【Figurines】

Lucy, Linus 【Sandcastles】

The parts in this issue are the Castles, Seashells, Bucket, etc. for the 【Sandcastles】 scene. Also included are the LEDs and Circuit Board for the Ceiling. And the figurines are Lucy and Linus for the same scene.

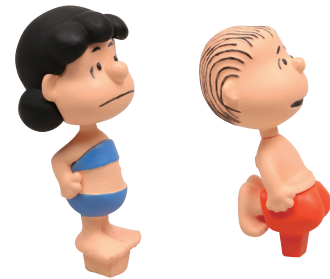

In this issue

CASTLES, SEASHELLS, BUCKET

We will add some small items to complete the 【Sandcastles】 scene. Set the Seashells, Bucket, etc. onto the Ground along with the main Castles.

【Sandcastles】 scene

LEDs

We will also assemble the Ceiling of the 【Sandcastles/Skiing】 scene box by fitting the LEDs on one side of the Ceiling Top Panel and assembling the Inner Panel.

Summer is beach time for Linus, Charlie Brown and the gang. They are often found playing beach volleyball, sunbathing and playing in the sand. Linus is a particularly skilled sandcastles builder, revealing his artistic talent.

MAKING THE CASTLES, SEASHELLS, BUCKET, ETC.

1

⑦ Thicket

Match the protrusion with the shape of the hole and insert it.

If any parts up to step 6 come off easily, apply quick-drying glue to secure them in place.

Get ready the 【Sandcastles】 scene assembled in issue 80 and set the ⑦ Thicket onto the Ground in the position shown. Match its bottom protrusion with the shape of the hole and insert it.

2

⑧ Fence

Set the ⑧ Fence to the rear left corner of the Ground in the same manner.

4

Fit the assembled Castle from step 3 to the Ground in the position shown.

5

⑩ Seashells

Set the ⑩ Seashells to the front right corner of the Ground.

Finally, set the ⑨ Bucket into the hole on the front left corner of the Ground in the position shown.

Issue 81 Completed

That finishes the [Sandcastles] scene with the small items added. Now let's add the Lucy and Linus figurines.

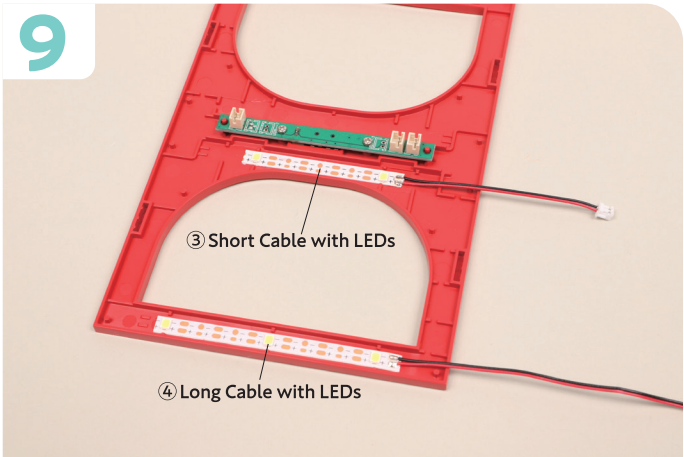

Adding the figurines

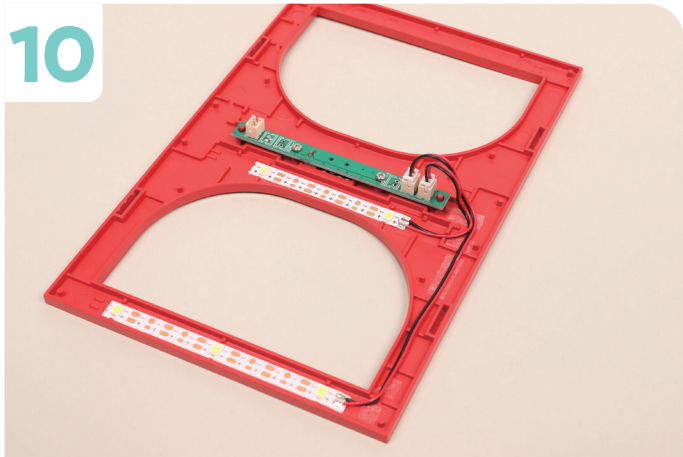

Insert the bottom protrusions of the ⑫ Linus and ⑬ Lucy figurines into the holes in the Ground. If they come off easily, apply a little quick-drying glue to secure them in place.

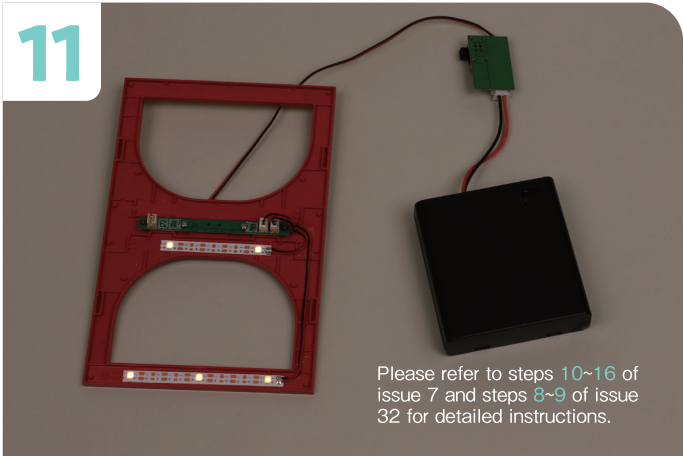

Fitting the LEDs

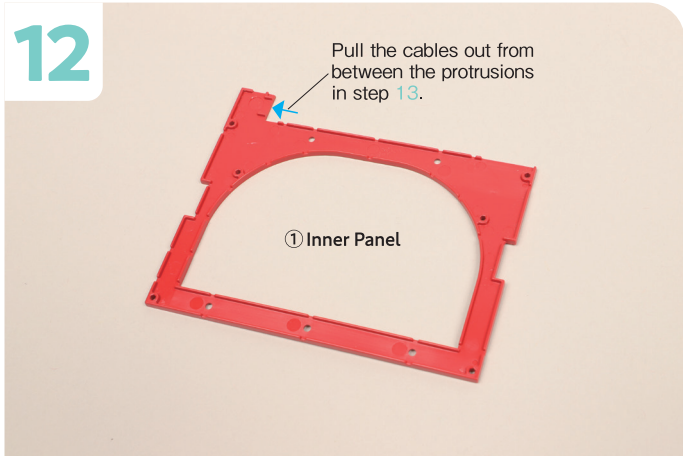

As we did before, affix the ③ Short Cable with LEDs and ④ Long Cable with LEDs onto the Ceiling Top Panel as shown.

Plug the connectors of the Cables with LEDs into the sockets on the Circuit Board.

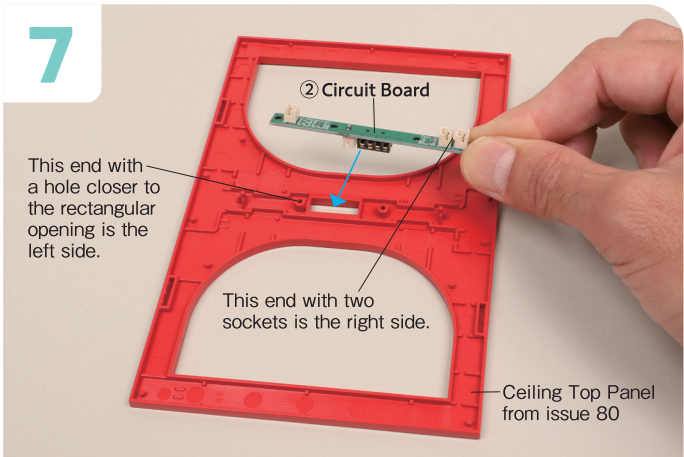

Plug the connector of the Connection Cable into the socket on the other side of the Ceiling Top Panel, connect it to the Battery Box and other parts, and check that the LEDs light up properly.

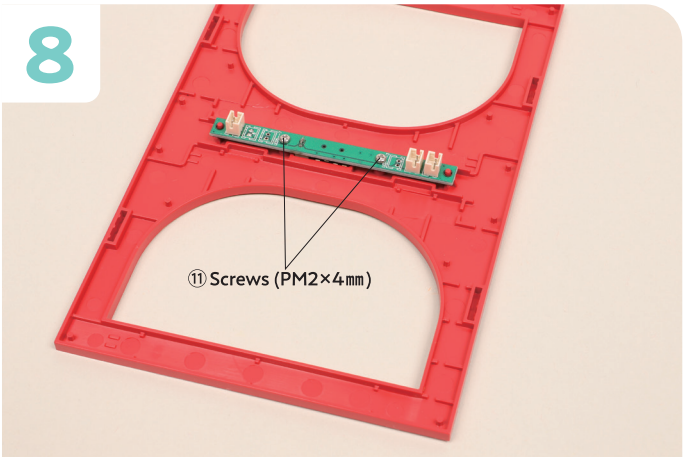

Check the ① Inner Panel. Pull the Cables with LEDs out from between the protrusions in the position indicated by the arrow.

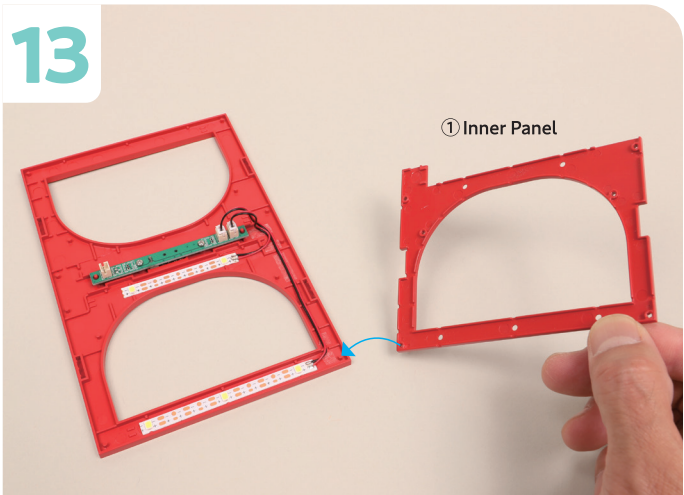

FITTING THE LEDs

Get ready the Ceiling Top Panel from issue 80 and fit the ② Circuit Board as shown.

Tighten the ⑪ Screws (PM2×4mm) into the Circuit Board in the two positions shown.

Disconnect the Battery Box and other parts, and assemble the ① Inner Panel.

Issue 81 Completed

The LEDs have now been fitted to the [Sandcastles] side of the Ceiling. Apply masking tape or the like with the scene name written on it, then temporarily assemble it to the scene box and keep it safe.
