Parts of issue 91

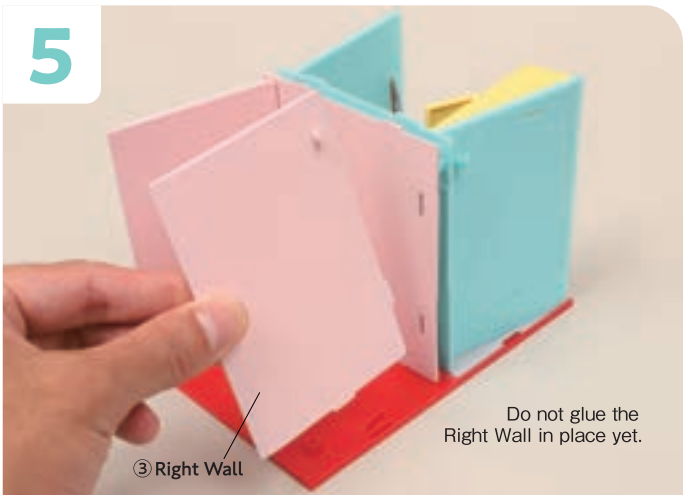

【Winter, Christmas Tree】

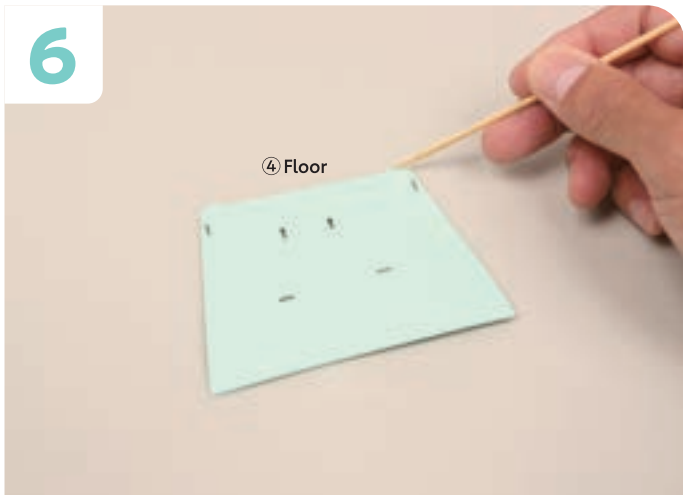

Assembling the Walls and Floor

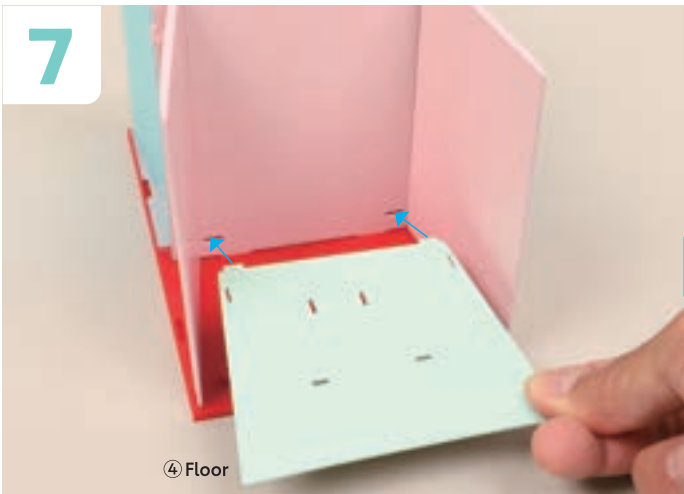

Assemble the ② Left Wall to the left side of the Floorboard as we did before.

Assemble the ③ Right Wall to the right side of the Floorboard in the same manner.

Apply a little quick-drying glue to the two rear protrusions of the ④ Floor with the tip of a toothpick or the like.

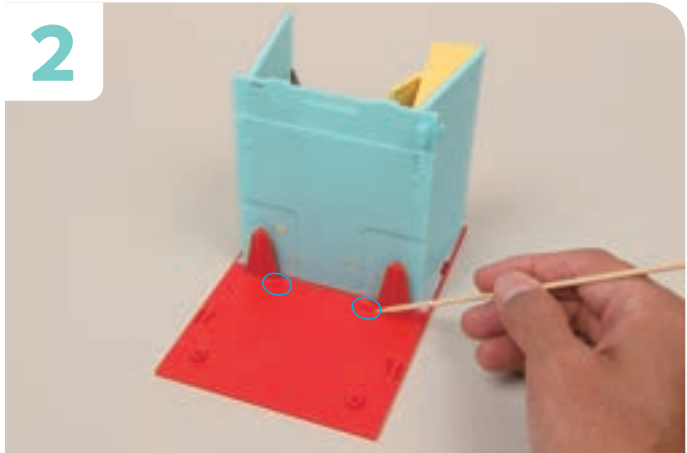

Before the glue dries, assemble the ④ Floor to the Back Wall by inserting its protrusions into the holes in the Back Wall.

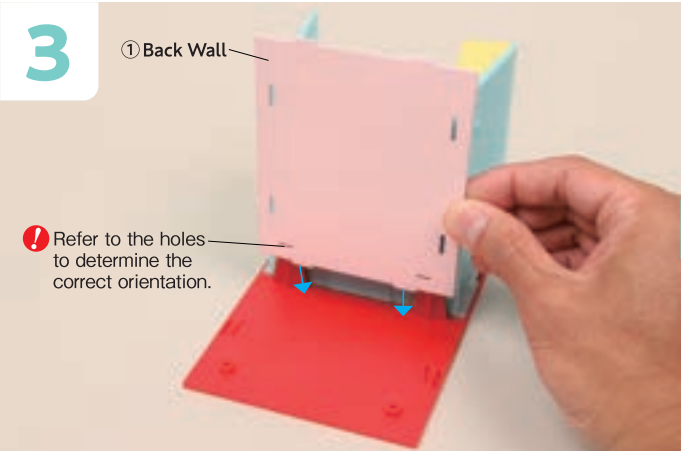

ASSEMBLING THE WALLS AND FLOOR

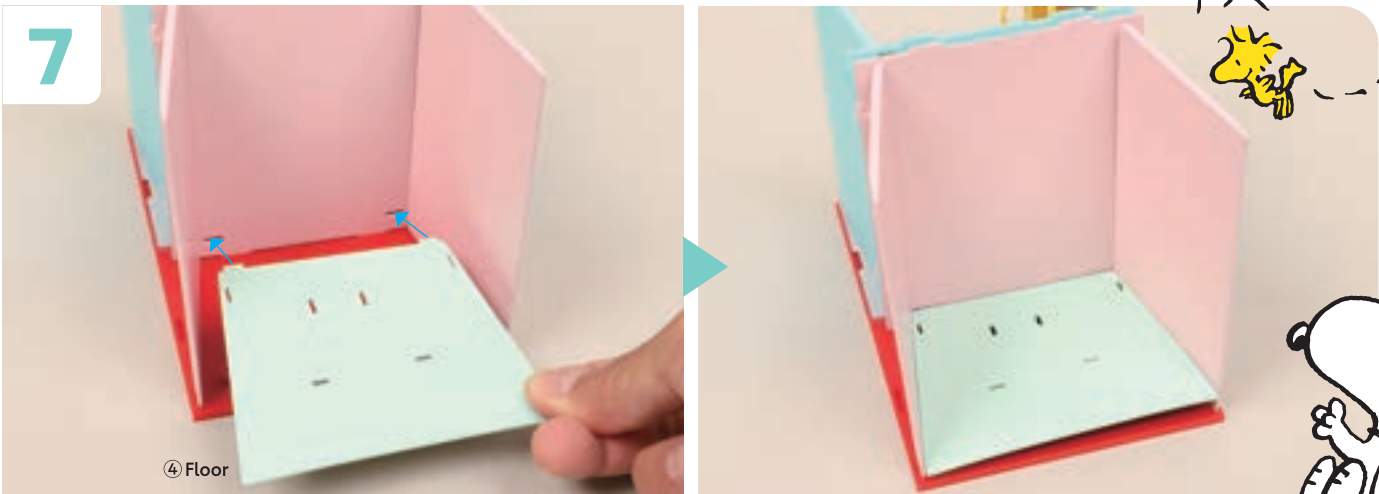

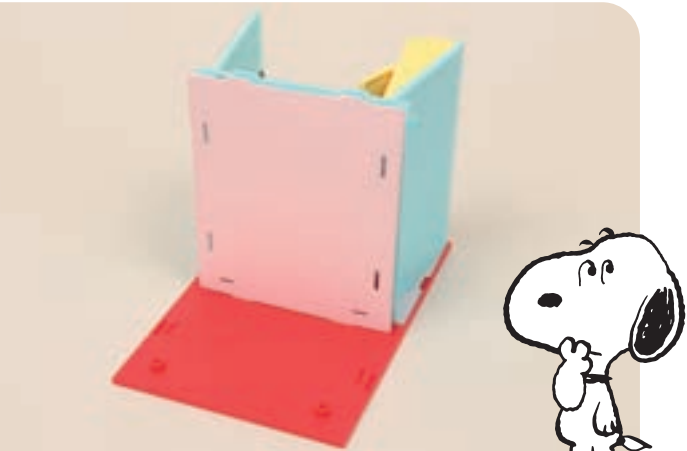

Get ready the 【Summer Camp/Christmas Tree】 scene box previously assembled, and remove the temporarily assembled Exterior Walls.

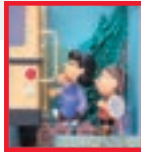

Use the tip of a toothpick or the like to apply a little quick-drying glue to the grooves in the Floorboard on the 【Christmas Tree】 side in the position shown.

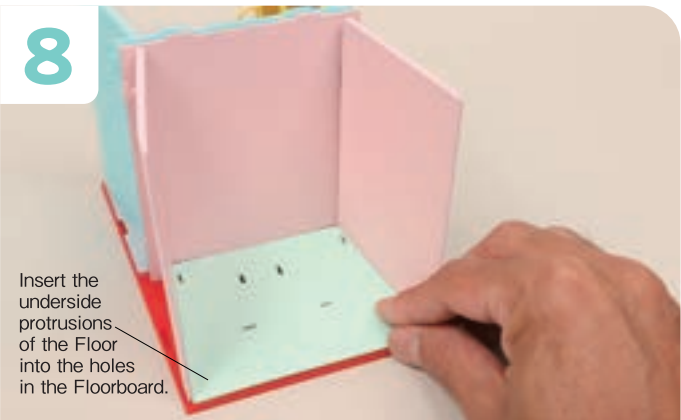

Before the glue dries, assemble the ① Back Wall in the orientation shown.

Assembling the Walls and Floor

Press the front edge of the ④ Floor against the Floorboard, and insert its underside protrusions into the holes in the Floorboard.

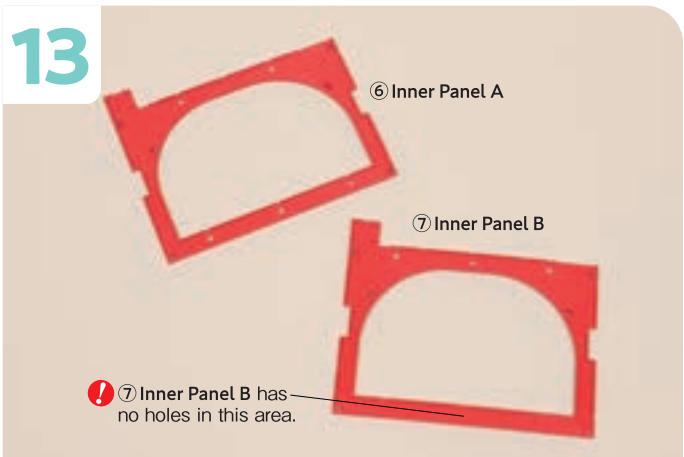

Issue 91 Completed

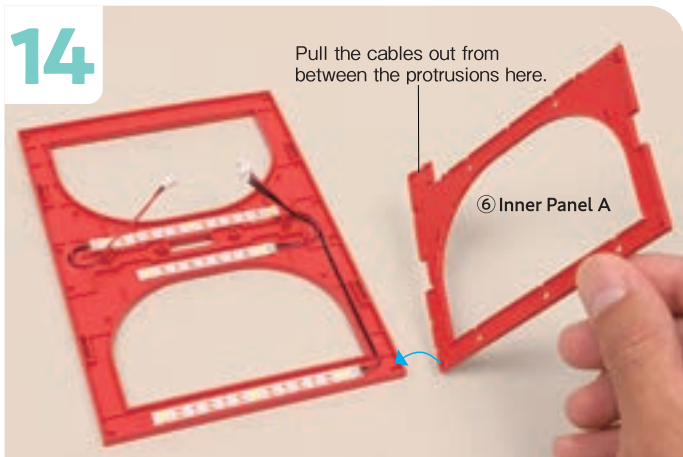

The surrounding walls of the [ChristmasTree] scene are now in place. More parts will be assembled in the next issue. Please take good care of the ⑪ Snoopy and ⑫ Woodstock and 3 Friends figurines.

Fitting the Ceiling and LEDs

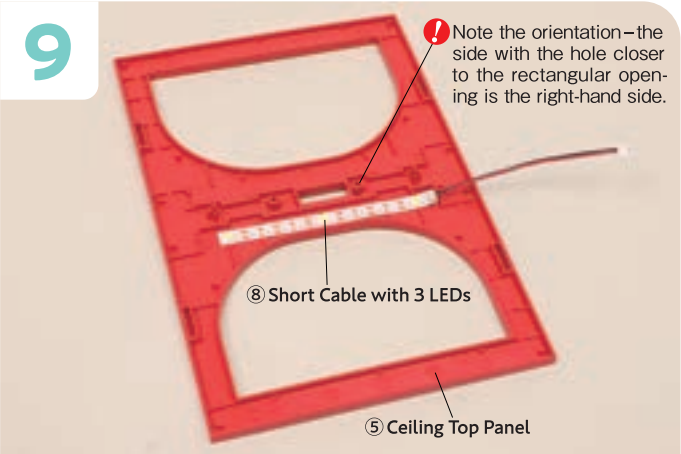

The number of LED holes on ⑥ Inner Panel A and ⑦ Inner Panel B is different. Be careful not to mix them up.

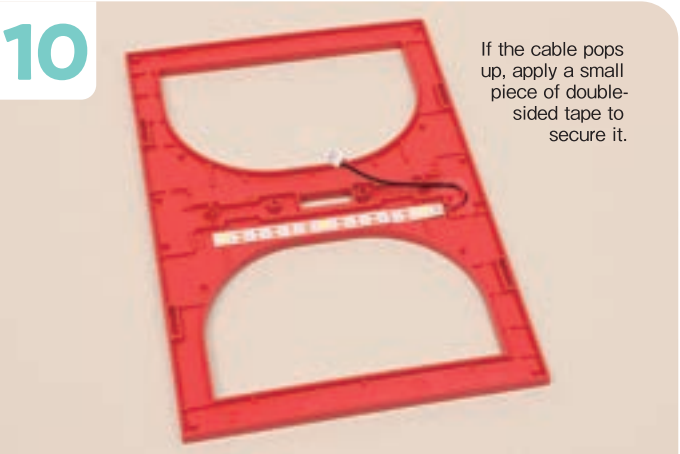

Assemble ⑥ Inner Panel A onto the [Christmas Tree] side of the Ceiling as before.

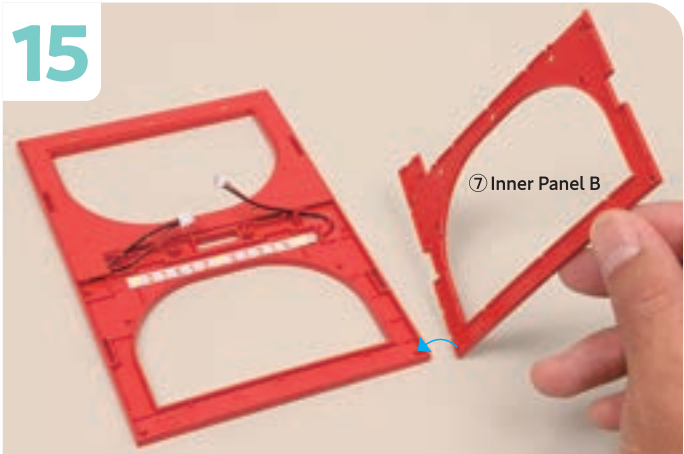

FITTING THE CEILING AND LEDs

As we did before, affix the ⑧ Short Cable with 3 LEDs to the ⑤ Ceiling Top Panel in the position shown.

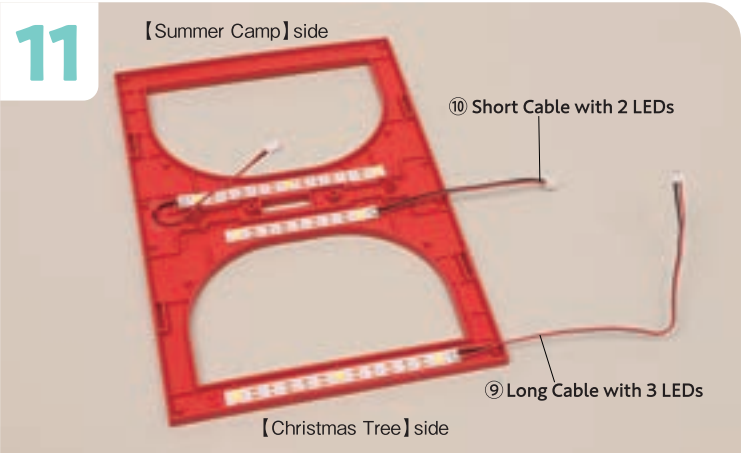

Route the cable as shown.

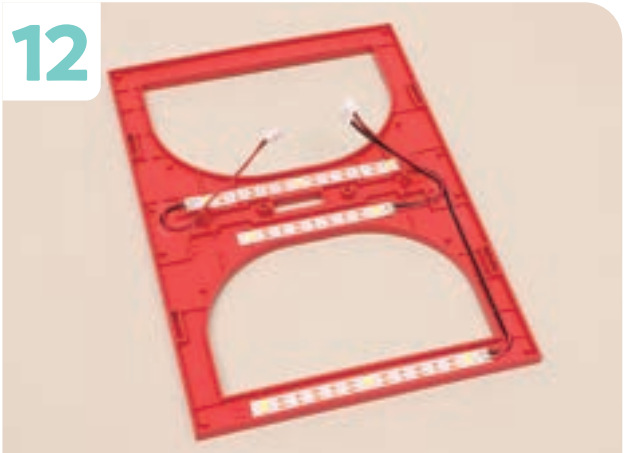

Assemble ⑦ Inner Panel B onto the opposite side of the Ceiling in the same manner.

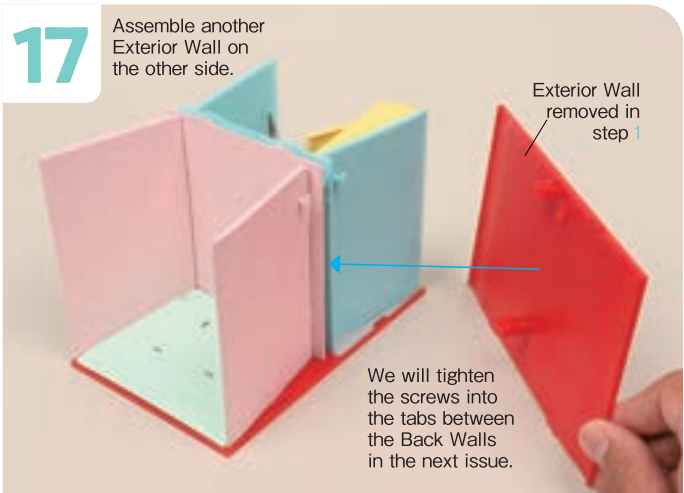

Now reassemble the Exterior Walls removed from the [Summer Camp/Christmas Tree] scene box in step 1. First, apply quick-drying glue to the walls' edges with the tip of a toothpick or the like.

Turn around the Ceiling Top Panel with the [Christmas Tree] side facing you, and affix the ⑨ Long Cable with 3 LEDs and ⑩ Short Cable with 2 LEDs as shown.

As in step 10, route the two cables as shown.

Before the glue dries, assemble the Exterior Wall as we did before. Assemble another Exterior Wall on the other side in the same manner.

Issue 91 Completed

LEDs have been fitted to the Ceiling of the [Summer Camp/Christmas Tree] scene box and the Exterior Walls added. We will assemble the Circuit Board to the Ceiling in the next issue.
