Walls, Ground, Stool, Tree, etc.

【Doghouse】

Bottom Right Back Wall

【Figurine】

Charlie Brown 【Psychiatry Booth】

The parts in this issue are the surrounding Walls, Ground, Stool and background Tree for the 【Psychiatry Booth】 scene. Also included is the Bottom Right Back Wall of the doghouse. And the figurine is Charlie Brown for the same scene.

In this issue

WALLS, GROUND, STOOL, TREE, ETC.

We will start assembling the 【Psychiatry Booth】 scene. We will assemble the Walls and Ground as before, and assemble the background Fence and Tree, and Charlie Brown's Stool.

Figurine

Charlie Brown

Figurine for the 【Psychiatry Booth】 scene

BACK WALLS AND MORE

We will also assemble the upper Floorboards bordering the doghouse and fasten them with Screws, and assemble the Back Wall at the bottom right.

※ Actual parts may vary from the photos.

ASSEMBLY INSTRUCTIONS

Assembling the Walls & Ground
Making the Stool, Tree, etc.

【Doghouse】

Assembling the
Bottom Right Back Wall

We will start assembling the 【Psychiatry Booth】 scene. We will assemble the Walls and Ground as before, assemble the background Fence and Tree, Charlie Brown's Stool, and assemble the Floorboards and Back Wall to the doghouse.

Parts of issue 78

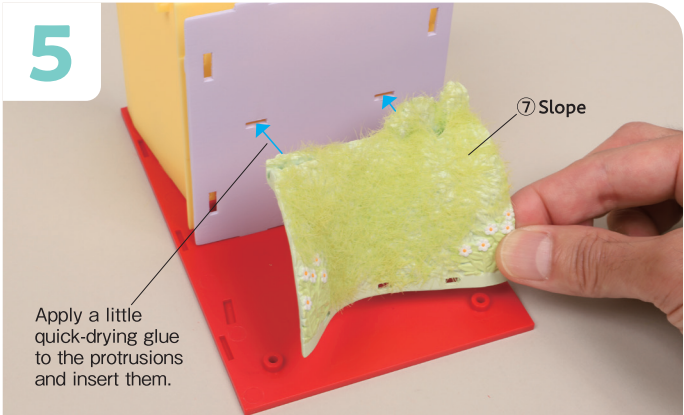

- ① Bottom Right Back Wall ② Inner Panel ③ Left Wall ④ Right Wall ⑤ Back Wall ⑥ Ground ⑦ Slope ⑧ Fence ⑨ Tree ⑩ Stool ⑪ Tyre ⑫ Screw (PB2.6×6mm)×5 (1 for spare) 【Figurine】 ⑬ Charlie Brown

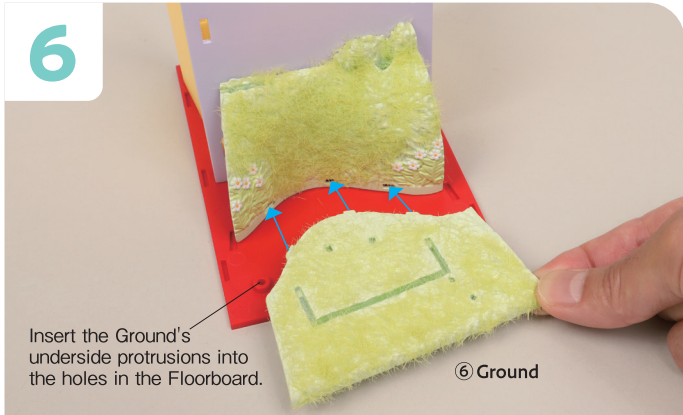

【Fan Favorites, Psychiatry Booth】

Assembling the Walls and Ground

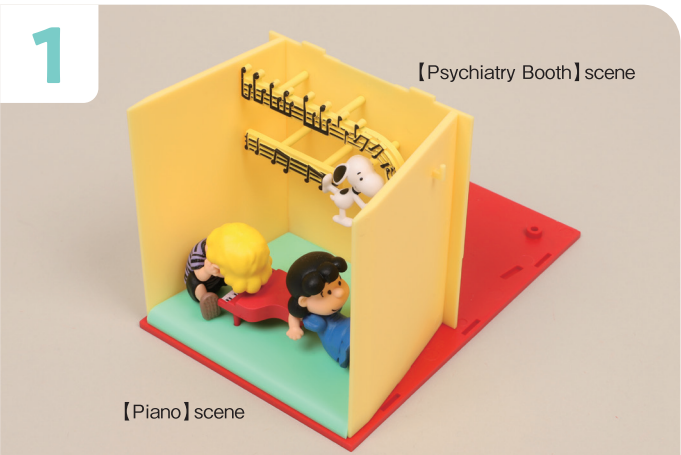

Apply a little quick-drying glue to the ⑦ Slope's rear protrusions and insert them into the holes in the Back Wall.

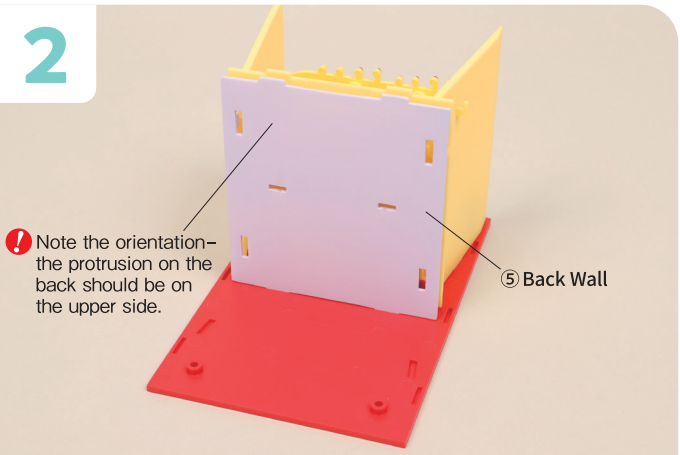

Apply a little quick-drying glue to the ⑥ Ground's rear protrusions and insert them into the holes in the Slope. Press the front edge of the Ground against the Floorboard and insert its underside protrusions into the holes in the Floorboard.

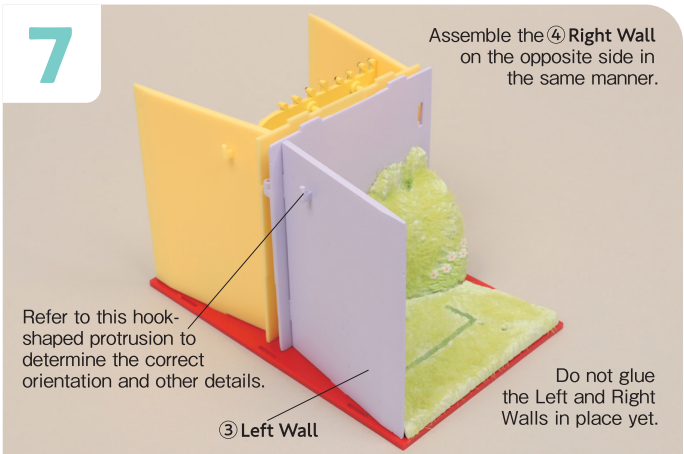

ASSEMBLING THE WALLS AND GROUND

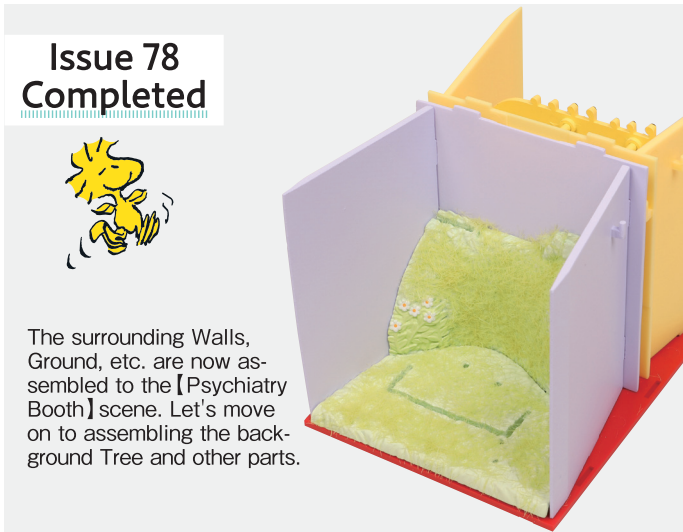

The 【Psychiatry Booth】 scene is on the other side of the 【Piano】 scene. First, get ready the 【Piano/Psychiatry Booth】 scene box assembled so far.

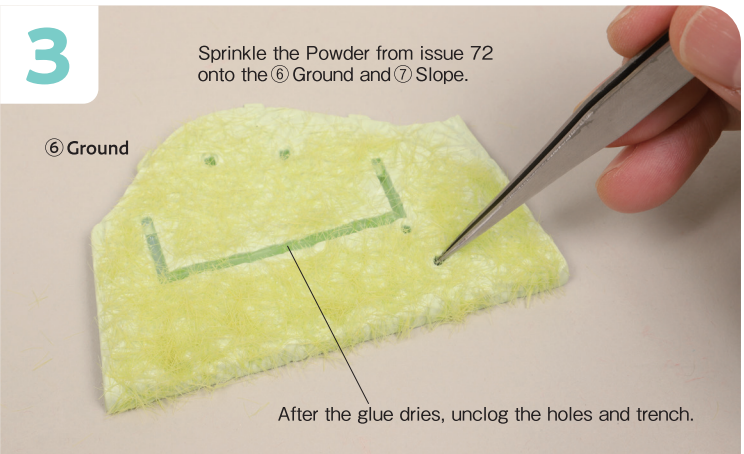

Apply a little quick-drying glue to the grooves of the Floorboard and assemble the ⑤ Back Wall as before.

Assemble the ③ Left Wall on the left side of the Floorboard as before. Assemble the ④ Right Wall on the right side as well.

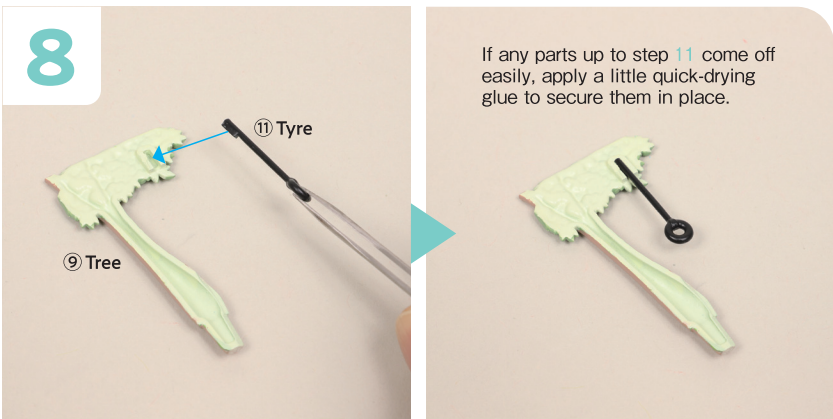

MAKING THE STOOL, TREE, ETC.

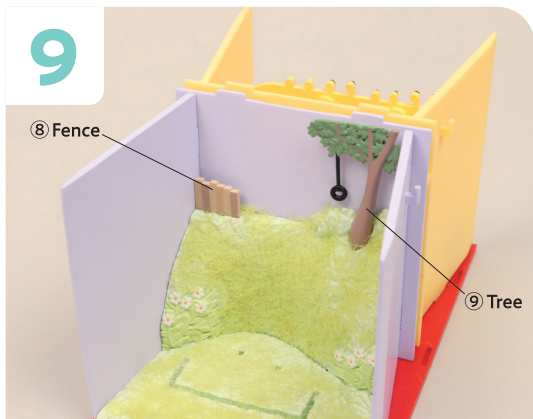

As we did before, add a few drops of neutral detergent to the wood glue dissolved in water, apply it to the ⑥ Ground and sprinkle the green Powder from issue 72.

Sprinkle Powder on the ⑦ Slope in the same manner. Do not apply glue to the flowers on either side and be careful not to get any Powder on them.

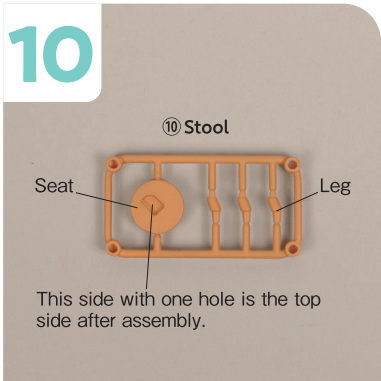

Fit the end protrusion of the ⑪ Tyre into the indentation on the back of the ⑨ Tree as shown.

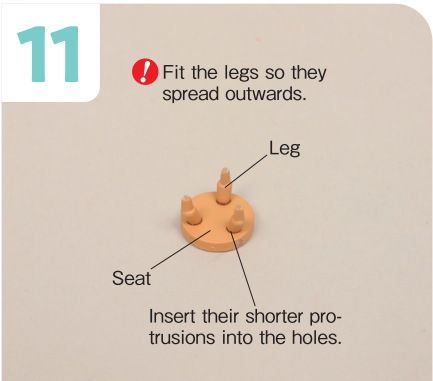

Assemble the ⑨ Tree and ⑧ Fence on the Slope as shown. Match their bottom protrusions with the shapes of the holes in the Slope and insert them.

Making the Stool, Tree, etc.

Use a cutter to cut and remove each part along the seams of the ⑩ Stool.

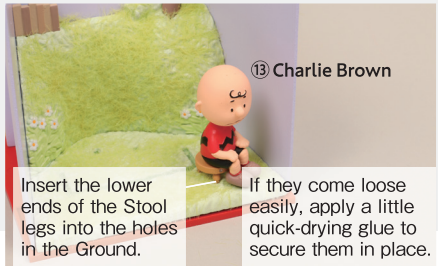

Fit three legs to the underside of the seat by inserting their shorter protrusions into the holes.

Issue 78 Completed

Insert the lower ends of the Stool legs into the holes in the Ground to secure the Stool in place, then insert the bottom protrusion of ⑬ Charlie Brown figurine into the hole in the Stool to complete the assembly.

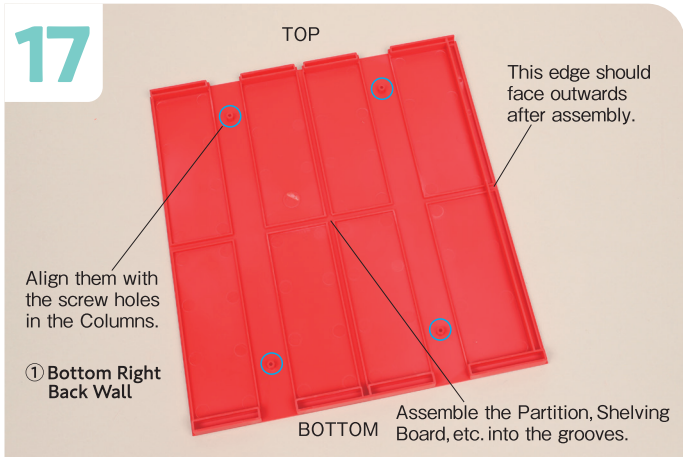

Insert the lower ends of the Stool legs into the holes in the Ground. If they come loose easily, apply a little quick-drying glue to secure them in place.

Assembling the Bottom Right Back Wall

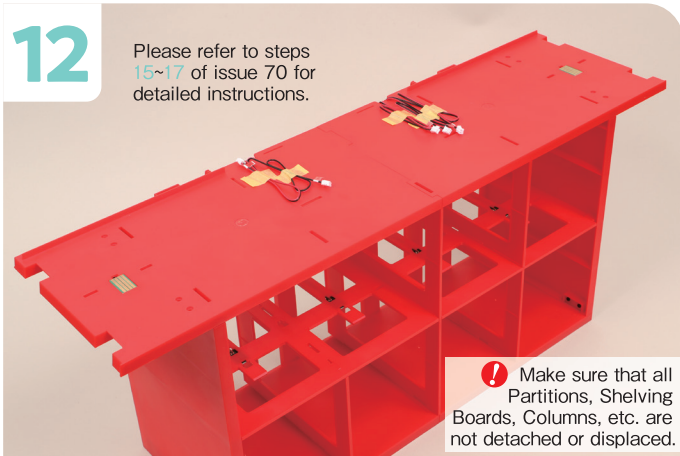

Arrange the cables pulled out of the surface of the Floorboards to keep them out of the way, and temporarily secure them with masking tape.

Check the orientation of the ① Bottom Right Back Wall.

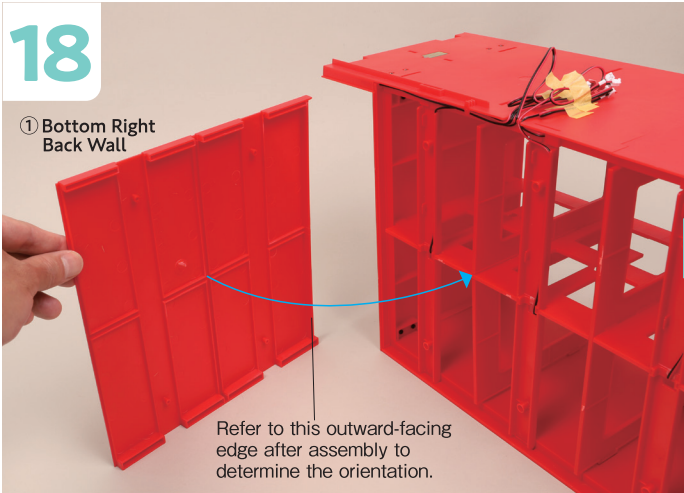

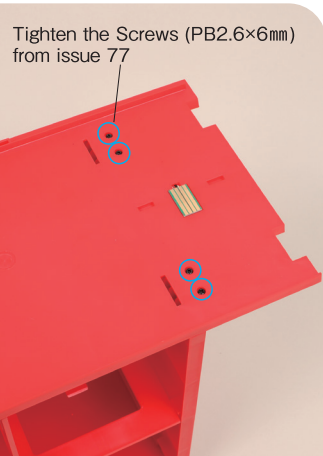

ASSEMBLING THE BOTTOM RIGHT BACK WALL

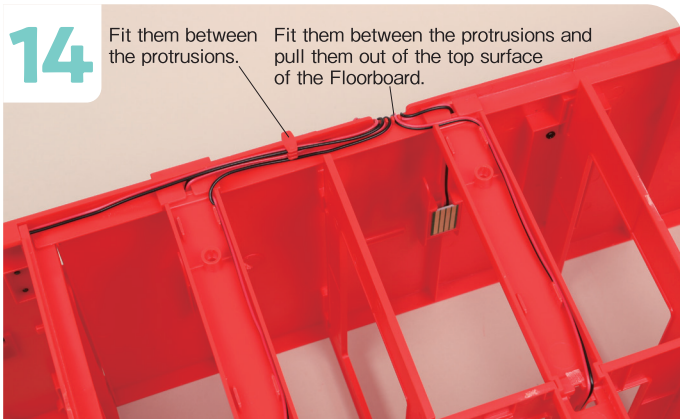

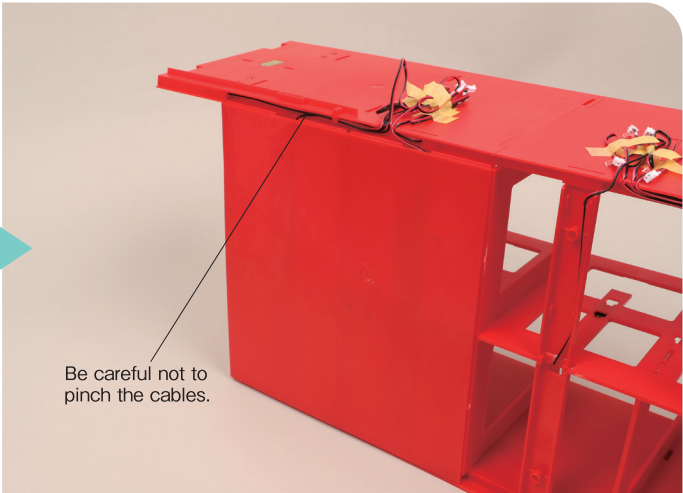

Get ready the doghouse assembled so far and assemble the previously removed Floorboards. Interlock the Wall Joints and protrusions of the Columns and Partitions with the indentations on the underside of the Floorboards.

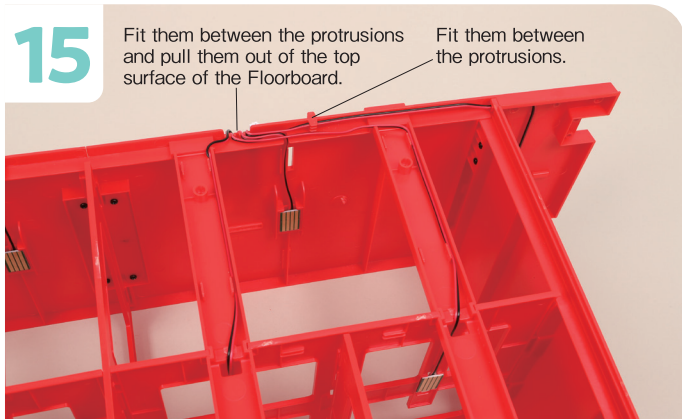

Tighten the Screws (PB2.6×6mm) from issue 77 on the left and right sides of the Floorboards in the four positions shown to secure them in place.

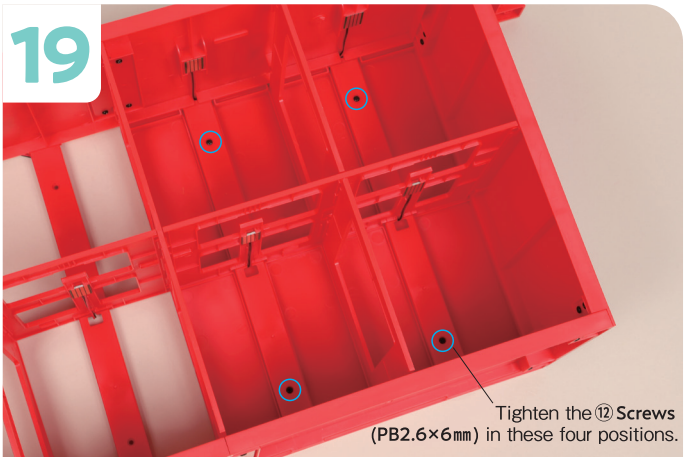

Assemble the ① Bottom Right Back Wall to the back of the doghouse as shown.

At the back of the doghouse, remove the masking tape temporarily securing the cables to the two Columns in the photo, and route the cables to the top surface of the Floorboards, pulling them taut so they do not slacken.

Route and pull the cables of the other two Columns in the same manner.

Press the ① Bottom Right Back Wall in place so it does not shift, and tighten the ⑫ Screws (PB2.6×6mm) in four positions on the inner side of the Columns to secure the wall in place.

Issue 78 Completed

The lower side of the doghouse will be completed once the Back Wall on the other side is assembled. The previously removed Partitions and Shelving Boards on the upper side will be assembled in the next issue.
