

【Spring, Valentine's Day】

In this issue

Floorboard, Back Wall, Chairs, etc.

【Doghouse】

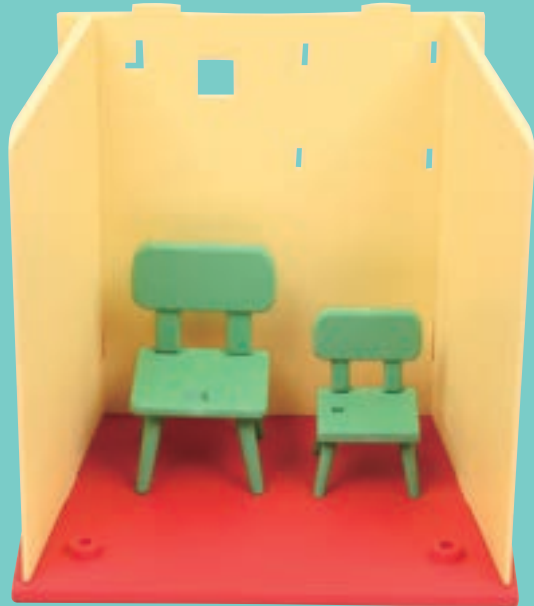

Left Floorboard

【Figurine】

Snoopy

【Valentine's Day】

The parts in this issue are the Floorboard, Back Wall, Chairs, etc. for the 【Valentine's Day】 scene. Also included is the Floorboard for the doghouse, and the figurine is Snoopy for the same scene.

FLOORBOARD, BACK WALL, CHAIRS, ETC.

We will start to assemble the 【Valentine's Day】 scene by assembling the Back Wall, Left and Right Walls to the Floorboard as before, and making two Chairs to be set on the Floorboard.

Figurine

Snoopy

Figurine for the 【Valentine's Day】 scene

LEDs

We will fit the LEDs on one side of the Ceiling Top Panel of the 【Valentine's Day/ Great Pumpkin】 scene box.

LEFT FLOORBOARD

Also assemble the Floorboards that act as the dividing line between the upper and lower sides of the doghouse. Join the Left and Right Floorboards and assemble them on the lower side of the doghouse.

ASSEMBLY INSTRUCTIONS

【Spring, Valentine's Day】

Assembling the Floorboard, Back Wall, etc. Making the Chairs Fitting the LEDs

【Doghouse】

Assembling the Left Floorboard

We will start to assemble the 【Valentine's Day】 scene, fit the LEDs on one side of the Ceiling Top Panel, and assemble the Floorboards of the doghouse.

- ① Floorboard ② Back Wall ③ Left Wall ④ Right Wall ⑤ Sally's Chair ⑥ Snoopy's Chair ⑦ Cable with LEDs
⑧ Ceiling Top Panel ⑨ Left Floorboard ⑩ Floorboard Joint ⑪ Screw (PB2.6×6mm)×5(1 for spare) 【Figurine】 ⑫ Snoopy

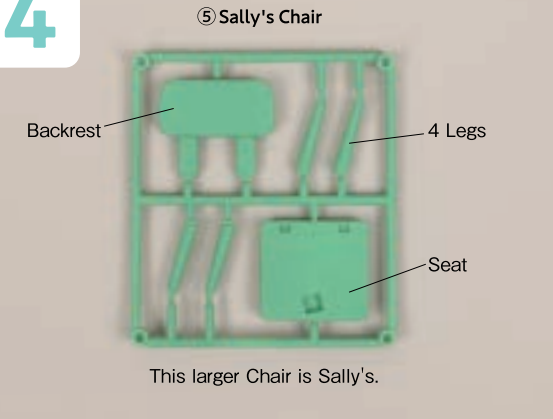

Parts of issue 70

【Spring, Valentine's Day】

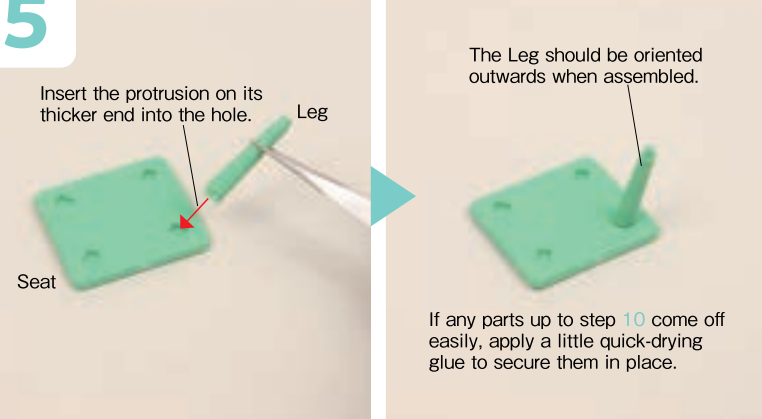

MAKING THE CHAIRS

4

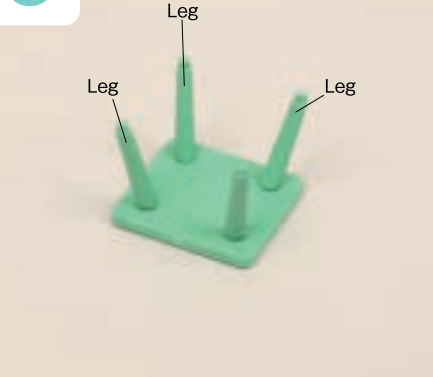

Use a cutter to cut each part out along the seams of ⑤ Sally's Chair.

5

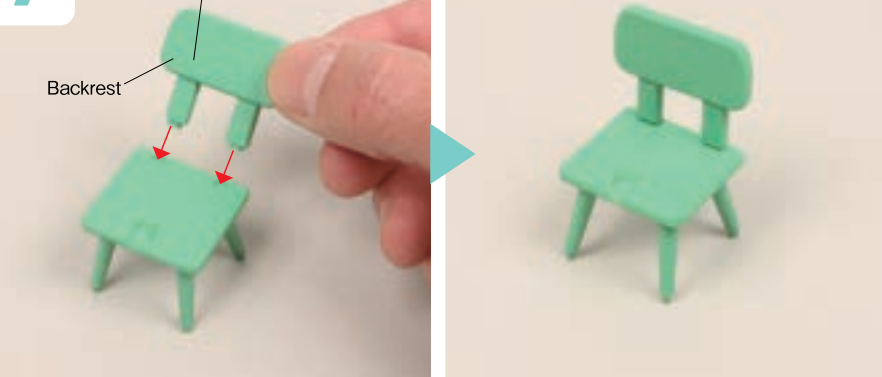

Turn the Seat over to its underside and insert the protrusion on the thicker end of the Leg into the hole. The Leg should be oriented outwards when assembled.

6

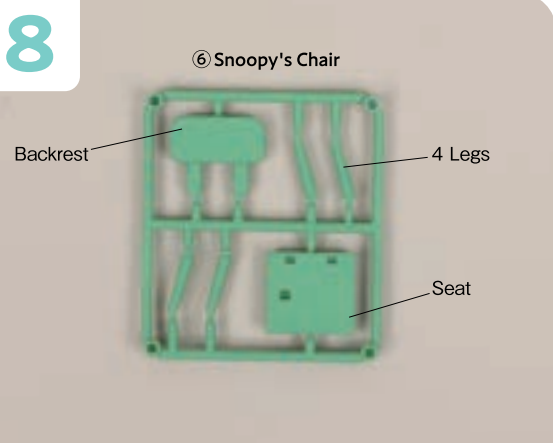

Assemble each Leg into the remaining holes in the Seat in the same manner.

7

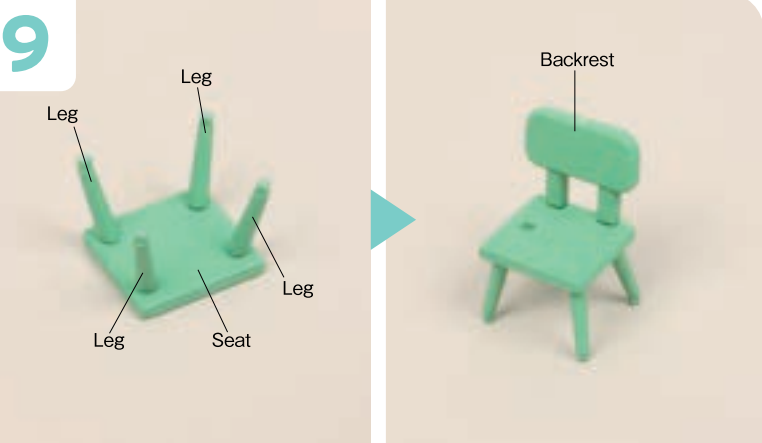

Turn over the assembled parts of step 6, and assemble the Backrest to the top side of the Seat.

8

Make ⑥ Snoopy's Chair in the same manner as in steps 4~7. First, use a cutter to cut each part out along the seams.

9

Assemble four Legs to the underside of the Seat, and the Backrest to its top side.

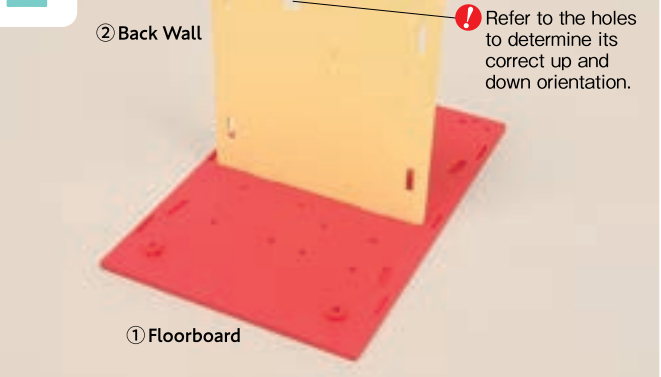

ASSEMBLING THE FLOORBOARD, BACK WALL, ETC.

1

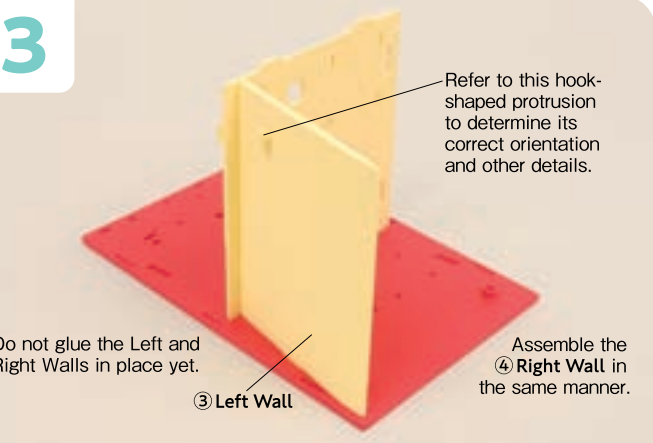

Check the orientation of the ① Floorboard—refer to the positions, shapes and number of the holes to determine its correct orientation.

2

Apply a little quick-drying glue to the grooves in the Floorboard and assemble the ② Back Wall as before.

3

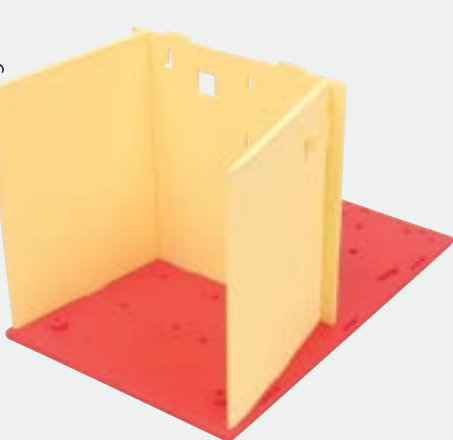

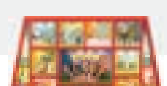

Assemble the ③ Left Wall to the left side of the Floorboard and the ④ Right Wall on the opposite side as before.

Issue 70 Completed

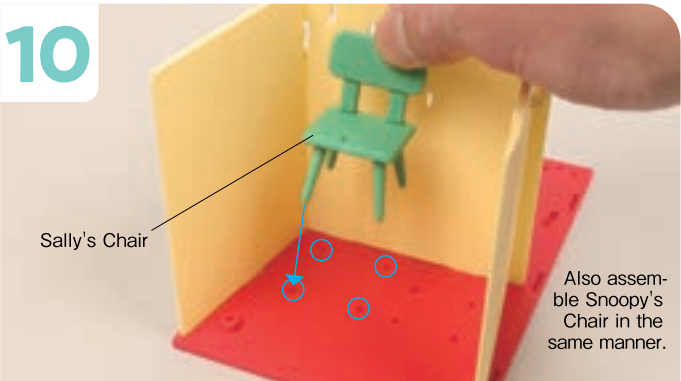

The walls of the 【Valentine's Day】 scene are now assembled. Let's go on to make the Chairs.

Making the Chairs

Now assemble Sally's Chair onto the Floorboard in the position shown. Gently press the Seat down while aligning its Legs one by one with the holes' positions. Also assemble Snoopy's Chair to its right in the same way.

Issue 70 Completed

Two Chairs are now assembled to the [Valentine's Day] scene. We will make Picture Frames in the next issue.

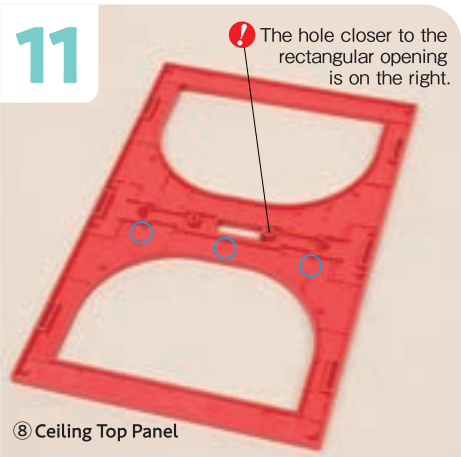

Adding the figurine

Insert the ⑫ Snoopy figurine's bottom protrusion into the hole in the Chair. Apply quick-drying glue if it falls off easily.

FITTING THE LEDS

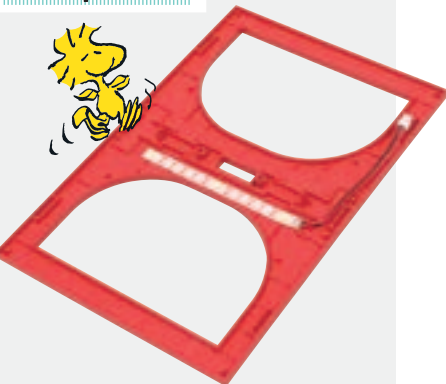

Make sure the ⑧ Ceiling Top Panel is oriented correctly. We will align the LEDs with the protrusions circled in blue and affix the Cable with LEDs.

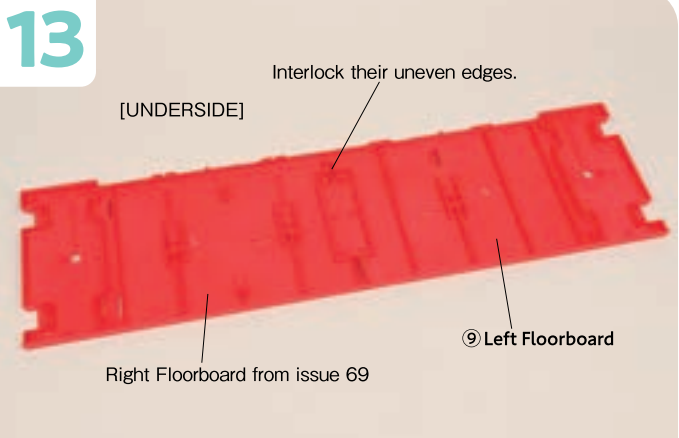

As before, affix the ⑦ Cable with LEDs to the Ceiling Top Panel in the position shown, with its LEDs aligned with the protrusions identified in step 11.

Issue 70 Completed

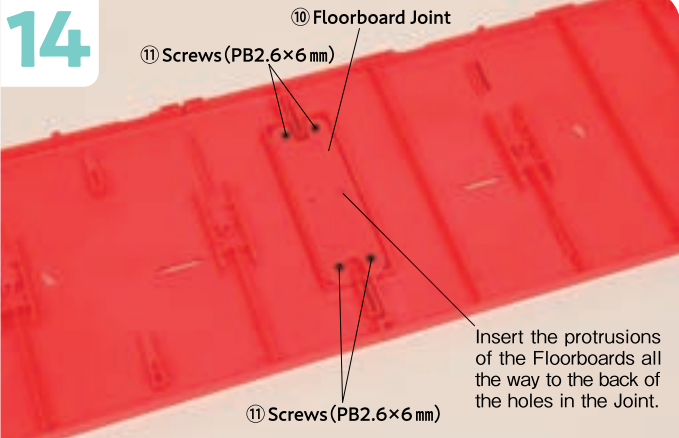

We will assemble the Circuit Board and Inner Panel to the Ceiling Top Panel in the next issue.

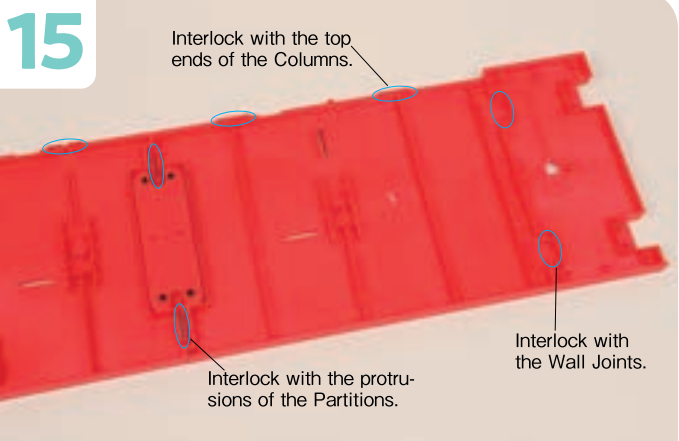

ASSEMBLING THE LEFT FLOORBOARD

Get ready the doghouse previously assembled, remove the Right Floorboard from issue 69 and assemble it with the Left Floorboard as shown.

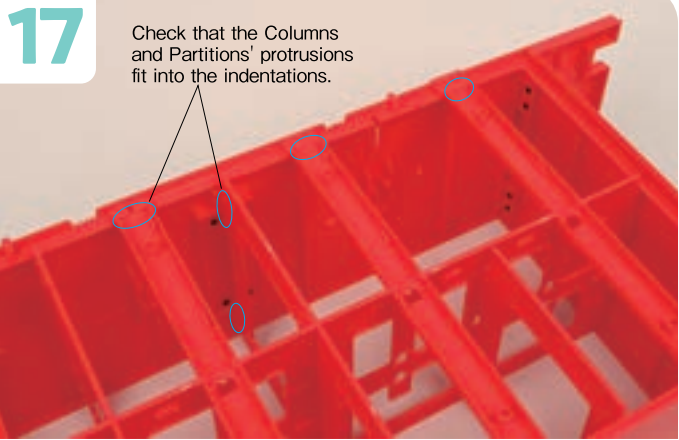

Fit the ⑩ Floorboard Joint at the joint of the Left and Right Floorboards as shown, and tighten the ⑪ Screws (PB2.6×6mm) into four locations to secure them in place.

Interlock the Wall Joints, Partitions and Columns into the indentations circled in blue when assembling the Floorboards to the doghouse.

Assemble the Floorboards to the doghouse by interlocking the Columns' top ends, Partitions' protrusions and Wall Joints with the Floorboards' indentations identified in step 15.

Check from the underside that the Columns, Partitions' protrusions and Wall Joints fit into the indentations on the underside of the Floorboards.

Issue 70 Completed

With the Floorboards added, the form of the doghouse's lower side is now complete.
