

[Fan Favorites, Psychiatry Booth]

Booth, Chair, Exterior Walls, Ceiling

[Doghouse]

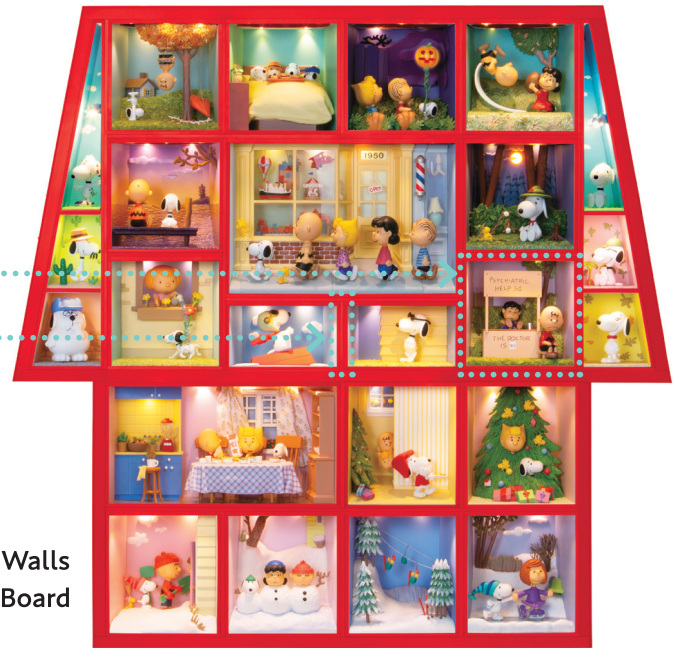

Circuit Board Cables

[Figurine]

Lucy [Psychiatry Booth]

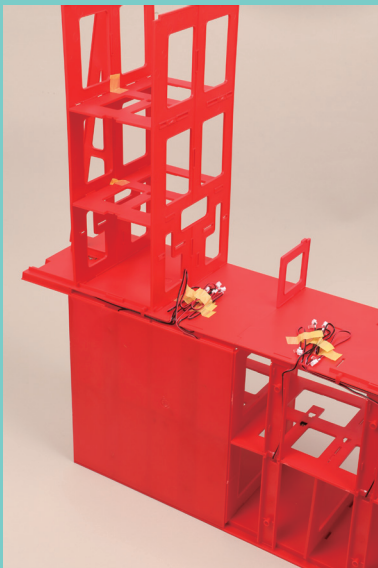

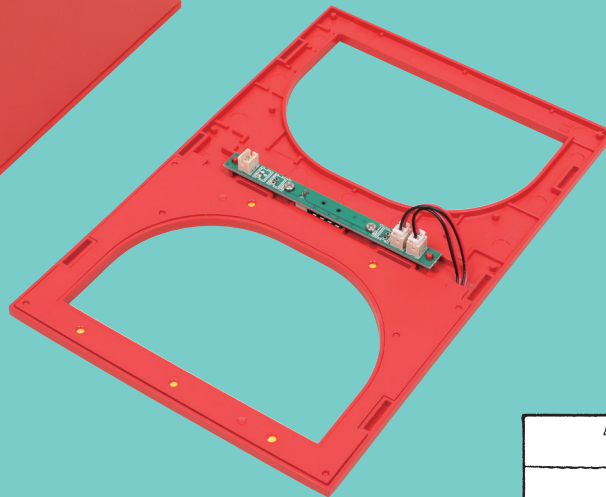

The parts in this issue are the Booth, Lucy's Chair, Left and Right Exterior Walls and Ceiling for the [Psychiatry Booth] scene. Also included are the Circuit Board Cables for the doghouse, and the figurine is Lucy for the same scene.

In this issue

BOOTH, CHAIR, EXTERIOR WALLS, CEILING

We will make the Booth and Lucy's Chair for the [Psychiatry Booth] scene, assemble the Left and Right Exterior Walls to complete the scene box, and assemble the Ceiling.

PARTITIONS AND MORE

We will also assemble the previously removed Partitions and Shelving Boards on the upper side of the doghouse, and assemble a small Partition in the middle.

Figurine

Lucy

Figurine for the [Psychiatry Booth] scene

The troubled Charlie Brown sometimes stops by Lucy's psychiatry booth. One day, he asks her, "What's the secret to life?" "Elbow pads!" she replies.

ASSEMBLY INSTRUCTIONS

【Fan Favorites, Psychiatry Booth】

Making the Booth & Chair
Assembling the Exterior
Walls and Ceiling

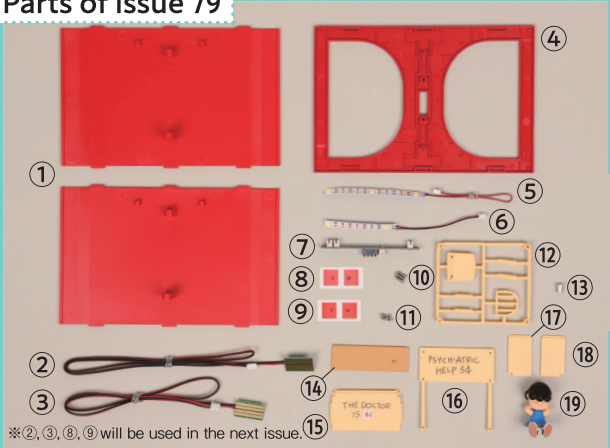

【Doghouse】

Assembling the Partitions

We will make the Booth and Lucy's Chair for the 【Psychiatry Booth】 scene, assemble the Left and Right Exterior Walls to complete the scene box, and assemble the Ceiling. For the doghouse, we will assemble the previously removed Partitions, Shelving Boards, etc.

- ① Exterior Wall×2 ② 550 mm Circuit Board Cable ③ 450 mm Circuit Board Cable ④ Ceiling Top Panel
- ⑤ Long Cable with LEDs ⑥ Short Cable with LEDs ⑦ Circuit Board ⑧ Sticker 6/22 ⑨ Sticker 8/24
- ⑩ Screw (PM2×6mm) ×3 (1 for spare) ⑪ Screw (PM2×4mm) ×3 (1 for spare) ⑫ Chair ⑬ Cup ⑭ Top Panel
- ⑮ Front Panel ⑯ Signboard ⑰ Left Panel ⑱ Right Panel 【Figurine】 ⑲ Lucy

Parts of issue 79

※②, ③, ⑧, ⑨ will be used in the next issue.

【Fan Favorites, Psychiatry Booth】

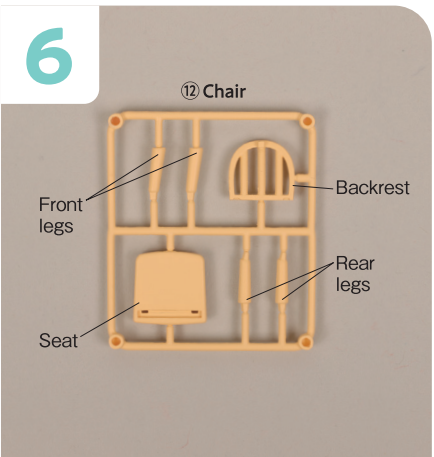

Making the Booth and Chair

Fit the ⑯ Signboard by inserting its lower-end protrusions into the holes.

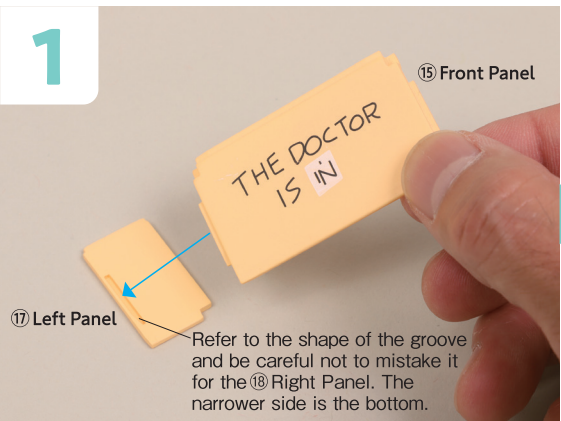

Fit the ⑬ Cup to the top of the Top Panel by inserting the Top Panel's protrusion into its bottom hole.

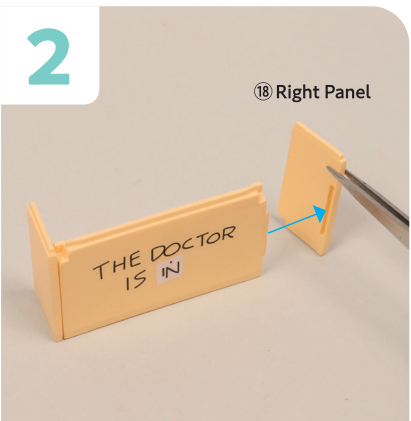

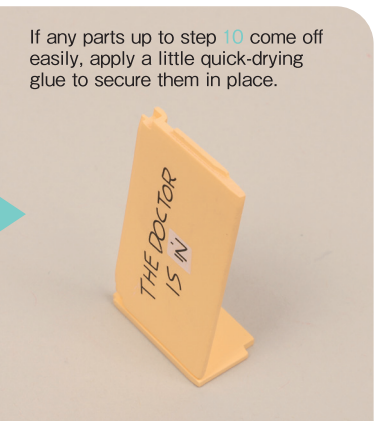

Use a cutter to cut and remove each part along the seams of the ⑫ Chair.

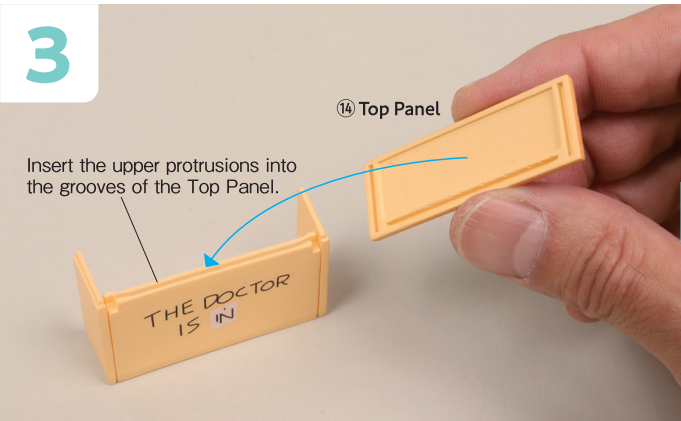

MAKING THE BOOTH AND CHAIR

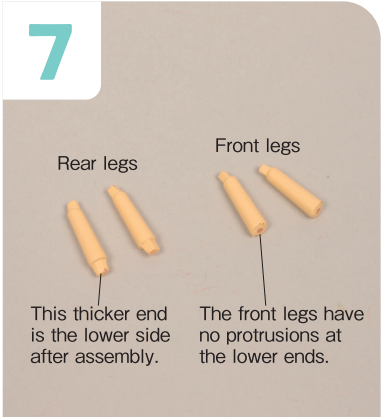

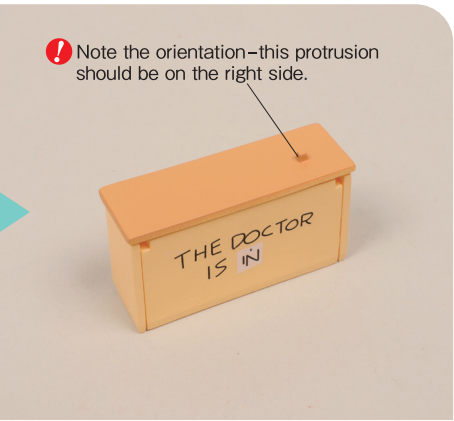

Fit the ⑰ Left Panel to the left side of the ⑮ Front Panel. Match the protrusion of the Front Panel with the shape of the groove and insert it.

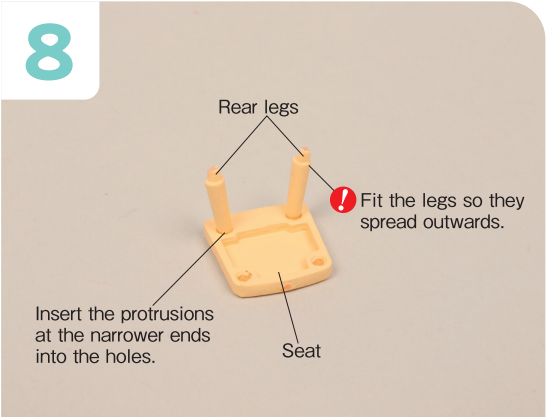

Fit the ⑱ Right Panel to the opposite side of the Front Panel in the same manner.

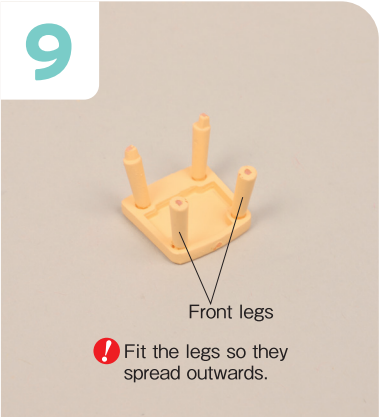

Fit the ⑭ Top Panel onto the upper side of the assembly from step 2 by inserting the upper protrusions into its grooves.

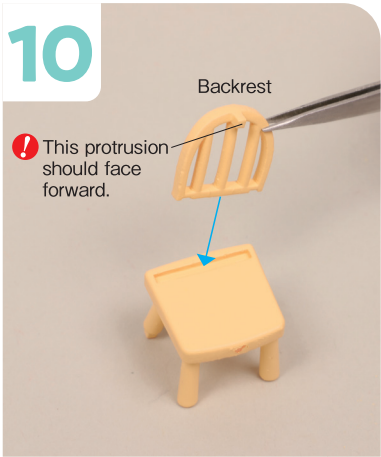

The front and rear legs are different, be careful not to mix them up.

Fit two rear legs into the holes on the underside of the seat in the position shown. Insert the protrusions at the narrower ends of the legs into the holes, spreading the legs outwards.

Fit two front legs on the underside of the seat in the same manner.

Fit the backrest to the top of the seat by inserting its bottom protrusion into the groove in the seat.

Get ready the 【Psychiatry Booth】 scene assembled in issue 78, align the Chair from step 10 with the holes in the Ground and assemble it.

Then assemble the Booth from step 5 onto the Ground.

Making the Booth and Chair

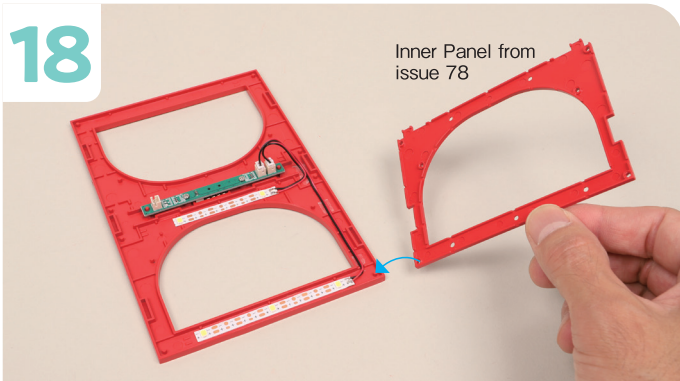

Assemble the 19 Lucy figurine by inserting the protrusion on the backrest of the Chair into the hole on Lucy's back. Then move to adjust the Booth and Chair so that the soles of Lucy's shoes are visible above the Top Panel of the Booth.

Issue 79 Completed

That finishes the 【Psychiatry Booth】 scene. You can now apply a little quick-drying glue to secure the Chair, Booth or figurine in place if any of them falls off easily.

Assembling the Exterior Walls and Ceiling

Disconnect the Battery Box and other parts connected to the Ceiling Top Panel, and assemble the Inner Panel from issue 78.

Issue 79 Completed

That finishes the 【Piano/Psychiatry Booth】 scene box. For the Ceiling, apply masking tape with the scene name written on it, then temporarily assemble it and keep it safe.

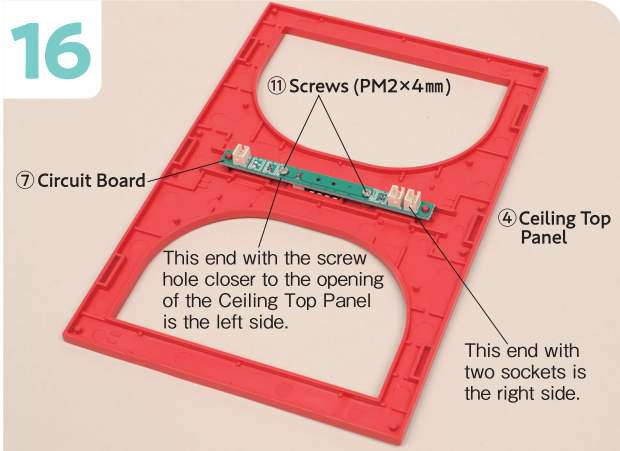

ASSEMBLING THE EXTERIOR WALLS AND CEILING

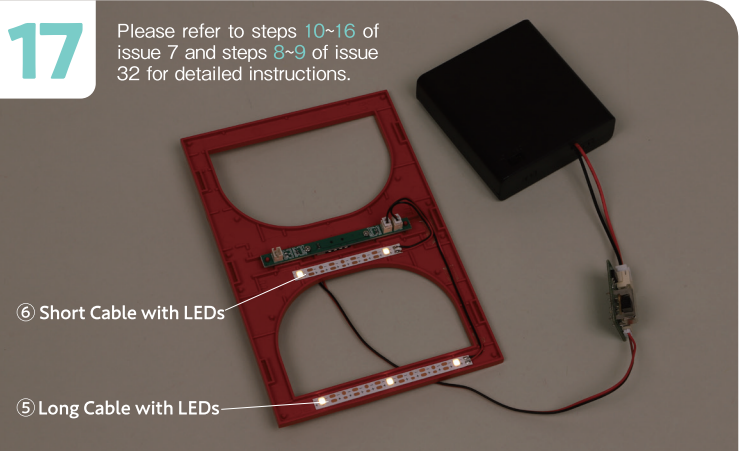

Assemble an 1 Exterior Wall on either side of the 【Piano/Psychiatry Booth】 scene box as before.

Tighten the 10 Screws (PM2x6mm) into the holes in the long tabs of the Exterior Walls to secure the walls in place.

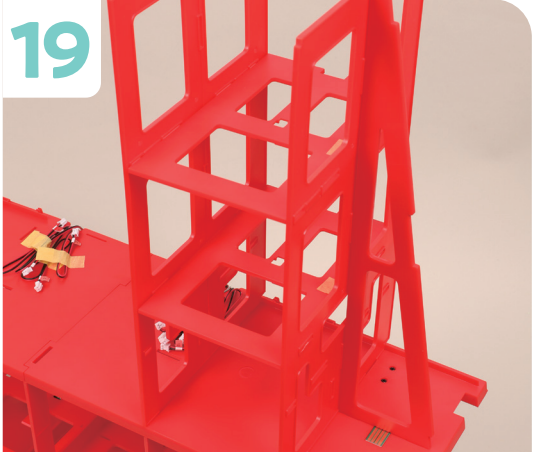

Fasten the 7 Circuit Board to the 4 Ceiling Top Panel with two 11 Screws (PM2x4mm) as before.

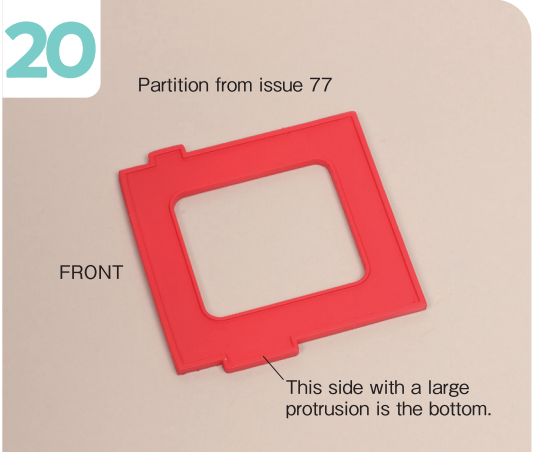

As we did before, assemble the 6 Short Cable with LEDs and 5 Long Cable with LEDs as shown, connect them to the Battery Box and other parts, and check that the LEDs light up properly.

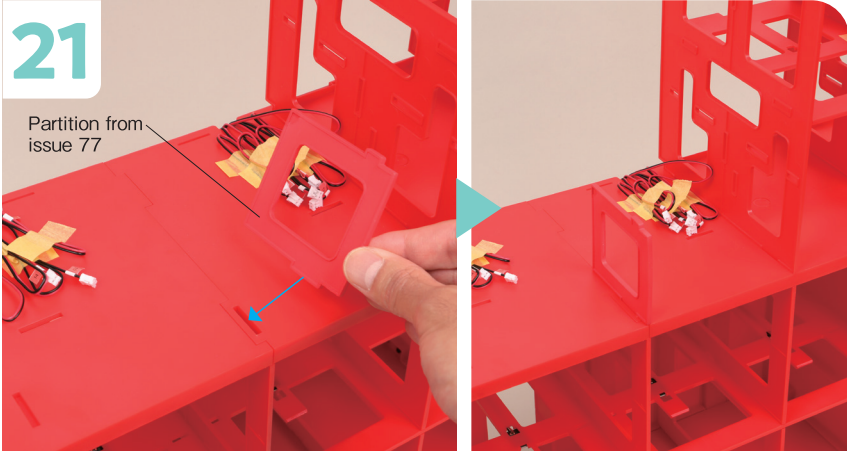

ASSEMBLING THE PARTITIONS

Get ready the doghouse assembled so far and assemble the previously removed Shelving Boards and Partitions onto the Floorboard.

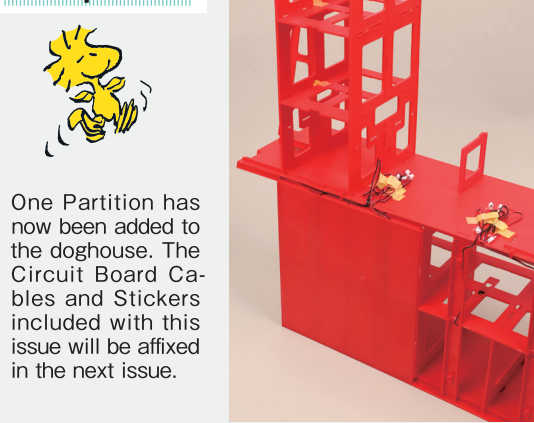

Get ready the Partition from issue 77 and check the orientation.

Assemble the Partition from issue 77 onto the Floorboard by inserting its protrusion into the hole in the Floorboard.

Issue 79 Completed

One Partition has now been added to the doghouse. The Circuit Board Cables and Stickers included with this issue will be affixed in the next issue.
