BACK WALL, WINDOWS

Let's start assembling the 【Break Time, Eating Together】 scene. First, assemble the Windows on the Back Wall and paste the light blue Background Sticker behind the Windows.

COOKIES

This Tray of Cookies is to be placed on the bed in the scene where Snoopy and his brothers get together. Arrange the Cookies on the Tray in a well-balanced manner.

Parts of issue 8

【Break Time, Eating Together】

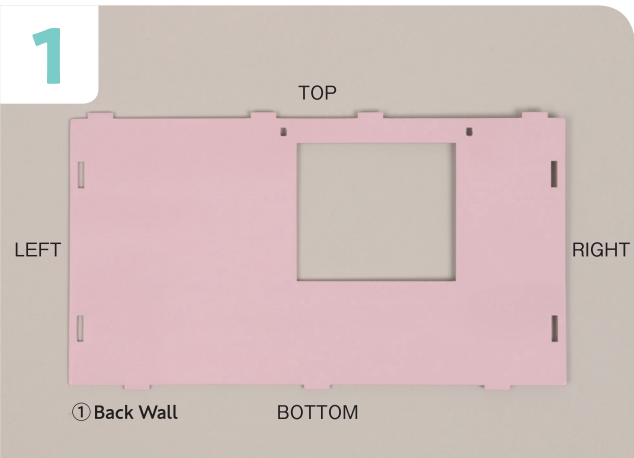

Assembling the Back Wall and the Windows

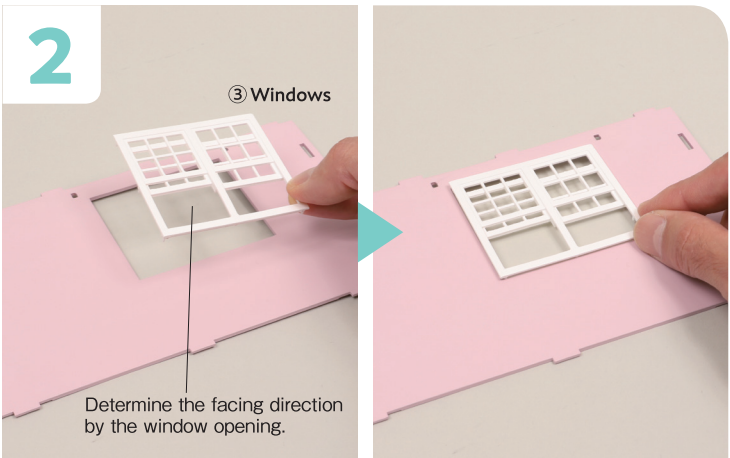

Turn the Back Wall from step 2 over and place the ④ Plastic Sheet over the Windows, then insert the protrusion of the Windows into the hole of the Plastic Sheet.

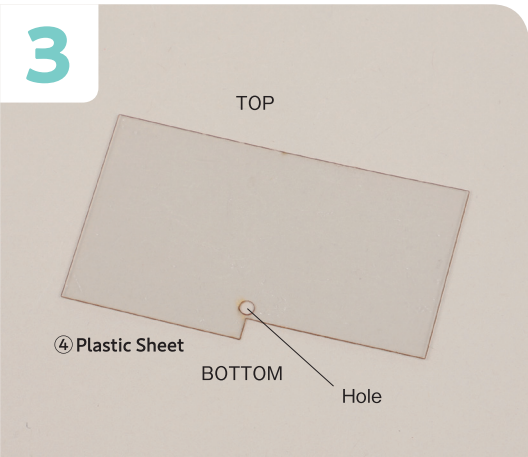

ASSEMBLING THE BACK WALL AND THE WINDOWS

Make sure the ① Back Wall is facing the right way by referring to the window opening.

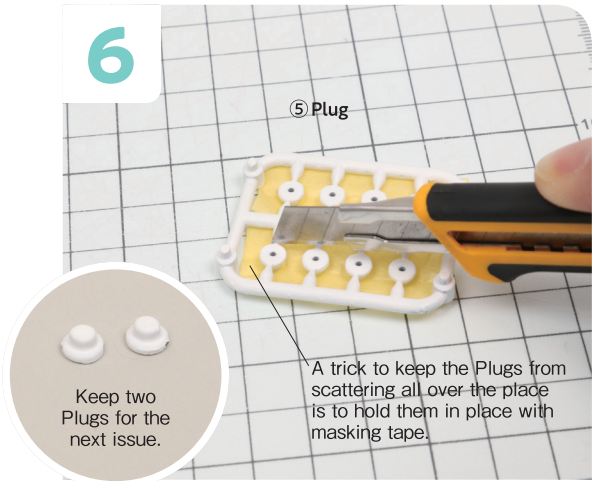

Fit the ③ Windows into the opening of the ① Back Wall.

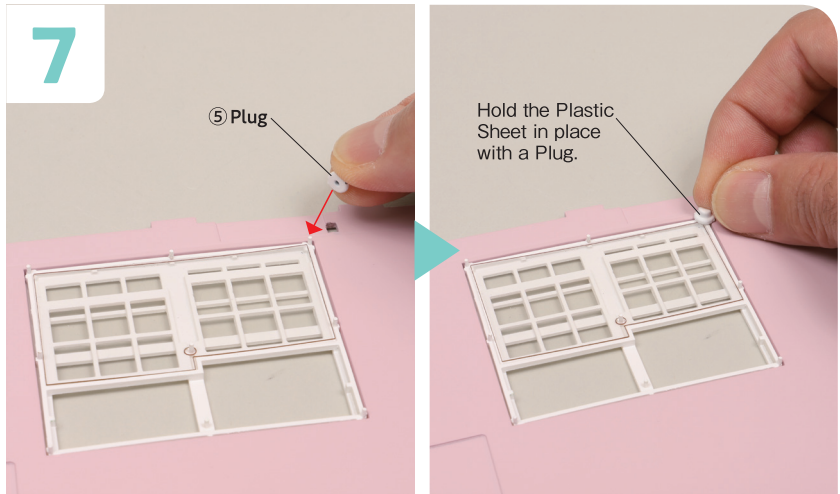

For the ④ Plastic Sheet, the edge with a round hole is the bottom.

There is a protective film on both sides of the ④ Plastic Sheet. Peel the films off before assembling.

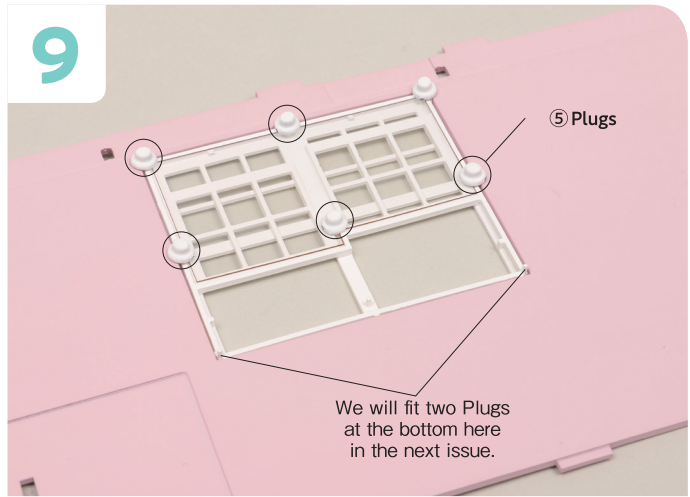

Use a cutter to cut and remove the ⑤ Plugs from the joints.

Fit a ⑤ Plug onto the upper right corner of the Windows by inserting the protrusion of the Windows into the hole of the Plug.

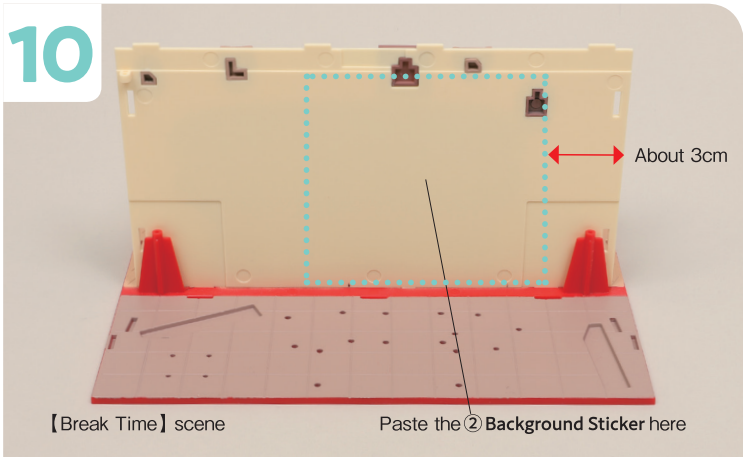

If the ⑤ Plug comes off easily, apply a bit of instant glue to secure it. Dip a little glue with the tip of something like a toothpick and let it soak between the Back Wall and the Plug, taking care not to get the glue on the Plastic Sheet.

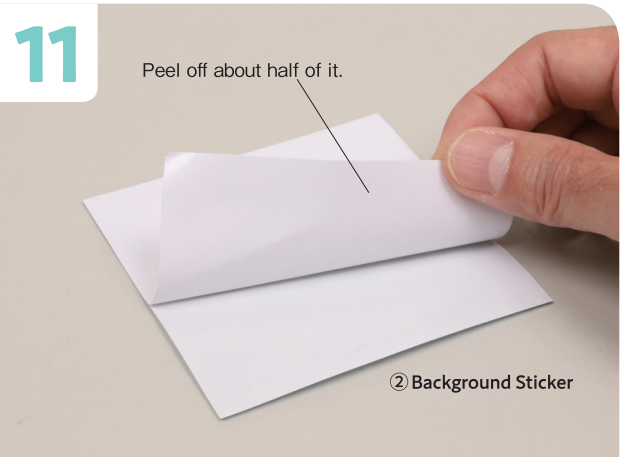

Fit the ⑤ Plugs onto the remaining five locations as in steps 7~8.

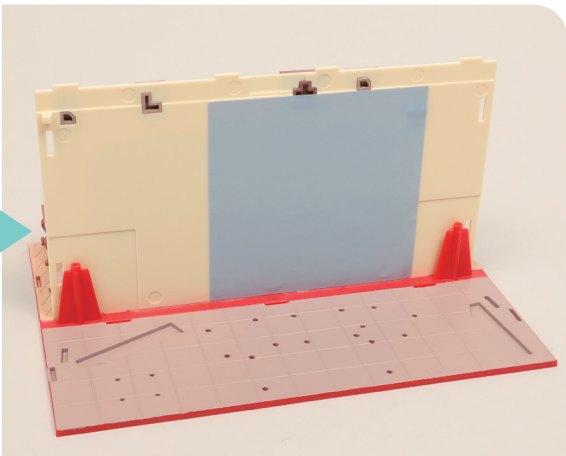

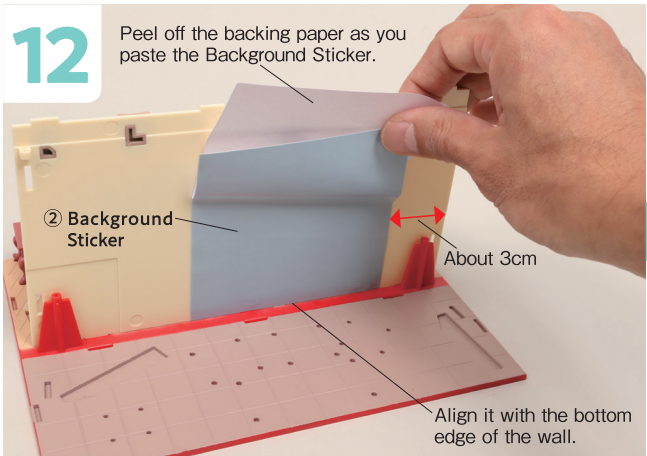

Assembling the Back Wall and the Windows

Get ready the【Break Time】scene assembled so far. Paste the Background Sticker behind the Back Wall of the【Relaxing at Home】scene in the position shown above.

The back of the 2 Background Sticker is adhesive. First, peel off half of its backing paper.

We will now paste the Background Sticker. First, align the right edge of the Background Sticker about 3cm from the edge of the wall as shown in the photo on the left, and start pasting from the bottom. After pasting about half of the sticker, peel off the backing paper totally to paste the upper side, just like the photo on the right.

Let's temporarily assemble the Back Wall first. Insert the three protrusions under the wall into the grooves on the floor. Do not glue it in place yet, as we will be adding more parts behind the wall later.

Issue 8 Completed

The Background Sticker behind the Windows creates a sense of depth. We will add Curtains and other parts to the Windows in the next issue.

A full line-up of figurines for the【Baseball Team】scene

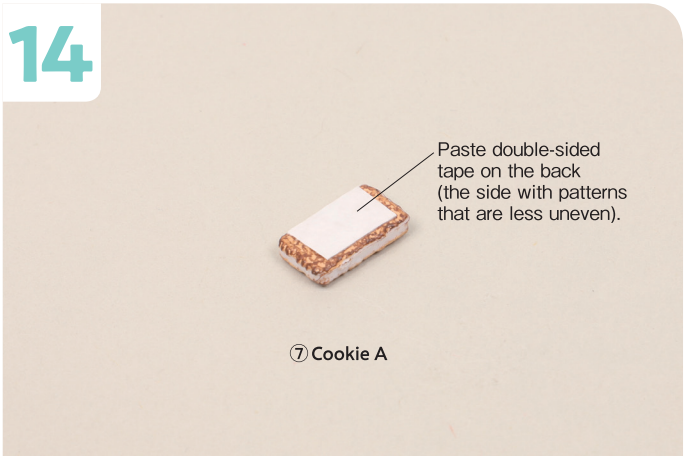

Decorate the Pitcher's Mound by placing 11 Charlie Brown in the center—you now have a full line-up of figurines for the【Baseball Team】scene. Insert the protrusions under the figurine deep into the holes and secure it with quick-drying glue or double-sided tape.

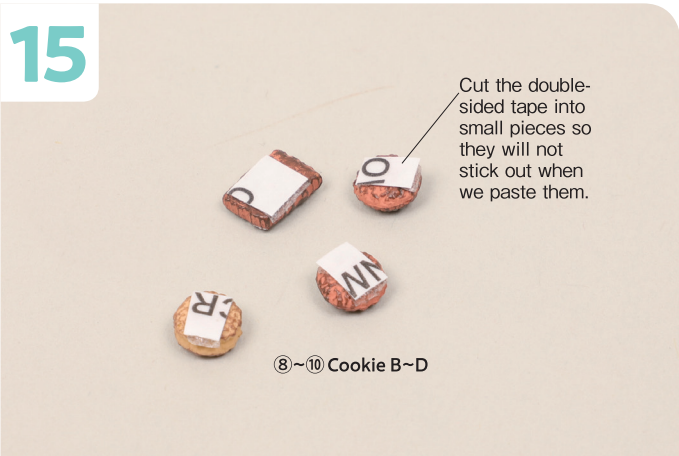

MAKING THE COOKIES

14

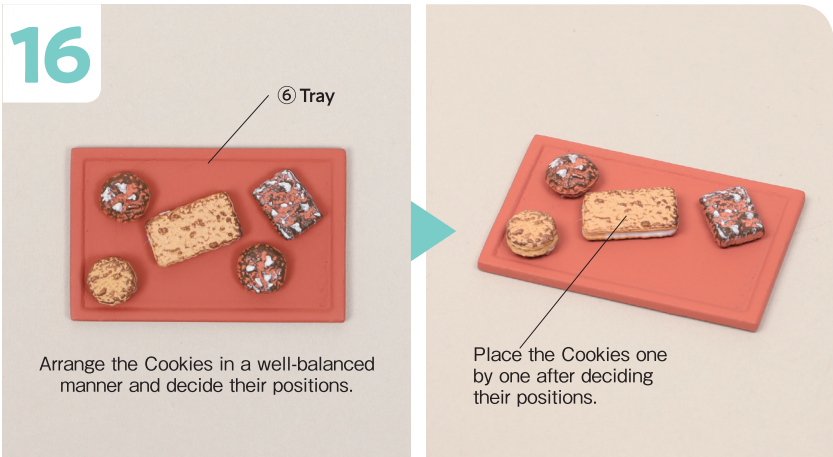

Secure the Cookies to the Tray with double-sided tape. First, paste a small piece of cut double-sided tape on the back of the largest 7 Cookie A.

15

Paste small pieces of cut double-sided tapes on the backs of the remaining 8~10 Cookies B~D in the same way.

16

Before securing the Cookies with double-sided tape, place them on the Tray and determine their positions. Arrange them in a well-balanced manner. After deciding their positions, peel off the backing papers of double-sided tapes and paste the Cookies.

Issue 8 Completed

That finishes a Tray of Cookies. Take good care of the Cookies so you do not lose them.
