BACK WALL, GROUND

We will start assembling the 【Mother's Day】 scene in this issue. First, fit the Butterfly onto the Back Wall and assemble it onto the Floorboard, then assemble the Ground with green Powder sprinkled on it.

Figurine

Snoopy

Figurine for the 【Mother's Day】 scene

RIGHT WALL'S JOINTS

These are the parts for joining the Right Wall and Base Plate on the lower side of the doghouse. We will fit the Joint parts to assemble the Right Wall to the Base Plate.

※ Actual parts may vary from the photos.

ASSEMBLY INSTRUCTIONS

【Spring, Mother's Day】

Assembling the Back Wall and Ground

【Doghouse】

Fitting the Right Wall's Joints

We will start assembling the 【Mother's Day】 scene in this issue. First, fit the Butterfly onto the Back Wall and assemble it onto the Floorboard, then assemble the Ground with green Powder sprinkled on it. Also fit the Joints to assemble the Right Wall to the Base Plate of the doghouse.

- ① Back Wall ② Antennae ③ Butterfly ④ Ground ⑤ Powder ⑥ Right Wall's Bottom Joint×2
⑦ Screw (PM2.6×6mm)×9 (1 for spare) 【Figurine】 ⑧ Snoopy

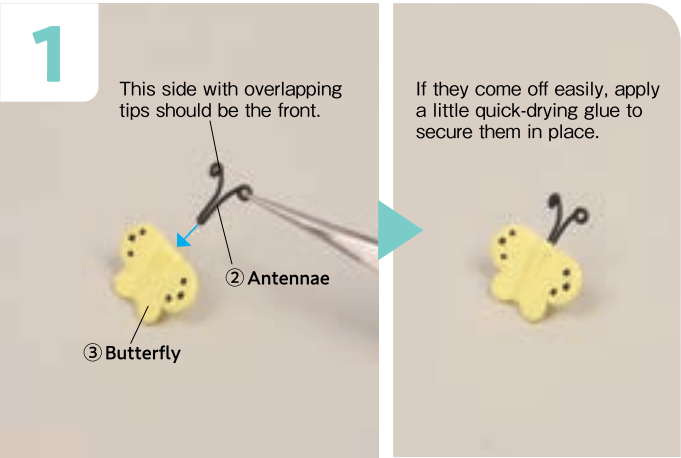

Parts of issue 63

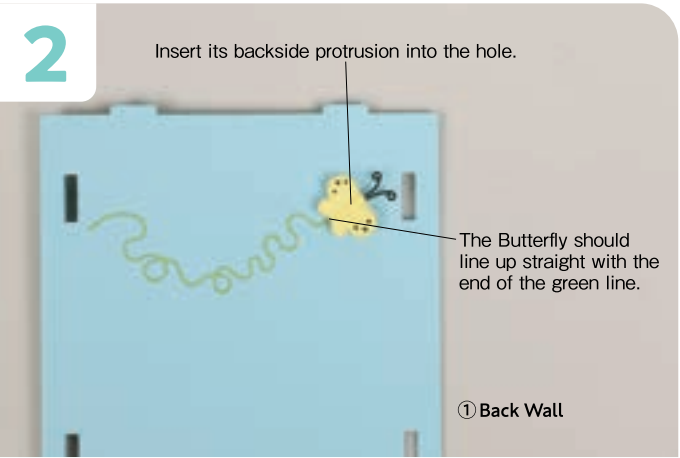

【Spring, Mother's Day】

ASSEMBLING THE BACK WALL AND GROUND

Fit the ② Antennae to the ③ Butterfly. Check the orientation of the ② Antennae and insert them into the holes.

Fit the Butterfly onto the ① Back Wall by inserting its backside protrusion into the hole in the wall. If it comes off easily, apply a little quick-drying glue to secure it in place.

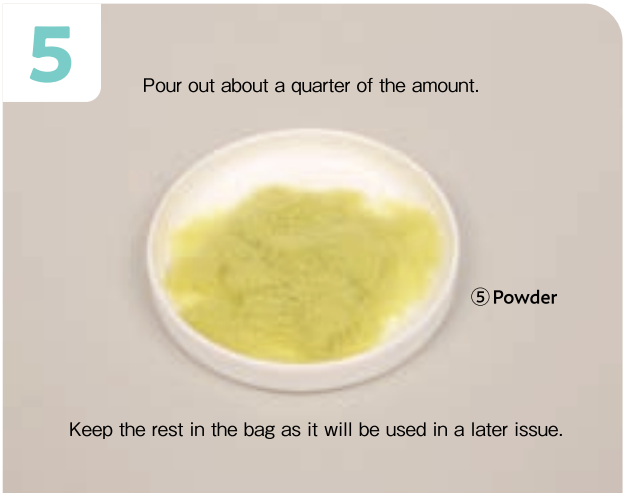

The 【Mother's Day】 scene is on the other side of the 【Kite-flying】 scene. First, get ready the previously assembled 【Mother's Day/Kite-flying】 scene box.

Apply a little quick-drying glue to the grooves of the Floorboard and assemble the ① Back Wall as before.

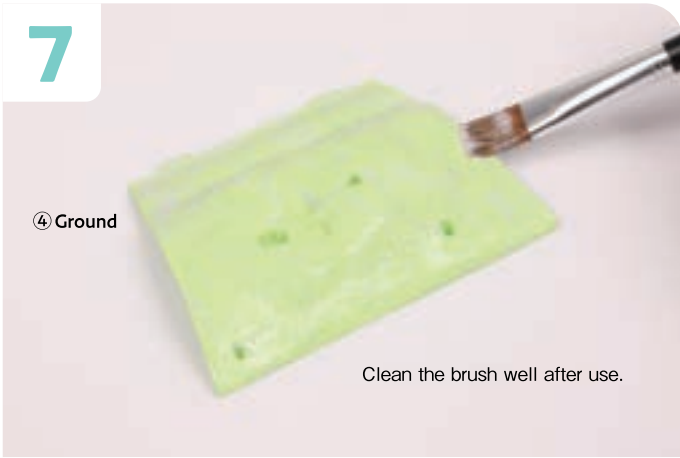

Assembling the Back Wall and Ground

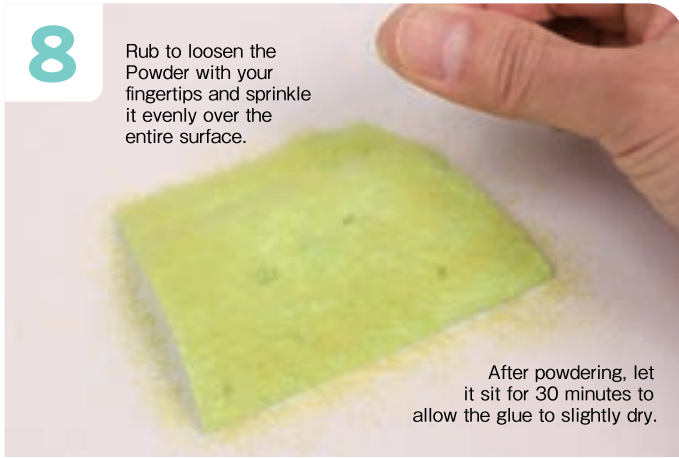

Now sprinkle the green Powder on the Ground. First, pour about a quarter of the ⑤ Powder into a palette or the like.

Squeeze about 1 teaspoon of wood glue into a palette or the like, add an equal amount of water and a few drops of neutral detergent, and mix well. Any ordinary neutral detergent will do, or you can use soapy water instead.

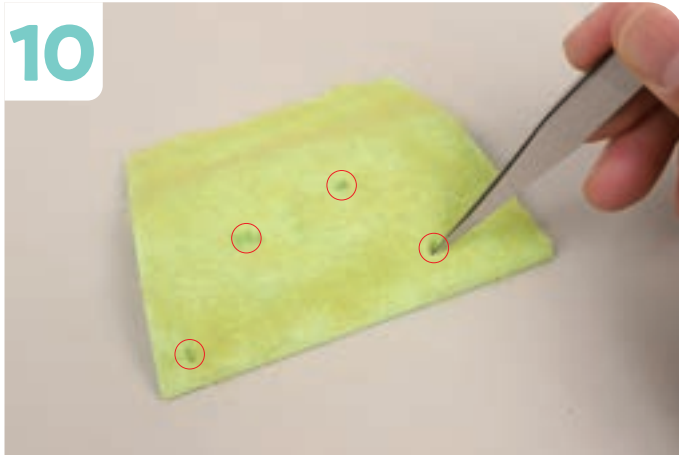

Use a brush to apply the glue prepared in step 6 to the entire surface of the ④ Ground, a little more on the front as the Powder tends to come off there.

Now take and sprinkle the Powder prepared in step 5. Take and sprinkle a little at a time and rub to loosen it with your fingertips while sprinkling. Sprinkle it over the entire surface as evenly as possible.

When the glue has dried slightly after 30 minutes, gently press the Powder with your fingertips. Then leave it for half to one day to allow the glue to dry thoroughly.

When the glue is completely dry, lightly brush off the excess Powder and unclog the holes using tweezers or the like.

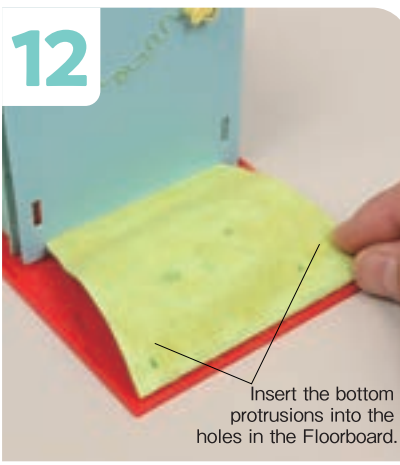

Assembling the Back Wall and Ground

Apply a little quick-drying glue to the two rear protrusions of the ④ Ground and insert them into the holes in the Back Wall.

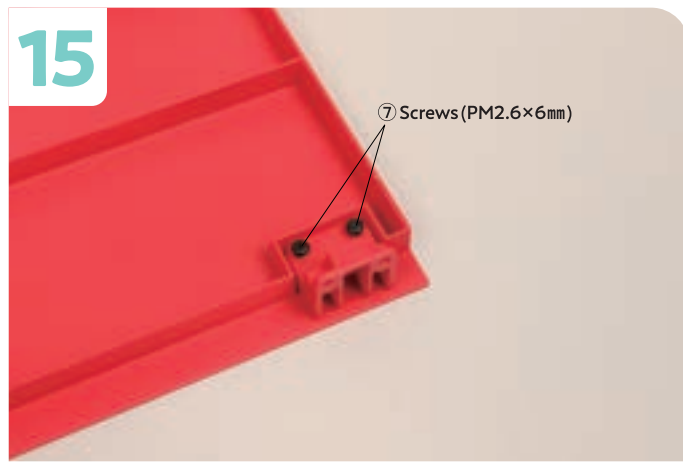

Press the front edge of the Ground against the Floorboard and insert its bottom protrusions into the holes in the Floorboard.

Issue 63 Completed

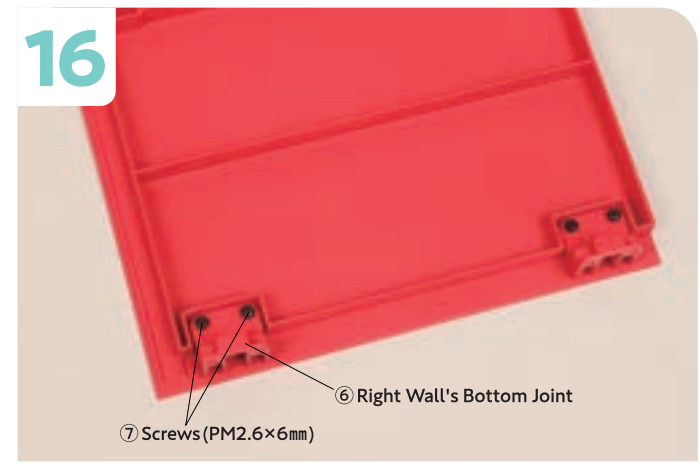

The Ground and Back Wall have now been assembled onto the Floorboard of the 〔Mother's Day〕 scene. The Left and Right Walls and Flowers will be added in the next issue.

Fitting the Right Wall's Joints

Tighten the ⑦ Screws (PM2.6×6mm) into the two positions shown to fix the joint in place.

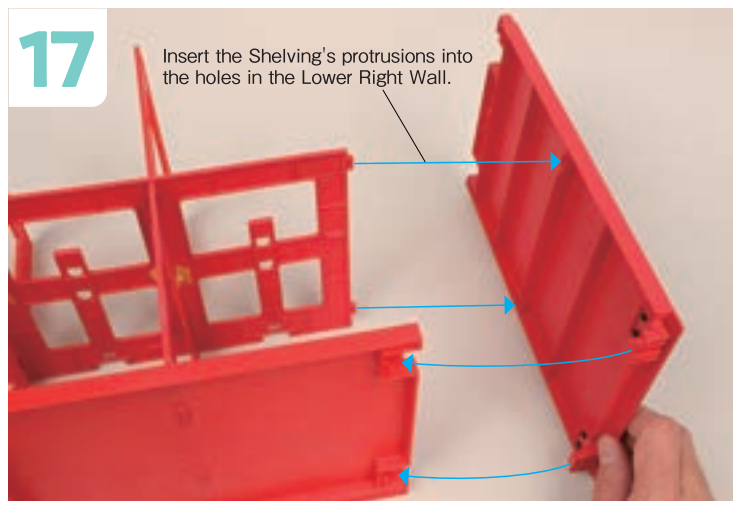

Fit another ⑥ Right Wall's Bottom Joint to the position shown and fix it in place by tightening two ⑦ Screws (PM2.6×6mm) in the same manner.

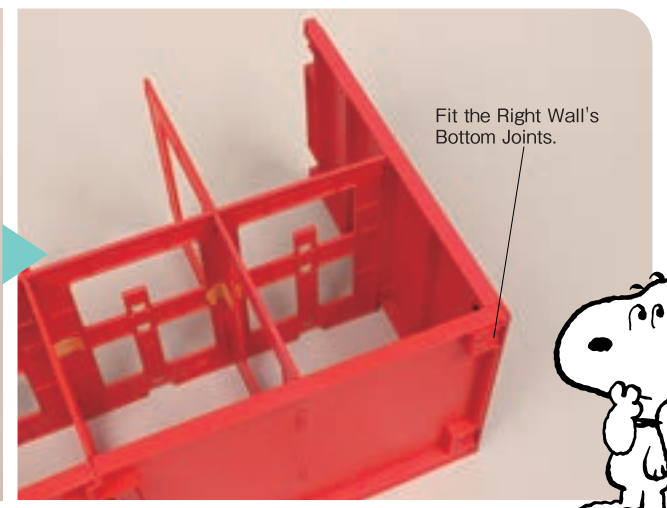

Adding the figurine

Insert the ⑧ Snoopy figurine's bottom protrusion into the hole in the Ground in the position shown below. If it comes off easily, apply a little quick-drying glue to secure it in place.

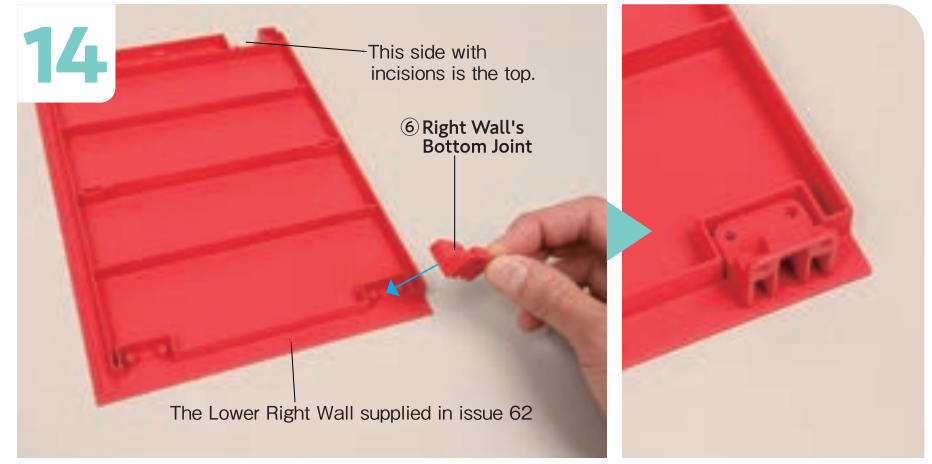

Carefully lay down the doghouse assembled so far and assemble the Lower Right Wall as shown.

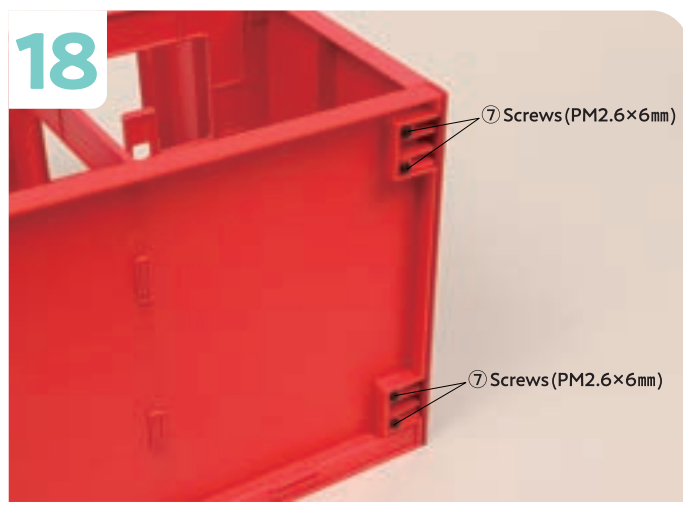

FITTING THE RIGHT WALL'S JOINTS

Check the orientation of the ⑥ Right Wall's Bottom Joint.

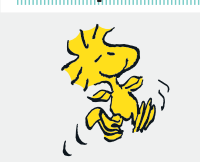

Detach the Lower Right Wall supplied in issue 62 in which we have checked how to assemble, and fit the ⑥ Right Wall's Bottom Joint to the lower inner side of the wall in the position shown.

Tighten two ⑦ Screws (PM2.6×6mm) into each Bottom Joint of the Right Wall to fix the wall in place.

Issue 63 Completed

The Right Wall is now fixed to the lower side of the doghouse. Take good care of the Partitions and be careful not to dislodge them.
