【Break Time, Eating Together】

Making the Curtains

Use a cutter to cut and remove the ⑩ Rod/Curtain Rod Ends from the joints.

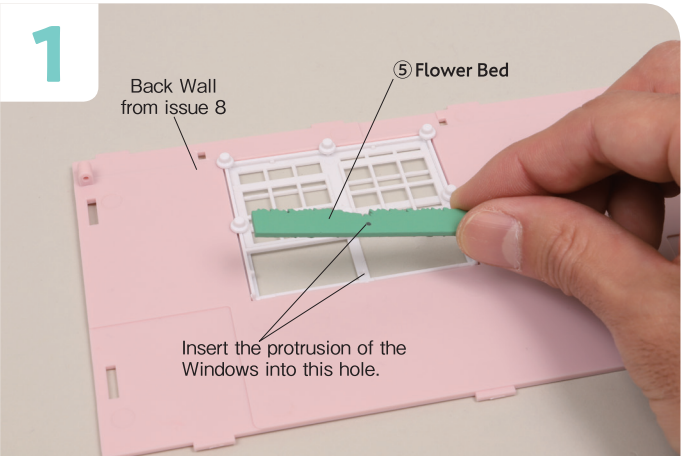

Pass the Rod through the hole along the top edge of the Curtains.

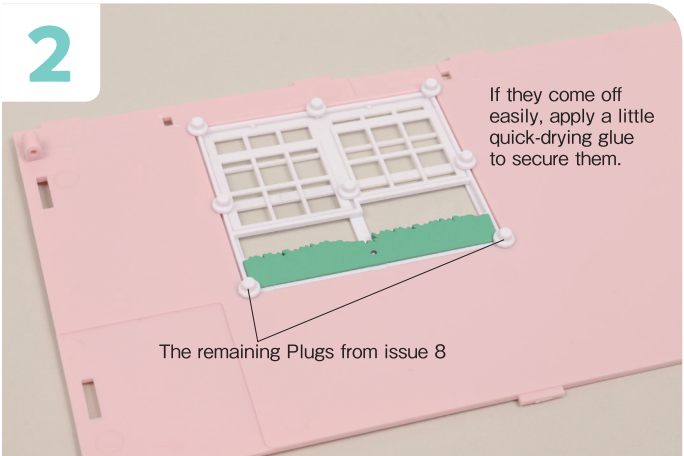

Fit the Curtain Rod Ends to the left and right ends of the Rod, then peel off the backing paper of the double-sided tape.

MAKING THE CURTAINS

Get ready the Back Wall of the【Eating Together】scene from issue 8 and fit the ⑤ Flower Bed outside its Windows.

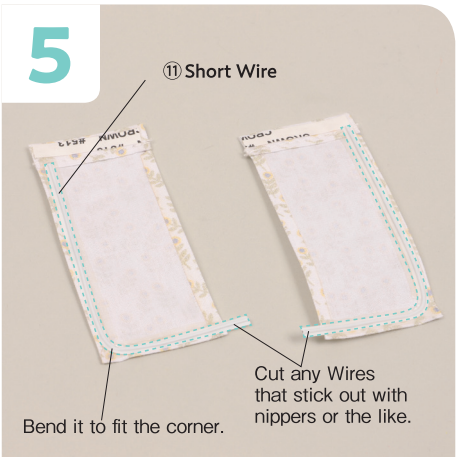

Fit the remaining Plugs from issue 8 onto the bottom left and right corners of the Windows. If they come off easily, apply a little quick-drying glue to secure them.

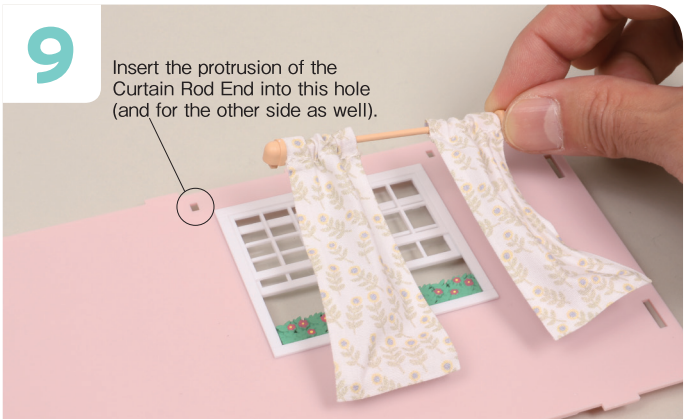

Make sure the ⑨ Curtains are facing the right way.

Paste double-sided tapes on the top, bottom and outer edges of the ⑨ Curtains but not the inner edges.

Peel off the backing papers of the double-sided tapes on the outer and bottom edges and paste a Short Wire on each edge as shown.

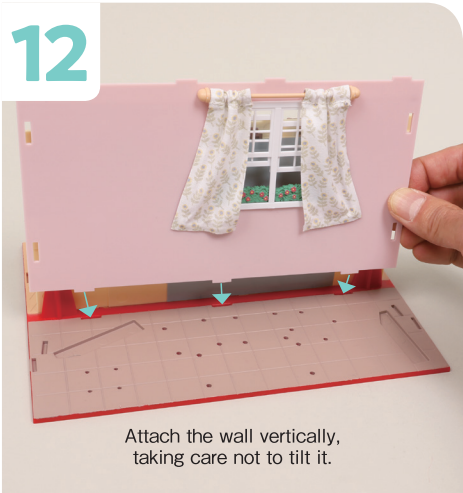

Fit the Curtains from step 8 to the inner side of the Back Wall by inserting the protrusions of the Curtain Rod Ends into the holes on the wall.

Press the Curtains down so they will not come off, then apply quick-drying glue onto the other side of the Back Wall to secure the Curtains.

Slightly open the Curtains to give it a balanced composition. Make it look as if they are swaying a little with the wind coming in through the Windows.

Get ready the【Break Time】scene and assemble it with the Back Wall from step 11. Apply quick-drying glue into the grooves on the floor into where the wall's bottom protrusions will be inserted.

Issue 9 Completed

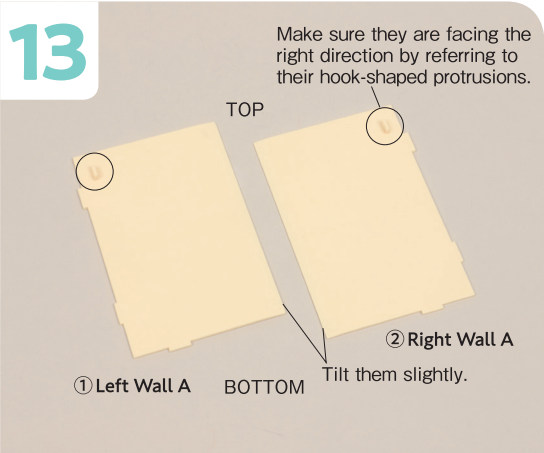

The Back Wall is now assembled in the【Break Time, Eating Together】scene.

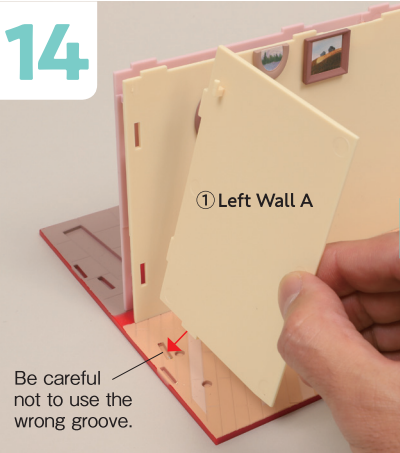

ASSEMBLING THE LEFT AND RIGHT WALLS

13

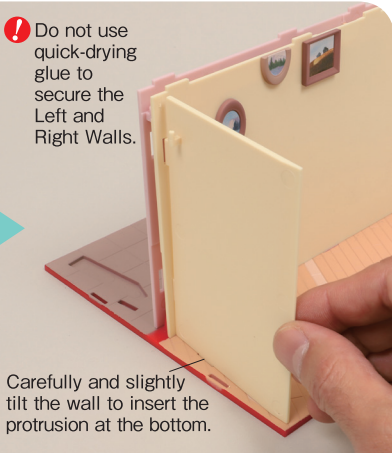

We will now assemble the Left and Right Walls in the 【 Break Time 】 scene. First, make sure the ① Left Wall A and ② Right Wall A are facing the right direction.

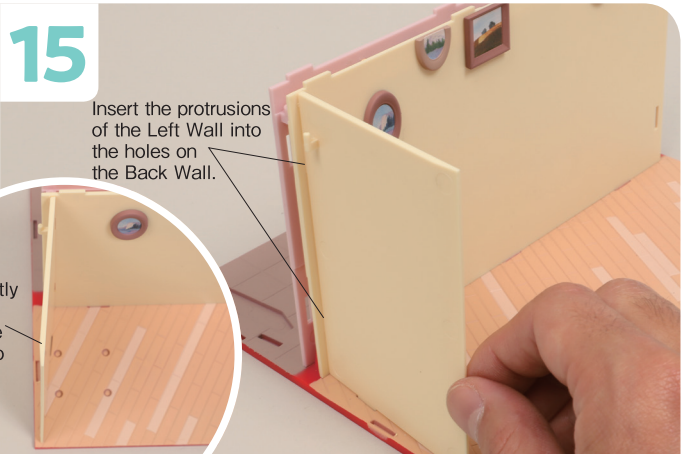

14

First, insert the protrusion under the ① Left Wall A into the groove on the floor of the 【 Relaxing at Home 】 scene.

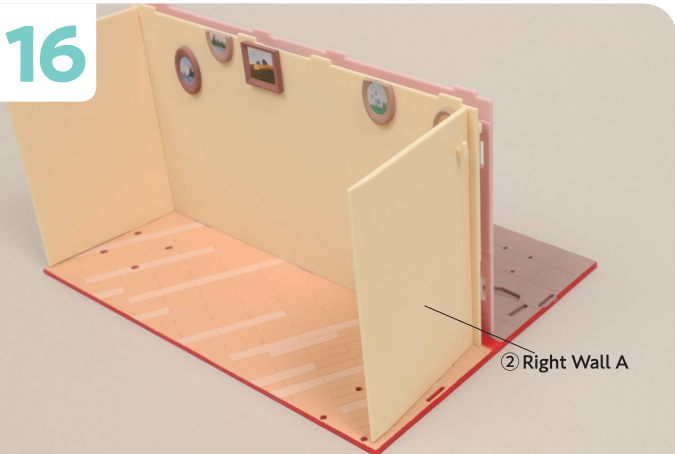

15

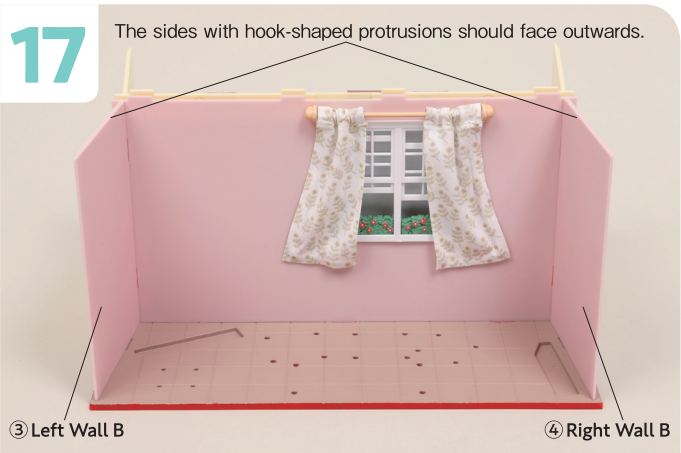

Next, insert the two protrusions at the end of the Left Wall into the holes on the Back Wall.

16

Assemble the ② Right Wall A to the right side as in steps 14~15.

17

Then assemble the ③ Left Wall B and the ④ Right Wall B to the right side of the 【 Eating Together 】 scene.

Issue 9 Completed

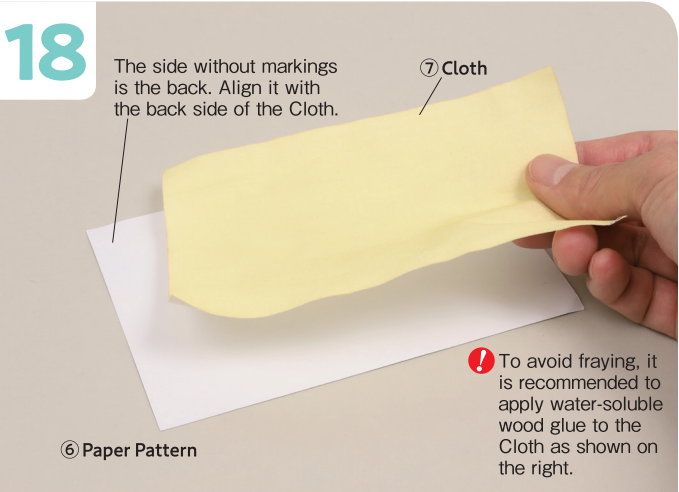

That finishes the walls and basic shape of the 【 Relaxing at Home 】 scene. The Left and Right Walls will be well secured when the outer walls are assembled in later issues.

MAKING THE BEDSPREAD

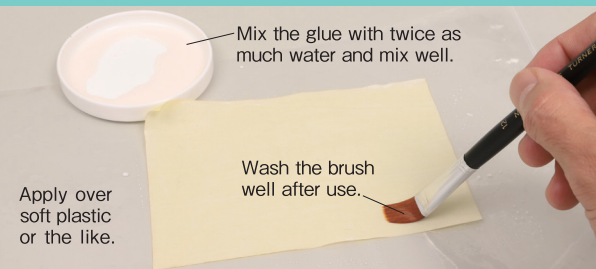

18

Place the ⑦ Cloth on the ⑥ Paper Pattern with their back sides against each other.

Applying water-soluble wood glue to the Cloth

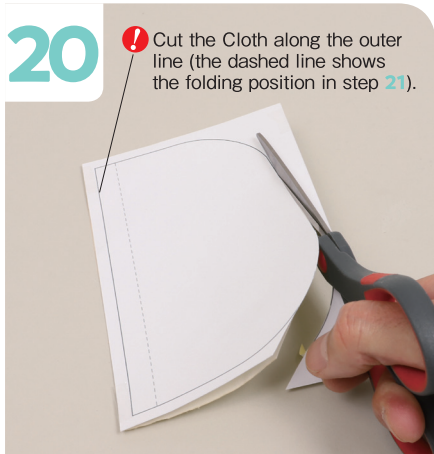

When the ⑦ Cloth is coated with water-soluble wood glue, its edges will be less likely to fray, and it will become more flexible and easier to handle. Mix the glue with twice as much water and apply it to the entire surface of the Cloth. Allow it to dry before use.

19

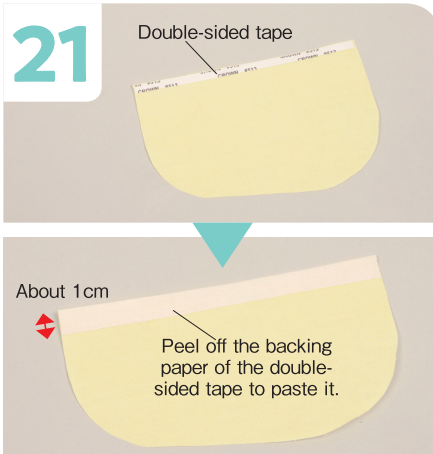

After aligning the ⑥ Paper Pattern with the ⑦ Cloth, paste sticky tape or the like on the four corners to hold them in place.

20

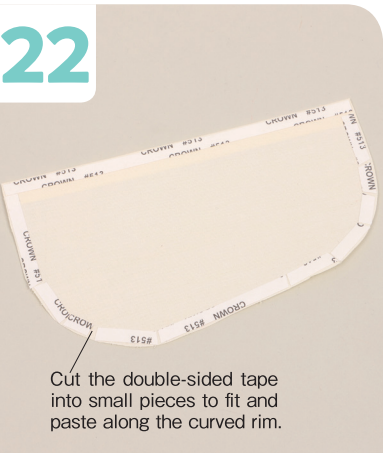

21

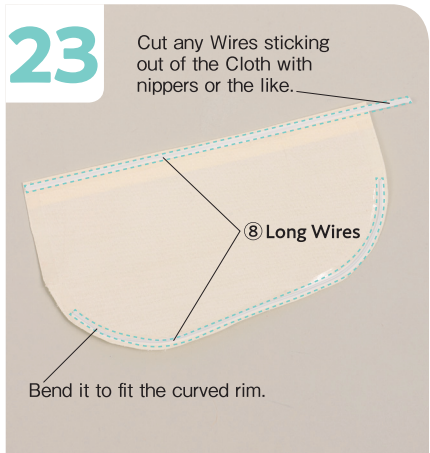

Align and paste the double-sided tape along the top edge of the Cloth as shown on the top photo, then fold it back about 1 cm as shown on the bottom photo.

22

Paste the double-sided tapes along the rim of the Cloth on the back as shown.

23

Peel off the backing papers of the double-sided tapes and paste the ⑧ Long Wires on the top and bottom edges.

Issue 9 Completed

The Bedspread for the 【 3 Brothers 】 scene is now complete. We will make the bed to match it in the next issue.
