Left & Right Walls
Making the Trees

【Doghouse】

Checking the assembly
of the Shelving

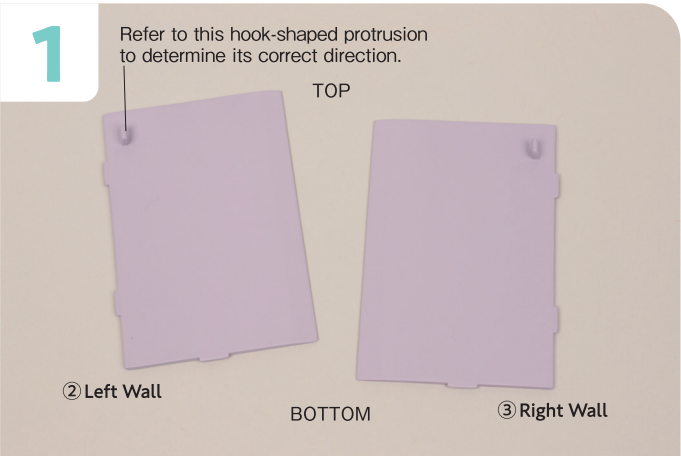

We will assemble the Left and Right Walls to the 【Snowmen】 scene and two kinds of Trees on the Ground. We will also check out how to assemble the Shelving separating the doghouse's first and second floors.

Parts of issue 60

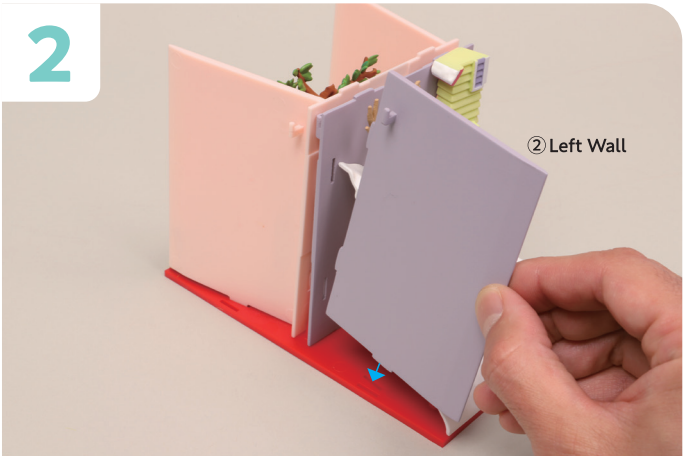

① Lower Shelving Unit ② Left Wall ③ Right Wall ④ Tree A ⑤ Tree B 【Figurine】 ⑥ Lucy

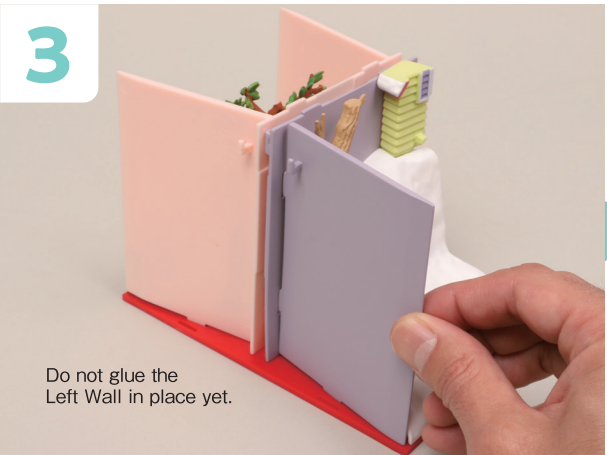

ASSEMBLING THE LEFT AND RIGHT WALLS

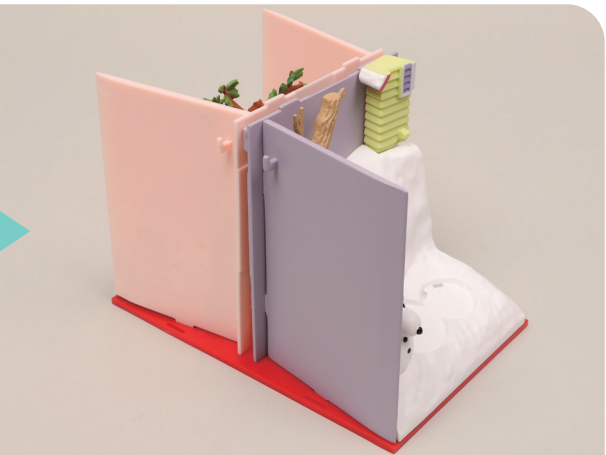

Check the orientations of the ② Left Wall and ③ Right Wall.

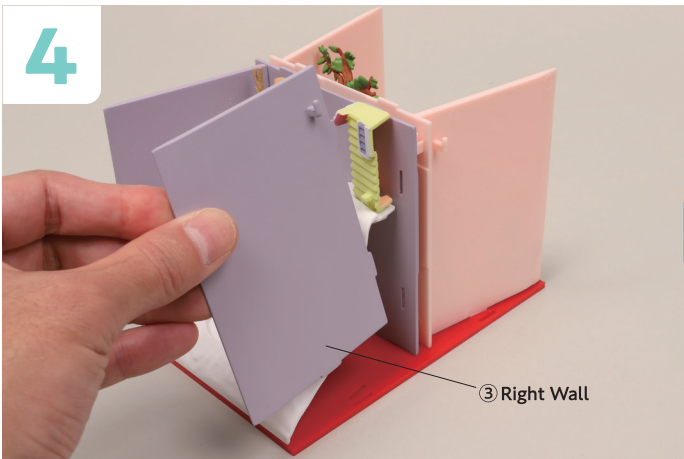

Get ready the 【Snowmen】 scene assembled in issue 59 and assemble the ② Left Wall to the left side of the Floorboard.

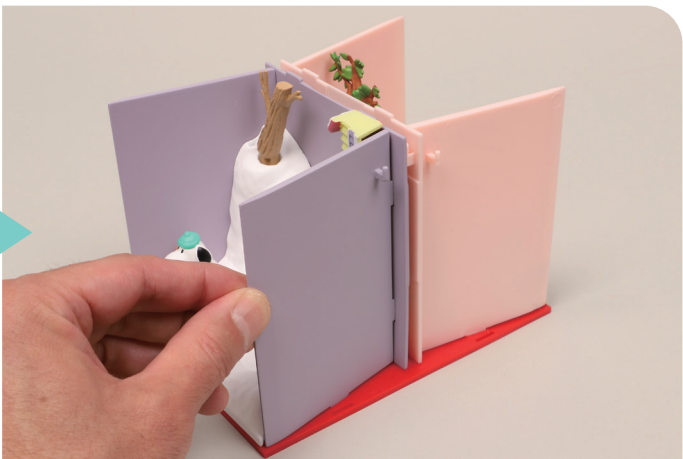

Insert the ② Left Wall's bottom protrusion into the hole in the Floorboard, then insert its two rear protrusions into the holes in the Back Wall.

Assembling the Left and Right Walls

Assemble the ③ Right Wall to the opposite side of the Floorboard in the same manner.

Make sure the ③ Right Wall's two rear protrusions are firmly inserted into the holes in the Back Wall.

Issue 60
Completed

The Left and Right Walls have now been assembled to the 【Snowmen】 scene. Let's go on to assemble two kinds of Trees on the Ground.

MAKING THE TREES

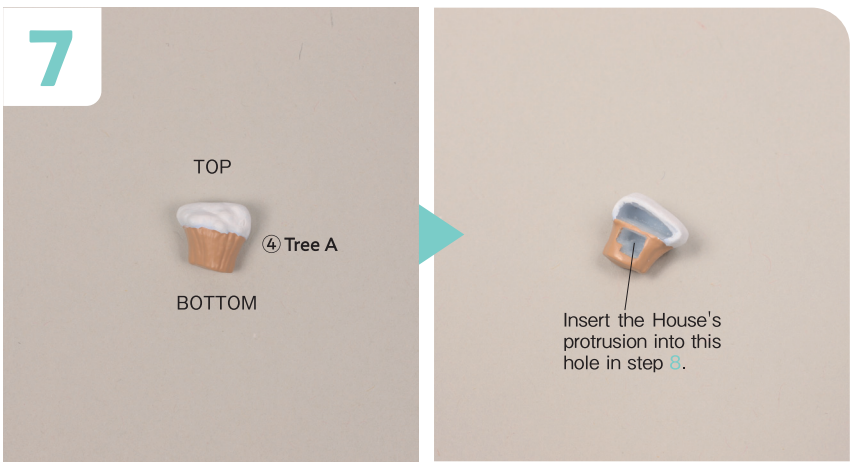

We can now assemble ⑤ Tree B into the hole on the left rear side of the Ground in the position shown above. Match its bottom protrusion with the shape of the hole and insert it.

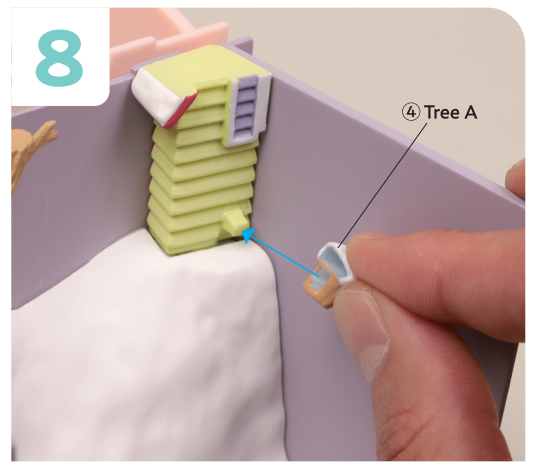

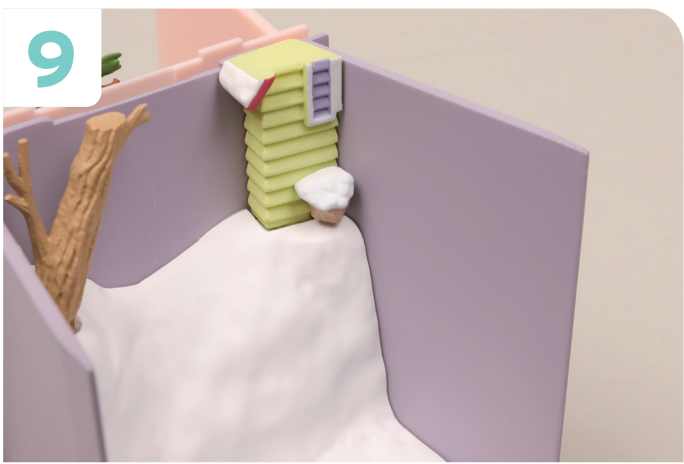

Making the Trees

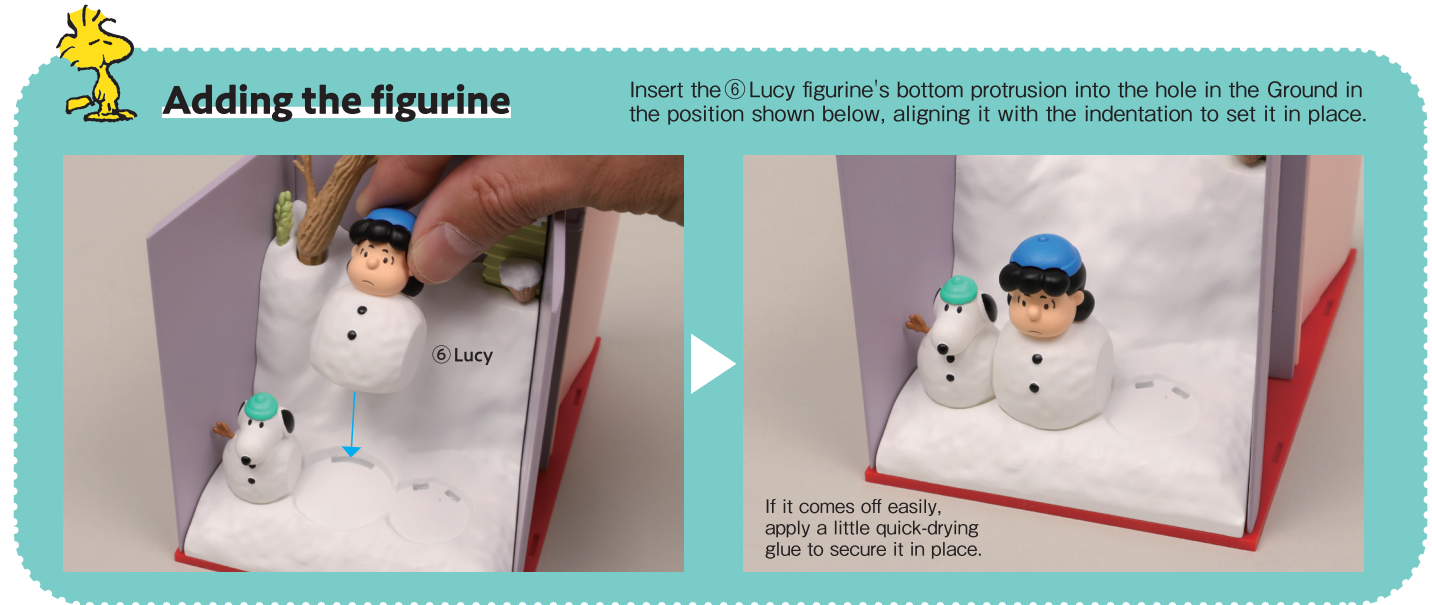

Check the orientation of ④ Tree A.

Assemble ④ Tree A to the House on the right rear side of the Ground by inserting the House's protrusion into the hole at the back of the Tree.

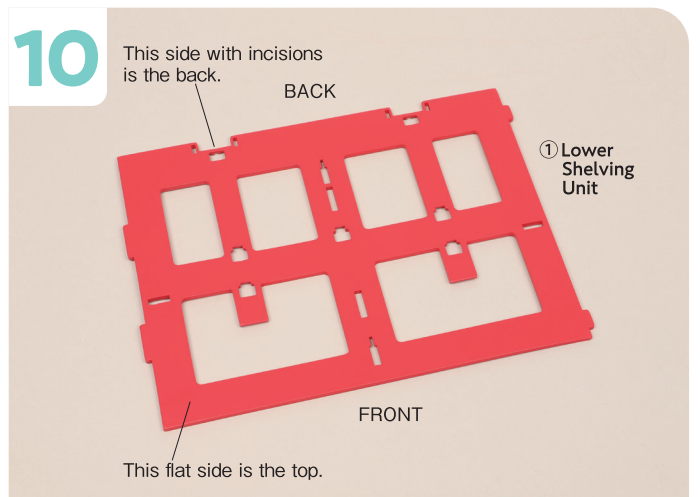

Insert the House's protrusion deep into the back of the hole. If it comes off easily, apply a little quick-drying glue to secure it in place.

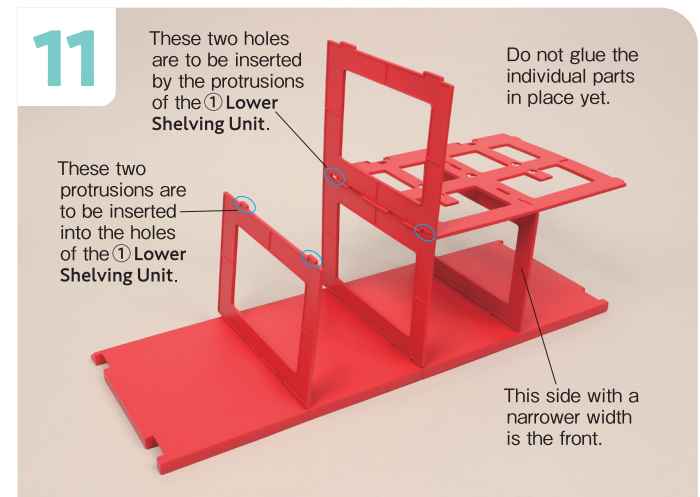

Insert the ⑥ Lucy figurine's bottom protrusion into the hole in the Ground in the position shown below, aligning it with the indentation to set it in place.

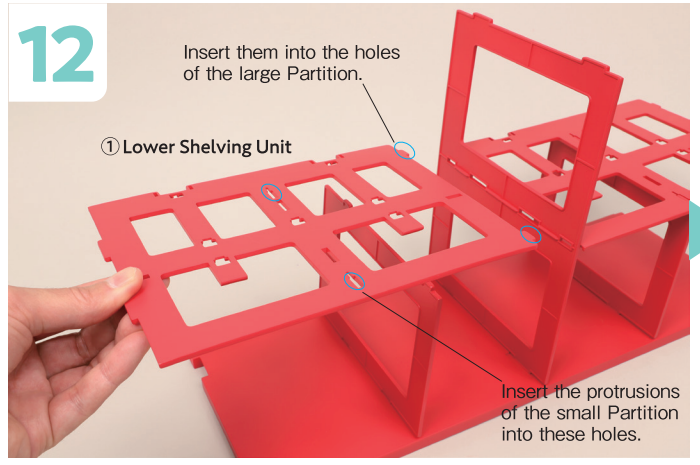

CHECKING THE ASSEMBLY OF THE SHELVING

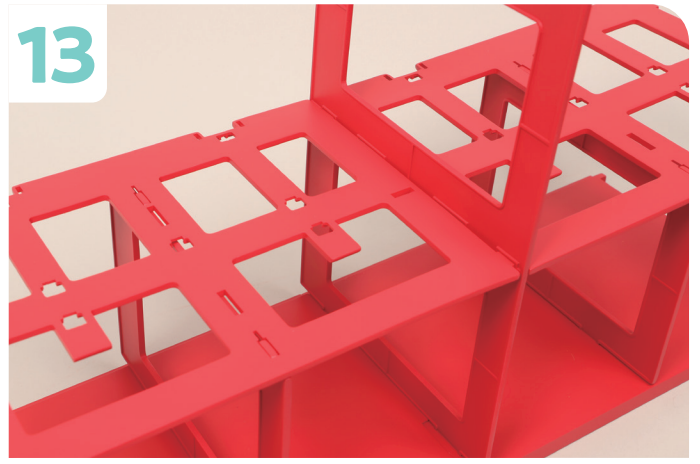

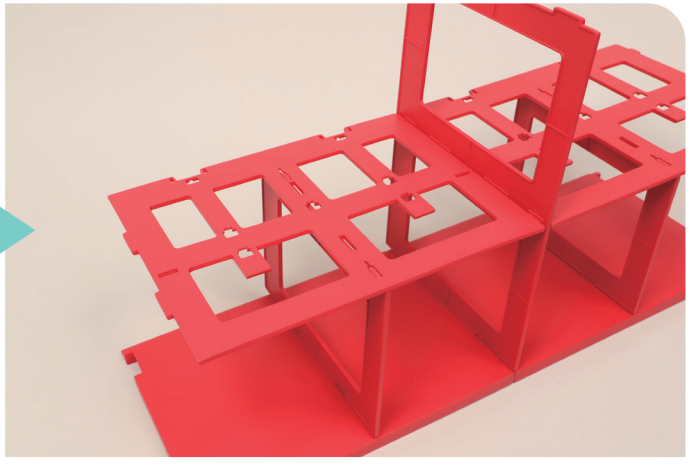

Check the orientation of the ① Lower Shelving Unit.

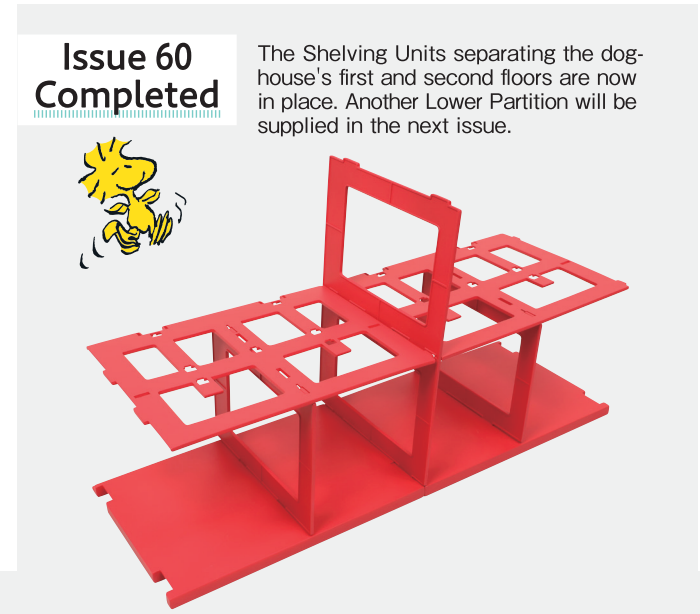

Now check how the Shelving is assembled. First, assemble the large and small Partitions and the Shelving from issue 59 to the Base Plates.

Assemble the ① Lower Shelving Unit above the Partition on the left by fitting its holes and protrusions to the large and small Partitions.

The parts are unstable at this stage, but they will be secured after other parts like the Left and Right Walls are added.

Issue 60 Completed

The Shelving Units separating the doghouse's first and second floors are now in place. Another Lower Partition will be supplied in the next issue.
