Parts of issue 96

Assembling the Left and Right Walls and Exterior Walls

Assemble the Exterior Walls from issue 94 before the glue dries. Insert the protrusions of the Back Wall and Left and Right Walls into the holes of the Exterior Wall. Then assemble the lower sides of these walls. Next, assemble another Exterior Wall on the other side in the same manner.

ASSEMBLING THE LEFT AND RIGHT WALLS AND EXTERIOR WALLS

1

Do not glue the Left and Right Walls in place yet.

Refer to the hook-shaped protrusion to ensure the correct orientation and other details.

⑧ Left Wall B ⑨ Right Wall B

As we did before, assemble ⑧ Left Wall B and ⑨ Right Wall B to the 【Baseball Team】 scene previously assembled.

2

Do not glue the Left and Right Walls in place yet.

⑥ Left Wall A ⑦ Right Wall A

The Left and Right Walls are of a different colour from the Back Wall.

Then assemble ⑥ Left Wall A and ⑦ Right Wall A to the 【Out Together】 scene on the other side.

3

! This large tab should be on the top.

TOP

Insert the protrusions of the Left and Right Walls into these holes.

Exterior Wall from issue 94 BOTTOM

Get ready the Exterior Walls from issue 94 and check the orientation.

4

Apply quick-drying glue to the edge of the opposite wall as well.

Now assemble the Exterior Walls to the 【Baseball Team/Out Together】 scene box. First, apply quick-drying glue to the edges of the walls with the tip of a toothpick or the like.

6

Tighten the Screws (PM2×6mm) from issue 94 (repeat for the other side).

Tighten the Screws (PM2×6mm) from issue 94 into the tabs of the Exterior Walls to secure the walls in place.

Issue 96 Completed

The walls are now assembled to the 【Baseball Team/Out Together】 scene box.

Adding the figurines

Insert the protrusions under the shoes of the figurines, ⑪ Charlie Brown and ⑫ Linus, into the holes in the Ground of the 【Out Together】 scene. Instead of gluing them in place, assemble them temporarily for now.

! Do not glue the figurines in place yet, for they will be removed in a later issue.

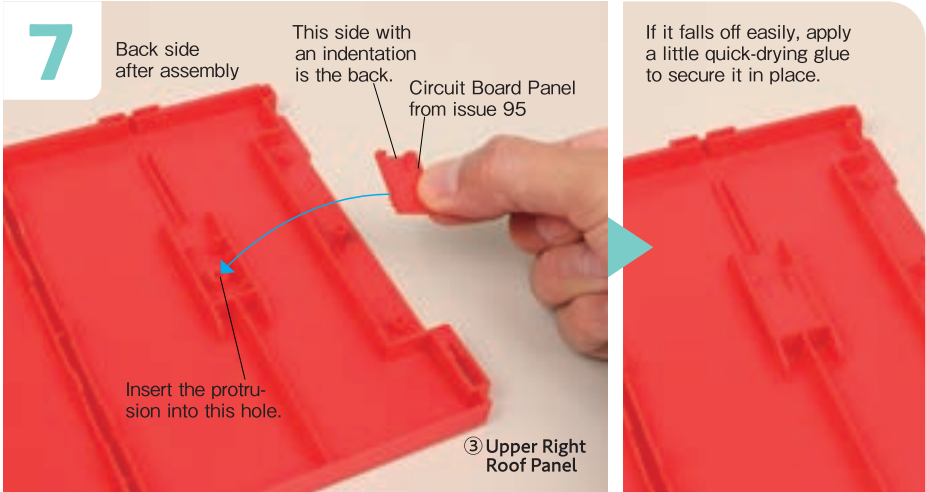

⑪ Charlie Brown

⑫ Linus

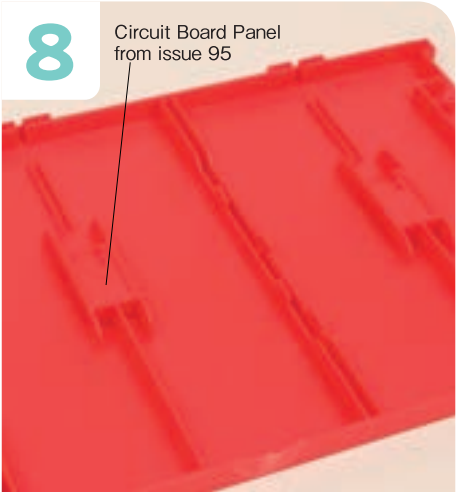

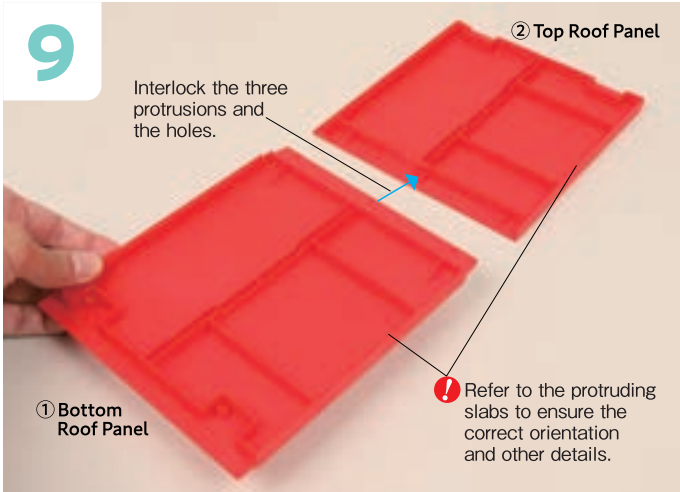

ASSEMBLING THE RIGHT ROOF PANEL AND MORE

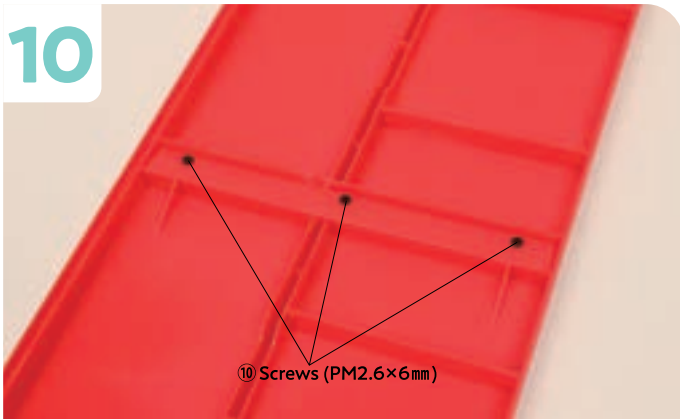

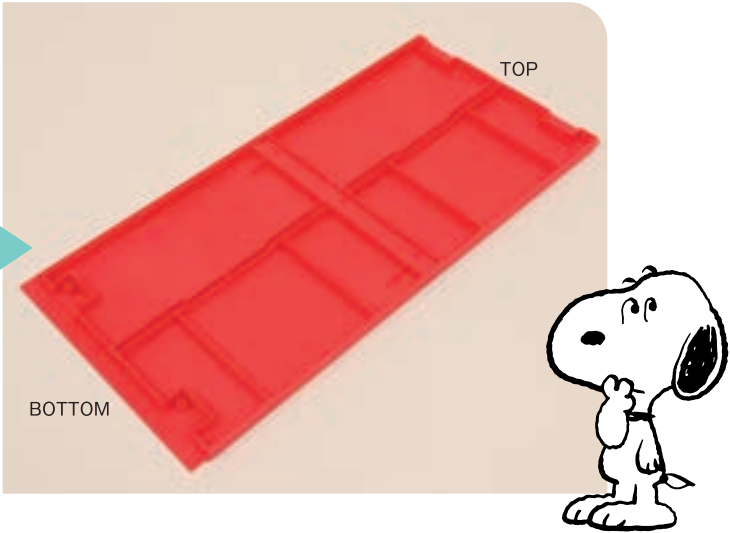

Assemble the Circuit Board Panel from issue 95 to the ③ Upper Right Roof Panel in the position shown.

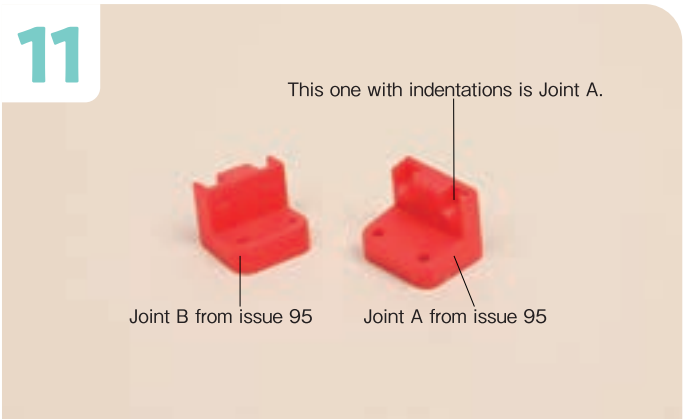

Then assemble another Circuit Board Panel from issue 95 to ③ in the position shown.

Assemble the ① Bottom Roof Panel and ② Top Roof Panel as shown.

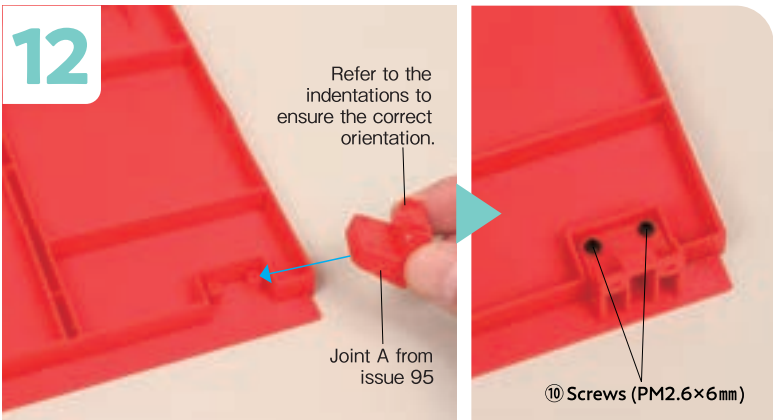

Tighten the ⑩ Screws (PM2.6×6mm) into the three positions on the joint of the Roof Panels as shown to secure the panels in place.

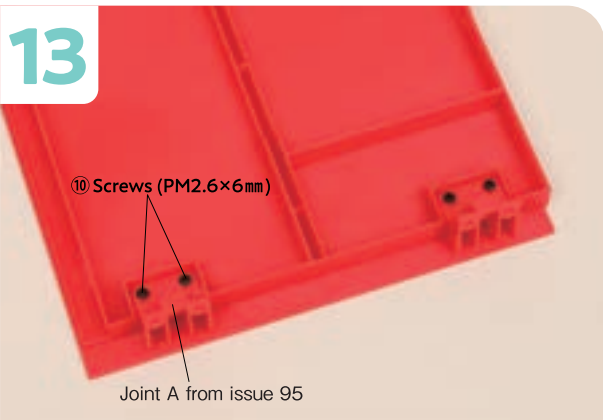

Get ready Joints A and B from issue 95, and check the orientation and other details.

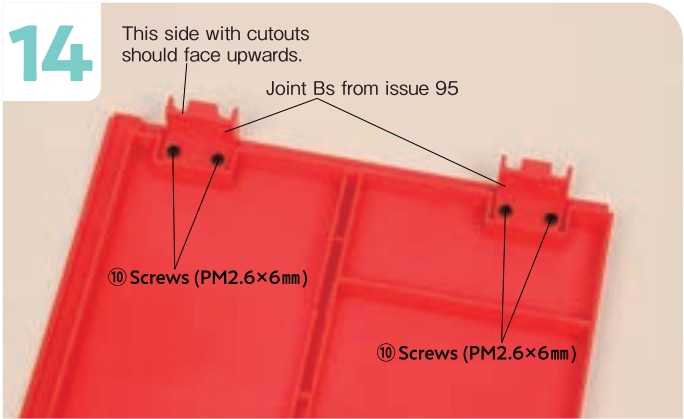

Assembling the Right Roof Panel and more

Fit Joint A from issue 95 to the bottom edge of the Roof Panel in the position shown, then fasten it with two ⑩ Screws (PM2.6×6mm).

Fasten another Joint A from issue 95 to the other side with two ⑩ Screws (PM2.6×6mm) in the same manner.

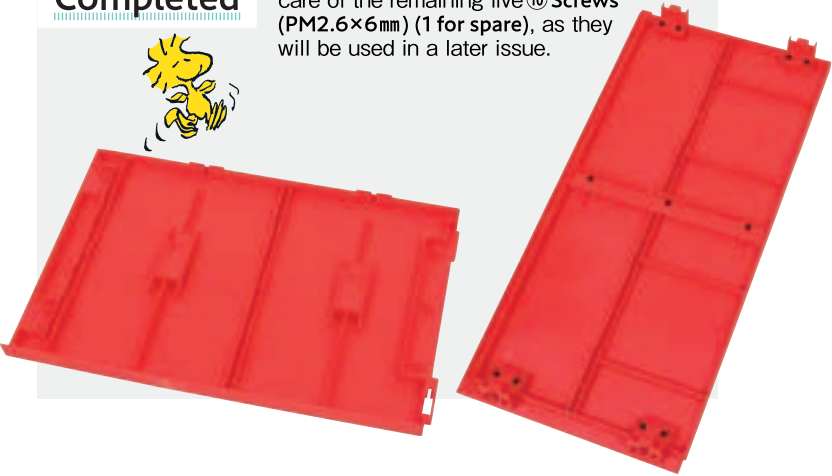

Similarly, fit Joint Bs from issue 95 to the top edge of the Roof Panel in the two positions shown, then fasten each with two ⑩ Screws (PM2.6×6mm).

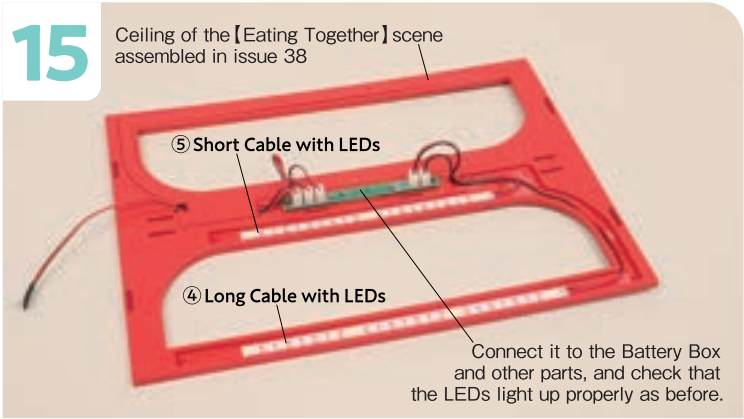

Issue 96 Completed

That finishes the slanted right panels of the doghouse. Please take good care of the remaining five ⑩ Screws (PM2.6×6mm) (1 for spare), as they will be used in a later issue.

FITTING THE LEDS

Get ready the Ceiling of the [Eating Together] scene assembled in issue 38. Then affix the ④ Long Cable with LEDs and ⑤ Short Cable with LEDs, route them as shown and plug their connectors into the sockets on the Circuit Board as we did before.

Issue 96 Completed

We will assemble an Inner Panel to this Ceiling and complete the [Eating Together] scene in a later issue.
