MAKING THE FLOWERS

3

⑤ Small Flower

If it comes off easily, apply a little quick-drying glue to secure it in place.

Now fit the ⑤ Small Flower into the hole at the left front corner of the Ground in the position shown. Match its bottom protrusion with the shape of the hole and insert it.

4

④ Large Flowers

Fit the ④ Large Flowers into the hole in the Ground in the position shown in the same manner. If it comes off easily, apply a little quick-drying glue to secure it in place.

For those who wish to add extra details to the Flower Sheet

Modellers who wish to can colour each flower centre on the ⑥ Flower Sheet with the tip of a toothpick.

Trim the tip to an appropriate thickness.

Prepare a toothpick with its tip trimmed to a thickness that matches that of the flower centres.

Although yellow paint is used here, you can use red or other colours to your liking.

Dip the trimmed tip of the toothpick in acrylic paint undiluted by water.

Adjust the thickness of the toothpick to match the flower sizes.

Press the toothpick tip onto each flower centre on the ⑥ Flower Sheet, as if you were stamping it, to apply colour.

Making the Flowers

Use a cutter to cut each flower out along the seams of the ⑥ Flower Sheet.

Now glue the cut flowers to the Ground. First, balance the composition of the large flowers in front of the Snoopy figurine and glue them.

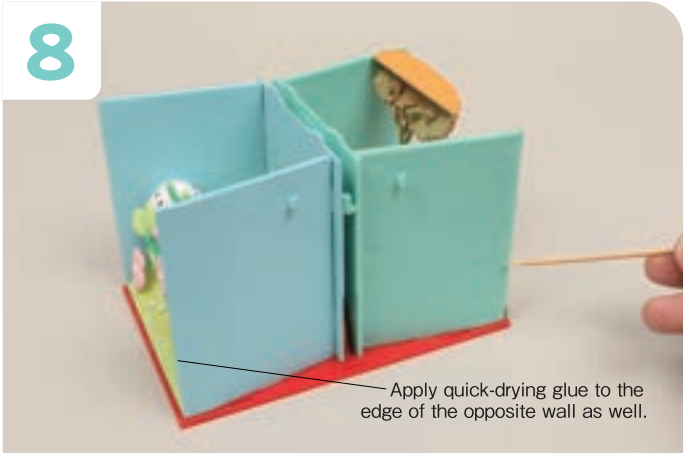

Balance the composition of the small flowers and glue them in the same manner.

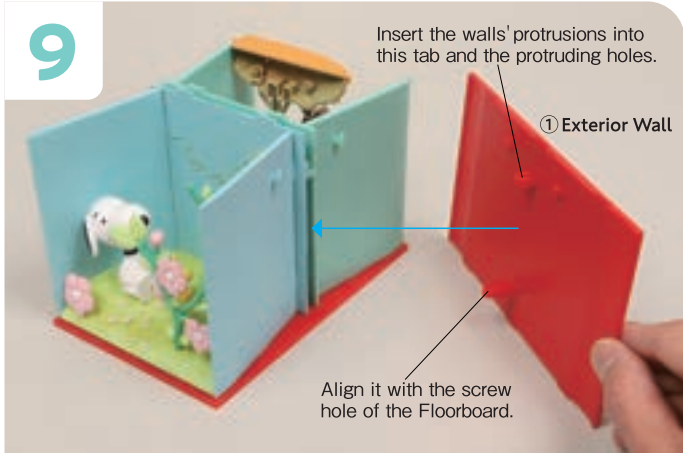

Issue 64 Completed

With the flowers added to the Ground, the spring scene is now more colourful. Let's add the figurine to complete the scene.

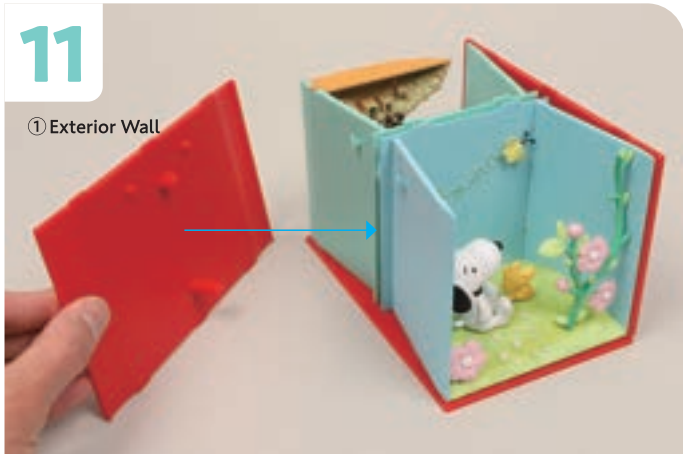

Get ready the 【Mother's Day/Kite-flying】 scene box and apply quick-drying glue to the walls' edges with the tip of a toothpick or the like.

Before the glue dries, assemble the ① Exterior Wall as before.

Check from above that the protrusions and screw hole are assembled to the Exterior Wall.

Assemble the remaining ① Exterior Wall on the other side in the same manner as in steps 8~10.

Tighten the ⑦ Screws (PM2×6mm) into the holes in the long tabs of the ① Exterior Walls to fix the walls in place.

Issue 64 Completed

Except for the Ceiling, the 【Mother's Day/Kite-flying】 scene box is now complete.

Adding the figurine
