

【Doghouse】

Circuit Board Cable, Partition

【The Peanuts Gang, Out Together】

Toys

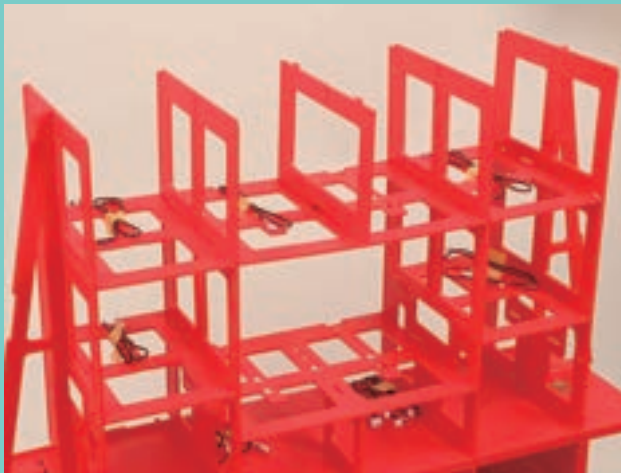

【Figurines】

Sally, Lucy

The parts in this issue are a Circuit Board Cable and a Partition for the doghouse. Also included are the Toys for the 【Out Together】 scene, and the figurines are Sally and Lucy for the same scene.

In this issue

In this issue

CIRCUIT BOARD CABLE AND MORE

We will stick a Sticker to the Circuit Board Cable, affix the cable to the doghouse and route it. Also assemble the remaining Partition to the top in the middle.

Figurines

Sally

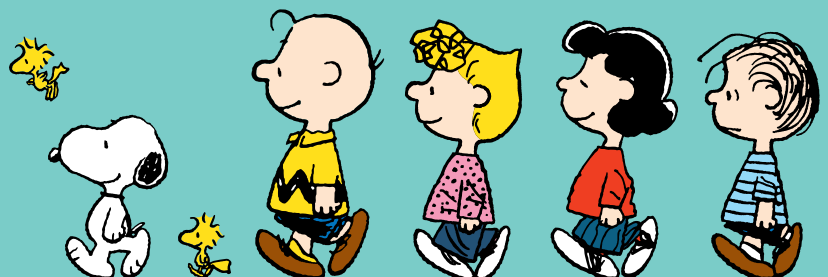

Lucy

Figurines for the 【Out Together】 scene

TOYS

These are the Toys to be displayed in the Showcase of the 【Out Together】 scene. We will glue the train on the track and apply double-sided tapes to the bottom side of each Toy.

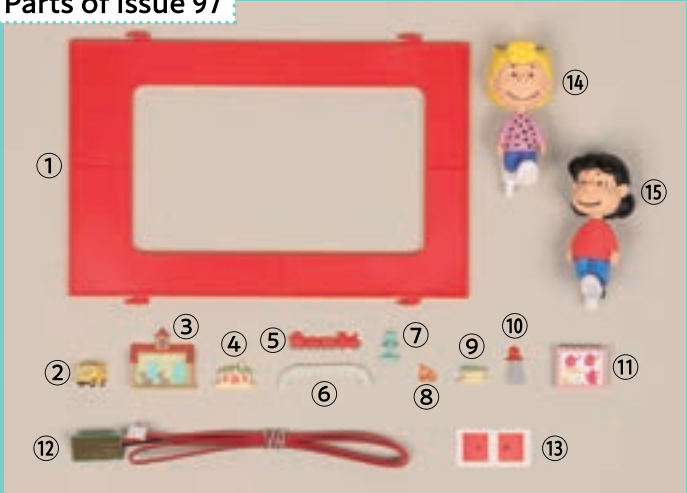

ASSEMBLY INSTRUCTIONS

【Doghouse】
Assembling the Circuit Board Cable and more

【The Peanuts Gang, Out Together】
Making the Toys

We will stick a Sticker to the Circuit Board Cable and affix the cable to the doghouse, assemble the remaining Partition to the top in the middle, and make the Toys to be displayed in the Showcase of the 【Out Together】 scene by gluing the train on the toy track and applying double-sided tapes to the bottom side of each Toy.

Parts of issue 97

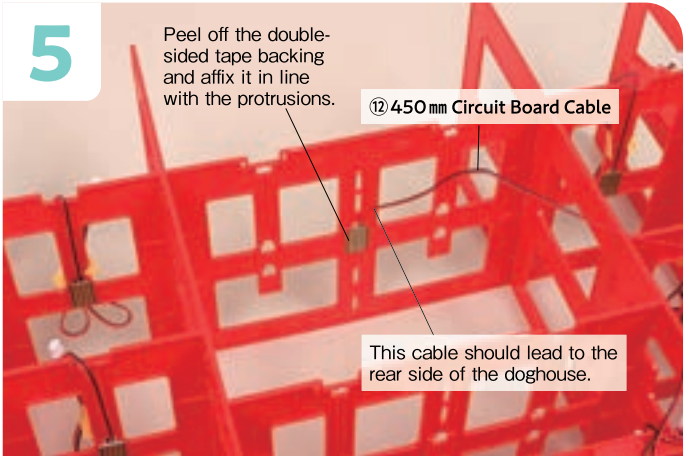

- ① Partition ② Toy A ③ Toy B ④ Toy C ⑤ Toy D ⑥ Toy E ⑦ Toy F ⑧ Toy G
⑨ Toy H ⑩ Toy I ⑪ Toy J ⑫ 450mm Circuit Board Cable ⑬ 9/25 Sticker
【Figurines】 ⑭ Sally ⑮ Lucy

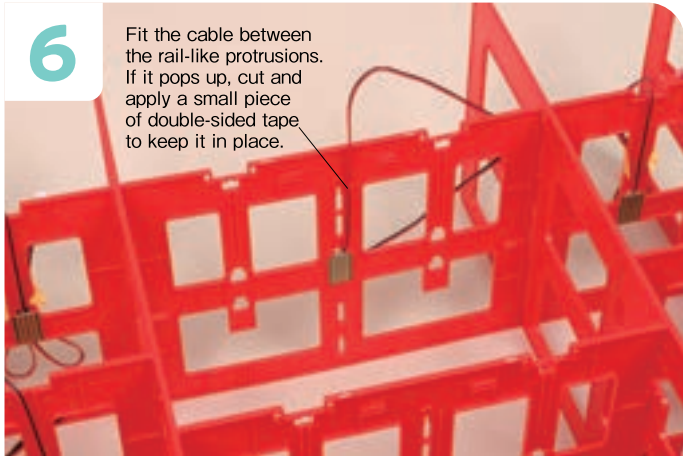

【Doghouse】

Assembling the Circuit Board Cable and more

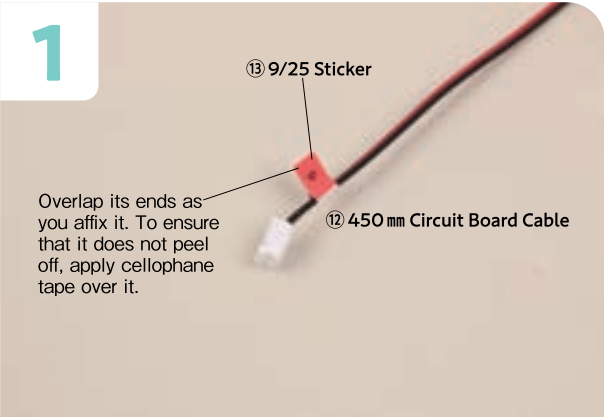

Affix the ⑫ 450mm Circuit Board Cable to the underside of the Shelving identified in step 3 as shown.

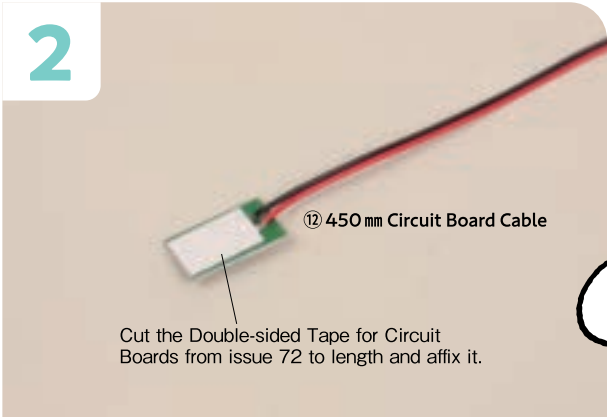

Pull the ⑫ 450mm Circuit Board Cable taut and fit it between the rail-like protrusions of the Shelving.

ASSEMBLING THE CIRCUIT BOARD CABLE AND MORE

Affix the ⑬ 9/25 Sticker near the connector of the ⑫ 450mm Circuit Board Cable.

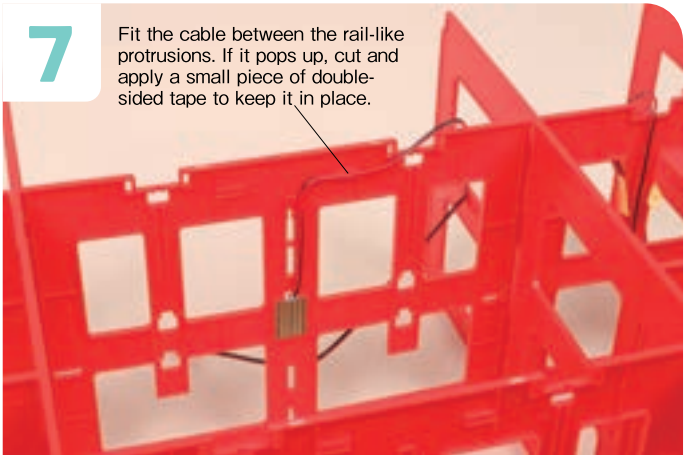

Apply Double-sided Tape for Circuit Boards from issue 72 to the Circuit Board on the other end of the ⑫ 450mm Circuit Board Cable.

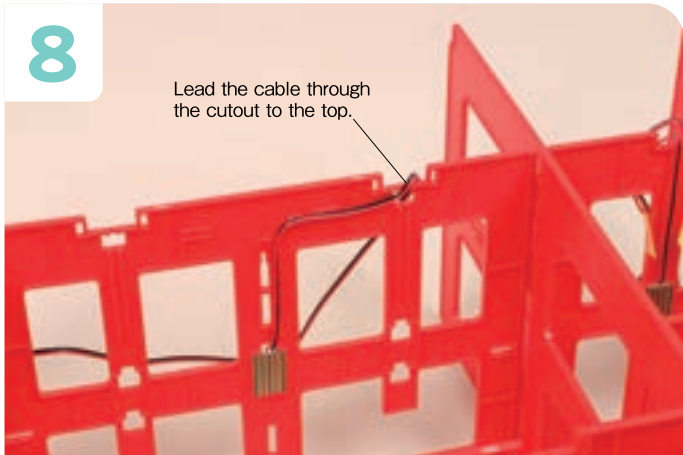

Get ready the doghouse assembled so far. We are going to affix the Circuit Board Cable to the underside of the upper Shelving in the middle.

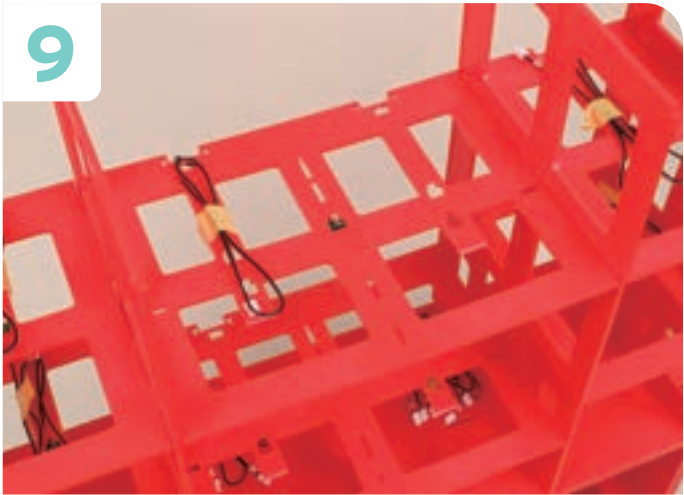

Lay down the doghouse carefully. We will affix the Circuit Board Cable from the back.

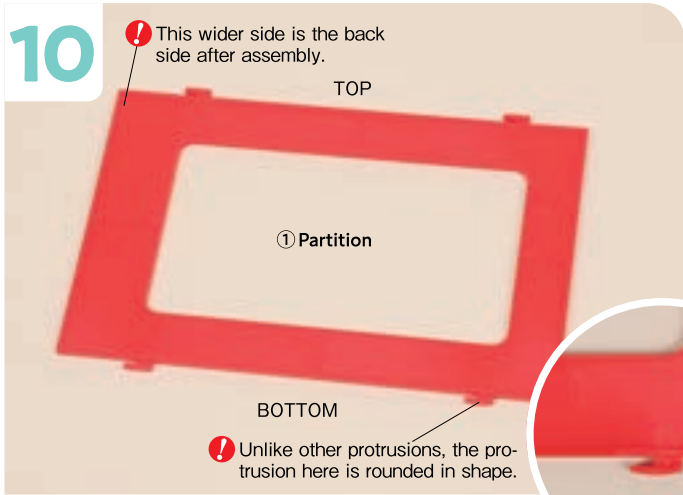

Then lead the cable further to the right and fit it between the rail-like protrusions of the Shelving.

Pull the cable taut and lead it to the top through the cutout of the Shelving in the position shown.

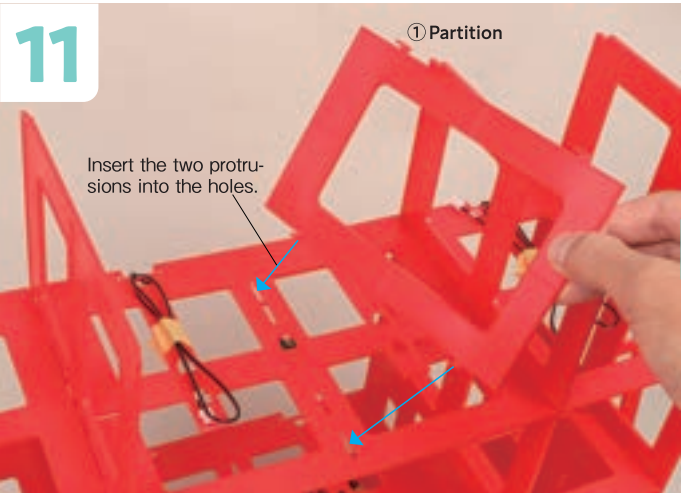

Bundle the cable on top of the Shelving out of the way, and temporarily secure it in place with masking tape.

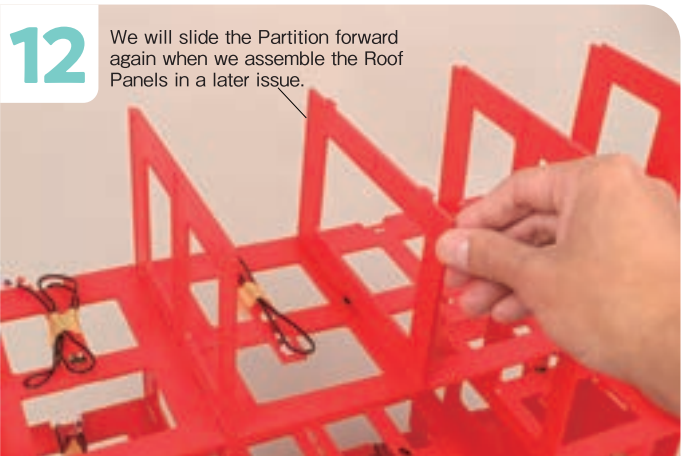

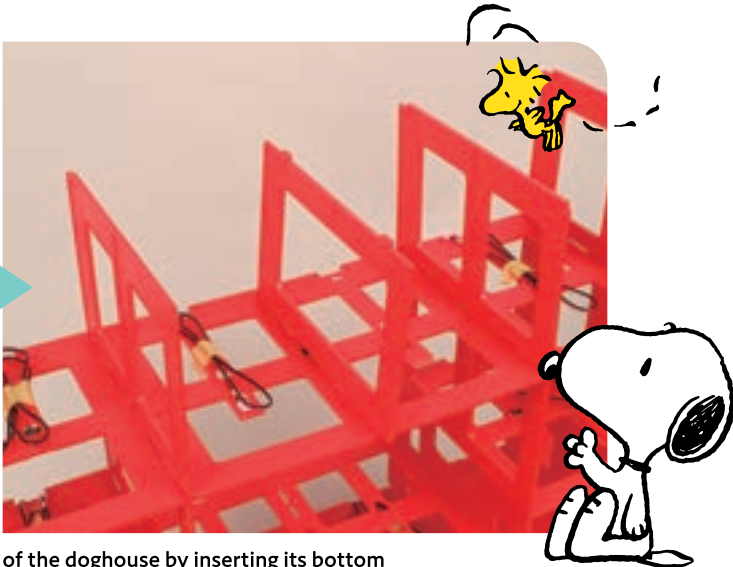

Check the orientation of the ① Partition.

Assembling the Circuit Board Cables and more

Assemble the ① Partition to the top of the upper Shelving in the middle of the doghouse by inserting its bottom two protrusions into the holes in the Shelving.

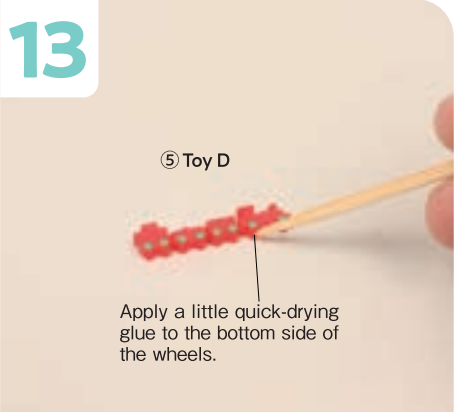

Slide the Partition backwards in the same orientation to assemble it.

Issue 97 Completed

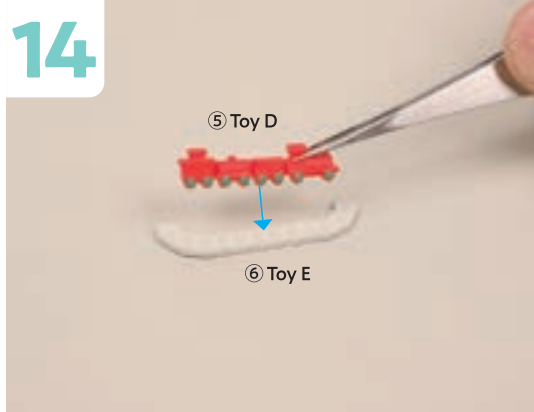

The Circuit Board Cable and all Partitions are now in place in the doghouse.

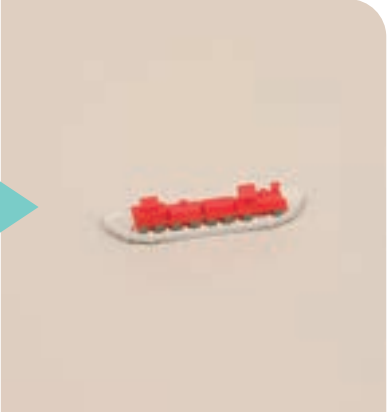

MAKING THE TOYS

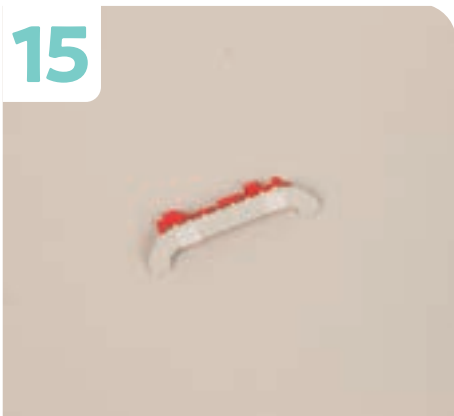

Apply a little quick-drying glue to the bottom side of the wheels of ⑤ Toy D with the tip of a toothpick or the like.

Assemble ⑤ Toy D on top of ⑥ Toy E before the glue dries. With the left and right centres as a guide, glue it in a well-balanced position.

Making the Toys

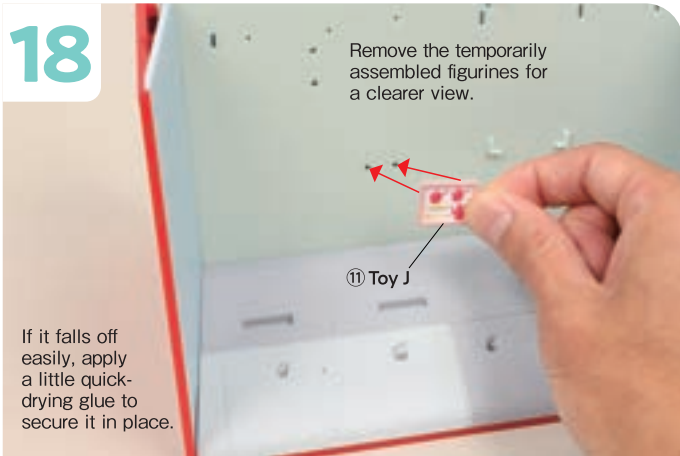

We will display the Toys included with this issue on a Showcase shelf in the next issue. For now, we will apply double-sided tapes to their bottom sides. For the Toy train from step 14, cut small pieces of double-sided tape and apply them to the bottom side of the track.

Apply double-sided tapes to the bottom sides of ③ Toy B and ④ Toy C as well.

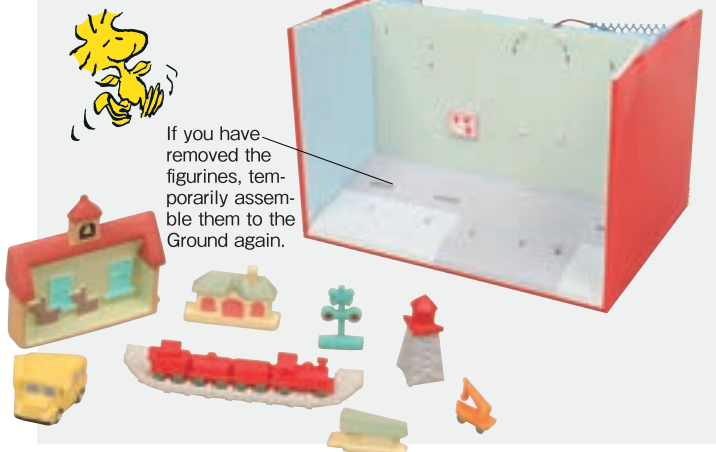

Cut pieces of double-sided tape of about 1mm width and apply them to ⑦ Toy F, ⑨ Toy H and ⑩ Toy I. For ② Toy A and ⑧ Toy G, apply them to the ridges extending from the tyres as shown.

Get ready the【Out Together】scene assembled so far, and assemble ⑪ Toy J onto the Back Wall in the position shown by inserting its two protrusions into the holes in the wall.

Issue 97 Completed

We will assemble the Showcase for the 【Out Together】scene in the next issue.

Adding the figurines

Insert the protrusions under the shoes of the figurines, ⑭ Sally and ⑮ Lucy, into the holes in the Ground. Do not glue them in place yet, but assemble them temporarily.
