Walls, Ground, Chairlift

【Summer/Winter, Sandcastles/Skiing】

LEDs and more

【Figurines】

Woodstock and Friend 【Skiing】

The parts in this issue are the surrounding Walls, Ground and Chairlift for the 【Skiing】 scene. Also included is a Cable with LEDs for the Ceiling of the 【Sandcastles/Skiing】 scene box. And the figurines are Woodstock and Friend for the 【Skiing】 scene.

In this issue

WALLS, GROUND, CHAIRLIFT

We will start assembling the 【Skiing】 scene by first assembling the surrounding Walls and Ground to the Floorboard, and assembling the Cables and other parts to build the Chairlift.

Figurines

Woodstock and Friend
Figurines for the 【Skiing】 scene

LEDs AND MORE

We will also fit the remaining Cable with LEDs to the Ceiling of the 【Sandcastles/Skiing】 scene box, and assemble the Inner Panel.

※ Actual parts may vary from the photos.

ASSEMBLY INSTRUCTIONS

【Winter, Skiing】

Assembling the Walls and Ground

【Summer/Winter, Sandcastles/Skiing】

Fitting the LEDs and more

We will start assembling the【Skiing】scene by assembling the surrounding Walls and Ground to the Floorboard and building the Chairlift. We will also fit the remaining Cable with LEDs to the Ceiling of the 【Sandcastles/Skiing】 scene box, and assemble the Inner Panel.

Parts of issue 93

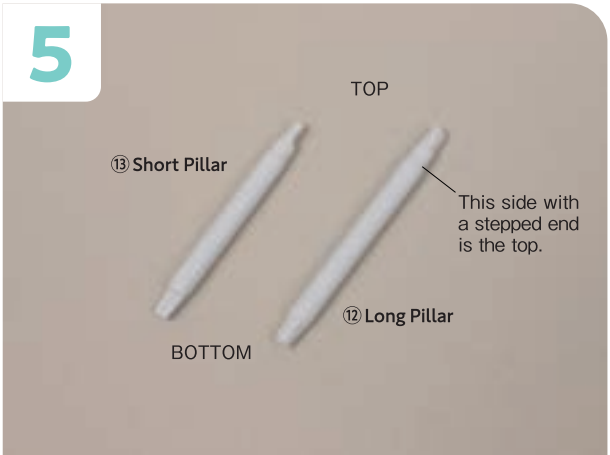

【Winter, Skiing】

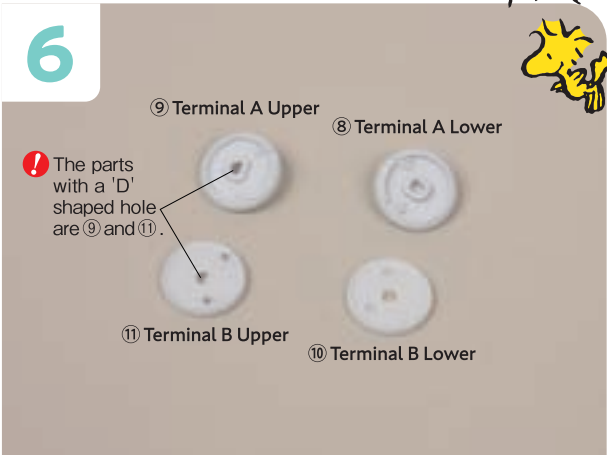

BUILDING THE CHAIRLIFT

5

Be careful not to mix up the top and bottom ends of the ⑫ Long Pillar and ⑬ Short Pillar.

6

The Terminals' parts ⑧~⑪ look similar in shape, please identify them by their hole shapes.

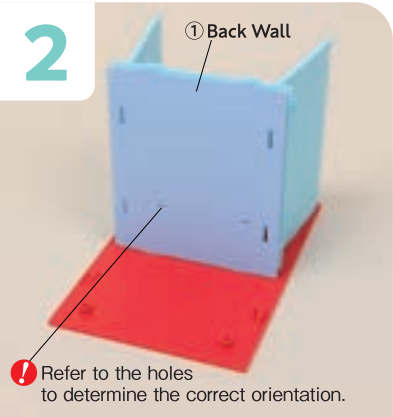

ASSEMBLING THE WALLS AND GROUND

1

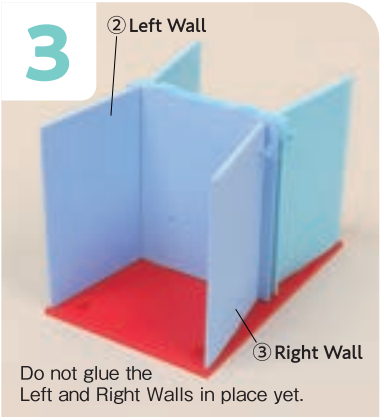

Get ready the【Sandcastles/Skiing】scene box previously assembled, and remove the temporarily assembled Exterior Walls and Ceiling.

2

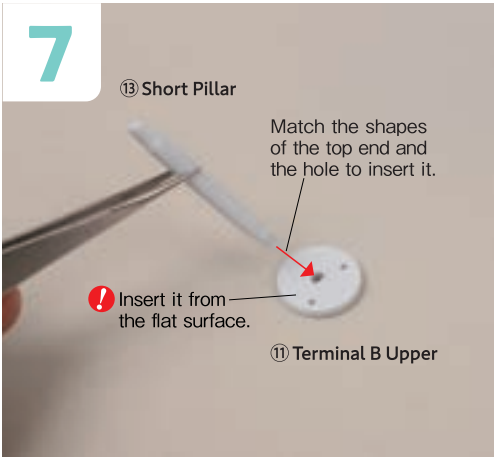

Assemble the ① Back Wall to the【Skiing】side of the Floorboard as we did before.

3

Then assemble the ② Left and ③ Right Walls as before.

7

Insert the top end of the ⑬ Short Pillar into the hole in ⑪ Terminal B Upper, taking care not to insert the wrong end.

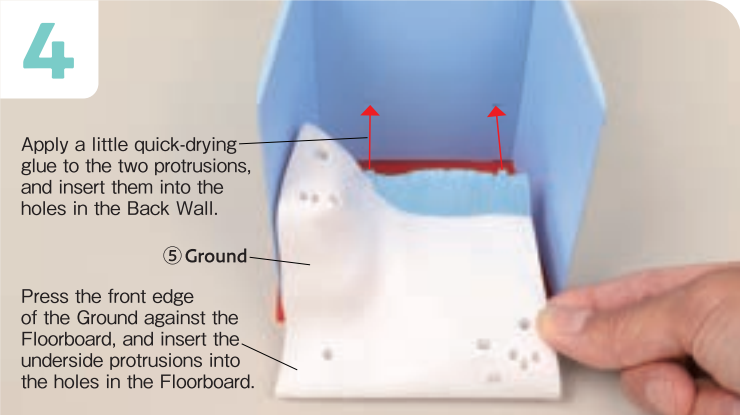

If any parts up to step ⑩ come off easily, apply a little quick-drying glue to secure them in place.

8

Insert the top end of the ⑫ Long Pillar into the hole in ⑩ Terminal B Lower in the same manner.

4

Apply a little quick-drying glue to the two rear protrusions of the ⑤ Ground and assemble it to the Back Wall. Then press its front edge against the Floorboard, and insert its underside protrusions into the holes in the Floorboard.

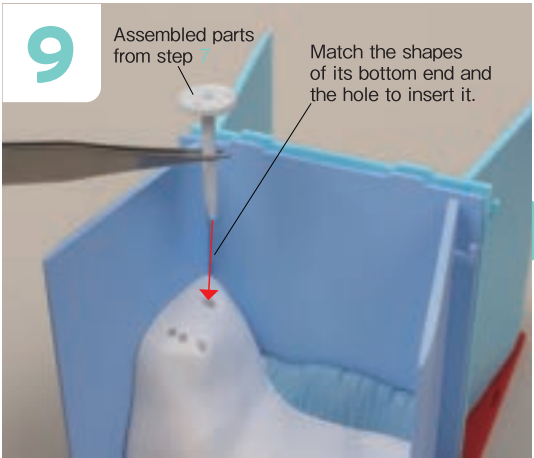

Issue 93 Completed

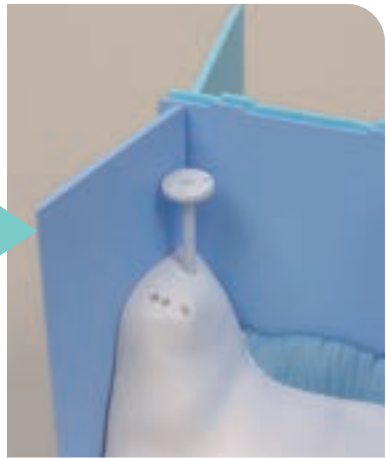

The walls surrounding the 【Skiing】 scene are now assembled. Let's go on to assemble the Cables and other parts to build the Chairlift.

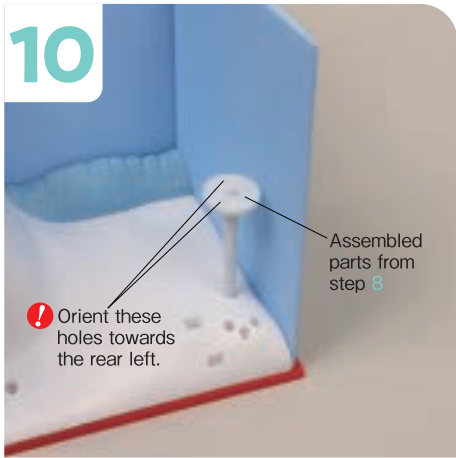

9

Now fit the assembled parts from step ⑦ to the Ground in the position shown. Match the shapes of the bottom end of the ⑬ Short Pillar and the hole to insert it.

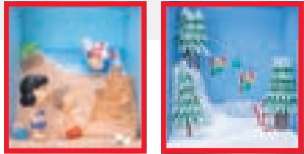

10

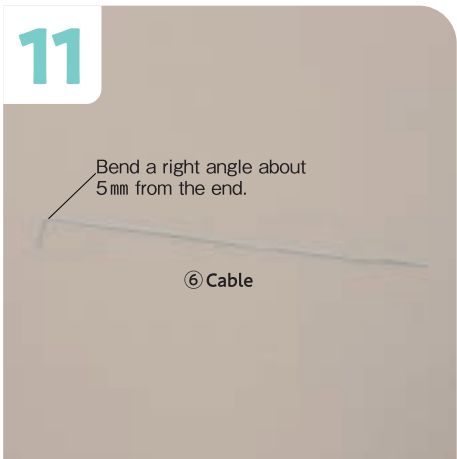

Fit the assembled parts from step ⑧ to the Ground in the position shown in the same manner.

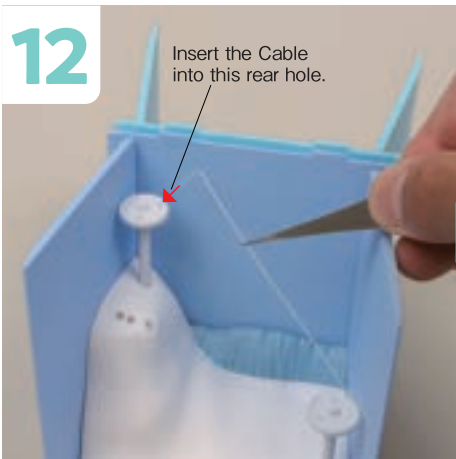

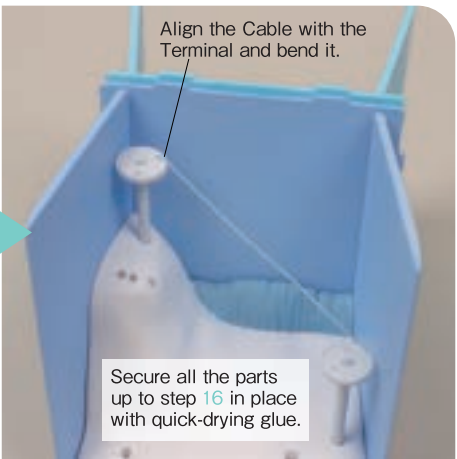

Building the Chairlift

Bend a right angle about 5mm from the end of the ⑥ Cable as shown.

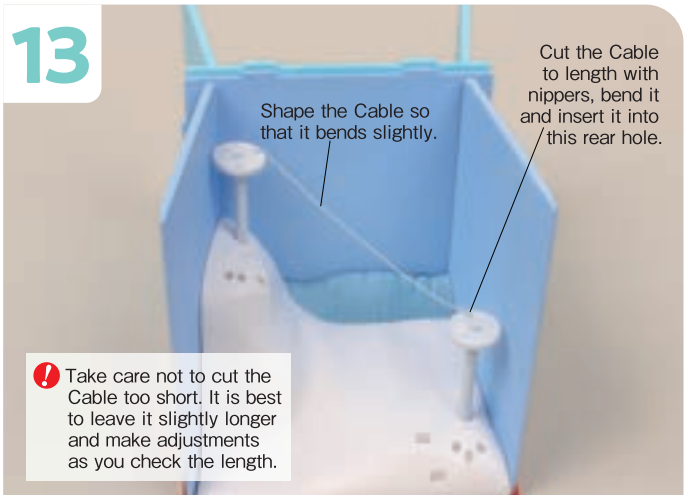

Insert the bent end of the ⑥ Cable into the rear hole of the upper Terminal.

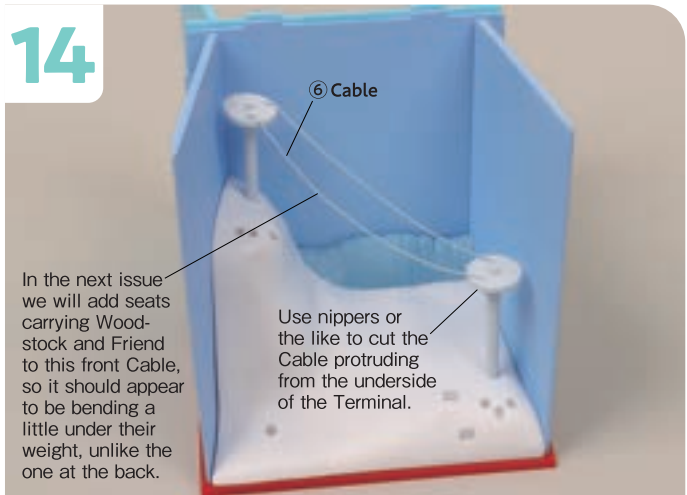

Align the Cable with the Terminal and bend it.

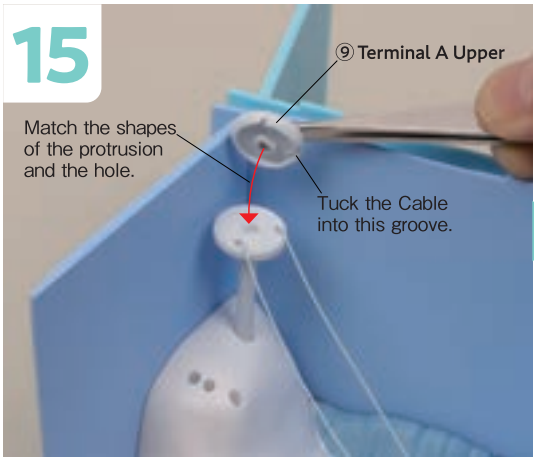

Secure all the parts up to step 16 in place with quick-drying glue.

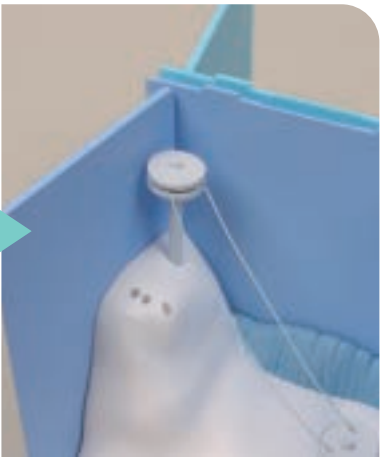

Shape the Cable so that it bends slightly. Cut it to length and insert its other end into the hole of the lower Terminal.

Assemble the remaining ⑥ Cable to the front as in steps 11~13.

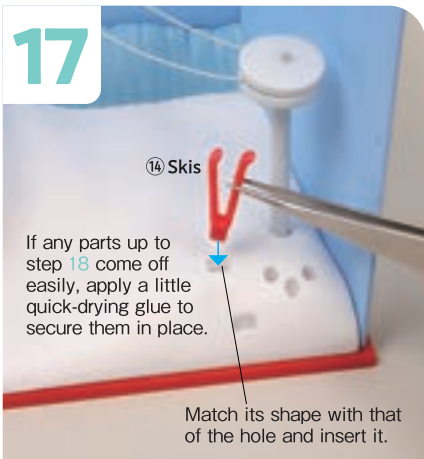

Assemble ⑨ Terminal A Upper on top of the upper Terminal.

Assemble ⑧ Terminal A Lower to the lower Terminal in the same manner.

Building the Chairlift

Assemble the ⑭ Skis to the Ground in the position shown.

Likewise, assemble the ⑮ Ski Poles to the Ground in the position shown.

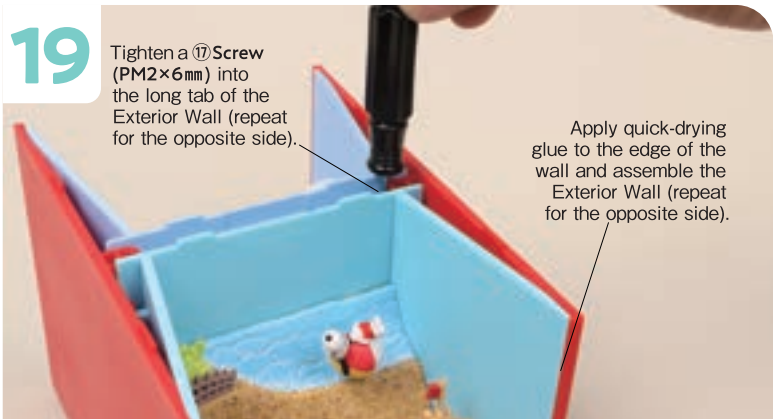

Issue 93 Completed

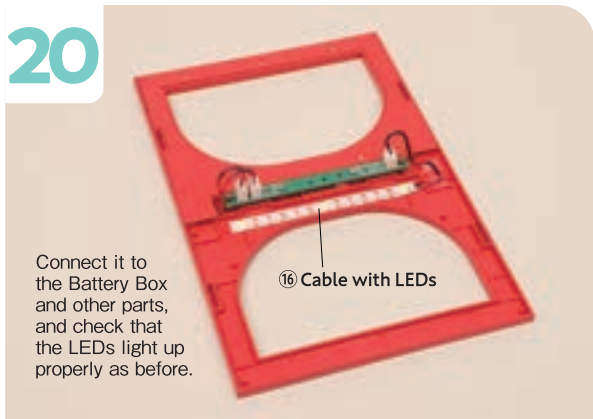

In the next issue, we will set the figurines and other parts to the Chairlift, and assemble the Trees to the Ground.

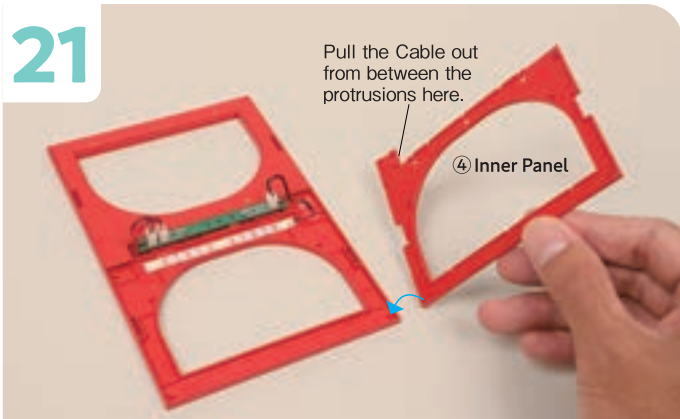

FITTING THE LEDS AND MORE

Assemble the Exterior Walls removed in step 1 back to the 【Sandcastles/Skiing】 scene box by tightening the ⑰ Screws (PM2×6mm) into the holes in the long tabs of the Exterior Walls, as we did before.

As before, affix the ⑯ Cable with LEDs to the Ceiling removed in step 1 in the position shown, and plug its connector into the socket on the Circuit Board.

Assemble the ④ Inner Panel as before.

Issue 93 Completed

That finishes the 【Sandcastles/Skiing】 scene box. Temporarily assemble the Ceiling to the scene box. The side without LEDs on the front is the 【Skiing】 side.
