

[Spring, Rabbits]

Back Wall, Ground

[Doghouse]

Columns, Wall Joints

[Figurines]

Rabbits (5) [Rabbits]

The parts in this issue are the Ground and Back Wall of the [Rabbits] scene. Also included are the Wall Joints and Columns on the lower side of the doghouse. And the figurines are the five Rabbits for the same scene.

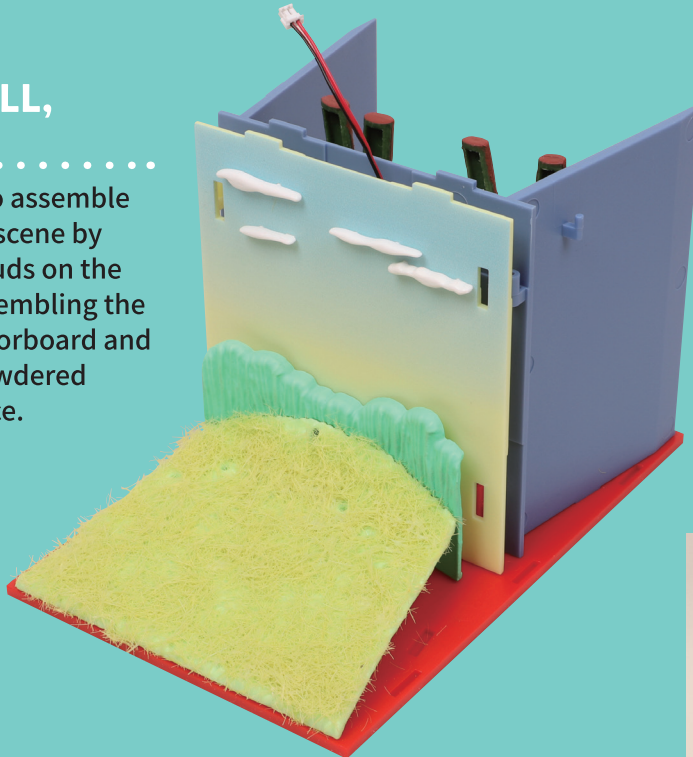

In this issue

In this issue

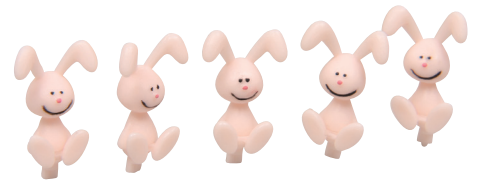

BACK WALL, GROUND

We will start to assemble the [Rabbits] scene by fitting the Clouds on the Back Wall, assembling the wall to the Floorboard and setting the powdered Ground in place.

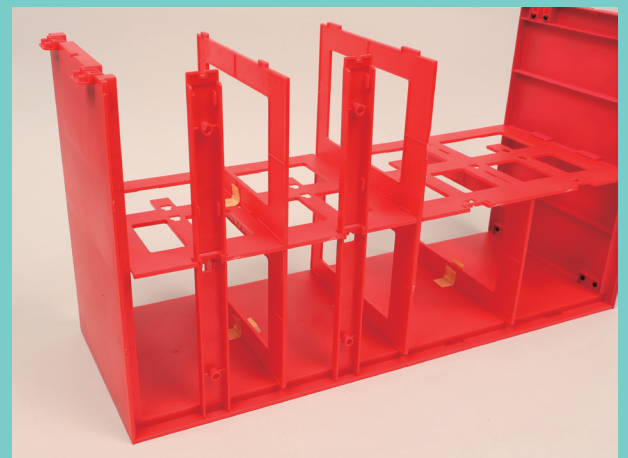

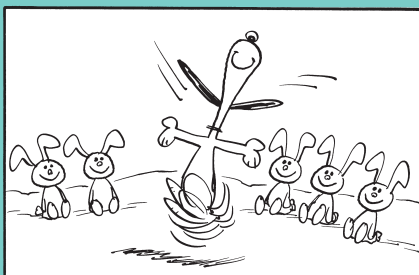

Figurines

Rabbits (5)

Figurines for the [Rabbits] scene

Snoopy is fed up with being told by curly-haired Frieda that he's supposed to chase rabbits. Snoopy loves rabbits, so he prefers to dance with them instead!

COLUMNS, WALL JOINTS

We will also fit the joint parts onto the top edges of the Left and Right Walls of the doghouse that has been assembled so far, and two Columns on the rear side of the doghouse.

ASSEMBLY INSTRUCTIONS

【Spring, Rabbits】

Assembling the Back Wall and Ground

【Doghouse】

Assembling the Columns and Wall Joints

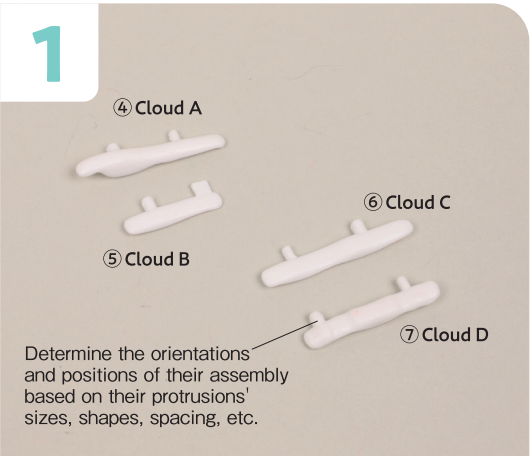

We will start to assemble the【Rabbits】scene by fitting the Clouds on the Back Wall, assembling the wall to the Floorboard and setting the powdered Ground in place. We will also fit the joint parts to the doghouse's walls and add the Columns on the rear side.

Parts of issue 68

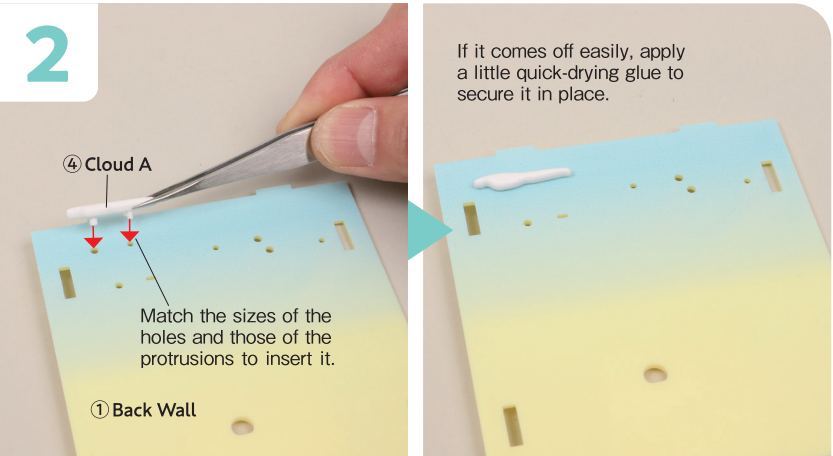

- ① Back Wall ② Background ③ Ground ④ Cloud A ⑤ Cloud B ⑥ Cloud C ⑦ Cloud D
⑧ Screw (PB2.6×6mm)×9 (1 for spare) ⑨ Column×2 ⑩ Wall Joint×4 【Figurines】 ⑪ Rabbit×5

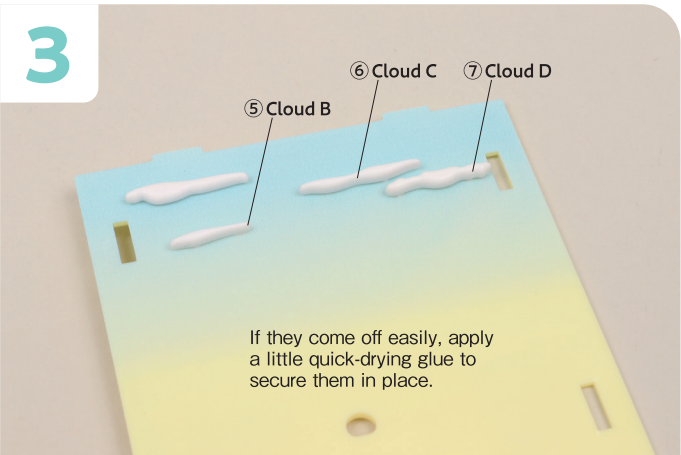

ASSEMBLING THE BACK WALL AND GROUND

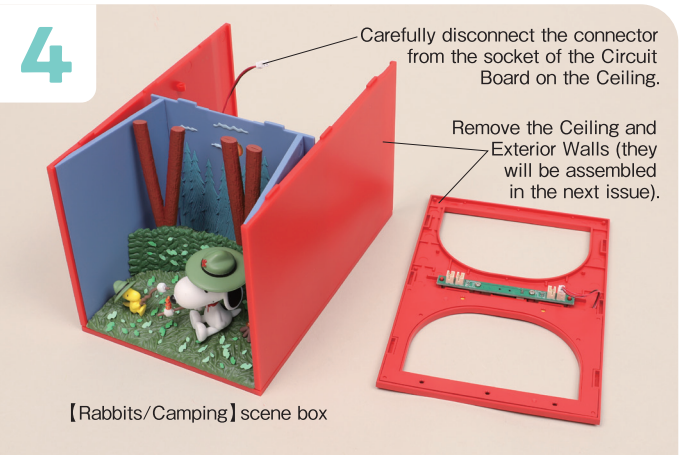

Identify④~⑦Clouds A~D. Determine the orientations and positions of their assembly based on their protrusions' sizes, shapes, spacing, etc.

Fit ④ Cloud A to the top left corner of the ① Back Wall by inserting its large and small protrusions into the holes in the wall.

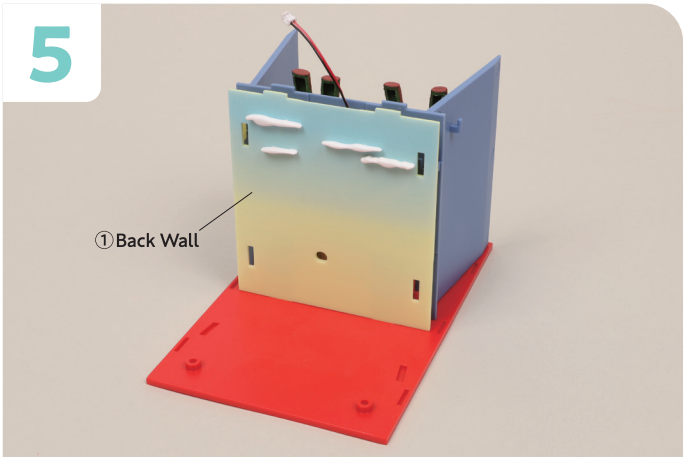

Fit ⑤~⑦ Clouds B-D onto the Back Wall in the same manner.

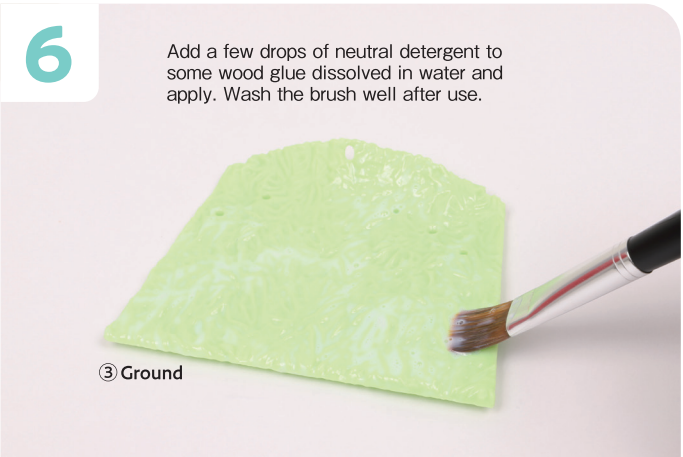

Get ready the【Rabbits/Camping】scene box previously assembled and remove the temporarily assembled Ceiling and Exterior Walls.

Assembling the Back Wall and Ground

The【Rabbits】scene is on the other side of the【Camping】scene. Apply a little quick-drying glue to the grooves in the Floorboard and assemble the ① Back Wall as before.

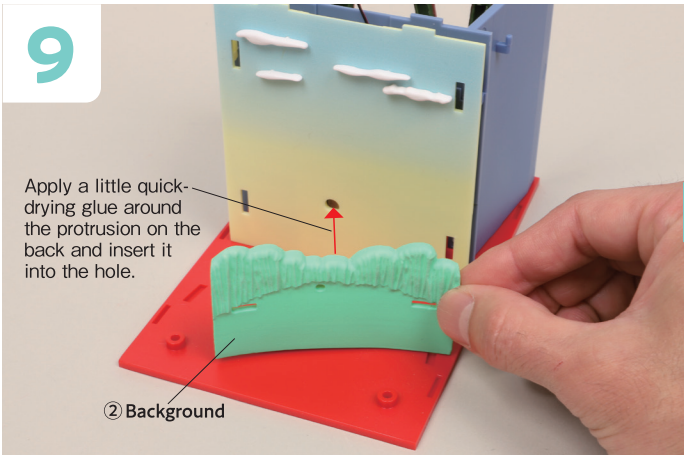

As we did at issue 63 step 6, mix equal parts wood glue and water with a few drops of neutral detergent and apply it to the ③ Ground. Then sprinkle the green Powder on the ③ Ground.

Take about one-third green Powder from issue 63 and sprinkle it on the ③ Ground.

Leave it for 30 minutes to allow the glue to dry slightly, then gently press the Powder with your fingertips. Leave it for half to one day to allow the glue to dry thoroughly. When dry, lightly dust off any excess Powder and unclog the holes.

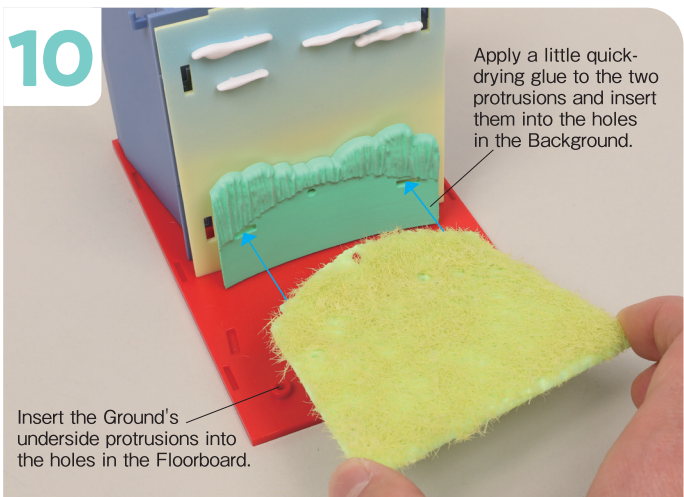

Assemble the ② Background onto the Back Wall by applying a little quick-drying glue around the protrusion on the back of the ② Background, and inserting it into the hole in the Back Wall.

【Spring, Rabbits】

Assembling the Back Wall and Ground

Apply a little quick-drying glue to the two protrusions at the rear edge of the Ground from step 8, and insert them into the holes in the Back-ground. Press the Ground's front edge against the Floorboard and insert its underside protrusions into the holes in the Floorboard.

Issue 68 Completed

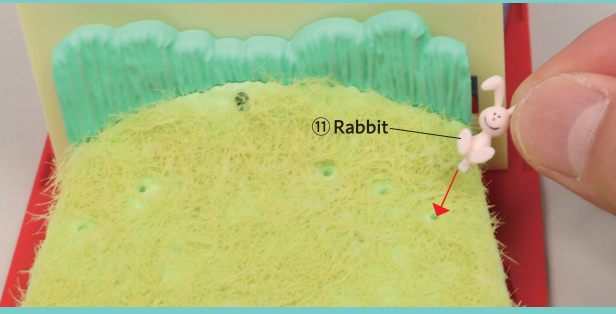

The Ground, Background and Back Wall are now assembled onto the Floorboard of the [Rabbits] scene. The remaining parts will be assembled in the next issue.

Adding the figurines

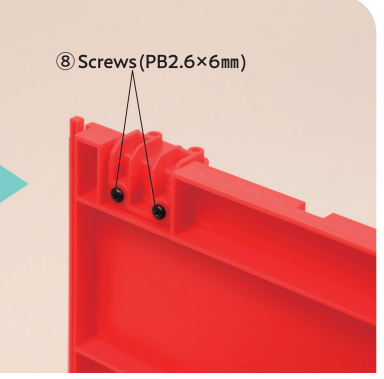

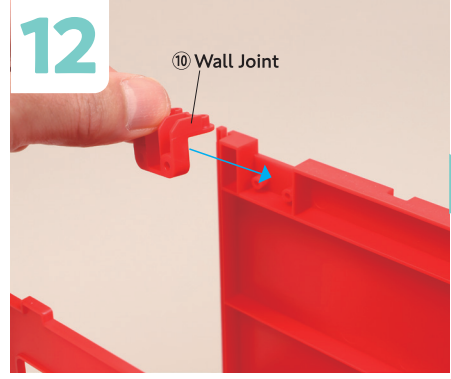

Insert the 11 Rabbits' bottom protrusions into the holes in the Ground. If they come off easily, apply a little quick-drying glue to secure them in place.

ASSEMBLING THE COLUMNS AND WALL JOINTS

Check the orientation of the 10 Wall Joint.

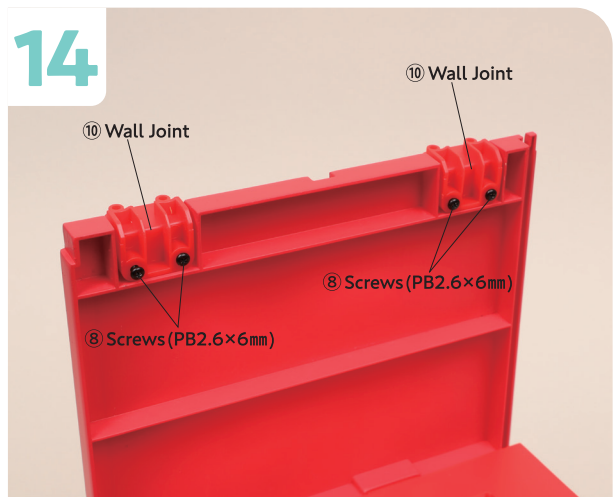

Get ready the doghouse that has been assembled so far, fit a 10 Wall Joint onto the top edge of the Right Wall in the position shown, and tighten two 8 Screws (PB2.6×6mm) to secure it in place.

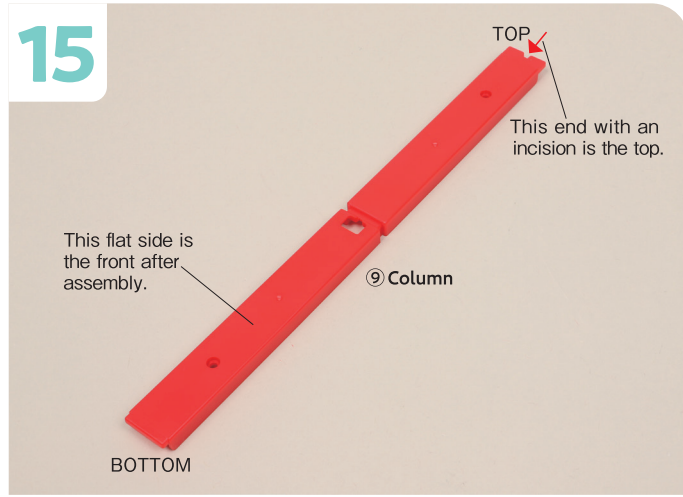

Assembling the Columns and Wall Joints

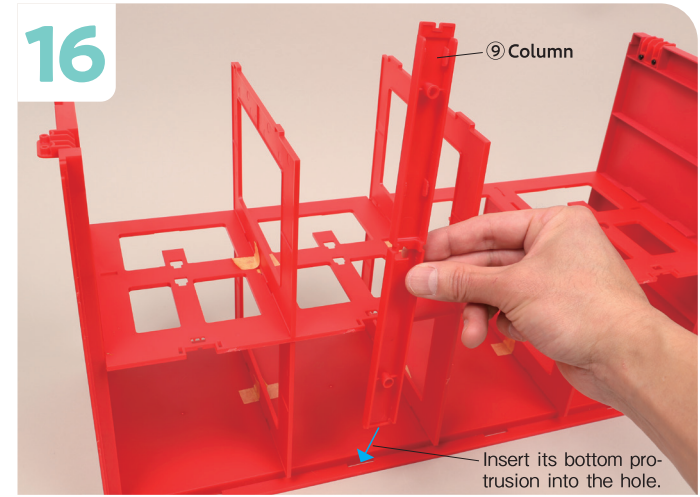

Fit another 10 Wall Joint to the Right Wall in the position shown, and tighten two 8 Screws (PB2.6×6mm) to secure it in place in the same manner.

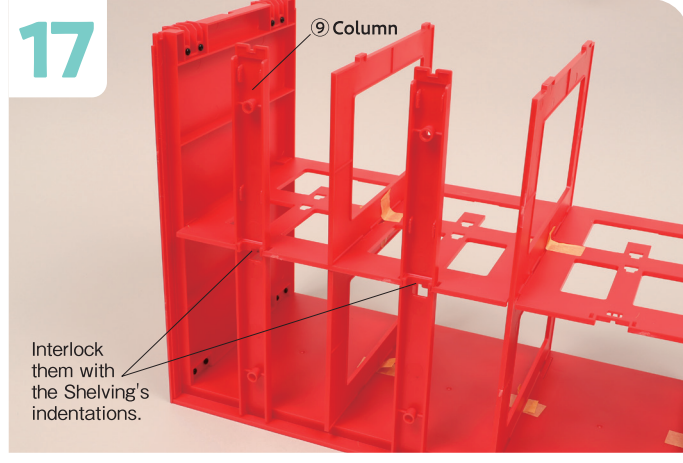

Fit two more 10 Wall Joints to the Left Wall on the opposite side, and tighten two 8 Screws (PB2.6×6mm) each to secure them in place.

Check the orientation of the 9 Column.

Assemble the 9 Column on the rear side of the doghouse that has been assembled so far. Insert its bottom protrusion into the hole in the Base Plate in the position shown.

Assemble the remaining 9 Column in the position shown in the same way.

Issue 68 Completed

With the Columns added to the doghouse, the Shelving and other parts are now firmly secured in place.
