

【Fall, Great Pumpkin】

Grass, Pumpkins, etc.

【Summer/Winter, Brick Wall/Snowmen】

LEDs

【Doghouse】

Partitions, Circuit Board Cables

【Figurines】

Snoopy, Sally 【Great Pumpkin】

The parts in this issue are the Grass and Pumpkins for the 【Great Pumpkin】 scene and LEDs for its Ceiling. Also included are the LEDs for the 【Brick Wall】 scene. And the figurines are Snoopy and Sally for the 【Great Pumpkin】 scene.

In this issue

In this issue

GRASS, PUMPKINS, ETC.

We will add the Grass and Pumpkins to the 【Great Pumpkin】 scene, and fit the LEDs to the 【Great Pumpkin】 side of the Ceiling to complete the scene box.

LEDs

We will also fit the LEDs to the Ceiling of the 【Brick Wall】 scene and assemble the Inner Panel to complete the scene box.

Figurines

Sally Snoopy

Figurines for the 【Great Pumpkin】 scene

Linus thinks he has finally spotted the “Great Pumpkin” on Halloween. Sally supports her sweetheart as always, but she knows it’s just Snoopy with a jack-o’-lantern on a stick.

PARTITIONS, CIRCUIT BOARD CABLES

Assemble the Partitions and Shelving Boards to the upper side of the doghouse and affix the Circuit Board Cables as well.

Assembling the Partitions and more

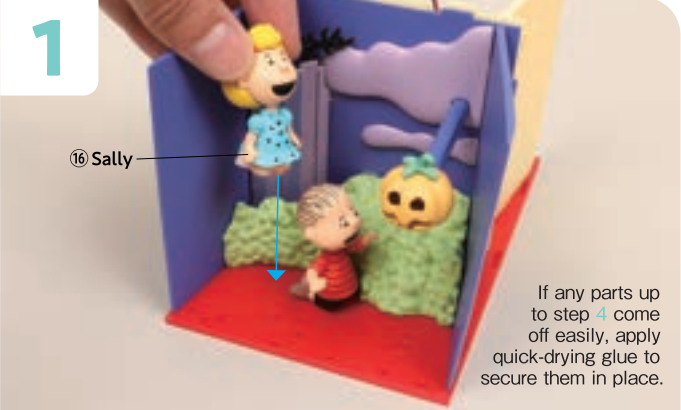

We will add the Grass and Pumpkins to the 【Great Pumpkin】 scene, and fit the LEDs to the Ceiling to complete the scene box. We will also fit the LEDs to the Ceiling of the 【Brick Wall】 scene and assemble the Partitions and other parts to the doghouse.

Parts of issue 87

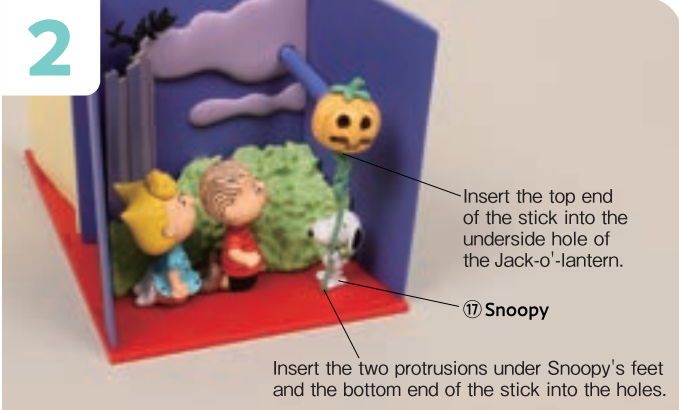

- ① Partition A ② Partition B ③ Grass Sheet ④ Pumpkin A ⑤ Pumpkin B ⑥ Grass A ⑦ Grass B ⑧ Grass C
- ⑨ 400 mm Circuit Board Cable ⑩ Cable with 2 LEDs ⑪ Cable with 3 LEDs ⑫ Inner Panel A ⑬ Inner Panel B
- ⑭ Screw (PM2×6mm)×3 (1 for spare) ⑮ 7/23 Sticker 【Figurines】 ⑯ Sally ⑰ Snoopy

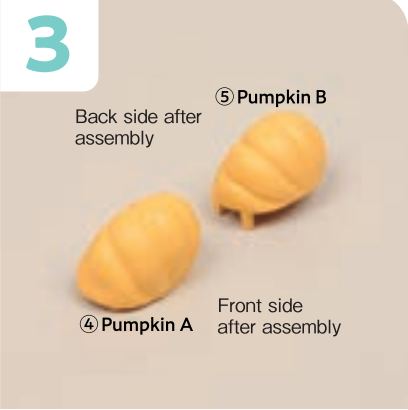

MAKING THE GRASS AND PUMPKINS

Get ready the 【Great Pumpkin】 scene assembled in issue 86 and assemble the ⑯ Sally figurine onto the Floorboard in the position shown.

Assemble the ⑰ Snoopy figurine onto the Floorboard in the position shown in the same manner.

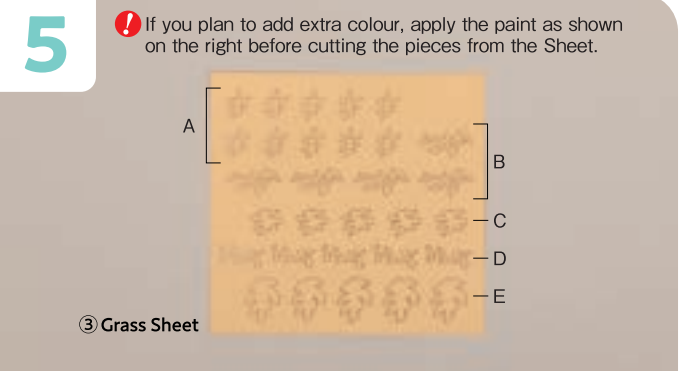

④ Pumpkin A and ⑤ Pumpkin B look very similar in shape, so be careful not to mix them up.

Assemble ④ Pumpkin A and ⑤ Pumpkin B to the Floorboard in the position shown in the left photo by inserting their protrusions into the holes in the Floorboard. Similarly, assemble ⑥~⑧ Grass A~C to the front side of the Floorboard as shown in the right photo.

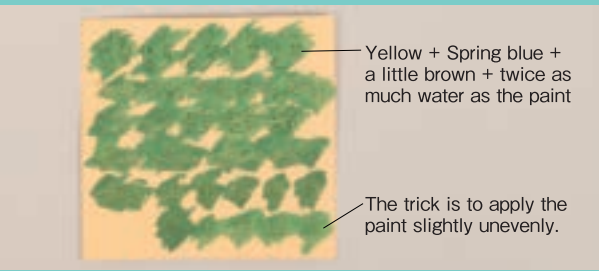

Making the Grass and Pumpkins

Use a cutter to cut and remove the pieces from the ③ Grass Sheet along the seams, and categorize them into types A~E as shown.

For those who wish to add extra details to the Grass

Modellers who wish to can mix paints to create a dark green colour and apply the paint slightly unevenly onto the ③ Grass Sheet.

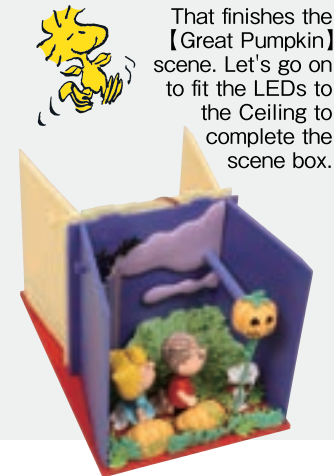

Affix the cut type A pieces to the Bush at the back in a well-balanced manner.

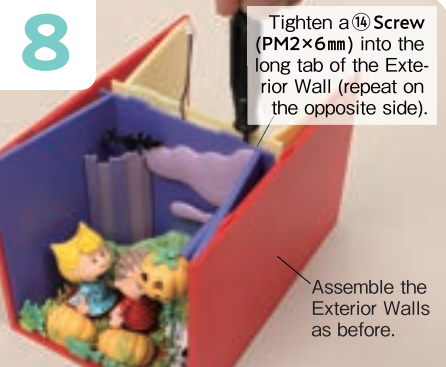

Affix the remaining types B~E pieces to the Floorboard and to the Grass and Pumpkins on the front. It is advisable to balance the arrangement with the smaller pieces affixed to the back and the larger ones to the front.

Issue 87 Completed

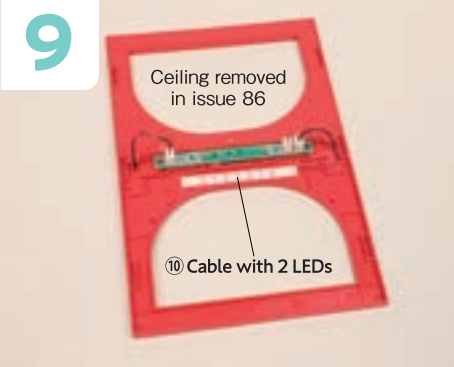

That finishes the 【Great Pumpkin】 scene. Let's go on to fit the LEDs to the Ceiling to complete the scene box.

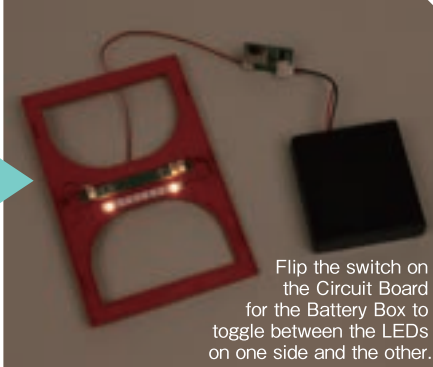

FITTING THE LEDs

As we did before, reassemble the Exterior Walls removed from the 【Valentine's Day/Great Pumpkin】 scene box in issue 86.

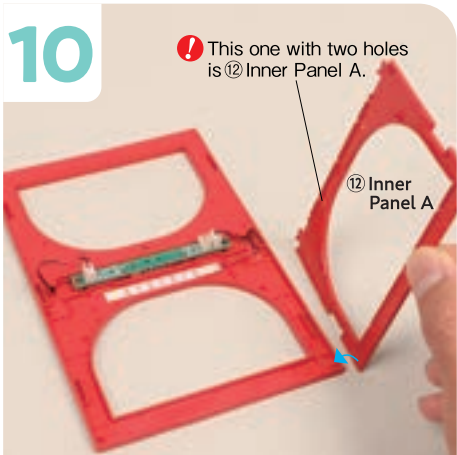

Affix the ⑩ Cable with 2 LEDs to the Ceiling removed in issue 86 and plug its connector into the socket on the Circuit Board (see left photo). Connect it to the Battery Box and other parts and check that the LEDs light up properly (see right photo).

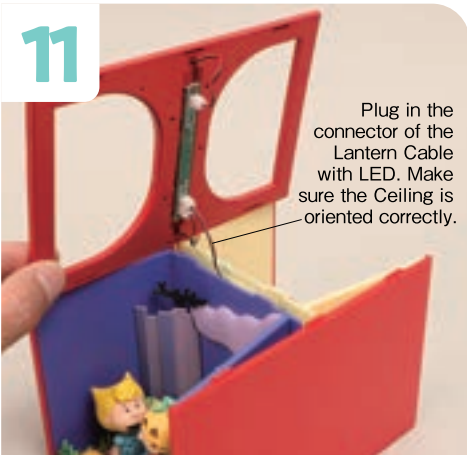

Fitting the LEDs

Disconnect the Battery Box and other parts, and assemble ⑫ Inner Panel A as before.

Now temporarily assemble the Ceiling onto the scene box. Plug the connector of the Lantern Cable with LED into the socket of the Ceiling Circuit Board as shown as you assemble it.

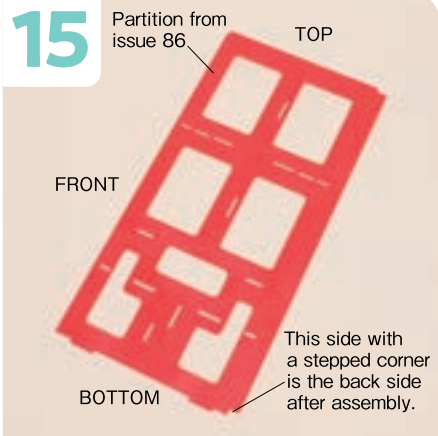

Issue 87 Completed

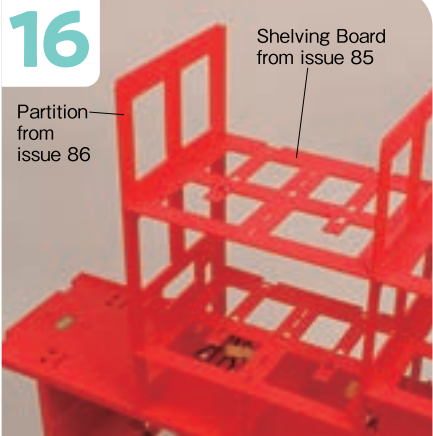

The [Valentine's Day/Great Pumpkin] scene box is now complete.

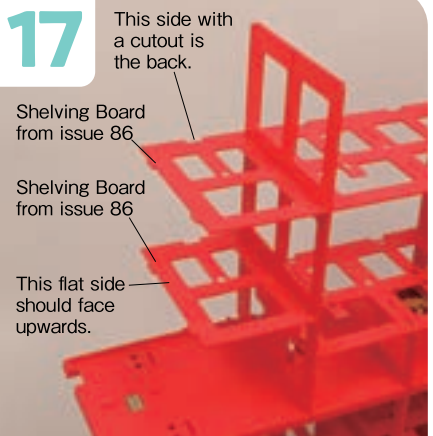

ASSEMBLING THE PARTITIONS AND MORE

Get ready the Partition from issue 86 and check its orientation.

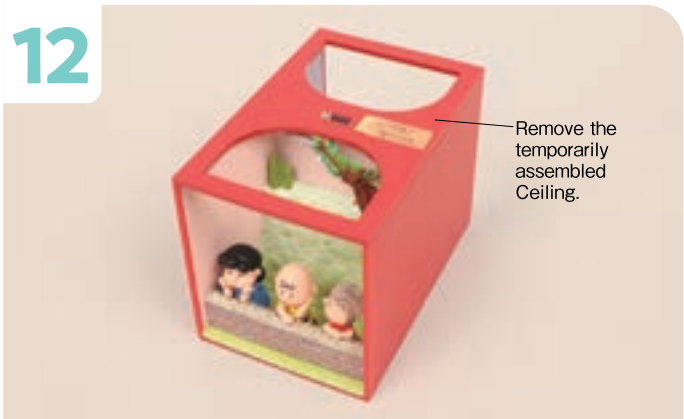

Assemble the Partition from issue 86 and the Shelving Board from issue 85 to the upper left of the doghouse as we did before.

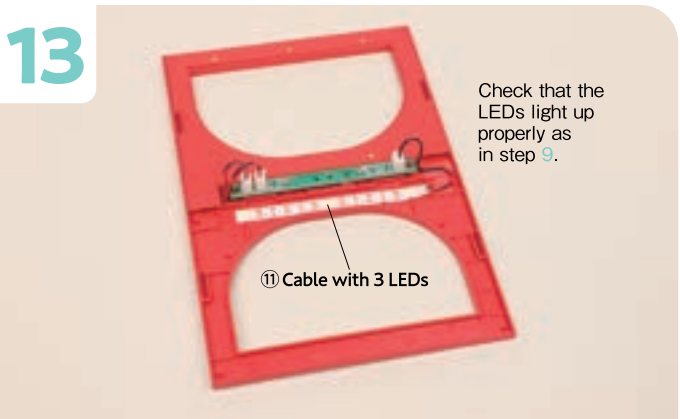

Get ready the two Shelving Boards from issue 86 and assemble them as shown.

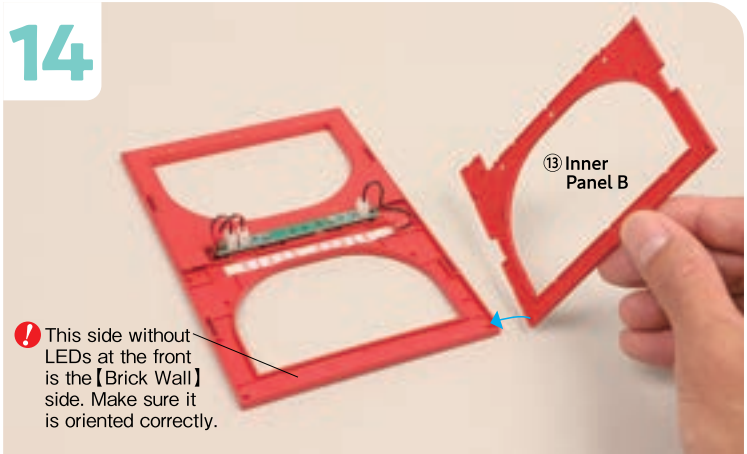

FITTING THE LEDs

Get ready the [Brick Wall/Snowmen] scene box previously assembled and remove the temporarily assembled Ceiling.

Affix the ⑪ Cable with 3 LEDs to the Ceiling, then plug its connector into the socket on the Circuit Board and check that the LEDs light up properly as in step 9.

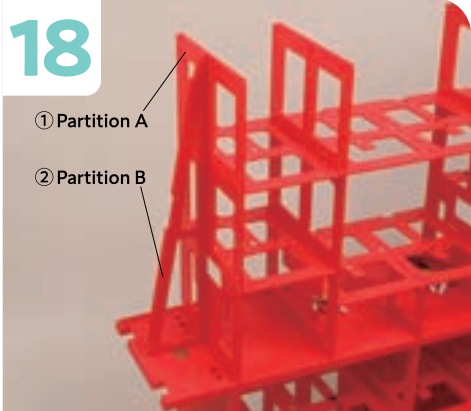

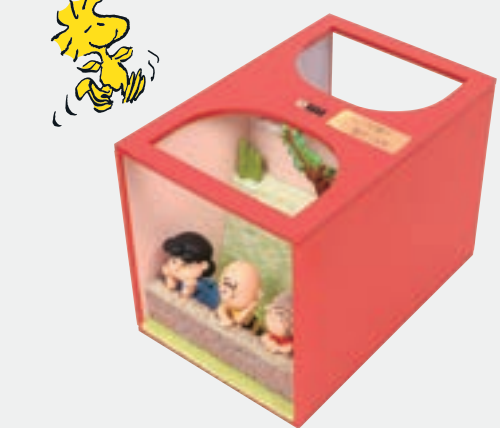

Disconnect the Battery Box and other parts and assemble ⑬ Inner Panel B.

Issue 87 Completed

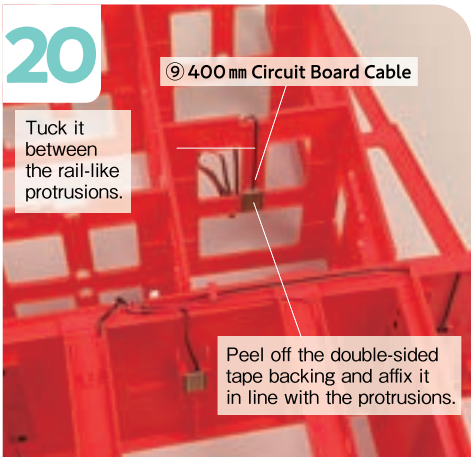

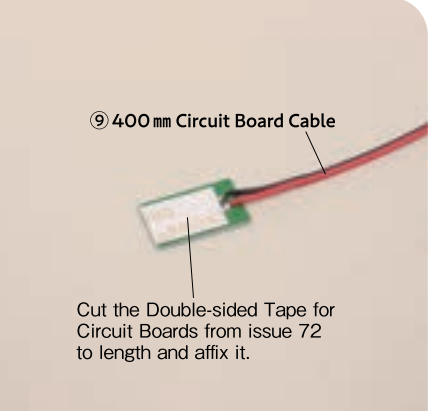

Temporarily assemble the Ceiling onto the scene box. The side without LEDs at the front is the [Brick Wall] side.

Then assemble ① Partition A and ② Partition B to the left of the Shelving Boards.

Affix the ⑮ 7/23 Sticker near the connector of the ⑨ 400mm Circuit Board Cable (see left photo), and Double-sided Tape for Circuit Boards from issue 72 to the Circuit Board on the other end (see right photo).

Affix the ⑨ 400mm Circuit Board Cable to the underside of the lower Shelving Board assembled in step 17.

Pull the cable taut so it does not slacken and lead it to the top of the Shelving Board, then bundle it out of the way and temporarily secure it with masking tape.

Issue 87 Completed

With the Shelving Boards and Partitions added to the upper left of the doghouse, its overall configuration has taken shape.
