Assembling the Back Wall and Left and Right Walls

Then assemble the ② Left Wall as before.

Assemble the ③ Right Wall in the same manner.

Issue 84 Completed

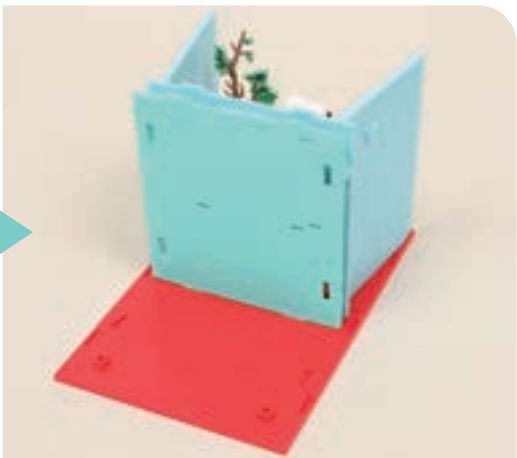

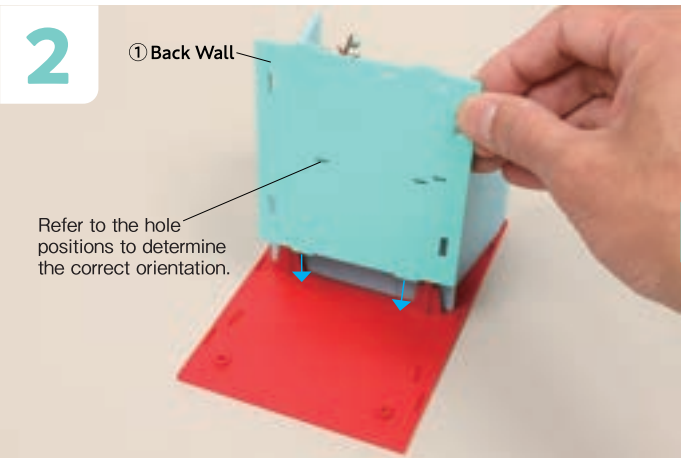

The surrounding walls of the 【Football】 scene are now in place. Let's go on to fit the Ground and the Tree.

ASSEMBLING THE BACK WALL AND LEFT AND RIGHT WALLS

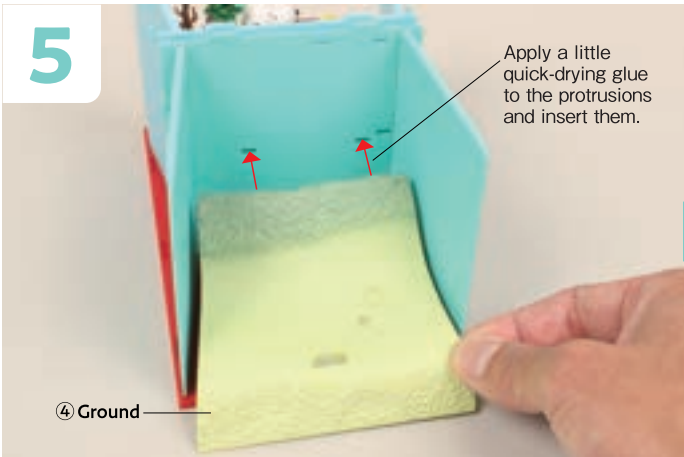

The 【Football】 scene is on the other side of the 【Woodstock's Nest】 scene. First, get ready the 【Woodstock's Nest/Football】 scene box previously assembled, and remove the temporarily assembled Ceiling and Exterior Walls.

Apply a little quick-drying glue to the grooves of the Floorboard and assemble the ① Back Wall as we did before.

MAKING THE GROUND AND TREE

Apply a little quick-drying glue to the rear protrusions of the ④ Ground and insert them into the holes in the Back Wall.

ASSEMBLY INSTRUCTIONS

Making the Ground and Tree

Press the front edge of the Ground against the Floorboard and insert its underside protrusions into the holes in the Floorboard.

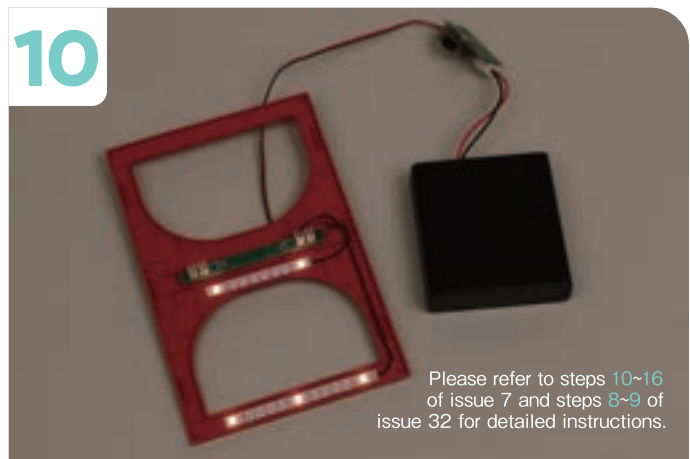

Fit the ⑤ Tree to the Back Wall in the position shown by inserting its three protrusions into the holes in the wall.

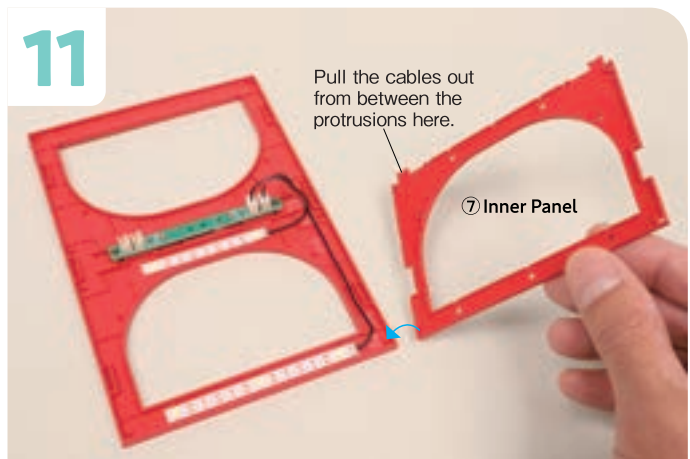

Issue 84 Completed

We will affix leaves and grass from their Sheets to the Ground in the next issue to give the scene a colourful touch.

Fitting the LEDs

Plug the connector of the Connection Cable into the socket on the other side of the Ceiling Top Panel, connect it to the Battery Box and other parts, and check that the LEDs light up properly.

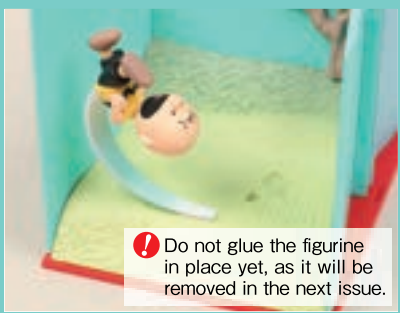

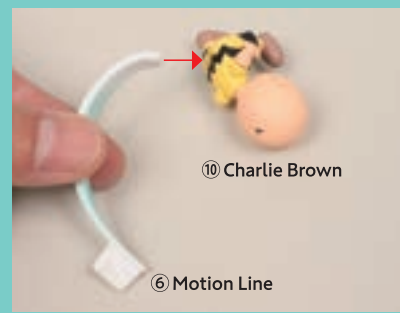

Disconnect the Battery Box and other parts, and assemble the ⑦ Inner Panel as before.

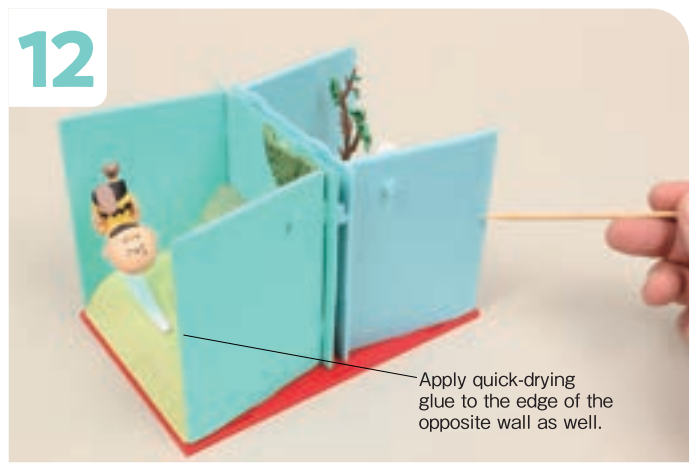

Adding the figurine

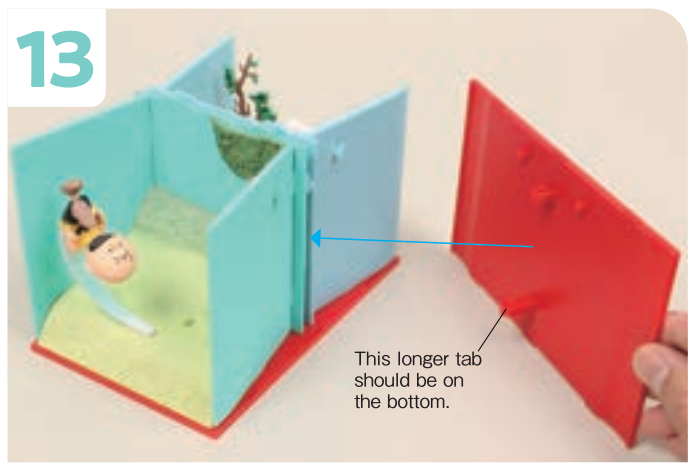

Insert the protrusion at the end of the ⑥ Motion Line into the hole at the back of the ⑩ Charlie Brown figurine. Then match the shapes of the protrusion at the other end with that of the hole in the Ground and insert it.

Do not glue the figurine in place yet, as it will be removed in the next issue.

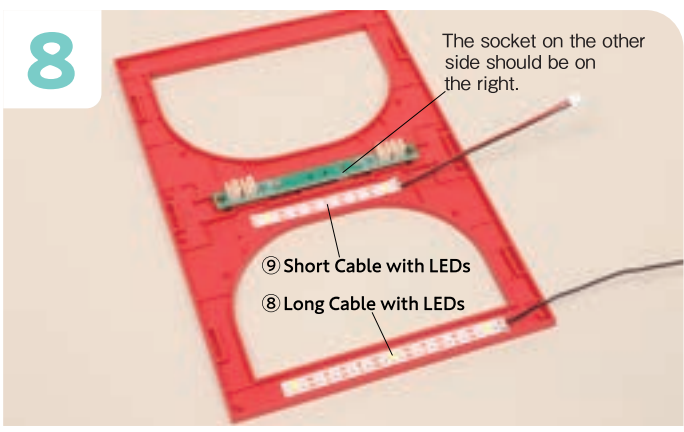

Now assemble the Exterior Walls removed in step 1 to the [Woodstock's Nest/Football] scene box. First, apply quick-drying glue to the walls' edges with the tip of a toothpick or the like.

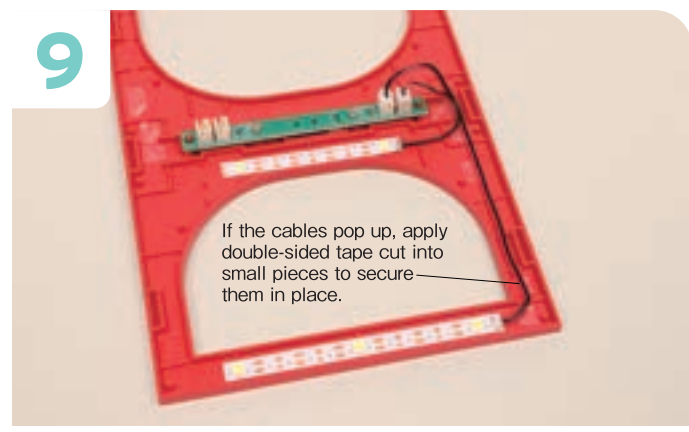

Before the glue dries, assemble the Exterior Wall as we did before.

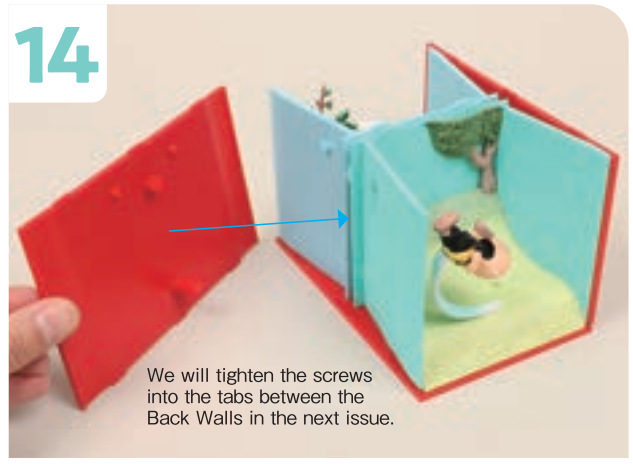

FITTING THE LEDs

As we did before, affix the ⑧ Long Cable with LEDs and the ⑨ Short Cable with LEDs to the Ceiling of the [Woodstock's Nest/Football] scene box removed in step 1.

Route the cables as shown and plug their connectors into the sockets on the Circuit Board.

Assemble the remaining Exterior Wall on the opposite side in the same manner.

Issue 84 Completed

The LEDs are now fitted to the [Football] side of the Ceiling. We will fit more LEDs in the next issue.
